BENEFITS FROM ACCESSING CAPE THROUGH THE FEDERAL SUPPLY SCHEDULE

- Access—Any federal agency can use it, anywhere in the U.S. or Puerto Rico
- Fast—CAPE can be working with you in 1 to 3 weeks
- Cost Effective—CAPE has pre-negotiated rates and there is a nominal GSA fee, which is paid by CAPE
- Control—You and your Contracting Officer (CO) are in charge of the procurement process and resulting contract
- Long-Term and Recurring Needs—By issuing a Blanket Purchase Agreement (BPA) with CAPE under the FSS, you can issue task orders (TOs) directly to CAPE at discounted pricing
- Small Business Goals—Orders with CAPE count toward your small business goals.

ORDERING INSTRUCTIONS AND TERMS & CONDITIONS

- Step 1—Establish your short- and long-term requirements
- Step 2—Discuss the requirements with your CAPE representative
- Step 3—Prepare a statement of work (SOW) that includes scope, schedule, and deliverables
- Step 4—Work with your CO to gain acceptance of SOW and establish funding mechanism
- Step 5—Have your CO request one or more contractors (including CAPE) to submit a proposal
- Step 6—Receive and evaluate proposals and negotiate as necessary
- Step 7—Have CO place order with CAPE, citing GSA contract number on award

CAPE OVERVIEW

From headquarters in Atlanta, Georgia, CAPE delivers environmental remediation, construction, and fuel systems solutions to governmental agencies and private corporations around the globe. CAPE's enviable growth record is built upon a history of performance excellence delivered by top-caliber personnel. Guided by our dedication to our mission, vision, and values while adhering to stringent management control systems, our employees are empowered to quickly respond to customer challenges. Our clients value CAPE's rapid yet disciplined response to client issues and the accountability demonstrated by every member of our team. To learn more about CAPE, go to <http://www.cape-inc.com/gsa.html>.

CUSTOMER INFORMATION

- 1a.** Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers:

SIN	Recovery	SIN Description
899-8	899-8RC	Remediation and Reclamation Services

- 1b.** Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. **N/A**
- 1c.** If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not applicable" for this item. **See Labor Categories Definitions Below.**

2. Maximum Order: **\$1,000,000.00**
3. Minimum Order: **\$100.00**
4. Geographic Coverage (delivery area): **Domestic delivery that includes 50 states, Washington D.C., and Puerto Rico**
5. Point(s) of production (city, county, and state or foreign country): **500 Pinnacle Court, Suite 100, Norcross, GA 30071**
6. Discount from list prices or statement of net price: **Government net prices (discounts already deducted). See Pricing Page.**
7. Quantity discounts: **None Offered**
8. Prompt payment terms: **0.5%, 10 Days; Net 30**
- 9a. Notification that Government purchase cards are accepted up to the micro-purchase threshold: **No**
- 9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: **No**
10. Foreign items (list items by country of origin): **None**
- 11a. Time of Delivery (Contractor insert number of days): **Specified on the Task Order**
- 11b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery: **Contact Contractor**
- 11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: **Contact Contractor**
- 11d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery: **Contact Contractor**
12. F.O.B Points(s): **Destination**
- 13a. Ordering Address(es): **Same as Contractor Information**
- 13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s), and a sample BPA can be found at the GSA/FSS Schedule homepage (fss.gsa.gov/schedules).
14. Payment address(es): **Same as Contractor Information**
15. Warranty provision.: **Contractor’s standard commercial warranty if applicable.**

16. Export Packing Charges (if applicable): **N/A**
17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): **N/A**
18. Terms and conditions of rental, maintenance, and repair (if applicable): **N/A**
19. Terms and conditions of installation (if applicable): **N/A**
20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): **N/A**
- 20a. Terms and conditions for any other services (if applicable): **N/A**
21. List of service and distribution points (if applicable): **N/A**
22. List of participating dealers (if applicable): **N/A**
23. Preventive maintenance (if applicable): **N/A**
- 24a. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants: **N/A**
- 24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor's website or other location.) The EIT standards can be found at: www.Section508.gov/. **N/A**
25. Data Universal Numbering System (DUNS) number: **14-8040736**
26. Notification regarding registration in Central Contractor Registration (CCR) database: **Registered**

DESCRIPTION OF SERVICES OFFERED

Federal agencies can quickly and cost effectively access CAPE to provide remediation services through our Federal Supply Schedule (FSS) Contract for Environmental Advisory Services. This contract, issued by the GSA, provides a vehicle for federal agencies and other authorized users to easily obtain CAPE's services. Under this contract, CAPE can provide a broad scope of services including:

- Excavation, removal, manifesting, transportation, storage, treatment (on site and off site), and/or disposal of hazardous waste
- Containment, monitoring, and/or reduction of hazardous waste sites
- Preparation, characterization, field investigation, conservation, and closure of sites
- Ordnance removal and support
- Long-Term Monitoring/Long-Term Operation (LTM/LTO).

To provide a 100% GSA Solution for these services, CAPE also offers a broad array of ancillary supplies, equipment, products, and services.

LABOR CATEGORY DEFINITIONS

Labor Category	Position Description	Experience	Education Levels
Administrative Assistant	Provides administrative and clerical support	2 or more years of experience as an Administrative Assistant with equal amount of experience in Microsoft Office applications	High school diploma
CAD Lead	Creates presentation drawings, design drawings, and record drawings	2 or more years of experience as CAD Operator	Associates Degree or Equivalent Licenses/Certifications
CAD Manager	Creates presentation drawings, design drawings, and record drawings	5 or more years of experience as CAD Operator	Associates Degree or Equivalent Licenses/Certifications
Sr. Estimator	Ensures that projects are accurately estimated so that realistic budgets are prepared and work completed within allocated funding	5 or more years of experience as an estimator	Bachelor's degree
Cost Estimator	Ensures that projects are accurately estimated so that realistic budgets are prepared and work completed within allocated funding	2 or more years of experience as a cost estimator	Bachelor's degree
Certified Industrial Hygienist (CIH)	Develops, implements, & oversees industrial hygiene and safety and health (S&H)-related activities	5 or more years of experience as an industrial hygienist and Certified Industrial Hygienist	Bachelor's degree
Site Safety & Health Officer	Assists and represents the CIH on site	1 or more years of experience working on hazardous waste activities	High school diploma
Site QC Manager	Oversees quality management and ensures work is in compliance with QC Plans	3 or more years experience working on hazardous waste or construction activities	High school diploma
Technical Writer/Editor	Edits and writes technical plans and reports and ensures that all materials meet established standards of appearance and content.	2 or more years of experience in technical writing and/or editing	Bachelor's degree
Regulatory Compliance Specialist	Point of contact for all regulatory matters; Ensures compliance with regulatory requirements	3 or more years of experience working in the hazardous waste industry	Bachelor's degree
Contracts/Procurement Mgr	Reviews CAPE's contracts, subcontracts, and procurement activities to ensure compliance with contract and applicable FAR and GSARs	4 years of contract and acquisition management experience	Bachelor's degree
Contracts/Procure Specialist	Assists Contracts/Procurement Manager in reviewing CAPE's contracts, subcontracts, and procurement activities to ensure compliance with contract and applicable FAR and GSARs	1 year of contract and acquisition management experience	Bachelor's degree
Project Controls Manager	Oversees management and reporting of budget, costs, and schedules and budgets	5 or more years of experience in project controls	Bachelor's degree
Project Controls Asst	Provides administrative project support to Project Controls Manager and Project Managers; Coordinates with accounting, contracts, project controls, other Project Controls Assistants, and Project Managers to ensure efficient and effective process of billing and invoicing activities	3 years of project controls or financial analysis experience; 5 years of experience with Microsoft Office applications including Excel, Project, and Word	High school diploma
Program Manager	Provides contract/program leadership, management, direction, and coordination	10 years of Project/Contract Management and technical experience; 5 years of management experience	Bachelors degree
Sr. Project Manager	Manages and executes project activities in accordance with approved work plans and federal, state, and local laws and regulations	5 years Project Management experience, with a minimum of 10 years experience in hazardous materials management or software development	Bachelors degree

Labor Category	Position Description	Experience	Education Levels
Project Manager	Manages and executes project activities in accordance with approved work plans and federal, state, and local laws and regulations	2 years of project lead experience, with a minimum of 5 years experience in hazardous materials management or software development	Bachelors degree
Sr. Engineer	Ensures that civil, process, environmental, and geotechnical engineering support goals specified in SOW are attained	5 or more years of experience in engineering and registered as a Professional Engineer	Bachelors degree
Project Engineer	Ensures that civil, process, environmental, and geotechnical engineering support goals specified in SOW are attained	2 or more years of engineering experience	Bachelors degree
Staff Engineer	Ensures that civil, process, environmental, and geotechnical engineering support goals specified in SOW are attained	0-3 years experience for an Entry-Level position; training is provided by CAPE	Bachelors degree
Sr. Geologist/Hydrogeologist	Ensures that geology- and groundwater-related goals of the SOW are attained	5 or more years of experience in geology and groundwater and registered as a Professional Geologist	Bachelors degree
Project Geologist	Ensures that geology- and groundwater-related goals of the SOW are attained	2 or more years of experience in geology and groundwater	Bachelors degree
Staff Geologist	Ensures that geology- and groundwater-related goals of the SOW are attained	0-3 years experience for an Entry-level position; training in hazardous waste operations and sampling techniques is provided by CAPE	Bachelors degree
Sr. Scientist	Performs professional and technical environmental work	5 or more years of experience in geology and groundwater and registered as a Professional Geologist	Bachelors degree
Project Scientist	Performs professional and technical environmental work	2 or more years of experience in geology and groundwater	Bachelors degree
Staff Scientist	Performs professional and technical environmental work including sampling, monitoring, and data review	0-3 years experience for an Entry-level position; training in hazardous waste operations and sampling techniques is provided by CAPE	Bachelors degree
Construction Superintendent	Primary onsite interface with the client; Directs work to ensure compliance with approved SOW, work plans, and applicable regulations; Supervises site field staff and subcontractors	5 or more years of experience in the environmental industry and/or construction industry	High school diploma
Site Supervisor	Supervises site field staff and subcontractors in performing environmental tasks	3 or more years of experience in the environmental industry and/or construction industry	High school diploma
Project Lead	Provides onsite management of respective projects; plans, organizes, monitors, and administers the work of the project staff	2 or more years of experience in the environmental industry	High school diploma
Equipment Operator	Operates heavy equipment in a safe and efficient manner, and has knowledge of the mechanics and maintenance of the equipment being operated	2 or more years of experience in operating heavy equipment	High school diploma
Treatment Plant Operator	Conducts daily O&M of remediation systems and water/wastewater treatment plants	2 or more years of experience in the environmental or water/wastewater industry	High school diploma
Environmental Technician	Provides sampling, monitoring, and surveys to support environmental projects	0-3 years experience for an Entry-level position; must successfully complete training in hazardous waste operations and sampling techniques is provided by CAPE	High school diploma

Labor Category	Position Description	Experience	Education Levels
UXO Technician I	UXO Technician I duties as defined in DDESB Technical Paper 18, With direction and supervision from UXO-qualified personnel, reconnoiter, classify, and identify military munitions; excavate, move, and/or consolidate UXO and DMM; transport demolition materials and/or UXO and DMM that have been determined safe; prepare firing systems; operate personnel decontamination stations; construct UXO-related protective works	0-3 years experience for an Entry Level position; must successfully complete formal course of instruction appropriate to this skill level	Graduate of a military EOD training course of instruction or EOD assistant courses
UXO Technician II	UXO Technician I duties as defined in DDESB Technical Paper 18: plus properly store explosive materials; determine precise location in field environment; perform field collection procedures to identify contaminated soil; prepare an onsite holding area to temporarily stow MEC that has an acceptable risk of movement; operate modes of transportation for transporting UXO; escort personnel who are not directly involved in UXO-related operations; and inspect MPPEH for the presence of explosives safety hazards	Prior military EOD experience or 3 years of experience in response munitions response actions or range clearance activities, plus specific project/explosives safety training.	Graduate of a military EOD school, or graduate of a formal training course of instruction or EOD assistant courses
UXO Technician III	UXO Technician I & II duties, plus: supervise and perform the onsite demilitarization of MEC, and handling of demolition materials; prepare an explosives storage plan, UXO munitions response actions and/or range maintenance administrative reports, and SOPs for onsite munitions responses and/or for range clearance activities; assist in the preparation of risk and hazards analyses; conduct daily site safety briefings; supervise the conduct of all onsite UXO-related operations; and inspect and certify and/or verify MPPEH as safe or as to the explosive hazard it may present for transfer within the DOD or release from DOD control	8 years or military EOD and/or commercial UXO experience in munitions response actions or range clearance activities	Graduate of a military EOD school, or graduate of a formal training course of instruction or EOD assistant courses
UXO Safety Escort	Conduct visual and/or detector aided field search activities for UXO and DMM. Escort non-UXO personnel and provide UXO avoidance in the performance of UXO-related operations	0-3 years experience for an Entry-level; must satisfactorily pass Safety Equipment and site specific training	Equipment and site specific training
UXO Sweep Personnel	Conduct visual and/or detector aided field search activities, assist UXO technicians and UXO-qualified personnel in the performance of UXO-related operations, remove non-hazardous munitions debris after items have been determined safer for handling by UXO qualified personnel	0-3 years experience for an Entry-level; must satisfactorily pass Safety Equipment and site specific training	Equipment and site specific training
Senior UXO Supervisor	UXO Technician I, II & III duties as defined in DDESB Technical Paper 18, plus ability to plan, coordinate, and supervise all explosives operations; supervise multiple teams; and assist in development of munitions response plans	10 or more years of EOD/UXO experience and 5 years experience in supervisory positions	Graduate of a military EOD school, or graduate of a formal training course of instruction or EOD assistant courses

Labor Category	Position Description	Experience	Education Levels
UXO QC Specialist	UXO Technician I, II & III duties as defined in DDESB Technical Paper 18: plus ability to develop and implement the MEC-specific sections of the QCPP for explosive-related operations; conduct and document QC audits of explosive operations; and identify, document, report and ensure completion of corrective actions to ensure explosive operations comply with requirements	8 years of experience in all phases of munitions response actions or range clearance activities, and the transportation, handling and storage of munitions and commercial explosives	Graduate of a military EOD school, or graduate of a formal training course of instruction or EOD assistant courses
UXO Safety Officer	UXO Technician I, II & III duties as defined in DDESB Technical Paper 18: plus ability to develop and implement approved explosives and UXO H&S program; analyze operational risks, explosive hazards and safety requirements; establish and ensure compliance with site-specific explosive operations safety requirements; enforce personnel limits and safety exclusion zones for explosives related operations; conduct, document, and report the results of safety inspections; operate and maintain air-monitoring equipment; and ensure all protective works and equipment used within the exclusion zone are operated in compliance with applicable statutes, regulations and codes	8 years or more of experience in all phases of munitions response actions or range clearance activities, and applicable safety standards	Graduate of a military EOD school, or graduate of a formal training course of instruction or EOD assistant courses
