## **About The Clearing**

The Clearing, Inc. is a Washington, D.C.-based strategy and design consulting firm specializing in strategy, organizational change management, program design and implementation, and strategic communications. We help public and private sector organizations anticipate, respond to, and adapt to dynamic changes in their environments. Our mission is grounded in our desire to support change agents—leaders who are driven by the possibilities for impact in and beyond their prescribed job descriptions.

Our company was built and continues to grow on the foundation of our expertise in, and deep passion for engaging, enrolling, and aligning individuals into coalitions who must come together to cause meaningful, impactful outcomes. We combine our own innovative thinking with our clients' existing organizational knowledge and expertise to develop comprehensive solutions that blend strategy and design with implementation.

Our consultants have diverse work histories serving as defense experts, federal government leaders, financiers, communication strategists, commercial managers, program managers, designers, investors, advisors, board members, and entrepreneurs. Our perspectives are honed and applied to support our clients as we leverage our processes and visual frameworks for problem solving, the PRIMES. These frameworks uncover universal patterns of group behavior, and we tailor our approach to address our clients' specific situational needs.

## **The Clearing Services**

### **Change Management**

The Clearing focuses on the social complexity issues related to implementation and management of an organizational change initiative. We support our clients as they develop and implement strategies that improve organizational efficiency, refocus core missions, reduce systemic risk, and produce bold outcomes. Our principle-based approach is designed to keep critical stakeholders enrolled throughout the change process while never losing sight of our client's outcomes.

### **Culture Transformation**

Organizational leaders who are responsible for transformation initiatives or who are seeking high performance cultures typically address the issues that confront them with a disproportionate focus on technical solutions and often have limited experience in addressing the equally important social complexities that must be managed. The primary reasons most enterprise-wide transformation projects and significant stakeholder engagement initiatives fail is not due to technical shortcomings. Failure results from not explicitly addressing culture issues and unsuccessfully enrolling and aligning the people who have the most at stake and are the most impacted by the change.

### **Project Management**

The Clearing applies Project Management Institute® best practices to all projects. Our consulting teams partner with clients at project onset to set outcomes and objectives and share our approach: explicit, focused, and agile. Together with our clients we develop a plan to achieve the intended outcomes. We ensure the project has the communications, risk management, and governance processes in place to ensure success – date-certain.

### **Strategy**

The Clearing has developed a powerful approach to strategic planning using our CORE PRIME methodology that drives stakeholder alignment. We guide clients through five essential agreements (As Is, Environment, Stake, To Be, and Strategy) that enroll and align the organization, and equip them with the models for structuring staff activities, roles, and responsibilities. This ensures success by enabling our clients to capitalize on critical transformational opportunities.

### **Facilitation**

The Clearing leverages proprietary techniques and expertise on group dynamics to transform client meetings into innovative and productive work sessions. Our experienced facilitators work with leaders and stakeholders to drive groups through ambiguity and conflict to achieve sustainable results. We facilitate meetings including leadership discussions, working team meetings, and strategy off-sites with numbers of participants ranging from two to more than 1,500.

### **Strategic Communications and Branding**

Our communication strategists help our clients tell their stories, differentiate themselves from other organizations, develop powerful coalitions, message their brands or issues in a compelling and straight-forward manner, build brand equity and loyalty, and reach their most important stakeholders. We create effective messaging and marketing for our clients by focusing what is most essential to their customers. We have a talented staff of marketing, communication, and stakeholder strategists as well as an in-house team of experienced graphic designers who produce a variety of presentations and marketing collateral including brochures, logos, storyboards, conference presentations, animated videos, and applications.

### **Leadership Coaching and Training**

The Clearing offers customized leadership training workshops and individual coaching services as a catalyst or complement to individual and organizational transformation. The Clearing's leadership coaching services support leaders in aligning their behaviors and actions with achieving the results that are most important to their long-term success and to the success of their organizations. Our tailored programs can serve different points in a leader's growth – leaders in transition, leaders guiding organizational changes, leaders dealing with succession planning, emerging leaders, and high performers.

### **Workplace Strategy**

The Clearing provides consulting services to support workplace change including programming and core problem clarification, assessment of existing culture and its preparedness for change, and creation of an approach map tailored to that culture that will allow it to move through change with significantly reduced impact on productivity and mission delivery. We provide the strategy, support, tools, and training that leverage change to create a stronger culture, a more aligned workforce, and an organization better able to deliver on desired outcomes.

### Service Contract Labor Standards (SCLS)

*The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.*
