1b. GSA Labor Description

01) Executive Program Manager

**Minimum Technical Qualifications and Experience:** Fifteen years of Government or private sector experience in managing large complex projects, programs, contracts, funds, and resources (or group of projects, contracts, funds, and resources).

**Duties/Responsibilities:** Duties may include contract management, program management, and interfacing with the customer. The Program Manager serves as the single contract manager and is the authorized interface with the Government’s Contracting Officers Representative (COR), other Government management personnel, and customer agency representatives. The Program Manager is responsible for formulating and enforcing work standards, assigning contractor schedules, and communicating policies, purposes, and goals to subordinates and subcontractors. He or she is responsible for the overall contract performance and manages the business and process consulting projects and support operations that may include multiple projects. All Project Managers managing individual Task Orders will report to the Program Manager regarding the status of their individual projects. The Program Manager organizes resources to support multiple simultaneous projects and manages the execution of multiple concurrent projects on time and within budget.

**Minimum Education:** Master’s degree in Engineering, Science, or Business Administration.

**Minimum Training:** None

**Required Certifications/Clearances:** None

02) Senior Project Leader

**Minimum Technical Qualifications and Experience:** Ten years of Government or private sector experience in managing, directing, and implementing projects. Relevant experience includes, but is not limited to, experience in managing projects, contracts, funds, and resources.

**Functional Responsibility:** Performs detailed project planning, action planning, project staffing, project team management, day to day issues’ management, and is responsible for timely delivery of T3’s business process consulting services falling under Professional Services Schedule contract, on time and within budget. The Senior Project Leader serves as the leader of specific delivery/task orders and assists the Executive Program Manager in working with the Government’s COR, other Government management personnel, and customer agency representatives, and providing them with accurate status and issues updates on on-going projects. Under the guidance of the Executive Program Manager, Senior Project
Leader is responsible for the overall management of the specific task order(s) and ensuring that the schedules in the task order are implemented in a timely manner.

Would use tools like MS Project, and MS Office to plan projects, and develop and present status reports.

Minimum Education: Bachelor’s degree in Engineering, Science, or Business Administration.

Minimum Training: None

Required Certifications/Clearances: None

03) Project Leader

Minimum Technical Qualifications and Experience: Eight years of experience in leading project teams. Relevant experience includes, but is not limited to, experience in managing projects, contracts, funds, and resources.

Functional Responsibility: Performs detailed project planning, action planning, project staffing, project team management, day to day issues’ management, and is responsible for timely delivery of T3’s business process consulting services falling under Professional Services Schedule contract, on time and within budget. The Project Manager serves as leader of specific delivery/task orders and assists the Program Manager in working with the Government’s COR, other Government management personnel, and customer agency representatives, and providing them with accurate status and issues updates on ongoing projects. Under the guidance of the Senior Project Leader Manager, the Project Leader is responsible for the overall management of the specific task order(s) and ensuring that the schedules in the task order are implemented in a timely manner. Would use tools like MS Project, and MS Office to plan projects, and develop and present status reports.

Minimum Education: Bachelor’s degree in Engineering, Science, or Business Administration.

Minimum Training: None

Required Certifications/Clearances: None

04) Senior Specialist 1

Service Contract Labor Standards: The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and/or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
