Labor Category Descriptions

Labor Category Title	Labor Category Description	Minimum Education / Experience
Professional Consultant I	Under the supervision of others assists in collecting and organizing information. For example; collection and organization of information required for preparation of user's manuals, training, materials, installation guides, procedures, proposals, reports, and technical manuals. Edits functional descriptions, systems specifications, user's manuals, and special reports.	Education: High School Diploma Experience: Minimum 5 years of experience
Professional Consultant II	Under the supervision of others can perform the tasks and functions described above, as well as, more difficult and complex activities. Participates in the collection of data concerning the needs, requirements, and operation of existing systems and subsystems. For example; conducts test and/or studies to determine the reliability of completed systems designs, modifications, and concepts involved, following prescribed methods and procedures.	Education: High School Diploma Experience: Minimum 10 years of experience
Sr. Professional Consultant I	Performs the tasks and functions described above, as well as, complex work under the oversight of others. May be involved in specifications development; training of personnel; and implementation, testing, and documentation of engineering systems and equipment. Initiates concept development and tradeoff studies, works with customer representatives and employees. Will exercise some independent judgment and creativity in solving complex problems.	Education: Bachelor's Degree Experience: Minimum 5 years of related experience
Sr. Professional Consultant II	Performs the task and functions described above, as well as, complex work with some oversight. Example work activities includes specification development; training of personnel; and implementation, testing, and documentation of engineering systems and equipment. Initiates concept development and tradeoff studies, consults extensively with customer representatives and employees. With	Education: Bachelor's Degree Experience: Minimum 9 years of related experience

	oversight may direct the work of others.	
Sr. Professional Consultant III	Performs the tasks and functions described above, as well as, complex work with little to no oversight. Example work activities includes specification development; training of personnel; and implementation, testing, and documentation of engineering systems and equipment. Initiates concept development and tradeoff studies, consults extensively with customer representatives and employees. May direct the work of others and act as project lead for accountability and reportability for selected projects.	Education: Bachelor's Degree Experience: Minimum 13 years of related experience
Facilitator I	Responsible for all aspects of performance (e.g., technical, contractual, administrative, financial). Consults with the customer to ensure conformity to contractual obligations, establishes and maintains technical and financial reports to show progress of projects to management and customers, organizes and assigns responsibilities to subordinates, oversees and manages the successful completion of all assigned tasks. With oversight may direct the work of others and/or act in the role of Project Manager, Lead Instructor, or Subject Matter Expert.	Education: Bachelor's Degree Experience: Minimum 17 years of related experience
Facilitator II	Responsible for all aspects of performance (e.g., technical, contractual, administrative, financial). Consults with the customer to ensure conformity to contractual obligations, establishes and maintains technical and financial reports to show progress of projects to management and customers, organizes and assigns responsibilities to subordinates, oversees and manages the successful completion of all assigned tasks. With no oversight may direct the work of others and/or act in the role of Program Manager, Lead/Senior Instructor, or Subject Matter Expert	Education: Bachelor's Degree Experience: Minimum 21 years of related experience

Service Contract Act (SCA) Matrix

The Service Contract Act (SCA) is applicable to this contract as it applies to the entire Professional Services Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and/or when the Contractor adds SCA labor categories/employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, the SCA labor category titles, and the applicable Wage Determination number. Failure to do so may result in cancellation of the contract.
