1. CONTRACT OVERVIEW

ProSource has been awarded a GSA Federal Supply Schedule contract for Engineering Services, contract number GS-10F-0123T. The contract period is from February 1, 2007 to January 31, 2022. GSA may exercise an additional option period at the end of the Option Period 2. The contract provides for task orders to be placed as Firm Fixed Price or Time and Material using the labor categories and ceiling rates defined for the contract. There is no dollar value ceiling for the contract.

2. INFORMATION FOR ORDERING ACTIVITIES

1c. Labor Category Descriptions and Education Requirements: Academic credentials and years of experience may be substituted as follows: two years of relevant experience is considered equivalent to an associate's degree; four years of relevant experience is considered equivalent to a bachelor's degree; a master's degree is considered equivalent to a bachelor's degree plus three years of relevant experience; and a Ph.D. is considered equivalent to a bachelor's degree plus five years of relevant experience.

Senior Engineer Analyst:

General Experience: Nine (9) years’ experience in engineering systems lifecycle management, engineering methodologies and structured analysis. Experience in the following or related engineering disciplines: operational activities, requirements analysis, engineering solutions implementation, and quality assurance.

Experienced with design techniques or process reengineering across all system lifecycle phases including change management, cost benefit analysis, and engineering development methods and practices. Experience in development and providing technical and end user training on engineering systems. Supervisory experience in managing and providing direction to engineers and analysts.

Education: Bachelor’s Degree in Information Systems, Engineering, Business, Social Science or other related analytical, scientific, or technical disciplines
Junior Engineer/Analyst:

General Experience: Two (2) years of progressive experience in engineering systems development or a relevant technical, scientific, or social science discipline. Experience is a combination of standards and policy development, research and analysis of system issues and trends, research and development in a technical discipline, and development or engineering solutions and systems.

Education: Bachelor’s Degree in Information Systems, Engineering, Business, Social Science or other related analytical, scientific, or technical disciplines.

Entry Level Engineer/Analyst:

General Experience: One (1) year of experience in engineering systems development or a relevant engineering, scientific or social science discipline.

Education: Bachelor’s Degree in Information Systems, Engineering, Business, Social Science or other related analytical, scientific, or technical disciplines.

Clerical:

General Experience: 1 Year of experience performing office related duties.

Functional Responsibility: Assists in the development and preparation of reports, plans and other project related documentation. Coordinates contract deliverables, briefings and presentations, monthly status reports and general correspondence.

Education: High School Diploma

2. Maximum Order: $1,000,000.00

3. Minimum Order: $100.00

4. Geographic coverage (delivery area): Domestic Delivery Only

5. Point(s) of production (city, county, and State or foreign country): Washington, DC 20005 or Gainesville, VA 20155

6. Discount from List Price or Statement of Net Price: Prices shown are NET Prices

7. Quantity Discounts: None

8. Prompt payment terms: Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items: None

10a. Time of delivery: As specified in Individual Delivery/Task Order
10b. Expedited Delivery: N/A

10c. Overnight and 2-day delivery: N/A

10d. Urgent Requirements: Agencies can contact the contractor's representative to affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

11. F.O.B. Point(s): Destination

12a. Ordering Address:
ProSource Consulting, LLC
7450 Heritage Village
Plaza Suite 201
Gainesville, VA 20155

12b. For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3”

13. Contractor's Payment Address:
ProSource Consulting, LLC
7450 Heritage Village
Plaza Suite 201
Gainesville, Virginia 20190

14. Warranty provision: Standards Commercial Warranty

15. Export packing charges: N/A

16. Terms and conditions of rental, maintenance, and repair: N/A

17. Terms and conditions of installation: N/A

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices: N/A

18b. Terms and conditions for any other services: N/A
19. List of service and distribution points: N/A

20. List of participating dealers: N/A

21. Preventive maintenance: N/A

22a. Special attributes such as environmental attributes (e.g. recycled content, energy efficient, and/or reduced pollutants): N/A

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location). The EIT standards can be found at www.Section508.gov/ N/A

23. Unique Entity Identifier (UEI) Number: 134345326

24. Notification regarding registration in System for Award Management (SAM):
ProSource Consulting, LLC is active and current in SAM.

3. PRIMARY ENGINEERING DISCIPLINE DESCRIPTIONS

This contract defines two PEDs which may be used under each of the contract SINs; electrical engineering and mechanical engineering.

Electrical Engineering:
Plan, design, development, evaluation and operation of electrical principles, models and processes. It includes, but is not limited to, the design, fabrication, measurement and operation of electrical devices, equipment and systems (e.g., signal processing; telecommunication; sensors, microwave, and image processing; micro-fabrication; energy systems and control; micro- and nano-electronics; plasma processing; laser and photonics; satellites, missiles and guidance systems, space vehicles, fiber optics, robotics, etc.).

Within the electrical engineering discipline, there are several specialties within the scope of this work; a partial listing follows:

- Aerospace and Electronic Systems
- Circuits and Systems
- Computer
- Dielectrics and Electrical Insulation
- Geoscience & Remote Sensing
- Antennas and Propagation
- Communications
- Consumer Electronics
- Education
- Engineering Management
- Industrial Electronics
- Intelligent Transportation Systems
- Control Systems
- Electromagnetic Compatibility
- Engineering in Medicine and Biology
- Industry Applications
- Instrumentation and Measurement
Mechanical Engineering:
Plan, develop, evaluate and control of systems and components involving the production and transfer of energy and with the conversion of one form of energy to another. It includes, but is not limited to, planning and evaluation of power plants, analysis of the economical combustion of fuels, conversion of heat energy into mechanical energy, use of mechanical energy to perform useful work, analysis of structures and motion in mechanical systems, and conversion of raw materials into a final product, etc. (e.g., thermodynamics, mechanics, fluid mechanics, jets, rocket engines, internal combustion engines, steam and gas turbines, continuum mechanics, dynamic systems, dynamics fluid mechanics, heat transfer, manufacturing, materials, solid mechanics, reactors, etc.).
Services Not Included:
The following services are not currently being solicited. However, GSA reserves the sole right to include these services under this contract at a future time during the period of performance. If GSA exercises this right, it will refresh the solicitation and consider offers from all eligible sources.

- **Construction and Architect-Engineering services** as set forth in FAR Part 36 (including construction, alteration or repair (including dredging, excavating and painting) of buildings, structures, or other real property). Offerors interested in providing these services may contact GSA’s Public Buildings Service (PBS) for additional information.

- **Foundations and Landscaping Engineering**. Offerors interested in providing foundations and landscaping engineering are directed to contact GSA’s PBS for additional information.

- **Heating, Ventilation and Air-Conditioning (HVAC)** related to buildings, structures, or other real property set forth for Construction and Architect-Engineering services governed by FAR Part 36. Offerors interested in providing these services are directed to contact GSA’s PBS for additional information. Please note that HVAC related to the manufacture, production, furnishing, construction, alteration, repair, processing or assembling of vessels, aircraft, or other kinds of personal property IS included and solicited within the scope of the contract.

- **Research and Development** as set forth in FAR Part 35.

- **Products/materials already solicited under other Federal Supply Service (FSS) Schedule** contracts (e.g., information technology, paper, chemicals, pharmaceuticals, laboratory instruments, etc.). However, PES contractors may team across FSS Schedules to provide a total solution to agency requirements.

**Description of Services Provided by ProSource Consulting:**

Services available from ProSource Consulting under this contract provide ordering activities with the ability to acquire a broad and flexible combination of labor skill sets for Strategic Planning, Concept Development and Requirement Analysis, Test & Evaluation, System Engineering, System Integration, and Life Cycle Support.

**PROGRAM MANAGEMENT/ANALYSIS**

- Program/Project Management
• Life Cycle Cost Estimate (LCCE) Development
• Acquisition Strategy Planning
• Statement of Work Development (SOW)
• Requirements Analysis
• Cost/Risk Analysis
• Life Cycle Sustainment Analysis
• Strategic Planning and Organizational Analysis

SYSTEM ENGINEERING AREAS
• Systems Engineering
• Preliminary and Critical Design Reviews
• Business Process Re-engineering
• Architecture Design
• HW/SW Development
• Prototype Design/Development
• Platform Design/Development
• Mechanical Design/Simulation

INTEGRATION AND INSTALLATION
• System Buildup
• Pre-Installation Site Surveys
• System Integration and Installation
• Operational Testing and System Verification

TEST & EVALUATION AREAS
• Independent Validation & Verification (IV&V)
• Test and Evaluation Master Plan (TEMP) Development
• Developmental Test & Evaluation/Operational Test & Evaluation (DT&E/OT&E)
• Prototype Assessments
• Functionality, Interoperability, Security, and Performance (FISP) Testing
• Interface Configuration Test (ICT)
• Environmental, Shock and Vibration

LIFE CYCLE SUPPORT AREAS
• Systems Administration
• Operations & Maintenance – Preventive and Corrective
• Engineering Change Proposals (ECP)
• Technical Assistance
• Configuration Management
4. **OPTION PERIOD PRICELIST EFFECTIVE 2/1/2022-1/31/2027**

The following Option Period prices inclusive of the Industrial Funding Fee for services provided under the contract:

**Contract Period 3**

<table>

</table>

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide)."
