AECOM Consult Overview

AECOM Consult has a strong tradition of service to the U.S. transportation industry. The U.S. Department of Transportation—in particular the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA)—has been a client for more than 30 years. More than 40 state Departments of Transportation, over 60 transit agencies, including virtually all of the largest 25 U.S. transit operators, and national recognized transportation enterprises, such as Amtrak and the Port Authority of New York and New Jersey, have turned to AECOM Consult for professional assistance.

AECOM Consult specializes in technical, financial and policy analyses to support a broad range of transportation programs sponsored by Federal, State and local agencies. Our work has been instrumental for the development of large urban rapid transit projects, understanding the system-wide dynamics of highway congestion, and managing passenger rail programs. We are recognized for our work in ridership/revenue forecasting, financial capacity analysis, economic impacts, procurement, and organizational management.

AECOM Consult is a leader in analytical planning support for multimodal urban corridor transportation projects with highway, transit and technology-based solutions. We assist clients in all stages of project implementation including systems planning, multimodal alternatives analyses, preparation of draft and final environmental statements, and the application for federal funding.

AECOM Consult has supported the development of fixed guideway transit New Starts with services that include ridership forecasting, O&M Costing, Financial Capacity Analysis, Economic Impacts Analysis, and Preparation of §5309 New Starts Applications.

In addition to Program Management expertise, AECOM Consult's technical specialties include:

- Strategic Financial Planning for Transit and Highway Agencies
- Ridership/Traffic/Revenue Forecasting for Transit and Highway Projects
- Travel Demand Forecasting Model Development
- Economic Impact Analysis and Development Studies
- Management Consulting
- Market Research Analysis
- Operating and Maintenance Costing
- Intercity High Speed Rail and Maglev Planning
- Innovative Finance and Funding
- Asset Management

Supporting Our Federal Clients through the GSA Schedule

To provide prompt and responsive support to our clients' needs, AECOM Consult provides its management, economic development, financial and planning consulting services through its GSA MOBIS contract.

Mission Oriented Business Integrated Services (MOBIS) GS-10F-0147S allows AECOM Consult to support agencies with Consulting and Program Integration and Project Management Services.

- SIN 874-1: Consulting Services
- SIN 874-7: Program Integration and Project Management Services

Consulting Services (SIN 874-1)

AECOM Consult's transportation management consultants analyze problems and propose solutions for complex, government environments. At a time when governments are being asked to do more with less, AECOM Consult helps clients manage and deploy limited resources to attain service delivery and programmatic objectives. Multidisciplinary consulting teams address problems facing local and state transportation and transit agencies. Professionals experienced in transportation policy, strategic and operations planning, management, organizational development, labor relations, staffing analyses, information systems, financial and economic analyses, and productivity improvement programs work with clients to implement solutions that satisfy the many goals that characterize public transportation enterprises.

- Asset Management Program Implementation
- Asset Life Cycle Costing

Program Integration and Project Management Services (SIN 874-7)

AECOM Consult, Inc. is among the leading providers of professional services to Federal transportation agencies with continuous service to the United States Department of Transportation for over 30 years. A consequence of this long service, AECOM Consult understands the programs, requirements, and responsibilities of the Federal Transit Administration (FTA, formerly the Urban Mass Transportation Administration) and the Federal Highway Administration (FHWA) of the United States Department of Transportation. Located in the metropolitan Washington, DC area, AECOM Consult is comprised of over 25 transportation consulting professionals with many years of experience in serving the transportation industry. AECOM Consult provides program support services including technical, resource, schedule, financial, and administrative management of contracts and multi-task projects to control the agency's project risks including schedule and financial risks.

PROGRAM IMPLEMENTATION

- Staffing
- Contracting
- Progress Monitoring & Reporting
- Budgeting
- Cost/Schedule Control

PROJECT EVALUATION

- Benefits Assessment
- Case Studies & Lessons Learned Analysis
- Cost/benefit Analysis
- Performance Assessment

PROGRAM AND PROJECT DEVELOPMENT

- Project Scoping
- Feasibility Assessment
- Benchmarking
- Performance Analysis

AECOM Consult's Unique Perspective

We offer a unique bundle of services to our federal clients because our extensive subject matter expertise is paired with program management and public communication experience. This pairing allow us to support the agency as it develops solutions to the nation's transportation challenges, shares these solutions with the appropriate stakeholder audiences, and provides a meaningful understanding of the issues to the media and the public.

By its very nature, highway policymaking requires the incorporation of financial, economic, environmental, safety and security dimensions into FHWA's policies and programs. The dedication of staff resources to our federal clients, combined with our extensive subject matter expertise allows AECOM Consult to provide customized service—a valuable benefit to our clients as they address cross-cutting highway and multimodal issues.

Pricing Information

The prices shown here include the Industrial Funding Fee and are effective from February 13, 2006 to February 12, 2007. The labor rates are shown in the table below.

Price List for SIN 874-1 and SIN 874-7

Labor Category	Hourly Rate
Analyst	\$86.45
Consultant	\$94.00
Senior Consultant I	\$102.60
Senior Consultant II	\$113.05
Consulting Manager I	\$137.75
Consulting Manager II	\$157.70
Senior Consulting Manager I	\$213.75
Senior Consulting Manager II	\$238.45
Senior Consulting Manager III	\$259.35
Subject Matter Expert	\$301.76

Ordering Services

For orders under \$2,500, agencies can simply place an order with their preferred contractor. For orders at or above \$2,500, agencies are required to use the following procedure:

1. Ordering office prepares a Statement of Work describing the work required. The work statement should describe the schedule and any special requirements.
2. Ordering Office contacts and obtains a proposal and price quote from at least three GSA vendors
3. Ordering Office conducts "best value" review and selects a vendor to perform the work

Labor Category Descriptions

Subject Matter Expert
