The Service Contract Labor Standards (SCLS) statute applies to this contract and as it applies to the MAS and all services provided. While no specific labor categories have been identified as being subject to SLCS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29CRF 5413.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the Contractor adds SCLS labor categories/employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish an SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and applicable wage determination (WD) number. Failure to do so may result in cancellation of the contract.

Ordering Procedures:

Master these tips and techniques! The changes made to the Schedules program have impacted your ability to buy commercial services and products. Schedule contracts are attractive for Federal buyers because Federal regulations have been rewritten, shifting from rigid regulations to guiding principles. The result has been that Federal buyers can now make sound business decisions in much the same manner as their industry counterparts.

Ordering agencies also make selections based on best value. This allows the discussion between you and the supplier to focus on the business aspects of the transaction, rather than on the contracting process itself.

You can now access Federal Supply Schedule contract award information on-line at https://www.gsa.gov/buying-selling/purchasing-programs/gsa-schedules, and then click on GSA eLibrary.
