1b. Lowest priced item for all Special Item Number(s):

System Analyst 1

\$110.60

1c. Services: – Labor Category Descriptions

The Service Contract Act (SCA) is applicable to this contract as it applies to the entire MOBIS Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. The offeror is responsible for paying, at a minimum, the prevailing wage rate and fringe benefit rate requirements in the SCA Wage Determination (WD) Revision Number currently incorporated into this contract. However, since the offeror has indicated that all proposed labor categories are exempt from SCA, if a future revision of the WD should result in a higher prevailing wage rate and fringe benefit rate than the offeror is currently paying for a service employee, and that service employee (and the Department of Labor) should later determine that his/her position is SCA eligible, the offeror will be responsible for paying the higher of the two wages without adding further burden to any government contract pricing.

Systems Analyst Level 1,2,3

Experience: Requires computer or similar experience in information systems design and management. Relevant years of experience in accordance with the matrix above. For candidates with higher degree (Master’s or Ph.D) lesser years of experience may be allowed.

Functional Description: Applies developed skills and knowledge of techniques in a specific professional, scientific/engineering, or technical area.
