</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

Not applicable

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility, and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not applicable" for this item.

Please see page 4 for Labor Category Descriptions

2. Maximum Order:
   - 541620 $1,000,000.00
   - 562910REM $1,000,000.00
   - OLM $250,000.00

3. Minimum Order: $100.00

4. Geographic Coverage (delivery Area): CONUS

5. Point(s) of production (city, county, and state or foreign country): Same as company address

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted) See page for 4 pricing.

7. Quantity discounts: None

8. Prompt payment terms: Net 30 days, Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions

9. Foreign items (list items by country of origin): None

10a. Time of Delivery (Contractor insert number of days): Specified on the Task Order

10b. Expedited Delivery. Contact Contractor

10c. Overnight and 2-day delivery. Contact Contractor

10d. Urgent Requirements. Contact Contractor
11. F.O.B Points(s): **Destination**

12a. Ordering Address(es): **Same as Contractor**

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's), are found in Federal Acquisition Regulation (FAR) 8.405-3

13. Payment address(es): **Same as company address**

14. Warranty provision.: **Standard commercial warranty.**

15. Export Packing Charges (if applicable): N/A

16. Terms and conditions of rental, maintenance, and repair (if applicable): N/A

17. Terms and conditions of installation (if applicable): N/A

18a. Terms and conditions of repair parts indicating date of parts, price lists and any discounts from list prices (if applicable): N/A

18b. Terms and conditions for any other services (if applicable): N/A

19. List of service and distribution points (if applicable): N/A

20. List of participating dealers (if applicable): N/A

21. Preventive maintenance (if applicable): N/A

22a. Environmental attributes, (e.g., recycled content, energy efficiency, and/or reduced pollutants): N/A

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: [www.Section508.gov/](http://www.Section508.gov/). N/A

23. Unique Entity Identifier (UEI) number: **943623447**

24. Notification regarding registration in System for Award Management (SAM) database: **Registered in SAM**

Labor Category Descriptions

Principal Engineer

General Characteristics
Manages complex and extensive engineering programs and serves as Principal in Charge on these projects. Responsible for achieving organization goals and managing growth. Assigns and manages project staff and resources, monitors overall performance of the projects, reviews reports, and confers with project staff on quality aspects of the project.

Direction Received
Receives directions from the clients for meeting project requirements.

Typical Duties and Responsibilities
Primary point of contact for clients on large and complex engineering projects. Reviews and approves technical proposals and cost estimates prior to submission and signs contracts. Chairs semi-monthly staff meetings and reviews staff job assignments and performance. Monitors regulatory requirements and informs the staff of pertinent changes to laws and regulations. The Principal is also responsible for charting the market direction of the firm, following the growth of technical aspects of the field and opportunities for performance of new projects. The Principal sets the company policy and makes all decisions related to achieving the objectives.

Responsibility for Direction of Others
Directly interacts and supervises Associate and other key staff members.

Education
Master’s degree, Licensed Professional Engineer

Experience
At least 15 to 23 years of experience in civil and environmental engineering; environmental site assessments; compliance audits; site investigation and remediation; hazardous waste management; preparation and implementation of remedial action work plans; project management and cost control.
**Associate**

**General Characteristics**
Has responsibility for overall project performance including oversight of project management, developing new office procedures to improve efficiency and quality, and in performance and monitoring of project budgets. The Associate also trains other staff members in company procedures, and has full technical responsibility for interpreting, organizing, executing, and coordinating assignments. Plans and develops engineering projects concerned with unique problems. This involves exploration of subject area, definition of scope and selection of problems for investigation and development of novel concepts and approaches. Maintains liaison with individuals and units within or outside his organization with responsibility for acting independently on technical matters pertaining to his field. Work at his level usually requires extensive progressive experience.

**Direction Received**
Receives administrative directions from the Principal with assignments given in terms of broad general objectives and limits.

**Typical Duties and Responsibilities**
Prepares, implements, and directs several large and complex environmental projects. Resolves problems based on experience, through a series of complete and conceptually related studies, unconventional or novel approaches, and sophisticated engineering techniques. Also serves as the engineering specialist for the organization in the application of advanced theories, concepts, principles, and processes for an assigned area of responsibility. Keeps abreast of current environmental regulations and guidelines, new scientific methods, and developments for the purpose of achieving project goals.

**Responsibility for Direction of Others**
Supervises the work of other staff members including engineers, environmental technicians and clerical support staff. Evaluates staff performance, project progress and results obtained, and recommends appropriate changes to meet the overall project objectives.

**Education**
Master’s Degree in Environmental Science or Civil Engineering.

**Experience**
At least 10 to 15 years of experience in civil and environmental engineering; environmental site assessments; compliance audits; site investigation and remediation; hazardous waste management; preparation and implementation of remedial action work plans; project management and cost control.
**Project Manager**

**General Characteristics**
Applies extensive and diversified knowledge of engineering principles and practices in broad areas of assignments and related fields. Makes decisions independently on engineering problems and methods in the field, and resolves important issues related to the work. Uses advanced engineering techniques and theories related to environmental science and engineering disciplines. Proficient in MS Office Applications (Word and Excel) and Auto Cad.

**Direction Received**
Receives supervision and guidance from the Principal and Associate related to the overall project objectives, critical issues, new concepts, and policy matters. Consults with Principal and Associate concerning unusual problems and developments and recommends solutions.

**Typical Duties and Responsibilities**
Plans, develops, coordinates, and directs several engineering projects with complex issues. Performs tasks that generally involve conventional engineering practice but may include a variety of complex features. Resolves issues related to conflicting designs, unsuitability of materials, and difficult coordination requirements. Responsibilities require extensive and broad knowledge of precedents in the specialty area related to the environmental engineering. Also carries out complex or novel assignments requiring the development of new or improved engineering techniques and procedures. Delegates responsibility to others and supervises work. Assesses the feasibility of proposed engineering techniques and proposes changes to meet project objectives.

**Responsibility for Direction of Others**
Supervises, coordinates, and reviews the work of a small staff of engineers and technicians, estimates manpower needs and schedules and assigns work to meet completion date.

**Education**
Bachelor's Degree in Environmental Science or Civil Engineering

**Experience**
At least one to two years of experience in civil and environmental engineering including concrete structures, road design and construction, foundations, sheet piling, excavation, tank closure and project management.
Project Engineer

General Characteristics
Applies extensive and diversified knowledge of engineering principles and practices in broad areas of assignments and related fields. Makes decisions independently on engineering problems and methods in the field, and resolves important issues related to the work. Uses advanced engineering techniques and theories related to environmental science and engineering disciplines. Proficient in MS Office Applications (Word and Excel) and Auto Cad.

Direction Received
 Receives supervision and guidance from the Principal and Associate related to the overall project objectives, critical issues, new concepts, and policy matters. Consults with Principal and Associate concerning unusual problems developments and recommends solutions.

Education
Bachelor's Degree in Environmental Science or Civil Engineering.

Experience
At least one to two years of experience in civil and environmental engineering including concrete structures, road design and construction, foundations, sheet piling, excavation, tank closure, and project management.
**Administrative/Clerical**

**General Characteristics**
Attends telephones, interacts with clients and vendors, maintains and updates company's qualifications and agency certifications. Provides word processing service to the project team and staff. Responsible for the preparation of proposals, project reports, permit applications, correspondence, and invoices, as well as data entry on computer. Also prepares and distributes weekly staff schedule to the Principal Engineer with input from the staff. Compiles project cost information from time sheets, expense sheets and vendor invoices. Enters income received, verifies checks received and deposits after verification. Preparizes weekly job cost report for the Principal Engineer. Provides project cost information to the Project Manager to monitor budget. Verifies time records, payrolls, vendor invoices and makes payments after authorization by the Principal Engineer.

**Direction Received**
Receives directions and guidance from the Principal Engineer and Associate.

**Typical Duties and Responsibilities**
In charge of office administration and specific tasks described above.

**Responsibility for Direction of Others**
Coordinates with the field crew and helps in compilation of time records and project income and expenses. Orders payroll checks, reviews payroll records, and interacts with the payroll company for the timely submission of federal and state taxes and applicable forms.

**Education**
Bachelor's degree in accounting or liberal arts.

**Experience** At least two to three years of experience in office administration and general accounting. Knowledge of computer programs related to accounting and bookkeeping.
