GENERAL SERVICES ADMINISTRATION

Federal Supply Service
Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order is available through GSA Advantage™, a menu-driven database system. The INTERNET address for GSA Advantage™ is: http://www.GSAAdvantage.gov.

Schedule for Multiple Award Schedule
Federal Supply Group: Professional Services
Contract Number: GS-10F-0196P

For more information on ordering from Federal Supply Schedules go to the GSA Schedules page at GSA.gov.
Contract Period: February 13, 2004 - February 12, 2024
Effective as of modification PS-0040 effective 12/14/2021

Contractor: Panamerican Consultants, Inc.
3064 Palisades Court
Tuscaloosa, AL 35405 3446

Business Size: Small Business
Telephone: (205) 248-8767
FAX Number: (205) 556-1144
Web Site: www.panamconsultants.com
E-mail: cbolton@panamericaninc.com
Contract Administration: Dawnn C Bolton

CUSTOMER INFORMATION:

1a. Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers:

<table>
<thead>
<tr>
<th>SIN</th>
<th>Recovery</th>

</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. See Below.
1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See Below.

2. Maximum Order: $1,000,000.00

3. Minimum Order: $100.00

4. Geographic Coverage (delivery Area): Domestic Only

5. Point(s) of production (city, county, and state or foreign country): Company address.

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: None

8. Prompt payment terms: Net 30 days.

   Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items (list items by country of origin): None

10a. Time of Delivery (Contractor insert number of days): Specified on the Task Order

10b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery: Contact Contractor

10c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: Contact Contractor

10d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor's representative to effect a faster delivery: Contact Contractor

11. F.O.B Points(s): Destination

12a. Ordering Address(es): Same as Contractor

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es): Corporate office where billing is handled: Panamerican Consultants, Inc., 3064 Palisades Court, Tuscaloosa, AL 35405, Phone: 205-248-8767, Fax: 205-248-8739

14. Warranty provision.: Contractor's standard commercial warranty.

15. Export Packing Charges (if applicable): N/A
16. Terms and conditions of rental, maintenance, and repair (if applicable): N/A

17. Terms and conditions of installation (if applicable): N/A

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A

18b. Terms and conditions for any other services (if applicable): N/A

19. List of service and distribution points (if applicable): N/A

20. List of participating dealers (if applicable): N/A

21. Preventive maintenance (if applicable): N/A

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). N/A

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor’s website or other location.) The EIT standards can be found at: www.Section508.gov. N/A

23. Unique Entity Identifier (UEI) number: 623292224

24. Notification regarding registration in System for Award Management (SAM) database:
Registered

Final Pricing:
The rates shown below include the Industrial Funding Fee (IFF) of 0.75%.

**PRODUCT NAME** | **PRODUCT DESCRIPTION**
---|---
Hydraulic Pump/Dredge/Probe | Collects up to several cubic meters of the seabed or river bottom at once to see if site excavations are necessary. Apparatus for bringing up objects or overburden from a river or seabed by scooping or dragging. Tool consisting of metal rod or tube that is pushed into deposits to locate buried hard features such as walls, floors or bed rock. For underwater investigations, the probe consists of a hollow tube through which water is forced to penetrate overburden in an effort to locate buried shipwrecks or other historic remains.

Vehicle | Apparatus for bringing up objects or overburden from a river or seabed by scooping or dragging.

Small Survey Vessel | Ship or boat designed and equipped to carry out research at sea using towed arrays linked to remote sensing equipment.

Survey Vessel | Ship or boat designed and equipped to carry out research at sea using towed arrays linked to remote sensing equipment.

Dive Vessel 35ft | Ship or boat that is used as a floating base for diving projects.

Diving Equipment | Equipment that allows underwater researchers to comfortably breathe and stay warm.

GPS Navigation System | Provides sub-meter locational data during survey operations via satellites.

Sub bottom Profiler | Uses strong sound impulses to identify channels and buried historic features and determine marine sediment overburden.

Sidescan Sonar | Identifies surficial features such as historic remains projecting above a river or sea bottom using sound waves to reconstruct images of objects and texture.

Marine Magnetometer | Instrument mounted on a survey vessel with a towed array which detects variations in the earth’s magnetic field that may be caused by the presence of ferrous materials contained in shipwrecks or other historic remains on or embedded in a river bottom or ocean floor.

Underwater Video/Still Camera | Used to document underwater historic remains during site excavations.

---

**Project Manager**

**Qualifications:** MA in Archaeology, Architectural History, History or related field, plus a minimum of seven years’ experience directing and managing cultural resources management (CRM) contracts.

**Responsibilities:** Contract oversight. Provides overall management of cultural resources contracts and individual orders. Responds to RFPs, prepares cost and technical proposals, develops Scope of Work assumptions, negotiates proposals, and attends meetings with agency personnel. Quality control - ensures all deliverables identified in contracts are completed in the manner specified and submitted to the agency as required.
**Principal Investigator**
Qualifications: MA in Archaeology, Architectural History, History or related field, plus a minimum of five years' experience directing CRM projects and a demonstrated ability to carry research to completion. Must be Register of Professional Archaeologists (RPA) certified.

Responsibilities: Project oversite. Manages all project aspects and tasks including, supervision of personnel, budgeting, preparation of proposals and reports, monitoring field procedures, and performance of field procedures. Supervises and performs all aspects of field research, data analysis, and writing of project reports. Implements research designs and sampling strategies. Makes strategic and professional decisions to ensure each project’s Scope of Work is followed correctly within budget and on schedule.

**Administrative Assistant**
Qualifications: BA plus minimum of two years’ experience in office administration.

Responsibilities: Supports professional staff. Responsible for project fieldwork scheduling and logistics, including personnel, travel, lodging and per diem. Supports professional staff in project report production, including printing and binding, burning CD/DVD’s, and shipping reports. Interfaces with the Editor and Laboratory Director and is responsible for ensuring that final deliverables are submitted (i.e., correct number of bound/electronic copies, data, artifacts, etc.). Processes and submits all timesheets and expense reports.

**Archaeologist**
Qualifications: MA in Anthropology, Archaeology or closely related field, plus a minimum of two years' experience in archeological investigations and a demonstrated ability to carry research to completion.

Responsibilities: Project oversight. Supervises and manages terrestrial archaeological fieldwork during Phase I, Phase II, and Phase III investigations. Works under the supervision of the Project Manager and Principal Investigator and directs Field Technicians in the field. In addition to field supervision, writes project reports, and completes data and artifact analysis.

**Architectural Historian**
Qualifications: MA in Architectural History, Art History, Historic Preservation, or closely related field, plus a minimum of two years' experience in architectural survey and assessment as it relates to CRM.

Responsibilities: Project oversight. Conducts and supervises historic structure surveys and assessments utilizing recording techniques such as high quality photography and HABS/HAER recordation. Works under the supervision of the Project Manager and oversees Specialists and Field Technicians during all phases of office and fieldwork. Writes and reviews reports, completes NRHP nominations, and provides appropriate recommendations. Further responsibilities include aiding in the development of proposals and budgets for projects.

**Historian**
Qualifications: MA in History, Historic Preservation or a closely related field, plus a minimum of two years’ experience in historical research and writing.

Responsibilities: Project support. Conducts archival, documentary, cartographic and on-line research for all phases of CRM investigations. Prepares historic contexts, local ethnographic and historic period summaries, site-specific historic period discussions, and historic site sensitivity assessments for cultural resources, architectural history and archaeological projects.

**Draftsperson/CAD Specialist III**
Qualifications: BA or BFA in Art, Architecture, Graphic Design or closely related field, plus a minimum two years’ experience in drafting, field drawing, or computer graphics.
Responsibilities: Project support. Assists in report production, including the digitization of field sketch maps, graphic design, and artifact photography.

Editor
Qualifications: BA in English, Anthropology, or related field, plus minimum of six years’ experience in copy-editing, proofing and formatting documents for reproduction/printing.

Responsibilities: Project support. Edits deliverables for accuracy and compliance with project-specific style requirements, prepares documents for review, and oversees document production and distribution. Works under the supervision of the Principal Investigator, Archaeologists, and Architectural Historians.

Editor II
Qualifications: BA in English, Anthropology, or related field, plus minimum of eight years’ experience in copy-editing, proofing and formatting documents for reproduction/printing.

Responsibilities: Project support. Edits deliverables for accuracy and compliance with project-specific style requirements, prepares documents for review, and oversees document production and distribution. Works under the supervision of the Principal Investigator, Archaeologists, and Architectural Historians.

Field Technician I
Qualifications: BA in Anthropology, Archaeology or closely related field, plus a minimum of three years’ demonstrated experience in archaeological investigations.

Responsibilities: Field support. Conducts archaeological fieldwork under the close supervision of the Field Director, and performs tasks as directed, including the recordation of all data on field forms and operates a hand held GPS for navigation and mapping.

Field Technician II
Qualifications: BA in Archaeology, History or related field, plus minimum of five years’ experience in archaeological investigations including Phase I, Phase II, and Phase III investigations.

Responsibilities: Field supervision. Responsible for supervising field technicians while in the field. Works under the supervision of the Principal Investigator, Archaeologists, and Architectural Historians.

GIS Specialist
Qualifications: MA in Geography, Geographic Information Systems or related field, plus minimum of two years’ experience in geographic information systems, and computer cartography.

Responsibilities: Project support. Designs, creates, and manages GIS databases and files to produce maps, graphics, and illustrations for background research and for use as figures in deliverables. Works under the supervision of the Principal Investigator, Archaeologists, and Architectural Historians.

Laboratory Director
Qualifications: BA in Anthropology, Archaeology or related field, plus a minimum of five years’ experience in the analysis, cataloging, and curation of archaeological materials.

Responsibilities: Project oversight. Supervises all work associated with artifact processing, identification, analysis, and the preparation of artifact collections for permanent curation/storage. Supervises all work done by Laboratory Technicians. In addition to supervision, writes artifact analysis chapters for project reports. Works under the supervision of the Principal Investigator and Archaeologists.
**Laboratory Technician**

**Qualifications:** BA in Anthropology, Archaeology or related field, plus a minimum of one year experience in data entry, artifact processing and cataloging.

**Responsibilities:** Project support. Conducts work associated with artifact processing, identification, analysis, and the preparation of artifact collections for permanent curation/storage, as well as data entry. Works under close supervision, and performs tasks as directed.

**Underwater Principal Investigator**

**Qualifications:** MA in Anthropology, Maritime Archaeology, History or related field, plus minimum of five years’ experience managing maritime archaeological investigations. Must be Register of Professional Archaeologists (RPA) certified.

**Responsibilities:** Project oversight. Manages all project aspects and tasks including, supervision of personnel, budgeting, preparation of proposals and reports, monitoring field procedures, and performance of field procedures. Supervises and performs all aspects of field research, data analysis, and writing of project reports. Implements research designs and sampling strategies. Makes strategic and professional decisions to ensure each project's Scope of Work is followed correctly within budget and on schedule.

**Underwater Archaeologist**

**Qualifications:** MA in Anthropology, Maritime Archaeology, History or related field, plus minimum of two years’ experience in maritime archaeological investigations.

**Responsibilities:** Project support. Conducts maritime archaeological fieldwork during remote sensing surveys, diver identification projects, and underwater data recovery. Works under the supervision of the Project Manager, Underwater Principal Investigator and Remote Sensing Specialist. Also completes remote sensing data processing, analysis, and interpretation.

**Remote Sensing Specialist**

**Qualifications:** MA in Anthropology, Maritime Archaeology, History or related field, plus minimum of two years’ experience in maritime archaeological remote sensing investigations.

**Responsibilities:** Project oversight. Supervises and conducts maritime remote sensing archaeological surveys. Responsible for operating the remote sensing equipment including, but not limited to: magnetometers, sidescan sonars and subbottom profilers. Works under the supervision of the Project Manager and Underwater Principal Investigator and directs Field Technicians in the field. In addition to field supervision, completes remote sensing data processing, analysis, and interpretation.

**Archaeological Diver**

**Qualifications:** MA in Anthropology, Maritime Archaeology, History or related field, plus minimum of two years’ experience in underwater investigations with full diving accreditation to include: basic SCUBA certification (NAUI or PADI), Surface Supply Diving certification, Emergency O2 Administration (annual), First Aid (annual), CPR (annual).

**Responsibilities:** Project support. Conducts diving and dive operations associated with archaeological diver identification work and underwater data recovery. Works under the supervision of the Project Manager and Underwater Principal Investigator.

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
