OVERVIEW OF MHM INNOVATIONS, INC. ..............................................................................3

PRICING TABLE ..................................................................................................................7

LABOR CATEGORY DESCRIPTIONS ..................................................................................8
MHM Innovations, Inc. (MHM) is an ISO 9001:2015 certified, small business that provides government and commercial clients with senior level program management consulting as well as innovative technical solutions in Cloud Technology, Big Data Analytics, and Cyber Security. MHM service delivery to our customers is enabled through the following key processes: Service Delivery, Financial Management, Human Resources, Business Development, and Business Enabling. enhance the quality of Enterprise Architecture/Cloud Technologies, Cyber Security/Information Assurance, and Program Management. MHM has successfully provided our unique combination of people, processes, and resources managed through an agile framework of data-driven performance metrics to a variety of government clients. MHM has expertise in acting as the prime contractor with multiple subcontractor partners and also as a subcontractor on large contract vehicles.

MHM’s core competency areas include:

- **Program Management**: certified Project and Program Management; contracting and acquisitions; program execution from planning to deployment; Program Management training using Project Management Institute (PMI) and Defense Acquisition Workforce Improvement Act (DAWIA) standards to all levels of employees and budget/financial analysis.

- **Full Spectrum Cyber Operations**: Experience establishing and maintaining secure communications; detecting and deterring threats in cyberspace; analyzing, reacting to and recovering from incidents as they occur; cyber Capability Development (CAPDEV); supporting Army and Joint Forces from strategic to tactical levels while simultaneously enabling Army maneuver, power projection, and mission command in Cyberspace while denying adversaries effective use of cyberspace and the Electromagnetic Spectrum.

- **Cybersecurity**: Technical assistance during the entire software lifecycle process to ensure applications comply with Certification and Accreditation requirements, maintain awareness of cybersecurity policy direction and requirements for compliance with IC (including Intelligence Community Directive (ICD) 503), Department of Defense (DoD) (including DoD Instruction (DoDI) 8500.01), data owner policy and guidance as well as Federal Information Security Management Act (FISMA), Cybersecurity and other Federal mandates.

MHM's technology solution areas of innovation include:

- **Cloud Technology**: Assessment, prototyping, simulation, requirements analysis, design, construction, testing, quality assurance, and implementation of advanced cloud-based systems that support mission-critical national defense and intelligence initiatives.

- **Big Data Analytics**: End-to-end analysis, design, and construction of advanced algorithms and data-driven, pattern-matching analytics delivered through cloud-based platforms in support of intelligence, surveillance, and reconnaissance missions across Army domains.

MHM's additional areas of specialized services and expertise include:

- **Acquisition Management**: Preparation of acquisition strategies, plans, performance work statements and other relevant studies and documentation.

- **Organizational Development and Training**: Strategic planning, alignment and deployment; change management; organizational assessments; team facilitation; team building; customer relationship management; specialized and customized training curriculum development and delivery.
• **Business Process Reengineering**: Lean Six Sigma (LSS) training and certification; International Organization for Standardization (ISO) gap analysis to include ISO 9001 / 27000 / 2000; Balanced Scorecard; development of organizational metrics and performance dashboards; organizational process improvement and mapping.

MHM is a leader in Technology Insertion by integrating new and emerging technologies that will enhance intelligence collection, analysis and dissemination. MHM has provided the technical and management expertise to support DoD and intelligence clients in delivering advanced systems to hostile and non-hostile theaters of operations. Our expertise extends to tactical intelligence operations and its relationship with the national intelligence community requirements. We have led the development and integration of new architectures which are changing the way in which intelligence data is transformed into actionable requirements, to include network architectures which permit storage and retrieval of data and information regardless of the storage site as well as multilevel security database.

MHM is a company of people with proven expertise and with many years of successful experience in our core business areas. MHM seasoned associates bring multi-disciplinary approaches to complex acquisition, strategic, organizational development, operational systems performance, and management problems. MHM’s expertise lies in helping clients modernize their data collection, analysis and production through expertise that is focused on the technical and management issues associated with the intelligence mission. We introduce cutting edge processes, applications, and architectures. Our knowledge-based application of cloud architectures and multilevel security database development, coupled with the ability to manage large programs delivering performance-based requirements in a fast paced environment, enhances our clients’ ability to meet constantly evolving challenges and threats. In order to further our clients’ pursuit of technology, MHM also applies expertise in organizational improvement by suggesting and demonstrating improvements in the clients’ business processes in order to increase efficiencies and improve budget execution. We also support our clients’ acquisition of technology enhancements by producing acquisition management documents such as Acquisition Plans, Acquisition Strategies, Statements of Work, Evaluation Plans and similar documents.

MHM will continue to focus on providing exceptional management and technical consulting as our primary business objective. Our formula for success rests on a solid basis of:

- Highly professional, motivated, experienced, certified, and trained associates with world class experiences and capabilities.
- Customer relationships that focus on the delivery of value as measured from the customer’s perspective in every project we perform.
- Business relationships which are easy to initiate and maintain, clear, responsive, timely, confidential, cost competitive, and honest.
- Focus on our core competencies – MHM will not commit to any project that we are not capable of performing in a manner that exceeds our customers’ expectations. We will maintain our team of professionals exhibiting world-class expertise in our core competencies.

MHM stands ready to serve a wide variety of government needs with the most qualified professionals available to the government. If achievement of your mission and strategies requires qualified, highly experienced professional management consultants, MHM is the organization to contact for immediate support provided in a confidential, ethical and knowledgeable manner.

The Service Contract Labor Standards (SCLS) is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to the SCLS due to exemptions for professional employees this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to their contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupation code, SCLS labor category titles and the applicable wage determination number. Failure to do so may result in cancellation of the contract.
**Labor Category Position Description(s)**

**Senior Staff I:** Minimum of 15 years of experience in functional area where support will be provided.

Functional Responsibilities: Provides executive oversight of contracts or tasks. Responsible for establishing and modifying the strategic vision and ensuring that the strategic direction is maintained by the other team members for problem solving or task completion.
