CC&C Management Services, LLC

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation, SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three GSA schedule contractors or consider reasonably available information by using the GSA Advantage! on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage! and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, women-owned small, veteran-owned small, and service-disabled veteran-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items of the same delivered price will satisfy the requirement(s).

CC&C CORPORATE OVERVIEW

LOGWORLD Background/Capabilities

Executive Summary

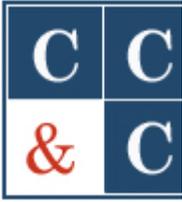

CC&C MANAGEMENT SERVICES, LLC (CC&C) is a professional facilities management firm that has provided integrated services to government agencies and corporate facilities for more than 20 years.

Our mission is to provide clients with exceptional service, mission-based sensitivity, facility management, controlled costs, and streamlined schedules.

Our success is based on proper selection of employees and teaming partners. Our staff/partners are trained and enthusiastic about planning and executing facility service initiatives with a variety of agencies and organizations. Time, commitment, and the ability to manage change is what separates us from our competitors. Knowledge and experience are the keys to our success. Our rich skill set enables us to offer the management commitment to accomplish program objectives and delight our clients.

Capabilities

CC&C has developed an integrated approach to facilities management. In doing so we are able to provide our clients with a full range of facilities services.

CC&C Management Services, LLC

When CC&C opened its doors in 1990 we were providing relocation consulting services that surpassed the expectations of all of our clients. From there, CC&C has developed into a one-stop shop for all of our clients' facility needs.

In conjunction with a strong set of partners CC&C can offer our clients the following services:

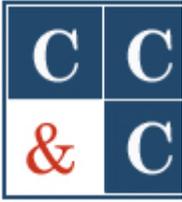

This level of service has made CC&C a valuable partner to both our commercial and federal clients. A more detailed capability statement can be found on the next page.

Engaging CC&C is easy

- **Sole source contracts** and competitive set-asides are available to our clients. Two of the SBA administered business assistance programs for CC&C are the 8(a) and Small Disadvantaged Business (SDB) Business Development Program and the Service Disabled Veteran Owned Small Business (SDVOSB) Program
- **GSA Schedules** offer our clients direct delivery of state-of-the-art, high-quality commercial supplies and services at volume discount pricing. CC&C's GSA Schedules are LOGWORLD for Third Party Logistics Services; CFMS for Comprehensive Furniture Management Services; and Schedule 48 for Transportation, Delivery and Relocation Solutions.
- **Agency Blanket Purchase Agreements (BPAs)** based upon GSA schedule rates.

CC&C's headquartered in Washington, DC, with our Federal Government Operations Center in Bethesda, MD. We have been providing professional move management, logistics support, and construction services for 20 years. CC&C primarily serves clients in the government/public and healthcare sectors.

Our concept is that there is a better way to provide professional consulting and management services beyond what the traditional market offers. We believe that these services can be provided on time, within budget and with the highest quality, with CC&C always being an advocate for the Client.

CC&C Management Services, LLC

Our broad based support and service experts have the experience to give Government customers the “One-Stop Shopping” solutions they need to coordinate people, equipment, and technology for a Cost-Effective and Nondisruptive transition. In short, CC&C integrates a vast array of project managers, client specific products, procurement support and specialized contractors into an integrated team that meets your specific requirements.

The “CC&C Team Concept” is distinctive in the industry and effectively supplies the full-spectrum of client support requirements. We are capable of providing all resources including project management, furniture, high density filing, supplies, services, material, equipment, facilities, and logistics support for each mission area and task order.

Whether your requirement is for one or all phases of facility acquisition, relocation, renovation and/or expansion, we will provide customized solutions. We have directed complex projects involving one floor, one building, one company/agency or an entire regional campus. Our focus as facility, relocation, move and project management experts is to be your single source of communication and responsibility for achieving your desired project outcomes.

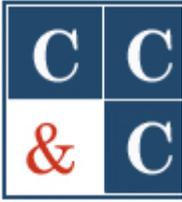

The CC&C LOGWORLD Approach is to deliver the total project as defined by the customer's statement of work, as a turnkey process; one call to one vendor and one order. Our LOGWORLD program is designed to offer every product and service necessary to deliver the ideal solution through one contract. Since the maximum prices for these services have been pre-negotiated with GSA, your procurement process is simplified.

Whether it's managing, designing or executing the specific services required for your project or providing the furniture need for your facility, CC&C eliminates your need for managing multiple vendors and orders.

CC&C employees, the essence of our company, are a team of dedicated industry-diverse professionals sharing a passion to partner with our clients to help them accomplish their objectives, achieve lasting results, and develop new capabilities that enable them to meet and exceed their missions and objectives. We succeed through a corporate culture of personal responsibility and accountability, in which we support our clients with a can-do attitude. Complimenting CC&C's strong financials and excellent past performance are its three General Services Administration (GSA) Schedules: Packaged Offices and Packaged Conference Rooms Schedule # GS-28F-0009W, Comprehensive Furniture Management Services (CFMS) Schedule # GS-29F-0015R, Transportation, Delivery and Relocation Solutions Schedule # GS-33F0014V and GSA LOGWORLD Schedule # GS-10F-0217N. CC&C is certified by the U. S. Small Business Administration (SBA) for the SBA 8(a) Program.

Government & healthcare are our primary clients. CC&C has extensive experience providing fulfillment, advisory and management services from initial conception through final completion of projects. *We strive to be the very best at what we do -- exceeding expectations, avoiding surprises, delighting our clients.*

Construction Services

CC&C Management Services, LLC

The CC&C joint venture with Scheibel Construction, CC&C-Scheibel Construction Joint Venture LLC, is a General Contractor within the SBA 8(a) program through the Small Business Administration Mentor/Protégé agreement approved April 21, 2011. This enables us to provide the full range of construction general contractor services with \$100M bonding per contract and \$200M aggregate.

Facility Management and 3rd Party Logistics Fulfillment Services

As a third party logistics (3PL) provider, CC&C specializes in integrated warehousing, installation and transportation services that can be scaled and customized to a client's needs based on the storage, service demands and delivery service requirements for their products and materials.

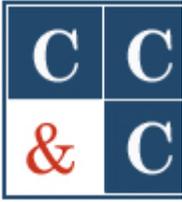

Facility Consolidation Plans

We can support the Agency's goals of more efficiently using its real property assets by supporting an assessment of its space utilization and helping drive improvements in space usage. Representative tasks include:

- **Document Space Current State and Consolidation Requirements**
- **Prepare Agency Consolidation Plans**
- **Execute Agency Consolidation Plans including:**
 - Overall Project Management
 - Subcontract Management & Reporting
 - Space Planning/ Analysis
 - Furniture Management
 - Office Move Services
 - Office Design Services
 - Construction
 - Creation & Maintenance of a Project Construction Schedule
 - Scheduling & Conducting Weekly Progress Meetings

Project Management -- job walk-thru's, pre-installation meetings, and knowledgeable of all project requirements.

- Received product is check against your order - damages and shortages are noted and communicated to you. Your product is well-cared for in our warehouse.
- From jobsite preparation through each stage of the project -- from proposal, to receiving, delivery, installation, punch list resolution, and project sign off, you will be completely informed.
- Completing the punch list and securing your sign off upon your complete satisfaction with the service completes our job.
- **Coordinated Delivery and Installation Service** - trained, furniture handling professionals, experience in every aspect of corporate furniture installation, as well as reconfigurations and office relocations of any size.
- **Maintenance and Repair Services** –furniture, drywall, floors, ceilings
- **Furniture Disposal**
- **Asset Inventory and Reconciliation**
 - We perform physical wall-to-wall inventory of your assets

CC&C Management Services, LLC

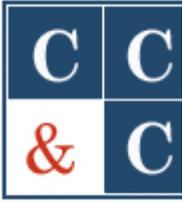

- Advanced barcode and RFID (radio frequency identification)

Our Turnkey Move Management System

- CC&C acts as a relocation planner and move manager, monitoring and executing your transition from A to Z, and everything in between.
- We monitor the construction phase of the project.
- From pre-meetings to the final walk through, our goal is to deliver the total project in a seamless, turnkey process -- as defined by your statement of work.
- This means that you only have to make one call to one vendor, resulting in one order for the specific services and products you desire.
- Our vendor relationships serve in this effort by providing furnishings and related services that complete the work environment.
- From relocation assistance to inventory and ongoing management of government property, CC&C offers one source to provide whatever you require.
- Turn to CC&C today and see the difference our experience, expertise and attention to detail makes.
- Our clients get the top notch facility management and move-related services needed for a successful transition.
- As you face the challenges of transition to a new facility or increasing asset storage, productivity and security, our “*One-Stop-Shop*” solutions:
 - *Ensure your project is done right -- on-time, on-budget*
 - Coordinate transition of people, equipment, and technology.
 - Develop project plans, schedules and implementation strategies.
 - Plan, acquire, deliver and install furniture, furnishings, and equipment.
 - Manage space planning and interior renovations.
 - Bar code, inventory and reconcile your fixed assets without disrupting your staff.
 - Coordinate relocation plans and schedules with professional crafts and trades.
 - Disconnect computers peripherals at departure site and reconnect at new site.
 - Provide accountability through proficient warehouse and storage logistics for furniture, furnishings and equipment.

We have a proven reputation for on time and under budget performance. We offer quality services, flexible scheduling and competitive pricing. We can mobilize our team on short notice and be project ready within days. Services may include and are not necessarily limited to:

- Construction Services
- Office Relocation
- Move Management
- 3rd Party Logistics (3PL) Fulfillment
- Project Management
- Asset Management
- Furniture Reconfiguration/Relocation Management
- Furniture Design/Layout

CC&C Management Services, LLC

We designed our services for maximum and diverse customer benefit across many different agencies and industries. Contracting opportunities for us range from preparing for and managing moves, to development and management of subcontractor schedules and pricing, to the complete integration and oversight of all the project parties. Our teaming partners are known as "best in practice" and are skilled in leveraging their services into strategic business opportunities for the benefit of our customers and prospects.

We Do What We Say – With CC&C, be prepared for a level of responsiveness and professionalism you are probably not used to receiving. We develop close professional relationships with our clients based on three things: RESPONSIVENESS, COMMITMENT, and PERFORMANCE.

Logistics Worldwide (LOGWORLD) Services Descriptions

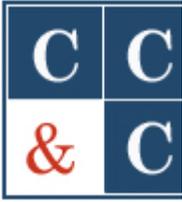

SIN 874-501—Supply and Value Chain Services

CC&C provides professional supply and value chain services that include support system assessments; reviews of current operations practices and consultation on enhanced capabilities; comprehensive requirements development; and planning, management, and operations of inventory and fulfillment systems, including state-of-the-art asset visibility opportunities. Our efforts provide system modernization and support to multiple aspects of integrated logistics operations and we work to fully understand client requirements and develop supply value chain solution sets that satisfy these requirements, be they local or worldwide.

The CC&C team brings a strong record of logistics performance and service capability to the LOGWORLD program. Our business process solutions and integrated technology yield performance enhancements across processes and systems. Our logistical experience is based upon proven framework of people working within innovative processes.

Our commitment to work with clients to fully develop optimum solutions, based on their true needs, is only the starting point in our approach to total excellence in delighting our clients. The envisioned supply value chain solutions will include direct vendor deliveries, leverage time-definite transportation to reduce pipeline times, increase inventory turnover ratios, and lead to the potential elimination of some traditional warehouse facilities. The increased use of EC and the Internet as integrated parts of the process will be critical.

CC&C also incorporates state-of-the-art logistics technology products into supply value chain activities. We are experienced in the use of smart cards, data tags, bar codes, readers, and other pieces of automated identification technology (AIT), and incorporate these capabilities, as needed, for our clients. Measurement of performance, use of relevant metrics, and "going to the next step" in process improvement are high priorities for CC&C.

CC&C Management Services, LLC

SIN 874-503—Distribution and Transportation Logistics Services

As part of distribution and transportation services, CC&C develops solutions that provide enhancements in service and in the availability of in-transit visibility data. Our expert staff possess the requisite skill sets, insights into industry trends, and the capability to provide the management, analysis tools, modeling, transportation systems development, and direct leadership to support governmental activities in enhanced transportation and distribution operations. CC&C has the complete range of expertise available to assist government client agencies in integrating the transportation segments of the supply value chain and to maximize the total systems reporting and attainment of measurable results.

SIN 874-504—Deployment Logistics Services

The deployment logistics task assignment is ideally suited to the CC&C team approach for solutions and response capability. The approach includes the need for appropriate study and review of requirements as a necessary first step. This is followed closely by identifying resource capabilities (both on a regional and global basis), understanding material management challenges, and then optimizing the process to meet this objective. We provide an array of analytical tools to support this work effort. We know that the basis of contingency capability resides in operational capability during normal conditions. Additionally, contingency planning for government agencies is an ongoing activity for CC&C. We work to continually understand client activities, policies, and direction. “What if” drills, sequential models, command post crisis drills, and simulations are available tools. This iterative process is reworked against multiple scenarios, with different conditions, locations, or resource conditions applied. Contingency plans are developed for staff review and ultimate acceptance by the agency. The actual distribution of the plans, testing, exercises, and the recording of lessons learned and updates to plans are areas of emphasis. Other key elements of deployment logistics beyond the modeling and development of contingency plans include resource planning and the allocation of materials and capabilities to fulfill requirements, either locally or in a broader, global situation.

CC&C Management Services, LLC

CC&C LABOR CATEGORY DESCRIPTIONS AND SUBSTITUTION METHODOLOGY

Equivalency Relationships

- Four years of experience (in addition to minimum experience requirements) may be substituted for a Bachelor's degree.
