**ABOUT 3D ENVIROLOGICS, LLC**

3D EnviroLogics, LLC (3DEL) was founded in 2002 to provide scientific and technology-based remedial solutions to government agencies and private businesses. We provide technical services unique to our fields of expertise including hazardous materials surveys and remediation. We develop decommissioning strategies unique to each facility based on the client’s ultimate objectives as well as the hazardous materials present. We can accurately estimate costs associated with your decommissioning needs and oversee the remediation and abatement of hazardous materials to ensure that all projects are completed in a safe, cost-effective, efficient, and thorough manner.

3D EnviroLogics is a women-owned small business and is also a certified Small, Women- and Minority-owned (SWaM) business in the state of Virginia. We take pride in being up-to-date on the current industry standards. All of our staff are professional and highly qualified with relevant certifications and licenses.
# LABOR CATEGORY DESCRIPTIONS

<table>
<thead>
<tr>
<th>Labor Category</th>
<th>Description</th>
<th>Education/Experience</th>
</tr>
</thead>
<tbody>
<tr>
<td>Principal</td>
<td><strong>Functional Responsibilities:</strong> The Principal serves as the company’s scientific expert providing technical guidance to employees and others involved in the performance of the project. He is the primary conduit of communication between the Government Contracting Officer (CO), the Contracting Officer’s Representative (COR), government management personnel and customer agency representatives. He assists Site Decontamination/Junior Scientist with the design of test method and sampling protocols to ensure that they are performed per EPA guidelines affording laboratory results that meet all project quality standards. In many cases, he provides data validation, except where the task order specifically calls for an independent third party review of test results.</td>
<td><strong>Experience Requirements:</strong> Ten (10) years of experience, or more, in the environmental consulting field. <strong>Education Requirements:</strong> Bachelor’s Degree in a science-based curriculum.</td>
</tr>
<tr>
<td>Project Manager</td>
<td><strong>Functional Responsibilities:</strong> The Project Manager/Senior Scientist provides project support ensuring the proper resources are provided for the successful completion of each project. The Project Manager determines personnel needs, sources necessary subcontractors and equipment, and negotiates cost with subcontractors and suppliers. This individual at 3D EnviroLogics, LLC, who remains intimately involved in the day to day operations of all projects to ensure that government clients are routinely receiving the quality services and advise that they depend on. More importantly, the Project Manager also sees to it that projects are completed on time and on budget. 3D EnviroLogics’ Project Manager/Senior Scientist is also the primary negotiator for government task orders and, as such, understands or has assisted in refining the scope-of-work and, is best able to ensure project efficiency. In many instances this person is also the company’s Operations Manager. The Project Manager deals with all technical aspects of the contract and shall be the contractor’s authorized interface with the client. Responsible for formulating and enforcing work standards, assigning contractor schedules, reviewing work discrepancies, supervising contractor personnel and communicating policies, purposes, and goals of the organization to subordinates. He is responsible for the overall contract performance. Specific duties include: monitors each task, and keeps the ownership abreast of all problems and accomplishments; anticipates problems, and works to mitigate the anticipated problems. Presents progress and end of project reports in writing and/or orally to contractor management and government representatives, including the government-contracting officer. Minimum requirements for Project Manage/Senior Scientist at 3D EnviroLogics is Bachelor’s Degree in a relevant field of science or engineering and at least five years of work experience in environmental consulting.</td>
<td><strong>Experience Requirements:</strong> Five (5) years of experience, or more, in environmental consulting or a related field. <strong>Education Requirements:</strong> Bachelor’s Degree in a science-based curriculum.</td>

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS) is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
