# LABOR CATEGORIES AND HOURLY RATES

Rates effective for current contract period

<table>
<thead>
<tr>
<th>Labor Category</th>
<th>Rate per Hour in USD</th>
<th>Experience, Education, Certification, Role, Responsibilities, Competencies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Technical Director</td>
<td>$175.00</td>
<td>The Technical Director is responsible for overall project quality and customer satisfaction. The Technical Director handles all contract related issues including technical and cost proposals, acceptance of task order, and invoicing. The Technical Director is a recognized expert in the environmental, health, and safety (EHS) field as demonstrated through participation in national environmental organizations, publications, presentations, and training provided within this subject matter. A Technical Director must have at a minimum a Bachelors Degree in Engineering or related Sciences, 15-years of technical experience, and a detailed working knowledge of the client needs and applicable regulatory requirements. Professional certification (e.g., Professional Engineer) is mandatory for this position as well as specialized training in ISO 9001, ISO 14001, or OHSAS 18001 standards. Organizational and communication skills are essential.</td>
</tr>
<tr>
<td>Senior EHS Specialist</td>
<td>$150.00</td>
<td>The Senior EHS Specialist is responsible for the development of detailed project management plans that include a milestone calendar, working budget, and technical approach to the performance of work and production of deliverables. A Senior EHS Specialist must have at a minimum a Bachelors Degree in Engineering, Computer Science, Management Information Systems or related field, 10-years of technical experience, and a detailed working knowledge of the client needs and a detailed knowledge of applicable regulatory requirements. Specialized training in ISO 9001, ISO 14001, or OHSAS 18001 standards are required for this position. Organizational and communication skills are essential.</td>
</tr>
<tr>
<td>EHS Specialist</td>
<td>$125.00</td>
<td>The EHS Specialist is responsible for the performance of work assigned by the Senior EHS Specialist. The EHS Specialists have recognized expertise in environmental, health, safety, and information management and are typically employed to take the lead in the development of those areas as dictated by the project requirements. EHS Specialists typically have less than 10 years of practical experience and a Bachelors Degree in Engineering, Computer Science, Management Information Systems or other related field.</td>

SERVICE CONTRACT LABOR STANDARDS APPLICABILITY

The Service Contract Labor Standards (SCLS) are applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable wage determination number. Failure to do so may result in cancellation of the contract.
