Overview

This Federal Supply Schedule enables federal agencies to procure comprehensive logistics solutions that enhance or replace existing operations. ARINC experts can help your agency reinvent its supply chain, acquire logistics support for a product or system, modify its transportation network, supplement its deployment capabilities and more.

Schedule 874 V contractors provide all necessary resources including personnel, management, supplies, services, facilities and transportation required to provide a wide range of Logistics Worldwide (LOGWORLD) services. These services may be performed at the contractor's facilities or at the ordering agencies' facilities. Any of several different methods may be used by the government to contract of these services (e.g., a firm-fixed price—with or without incentives, labor hours or time-and-materials).

The LOGWORLD services offered herein are listed by labor category. Each labor category description encompasses the functional responsibility, education and total years of experience required and specific experience needed for the category.

Following is a non-exclusive list of the types of logistics services ARINC may provide under the GSA LOGWORLD Services Schedule:

1. Supply and value chain management
2. System supportability analyses
3. Logistics software modules for deployed forces
4. Diminishing Manufacturing Sources and Material Shortages (DMSMS) system implementation
5. Requisition processing
6. Acquisition logistics services
7. Deployment logistics support
