Overview

This Federal Supply Schedule enables federal agencies to procure comprehensive logistics solutions that enhance or replace existing operations. Booz Allen Hamilton Engineering Services, LLC (Booz Allen ES) experts can help your agency reinvent its supply chain, acquire logistics support for a product or system, modify its transportation network, supplement its deployment capabilities and more.

Schedule 874 V contractors provide all necessary resources including personnel, management, supplies, services, facilities and transportation required to provide a wide range of Logistics Worldwide (LOGWORLD) services. These services may be performed at the contractor's facilities or at the ordering agencies' facilities. Any of several different methods may be used by the government to contract of these services (e.g., a firm-fixed price—with or without incentives, labor hours or time -and- materials).

The LOGWORLD services offered herein are listed by labor category. Each labor category description encompasses the functional responsibility, education and total years of experience required and specific experience needed for the category.

Following is a non-exclusive list of the types of logistics services Booz Allen ES may provide under the GSA LOGWORLD Services Schedule:

1. Supply and value chain management
2. System supportability analyses
3. Logistics software modules for deployed forces
4. Diminishing Manufacturing Sources and Material Shortages (DMSMS) system implementation
5. Requisition processing
6. Acquisition logistics services
7. Deployment logistics support

Customer Information

- 1a. Table of Awarded Special Item Numbers (SINs): 874-501/874-501RC, 874-504/874-504RC and 874-505/874-505RC
- 1b. Labor Categories and Fixed Labor Hour Rates
2. Maximum Order: \$1,000,000.00
3. Minimum Order: \$100.00
4. Geographic Coverage (Delivery Area): Domestic and Overseas
5. Point(s) of production: Domestic – Linthicum, Maryland, USA
6. Discount from list prices or statement of net price: Net Prices
7. Quantity discounts: N/A
8. Prompt payment terms: Net 30 Days
- 9a. Notification that government purchase cards are accepted at or below the micropurchase threshold. Yes
- 9b. Government purchase cards are accepted above the micropurchase threshold over \$2,500: Yes
10. Foreign items: N/A
11. The contractor shall deliver to destination within the number of days after:
 - a. Time of Delivery: TBD per Delivery Order
 - b. Expedited Delivery: TBD Per Delivery Order
 - c. Overnight and 2 day Delivery: TBD per Delivery Order
 - d. Urgent Requirements: Contact Contractor Representation
12. F.O.B Points(s); Destination
- 13a. Ordering Address(es):

Booz Allen Hamilton Engineering Services, LLC
900 Elkridge Landing Road
Linthicum, MD 21090
GSA Contract Specialist
719-570-8602 or 240-725-7298
719-574-2594 - Fax

- 13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs) can be found at the GSA/FSS Schedule home page (www.fss.gsa/schedules)
14. Payment address(es): Booz Allen Hamilton Engineering Services, LLC
900 Elkridge Landing Road
Linthicum, MD 21090
15. Warranty provision: Warranties will be negotiated per delivery order, if appropriate
16. Export Packing Charges (if applicable): N/A
17. Terms and conditions of government purchase card acceptance (any thresholds above the micro-purchase level): Contact contractor
18. Terms and conditions of rental, maintenance, and repair: N/A
19. Terms and conditions of installation: N/A
20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A
- 20a. Terms and conditions for any other services: N/A
21. List of service and distribution points: N/A
22. List of participating dealers: N/A
23. Preventive maintenance: N/A
- 24a. Special attributes such as environmental attributes, (e.g., recycled content, energy efficiency, and/or reduced pollutants): N/A
- 24b. Section 508: Compliant: www.Section508.gov/.
25. Data Universal Numbering System (DUNS) number: 075916762
26. Registered in Central Contractor Registration Database

Service Contract Act (SCA) Matrix

Contract Number: GS-10F-0255M – Logistics Worldwide (Logworld)

SCA Matrix		
SCA Eligible Contract Labor Category	SCA Equivalent Code-Title	WD Number
Administrative/Product Support 4	01313 - Secretary III	05-2247
Administrative/Product Support 3	01312 - Secretary II	05-2247
Administrative/Product Support 2	01311 - Secretary I	05-2247
Administrative/Product Support 1	01611 - Word Processor I	05-2247
Logistics/Manufacturing Engineering Technician 6	30086 - Engineering Technician VI	05-2247
Logistics/Manufacturing Engineering Technician 5	30085 - Engineering Technician V	05-2247
Logistics/Manufacturing Engineering Technician 4	30084 - Engineering Technician IV	05-2247
Logistics/Manufacturing Engineering Technician 3	30083 - Engineering Technician III	05-2247
Logistics/Manufacturing Engineering Technician 2	30082 - Engineering Technician II	05-2247
Logistics/Manufacturing Engineering Technician 1	30081 - Engineering Technician I	05-2247

The SCA is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated SCA labor categories are based on the U.S. Department of Labor Wage Determination Numbers(s) identified in the matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

Definition of Labor Categories

Following are the definition of the LOGWORLD Labor Categories priced in the cost proposal. Each Labor Category Definition includes the following: Functional Responsibility, Education (Required Degree, Training, and/or Certificates)/Years Experience

Executive Logistics/Business Lead

Functional Responsibility:

- Lead Logistics/Acquisition/Procurement Project.
- Develop, directs, coordinates and controls technical and administrative activities for multiple programs or one large program
- Responsible for the executions of all LOGWORLD programs
- Reviews and approves program financials
- Makes critical judgments and provides approval on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Executive Logistics/ Business Lead	MS or MA and 10 years experience or BS or BA and 13 years' experience. Twelve additional years' experience may be substituted for a BS or BA degree

Logistics Acquisition Specialist 3

Functional Responsibility:

- Performs logistics engineering tasks concerned with the design, development and fielding of DoD and commercial systems
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Develop, directs, coordinates and controls technical and administrative activities
- Makes critical judgments and provides approval on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Logistics Acquisition Specialist 3	BS or BA and 8 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Logistics Acquisition Specialist 2

Functional Responsibility:

- Performs logistics engineering tasks concerned with the design, development and fielding of DoD and commercial systems
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Develop, directs and coordinates technical and administrative activities
- Makes critical judgments and provides resolution options for technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Logistics Acquisition Specialist 2	BS or BA and 5 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Logistics Acquisition Specialist 1

Functional Responsibility:

- Performs logistics engineering tasks concerned with the design, development and fielding of DoD and commercial systems
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Develop and coordinates technical and administrative activities

<i>Position</i>	<i>Job Qualifications</i>
Logistics Acquisition Specialist 1	BS or BA and 2 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Business Analysis/Specialist 10

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Performs highest level systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 10	BS or BA and 18 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Business Analysis/Specialist 9

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Performs systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 9	BS or BA and 15 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Business Analysis/Specialist 8

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Performs systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 8	BS or BA and 12 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Business Analysis/Specialist 7

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems.
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Performs systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 7	BS or BA and 10 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Business Analysis/Specialist 6

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems.
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Performs systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 6	BS or BA and 8 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Business Analysis/Specialist 5

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems.
- Performs Logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Performs systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 5	BS or BA and 6 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Business Analysis/Specialist 4

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems.
- Assists in performance of logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Provides acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Performs systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 4	BS or BA and 4 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Business Analysis/Specialist 3

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems.
- Assists in performance of logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Assists in acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Performs systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 3	BS or BA and 2 years experience. Three additional years' experience may be substituted for a BS or BA degree.

Business Analysis/Specialist 2

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems.
- Assists in performance of logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Assists in acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Procures goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Assists with systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 2	BS or BA and 0 years experience. Three additional years' experience may be substituted for a BS or BA degree.

Business Analysis/Specialist 1

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the design, development and fielding of DoD and commercial systems.
- Assists in performance of logistics functions to include acquisition, supply chain, Integrated Logistics Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Assists in acquisition planning, training program development and implementation, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or test and evaluation in support of government or commercial programs
- Assists with procurement of goods and services.
- Provides program management support to include project control, project planning, and cost analysis.
- Assists with systems integration and requirements analysis.

<i>Position</i>	<i>Job Qualifications</i>
Business Analysis/ Specialist 1	BS or BA and 0 years experience. One additional years' experience may be substituted for a BS or BA degree.

Quality/ISO Specialist 6

Functional Responsibility (one or more of the following):

- Performs a highest level logistics tasks concerned with the quality and acceptability of design, development and fielding of DoD and commercial systems
- Performs quality functions to include reviewing acquisition, supply chain, Integrated Logistics
- Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Performs quality assurance including maintaining quality records, performing quality audits, and maintaining quality assurance standards to meet evolving industry and DoD quality requirements.
- Performs highest level systems integration and requirements reviews and audits.

<i>Position</i>	<i>Job Qualifications</i>
Quality/ISO Specialist 6	BS or BA and 18 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Quality/ISO Specialist 5

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the quality and acceptability of design, development and fielding of DoD and commercial systems
- Performs quality functions to include reviewing acquisition, supply chain, Integrated Logistics
- Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Performs quality assurance including maintaining quality records, performing quality audits, and maintaining quality assurance standards to meet evolving industry and DoD quality requirements.
- Performs systems integration and requirements reviews and audits.

<i>Position</i>	<i>Job Qualifications</i>
Quality/ISO Specialist 5	BS or BA and 12 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Quality/ISO Specialist 4

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the quality and acceptability of design, development and fielding of DoD and commercial systems
- Performs quality functions to include reviewing acquisition, supply chain, Integrated Logistics
- Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Performs quality assurance including maintaining quality records, performing quality audits, and maintaining quality assurance standards to meet evolving industry and DoD quality requirements.
- Supports and performs systems integration and requirements reviews and audits.

<i>Position</i>	<i>Job Qualifications</i>
Quality/ISO Specialist 4	BS or BA and 7 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Quality/ISO Specialist 3

Functional Responsibility (one or more of the following):

- Performs a variety of logistics tasks concerned with the quality and acceptability of design, development and fielding of DoD and commercial systems
- Performs quality functions to include reviewing acquisition, supply chain, Integrated Logistics
- Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Supports quality assurance functions including maintaining quality records, performing quality audits, and maintaining quality assurance standards to meet evolving industry and DoD quality requirements.
- Supports systems integration and requirements reviews and audits.

<i>Position</i>	<i>Job Qualifications</i>
Quality/ISO Specialist 3	BS or BA and 4 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Quality/ISO Specialist 2

Functional Responsibility (one or more of the following):

- Supports and performs a variety of logistics tasks concerned with the quality and acceptability of design, development and fielding of DoD and commercial systems
- Supports and performs quality functions to include reviewing acquisition, supply chain, Integrated Logistics
- Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Supports quality assurance functions, including maintenance of quality records, performance of quality audits, and maintenance of quality assurance standards to meet evolving industry and DoD quality requirements.
- Supports systems integration and requirements reviews and audits.

<i>Position</i>	<i>Job Qualifications</i>
Quality/ISO Specialist 2	BS or BA and 2 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Quality/ISO Specialist 1

Functional Responsibility (one or more of the following):

- Supports and performs a variety of logistics tasks concerned with the quality and acceptability of design, development and fielding of DoD and commercial systems.
- Supports quality functions to include reviewing acquisition, supply chain, Integrated Logistics
- Support, manpower planning, fabrication, supply chain, distribution, and transportation.
- Supports quality assurance functions, including maintenance of quality records, performance of quality audits, and maintenance of quality assurance standards to meet evolving industry and DoD quality requirements.
- Supports systems integration and requirements reviews and audits.

<i>Position</i>	<i>Job Qualifications</i>
Quality/ISO Specialist 1	BS or BA and 0 years experience. Three additional years' experience may be substituted for a BS or BA degree.

Logistics/Business Consultant 6

Functional Responsibility:

- Expert in a specific discipline.
- External to Booz Allen ES, retained as a consultant.
- Performs the most novel, complex, leading-edge tasks.
- Solves high level, difficult and unique problems.
- Makes judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems of very unique and difficult nature

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Business Consultant 6	Ph.D. 15 years experience or Masters Degree and 20 years experience or BS or BA and 25 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Logistics/Business Consultant 5

Functional Responsibility:

- Expert in a specific discipline.
- External to Booz Allen ES, retained as a consultant.
- Performs novel, complex, leading-edge tasks.
- Solves difficult and unique problems.
- Makes judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems of very unique and difficult nature

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Business Consultant 5	Ph.D. 12 years experience or Masters Degree and 15 years experience or BS or BA and 18 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Logistics/Business Consultant 4

Functional Responsibility:

- Expert in a specific discipline.
- External to Booz Allen ES, retained as a consultant.
- Performs complex, leading-edge tasks.
- Solves difficult and unique problems.
- Makes judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems.

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Business Consultant 4	Ph.D. 9 years experience or Masters Degree and 12 years experience or BS or BA and 15 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Logistics/Business Consultant 3

Functional Responsibility:

- Expert in a specific discipline.
- External to Booz Allen ES, retained as a consultant.
- Performs complex, leading-edge tasks.
- Solves difficult and unique problems.
- Provides advice on the resolution of technical, schedule, performance or budgetary problems.

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Business Consultant 3	Ph.D. 6 years experience or Masters Degree and 9 years experience or BS or BA and 12 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Logistics/Business Consultant 2

Functional Responsibility:

- Expert in a specific discipline.
- External to Booz Allen ES, retained as a consultant.
- Solves difficult and unique problems.
- Provides advice on the resolution of technical, schedule, performance or budgetary problems.

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Business Consultant 2	Ph.D. 3 years experience or Masters Degree and 6 years experience or BS or BA and 9 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Logistics/Business Consultant 1

Functional Responsibility:

- Expert in a specific discipline.
- External to Booz Allen ES, retained as a consultant.
- Provides solutions to difficult and unique problems.
- Provides advice on the resolution of technical, schedule, performance or budgetary problems.

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Business Consultant 1	Ph.D. 1 year experience or Masters Degree and 3 years experience or BS or BA and 5 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Director 2

Functional Responsibility:

- Develop, directs, coordinates and controls technical and administrative activities for multiple, complex programs or one large, complex program.
- Supervises program directors in the executions of their programs.
- Reviews and maintains quality of work.
- Reviews and maintains responsibility of program financials.
- Makes critical judgments and provides advice on the resolution of highest level technical, schedule, performance or budgetary problems.

<i>Position</i>	<i>Job Qualifications</i>
Director 2	MS or MA and 15 years experience or BS or BA and 18 years experience.

Director 1

Functional Responsibility:

- Develop, directs, coordinates and controls technical and administrative activities for multiple programs or one large program
- Supervises program managers in the executions of their programs
- Reviews and maintains quality of work
- Reviews and maintains responsibility of program financials
- Makes critical judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Director 1	BS or BA 12 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Manager 2

Functional Responsibility:

- Develop, directs, coordinates and controls technical and administrative activities for one or more complex logistics, acquisition, training, technical, or engineering programs
- Supervises project leaders in the executions of their programs
- Reviews and maintains quality of work
- Reviews and maintains responsibility of program financials
- Makes judgments and provides advice on the resolution of high level technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Manager 2	BS or BA 10 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Manager 1

Functional Responsibility:

- Develop, directs, coordinates and controls technical and administrative activities for one or more logistics, acquisition, training, technical, or engineering programs
- Supervises project leaders in the executions of their programs
- Reviews and maintains quality of work
- Reviews and maintains responsibility of program financials
- Makes judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Manager 1	BS or BA 8 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Project Leader 2

Functional Responsibility:

- Develops, directs, coordinates, administrates, and controls activities for one or more logistics, acquisition, training, technical, or engineering projects
- Provides strategic planning, concept development and requirement analyses, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or training program development and implementation in support of government or commercial programs
- Supervises project teams in the executions of their programs
- Leads the technical project or projects
- Reviews and maintains quality of technical work
- Reviews and maintains responsibility of program financials
- Makes judgments and provides advice on the resolution of high level technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Project Leader 2	BS or BA 6 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Project Leader 1

Functional Responsibility:

- Develops, directs, coordinates, administrates, and controls activities for one or more logistics, acquisition, training, technical, or engineering projects
- Provides strategic planning, concept development and requirement analyses, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or training program development and implementation in support of government or commercial programs
- Supervises project teams in the executions of their programs
- Leads the technical project
- Reviews and maintains quality of technical work
- Reviews and maintains responsibility of program financials
- Provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Project Leader 1	BS or BA 3 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Fellow 2

Functional Responsibility:

- Expert in one or more of the LOGWORLD proposal areas
- Performs strategic planning, concept development and requirement analyses, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or training program development/implementation in support of government or commercial programs
- Performs the most novel, complex, leading-edge tasks
- Solves the most difficult and unique problems.
- Assesses strategic issues with government program managers
- Develops specialized tools, models, or applications for logistics, acquisition, training, or engineering project execution
- Reviews products for quality and contract compliance
- Makes judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Fellow 2	Ph.D. 15 years experience or Masters Degree and 20 years experience or BS or BA and 25 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Fellow 1

Functional Responsibility:

- Expert in one or more of the LOGWORLD proposal areas
- Performs strategic planning, concept development and requirement analyses, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or training program development/implementation in support of government or commercial programs
- Performs complex, leading-edge tasks
- Solves difficult and unique problems.
- Assesses strategic issues with government program managers
- Develops specialized tools, models, or applications for logistics, acquisition, training, or engineering project execution
- Reviews products for quality and contract compliance
- Makes judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Fellow 1	Ph.D. 5 years experience or Masters Degree and 8 years experience or BS or BA and 12 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Principal Professional 2

Functional Responsibility:

- Provides project leadership in support of logistics, acquisition, training, or engineering tasks
- Provides logistics, acquisition, training, engineering, financial, financial programming, managerial, project management, systems development, systems management, or contract management.
- Solves difficult and unique types of technical, management, systems, financial, operations, mission, or analytical problems.
- Develops specialized tools, models, or applications for logistics, acquisition, training, or engineering project execution
- Leads development of LOGWORLD products or specialty products
- Makes high level technical or business judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Principal Professional 2	Masters and 10 years experience or BS or BA and 13 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Principal Professional 1

Functional Responsibility:

- Provides project leadership in support of logistics, acquisition, training, or engineering tasks
- Provides logistics, acquisition, training, engineering, financial, financial programming, managerial, project management, systems development, systems management, or contract management.
- Solves difficult types of technical, management, systems, financial, or analytical problems.
- Develops specialized tools, models, or applications for logistics, acquisition, training, or engineering project execution
- Leads development of LOGWORLD products or specialty products
- Makes technical or business judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Principal Professional 1	Masters and 7 years experience or BS or BA and 10 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Senior Professional 2

Functional Responsibility: (one or more of the following)

- Performs management, financial, engineering, scientific, or analytical functions in support of LOGWORLD tasks
- Provides strategic planning for technology programs, concept development and requirement analyses, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or training program development/implementation in support of government or commercial programs.
- Solves management, financial, engineering, logistics, acquisition, training, systems management, analytical, mission, or technical problems.
- Develops logistics, acquisition, training, or engineering products
- Makes highest level technical and business judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Senior Professional 2	Masters and 5 years experience or BS or BA and 7 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Senior Professional 1

Functional Responsibility: (one or more of the following)

- Performs management, financial, engineering, scientific, or analytical functions in support of LOGWORLD tasks
- Provides strategic planning for technology programs, concept development and requirement analyses, system design/engineering/integration, integrated logistics support, acquisition/life-cycle management, or training program development/implementation in support of government or commercial programs.
- Develops solutions for management, financial, engineering, logistics, acquisition, training, systems management, analytical, mission, or technical problems.
- Develops logistics, acquisition, training, or engineering products
- Makes technical and business judgments and provides advice on the resolution of technical, schedule, performance or budgetary problems

<i>Position</i>	<i>Job Qualifications</i>
Senior Professional 1	Masters and 3 years experience or BS or BA and 5 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Engineering/Support Professional 2

Functional Responsibility: (one or more of the following)

- Performs logistics, acquisition, training, technical, or engineering, scientific, or analytical functions
- Provides strategic planning for logistics and training programs, concept development and requirement analyses, or training program development/implementation in support of government or commercial programs.
- Provides support in solving logistics, acquisition, training, or 1 engineering technical and support problems.
- Supports the development of technical and support products

<i>Position</i>	<i>Job Qualifications</i>
Engineers/ Support 2	BS or BA and 3 years experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 3 years experience.

Engineering/Support Professional 1

Functional Responsibility: (one or more of the following)

- Performs logistics, acquisition, training, technical, or engineering, scientific, or analytical functions
- Supports the provision of strategic planning for logistics and training programs, concept development and requirement analyses, or training program development/implementation in support of government or commercial programs.
- Provides support in solving logistics, acquisition, training, or 1 engineering technical and support problems.
- Supports the development of technical and support products

<i>Position</i>	<i>Job Qualifications</i>
Engineers/ Support 1	BS or BA and 1 year experience. Five additional years' experience may be substituted for a BS or BA degree. An MS or MA degree may be substituted for 1 years experience

Co-Op 3 [PES]

Functional Responsibility:

- Assist senior level personnel in providing engineering, scientific, or analytical support tasks

<i>Position</i>	<i>Job Qualifications</i>
CO-OP 3	BS or BA and 0 years experience

Co-Op 2 [PES]

Functional Responsibility:

- Assist senior level personnel in providing engineering, scientific, or analytical support tasks, with general supervision

<i>Position</i>	<i>Job Qualifications</i>
CO-OP 2	HS, 45 credit hours, and 0 years experience

Co-Op 1 [PES]

Functional Responsibility:

- Entry level - Assist senior level personnel in provide engineering, scientific, or analytical support tasks, with general supervision

<i>Position</i>	<i>Job Qualifications</i>
CO-OP 1	0 years experience

Administrative/Product Support 10

Functional Responsibility: (one or more of the following)

- Provides Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of graphics, documents, or products.
- Prepares final technical and scientific reports
- Prepares basic and complex spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 10	BS or BA and 12 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Administrative/Product Support 9

Functional Responsibility: (one or more of the following)

- Provides Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of graphics, documents, or products.
- Prepares final technical and scientific reports
- Prepares basic and complex spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 9	BS or BA and 10 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Administrative/Product Support 8

Functional Responsibility: (one or more of the following)

- Provides Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of graphics, documents, or products.
- Prepares technical and scientific reports
- Prepares basic spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 8	BS or BA and 7 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Administrative/Product Support 7

Functional Responsibility: (one or more of the following)

- Provides Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of graphics, documents, or products.
- Prepares technical and scientific reports
- Prepares basic spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 7	BS or BA and 5 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Administrative/Product Support 6

Functional Responsibility: (one or more of the following)

- Provides Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of graphics, documents, or products.
- Prepares technical and scientific reports
- Prepares basic spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 6	BS or BA and 3 years experience. Five additional years' experience may be substituted for a BS or BA degree.

Administrative/Product Support 5

Functional Responsibility: (one or more of the following)

- Provides Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of graphics, documents, or products.
- Prepares final technical and scientific reports
- Prepares basic spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 5	HS and 6 years experience

Administrative/Product Support 4

Functional Responsibility: (one or more of the following)

- Provides Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of graphics, documents, or products.
- Prepares final technical and scientific reports
- Prepares basic spreadsheets
- Establish and maintain office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 4	HS and 5 years experience

Administrative/Product Support 3

Functional Responsibility: (one or more of the following)

- Provides Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of basic graphics, documents, or products.
- Prepares final technical and scientific reports, with guidance
- Prepares basic spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 3	HS and 2 years experience

Administrative/Product Support 2

Functional Responsibility: (one or more of the following)

- Provides entry-level Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of basic graphics, documents, or products.
- Prepares final technical and scientific reports, with guidance
- Prepares basic spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 2	HS and 0 years experience

Administrative/Product Support 1

Functional Responsibility: (one or more of the following)

- Provides entry-level Administrative and Clerical Support to Managers, Engineers, Logisticians, Trainers, and Analysts
- Responsible for coordinating the development of basic graphics, documents, or products.
- Prepares final technical and scientific reports, with guidance
- Prepares basic spreadsheets
- Establishes and maintains office files
- Skilled with Micro-soft Office

<i>Position</i>	<i>Job Qualifications</i>
Administrative/ Product Support 1	0 years experience

Logistics/Manufacturing Engineering Technician 10

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks
- Performs a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving difficult acquisitions, logistics, or engineering technical problems.
- Providing technician support to logistics, acquisitions, or engineering tasks

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 10	BS or BA and 12 years experience. Five additional years experience may be substituted for a BS or BA degree.

Logistics/Manufacturing Engineering Technician 9

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks
- Performs a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving difficult acquisitions, logistics, or engineering technical problems.
- Providing technician support to logistics, acquisitions, or engineering tasks

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 9	BS or BA and 10 years experience. Five additional years experience may be substituted for a BS or BA degree.

Logistics/Manufacturing Engineering Technician 8

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks
- Supports a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving difficult acquisitions, logistics, or engineering technical problems.
- Providing technician support to logistics, acquisitions, or engineering tasks

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 8	BS or BA and 7 years experience. Five additional years experience may be substituted for a BS or BA degree.

Logistics/Manufacturing Engineering Technician 7

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks
- Supports a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving difficult acquisitions, logistics, or engineering technical problems.
- Providing technician support to logistics, acquisitions, or engineering tasks

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 7	BS or BA and 5 years experience. Five additional years experience may be substituted for a BS or BA degree.

Logistics/Manufacturing Engineering Technician 6

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks
- Supports a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving difficult acquisitions, logistics, or engineering technical problems.
- Provides technician support to logistics, acquisitions, or engineering tasks

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 6	BS or BA and 3 years experience. Five additional years experience may be substituted for a BS or BA degree.

Logistics/Manufacturing Engineering Technician 5

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks with general supervision
- Supports a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving difficult acquisitions, logistics, or engineering technical problems.
- Providing technician support to logistics, acquisitions, or engineering tasks

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 5	HS and 6 years experience

Logistics/Manufacturing Engineering Technician 4

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks with general supervision
- Supports a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving difficult acquisitions, logistics, or engineering technical problems with general supervision.
- Providing technician support to logistics, acquisitions, or engineering tasks

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 4	HS and 5 years experience

Logistics/Manufacturing Engineering Technician 3

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks with general supervision
- Supports a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving acquisitions, logistics, or engineering technical problems with supervision.
- Providing technician support to logistics, acquisitions, or engineering tasks

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 3	HS and 2 years experience

Logistics/Manufacturing Engineering Technician 2

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks with supervision
- Supports a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving acquisitions, logistics, or engineering problems with supervision.
- Providing technician support to logistics, acquisitions, or engineering tasks.

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech 2	HS and 0 years experience

Logistics/Manufacturing Engineering Technician 1

Functional Responsibility:

- Performs “hands-on” engineering, scientific, or analytical functions in support of tasks with supervision
- Supports a variety of logistics functions to include warehousing, packaging, shipping, manufacturing, and maintaining, repairing, and operating facilities and/or equipment
- Provides technician support in solving acquisitions, logistics, or engineering problems with supervision.
- Providing technician support to logistics, acquisitions, or engineering tasks with supervision.

<i>Position</i>	<i>Job Qualifications</i>
Logistics/Manufacturing Engineering Tech	1—0 years experience
