Archimedes Global, Inc. Labor Category Rates .................................................................12
CUSTOMER INFORMATION

1a. Table of Awarded Special Item Number(s):
   SINs:  541611; 541611RC
         OLM; OLMRC

1b. Identification of the lowest priced model number and lowest unit price for that model for each special
item number awarded in the contract. See page 12.

1c. Hourly rates and a description of all corresponding commercial job titles, experience, functional
responsibility and education for those types of employees or subcontractors who will perform
services can be found on pages 5-12.

2. Maximum Order: $1,000,000.00

3. Minimum Order: $100.00

4. Geographic Coverage (delivery Area): Worldwide

5. Point(s) of production (city, county, and state or foreign country): Wesley Chapel, Florida

6. Discount from list prices or statement of net price: Prices are Government net prices (discounts already
deducted). See Attachment.

7. Quantity discounts: None Offered

8. Prompt payment terms: 0% Net 30 days. "Information for Ordering Offices: Prompt payment terms cannot be
negotiated out of the contractual agreement in exchange for other concessions

9. Foreign items (list items by country of origin): None

10a. Time of Delivery (Contractor insert number of days): Specified on the Task Order

10b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted
in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its
price list that have expedited delivery: Contact Contractor

10c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery is available.
Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight
and 2-day delivery: Contact Contractor

10d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its
contract and advise agencies that they can also contact the Contractor’s representative to affect a faster
delivery.

11. F.O.B Points(s): Destination
12a. Ordering Address:
   ATTN: Order Processing
   Archimedes Global, Inc.
   29139 Chapel Park Drive, Unit D, Wesley Chapel, FL 33543-4423

Labor Category Descriptions

1. Systems Analyst
   Duties: Applies knowledge of and experience with technological, programmatic, program management or business fields to support the analysis of moderately complex systems engineering, systems technology, support systems, program management, management or other related programs.

   Minimum Education and Experience Requirements:
   BS: 4 years of experience in general systems analysis

2. Senior Systems Analyst
   Duties: Applies knowledge of and experience with technological, programmatic, program management or business fields to support the analysis of complex systems engineering, systems technology, support systems, program management, management or other related programs.

   Minimum Education and Experience Requirements:
   BS: 6 years of experience in general systems analysis

   Duties: Uses a wide application of principles, theories, concepts, and techniques to develop innovative solutions to problems. Provides expert advice, assistance, or guidance in support of programs and projects. Applies expert knowledge to gather facts, research and analyze the data, and develop conclusions and recommendations.

   Minimum Education and Experience Requirements:
   Expert in one of the following areas: strategic planning, cost/benefit analyses, process improvement, and risk mitigation. May have authored and published articles or books in field of expertise. Masters: 2 years of experience in related subject / technology being addressed

4. Subject Matter Expert
   Duties: Uses a wide application of principles, theories, concepts, and techniques to develop innovative solutions to problems. Provides expert advice, assistance, or guidance in support of programs and projects. Applies expert knowledge to gather facts, research and analyze the data, and develop conclusions and recommendations.

   Minimum Education and Experience Requirements:
   Expert in one of the following areas: strategic planning, cost/benefit analyses, process improvement, and risk mitigation. May have authored and published articles or books in field of expertise. Masters: 9 years of experience in related subject / technology being addressed

5. Subject Matter Expert Sr.
   Duties: Uses a wide application of principles, theories, concepts, and techniques to develop innovative solutions to problems. Provides expert advice, assistance, or guidance in support of programs and projects. Applies expert knowledge to gather facts, research and analyze the data, and develop conclusions and recommendations.

   Minimum Education and Experience Requirements:
   Expert in one of the following areas: strategic planning, cost/benefit analyses, process improvement, and risk mitigation. May have authored and published articles or books in field of expertise.
6. **Logistics Analyst**

**Duties:** Works with customers and funding personnel to ensure appropriate funding is available to meet logistics requirements. This analyst is an expert in logistics management and equipment and database management and has extensive experience in creating logistic support.

**Minimum Education and Experience Requirements:**
Expert in one of the following areas: strategic planning, cost/benefit analyses, process improvement, and risk mitigation. May have authored and published articles or books in field of expertise.
BS: 2 years of experience in Business, Accounting, Engineering, Science, or other related field.

7. **TechInt Analyst Mid-Level**

**Duties:** Develops, processes, and evaluates TECHINT data, and produces prototype TECHINT exploitation and signature reports, products and databases. They support the development of associated systems which acquire TECHINT data to include, but are not limited to, seismic, acoustic, infrasound, very low frequency and extremely low frequency electromagnetic sources. In addition, they participate in scientific panel reviews of ongoing and new technology developments pertaining to TECHINT capabilities.

**Minimum Education and Experience Requirements:**
Expert in one of the following areas: strategic planning, cost/benefit analyses, process improvement, and risk mitigation. May have authored and published articles or books in field of expertise.
BS in geophysics, physics, or an engineering discipline: 3 years of experience in geophysical Technical Intelligence (TECHINT), processing, exploiting, and or analyzing data from the following sources, including, but not limited to, seismic, acoustic, infrasound, very low frequency and extremely low frequency electromagnetic sources. (Task Orders will specify the actual disciplines.)

8. **TechInt Analyst Senior Level**

**Duties:** develops, processes, and evaluates TECHINT data, and produces prototype TECHINT exploitation and signature reports, products and databases. They support the development of associated systems which acquire TECHINT data to include, but are not limited to, seismic, acoustic, infrasound, very low frequency and extremely low frequency electromagnetic sources. In addition, they participate in scientific panel reviews of ongoing and new technology developments pertaining to TECHINT capabilities.

**Minimum Education and Experience Requirements:**
Masters in geophysics, physics, or an engineering discipline: 7 years of experience in geophysical Technical Intelligence (TECHINT), processing, exploiting, and or analyzing data from the following sources, including, but not limited to, seismic, acoustic, infrasound, very low frequency and extremely low frequency electromagnetic sources. (Task Orders will specify the actual disciplines.)

9. **Project Manager**

**Duties:** Directs, coordinates and exercises supervisory authority for planning, organizing, controlling, integrating and completing projects. Develops and establishes procedures and guidelines for daily operation of assigned program. Executes and implements program directives and develops systems and controls to carry out program tasks. Determines work schedules, sets priorities and implements procedures for performing work activities. Directs and monitors work results for meeting customer requirements, specifications and quality assurance standards. Evaluates performance of assigned program tasks in terms
of quality, cost control and program schedules.

**Minimum Education and Experience Requirements:**
Expert in one of the following areas: strategic planning, cost/benefit analyses, process improvement, and risk mitigation. May have authored and published articles or books in field of expertise.
BS: 5 years of experience in general project management.

**10. Sr. Business Consultant**
**Duties:** Manages tasks or contracts for a single customer and is responsible for technical, management, and cost performance. Performs work in a variety of operational areas or in a single consulting area.

**Minimum Education and Experience Requirements:**
Expert in one of the following areas: strategic planning, cost/benefit analyses, process improvement, and risk mitigation. May have authored and published articles or books in field of expertise.
BS in Business, Accounting, Information Technology, Math, or other related field: 8 years of experience in Business, Information Technology, Accounting, Math, or other related field.

**11. Business Consultant I**
**Experience:** Must have at least 2 years experience in Business, Accounting, Engineering, Science, or other related field.
**Duties:** Works under supervision facilitating working groups and sessions, designing schedules, conducting analyses, developing models, writing reports, preparing presentations and presenting results.

**Minimum Education and Experience Requirements:**
Expert in one of the following areas: strategic planning, cost/benefit analyses, process improvement, and risk mitigation. May have authored and published articles or books in field of expertise.
BS in Business, Accounting, Engineering, Science, or other related field: 2 years of experience in Business, Accounting, Engineering, Science, or other related field.

**12. Sr Tech Systems Expert**
**Duties:** Thorough knowledge of complex geographic or functional area(s) or issue(s). Working knowledge of clandestine, technical, and overt collection capabilities and methods and the relationship of intelligence gaps. Working knowledge of the role of HUMINT collection relative to Intelligence Community efforts. Working knowledge of traditional and non-traditional information sources. Understanding of the operational environment, HUMINT tradecraft and CI awareness, application of collection tools and the laws and regulations governing operational activities. Demonstrated ability to research, analyze prioritize effectively, problem solve, synthesize large amounts of data/information, and to work several tasks concurrently with minimum supervision. Demonstrated ability to apply tradecraft to protect and safeguard agents, operations and equities.

**Minimum Education and Experience Requirements:**
Technical Intelligence (TECHINT), processing, exploiting, and/or analyzing data from the following sources, including, but not limited to, seismic, acoustic, infrasound, very low frequency and extremely low frequency electromagnetic sources. (Task Orders will specify the actual disciplines.)
**Masters in geophysics, physics, or an engineering discipline:** 7 years of experience in geophysical Technical Intelligence (TECHINT), processing, exploiting, and/or analyzing data from the following sources, including, but not limited to, seismic, acoustic, infrasound, very low frequency and extremely
low frequency electromagnetic sources. (Task Orders will specify the actual disciplines.)

13. Senior Intelligence Analyst

Duties: Manage and provide specialized intelligence and threat analysis and production support. Access and perform research on designated automated intelligence databases for the purpose of identifying information of interest to the customer, down-loading the identified information to an appropriate medium and editing the production of their staff and ensuring it is in the format(s) to be specified by the customer. Provides intelligence and threat analysis of the information that is tailored to the customer’s requirements. Provides leadership and guidance to lower level employees. Serves as the functional point of contact with the government COTR and the COTR’s technical monitors on site for submission of production and reports.

Minimum Education and Experience Requirements:
Masters: 10 years of professional experience.

14. Program Manager

Duties: Directs, coordinates, and exercises supervisory authority for planning, organizing, controlling, integrating and completing programs. Develops and establishes procedures and guidelines for daily operation of assigned program. Executes and implements program directives and develops systems and controls to carry out program tasks. Determines work schedules, sets priorities and implements procedures for performing work activities. Directs and monitors work results for meeting customer requirements, specifications and quality assurance standards. Evaluates performance of assigned program tasks in terms of quality, cost control and program schedules.

Minimum Education and Experience Requirements:
BS: 12 years of experience in general program management.

15. Senior Military Analyst

Duties: Provides technical and analytical leadership to develop, coordinate, review and assess how space systems capabilities can be integrated into coherent, effective and efficient architectures to satisfy Army battlefield requirements. Provides input to the Project Leader and the Program Manager on which an analysis of technologies is made. Analyzes findings and advocates issues and priorities on space-related planning and requirement documents and proposals. Conducts and directs both short-term and long range planning efforts to analyze, assess, and integrate space systems into the full range of Army plans, exercises, operations and activities. Spends some time on demonstration sites, travels to the sponsor’s site to provide briefings on the status of particular demonstration events or portions of the overall program. Is extremely knowledgeable of space systems and military applications of space systems and has a working knowledge of ground operations.

Minimum Education and Experience Requirements:
PhD: 5 years direct experience and application in space and missile defense systems, military applications of space and missile defense systems, and working knowledge of ground operations. Specialist in military operations and two or more of the designated space and missile defense disciplines.

16. Principal Scientist

Duties: Lead multidisciplinary research or analytical programs for the design and execution of research and analytical projects. Provides strategic consulting to client senior leadership.

Minimum Education and Experience Requirements:
PhD: 10 years of applicable experience.

17. **Senior Scientist**

**Duties:** Lead multidisciplinary research or analytical projects for the design and execution of research and analytical projects. Provides strategic consulting to client senior leadership.

**Minimum Education and Experience Requirements:**
PhD: 4 years of applicable experience.

18. **Scientist**

**Duties:** Lead multidisciplinary research or analytical teams for the design and execution of research and analytical projects.

**Minimum Education and Experience Requirements:**
BS: 3 years of applicable experience.

19. **Researcher**

**Duties:** Provide research and analytical support for the execution of research and analytical projects.

**Minimum Education and Experience Requirements:**
BS: 1 years of applicable experience.

20. **Research Assistant**

**Duties:** Provide research and analytical assistance for the execution of research and analytical projects.

**Minimum Education and Experience Requirements:**
HS Degree: 3 years of applicable experience

21. **Research Director**

**Duties:** Lead multidisciplinary teams for the design and execution of research and analytical projects. Provides strategic consulting to client senior leadership.

**Minimum Education and Experience Requirements:**
Masters: 8 years of applicable experience in a research, analytical or consulting discipline

22. **Research Analyst - Lead**

**Duties:** Provide research and analytical support for the execution of research and analytical projects.

**Minimum Education and Experience Requirements:**
BS: 12 years of applicable experience in a research, analytical or consulting discipline

23. **Research Analyst – Senior**

**Duties:** Provide research and analytical support for the execution of research and analytical projects.

**Minimum Education and Experience Requirements:**
BS: 8 years of applicable experience in a research, analytical or consulting discipline.
24. Research Analyst – Mid-Level
Duties: Provide research and analytical support for the execution of research and analytical projects.

Minimum Education and Experience Requirements:
BS: 6 years of applicable experience in a research, analytical or consulting discipline.
