Prices Shown Herein are Net (Discount Deducted)
Price List Current through Modification #PA-0020, effective March 22, 2021

For more information on ordering from Federal Supply Schedules, go to the GSA Schedules page at GSA.gov.
CUSTOMER INFORMATION

1a. Awarded Special Item Number(s): OLM, 541620 and 562910REM

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract: SIN 541620 and 562910REM $43.65 Administrative/Clerical Support and Laborer.

1c. Description of all corresponding commercial job titles, experience, functional responsibility, and education for those types of employees or subcontractors who will perform services shall be provided. See descriptions in subsequent pages.

2. Maximum Order: $1,000,000.

4. Geographic Coverage (Delivery Area): Worldwide

5. Point(s) of production (city, county, and State or foreign country): 15 Park Avenue, Gaithersburg, MD 20877; 8382 Terminal Road, Suite B Lorton, VA 22079; 7483 Candlewood Rd, Hanover, MD 21076

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: None Offered.

8. Prompt payment terms: Net 30 Days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items (list items by country of origin): None.

10a. Time of Delivery: Specified in the task order.

10b. Expedited Delivery: Contact Contractor.

10c. Overnight and 2-day Delivery: Contract Contractor.

10d. Urgent Requirements: Contact Contractor.

11. FOB Point: Destination.

12a. Ordering address: 15 Park Avenue, Gaithersburg, MD 20877.

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address: 15 Park Avenue, Gaithersburg, MD 20877

15. Export packing charges, if applicable: N/A.

16. Terms and conditions of rental, maintenance, and repair: N/A.

17. Terms and conditions of installation: N/A.

18. Terms and conditions of repair parts: N/A.

19. Terms and conditions for any other services: N/A.

20. List of service and distribution points: N/A.

21. List of participating dealers: N/A.

22. Preventive maintenance: N/A.

23a. Environmental attributes, e.g., Recycled content, energy efficiency, and/or reduced pollutants: N/A.

23b. Section 508 N/A

25. Notification regarding registration in System of Award Management (SAM) database: Registered; CAGE Code 1YC68.
ABOUT TOTAL ENVIRONMENTAL CONCEPTS, INC.

Total Environmental Concepts, Inc. (TEC) has offered quality solutions to a wide range of environmental issues since its founding in 2000.

TEC personnel have expertise in all aspects of environmental science, geology, planning, facilitation, and remediation and are on the cutting edge of industry practices. Our goal is to enable clients to make the best possible decisions while maintaining compliance with environmental regulations.

Our strongest resource is our professional team of geologists, industrial hygienists, scientists, technicians, and project managers who combine real world experience and extensive knowledge of environmental regulations to provide effective solutions for our clients. Our focus is to deliver results on time and to the highest industry standards.

TEC maintains industry certifications and has affiliations with the following organizations:

- Academy of Certified Hazardous Materials Managers (ACHMM)
- Hazardous Materials Control Research Institute (HMCRI)
- National Ground Water Association (NGWA)
- Associated Builders and Contractors (ABC)
- American Board of Industrial Hygiene
- Association of Engineering Geologists (AEG)

TEC is active in the industry, and its technicians, project managers and executive team members are encouraged to continuously acquire training, certifications, and licenses to better serve its customers and stay current on industry developments.
TEC has extensive experience with commercial, federal, state, and local governments in the following aspects of environmental consulting and remediation services:

Environmental Consulting Services
- Environmental Program and Project Management
- Safety Program Management
- Phase I and Phase II Environmental Site Assessments
- Spill Prevention Control and Countermeasure Plans
- Environmental Management Plans
- Environmental Management Systems / ISO 14000
- Site Investigations for RCRA/CERCLA Sites
- Multi-Media Sampling
- Feasibility Studies
- Waste Management Plans
- Asbestos and Lead Surveys, Assessments and Abatement Plans
- Waste Minimization/Pollution Prevention

Remediation and Reclamation Services
- Emergency Response Cleanup
- Underground/Aboveground Storage Tank (UST/AST) Removal
- In situ and Ex situ Remediation System Design, Installation, Operation and Maintenance
- Air Monitoring
- Site Characterization/Field Investigation
- Contaminated Soil/Hazardous Waste Excavation and Disposal
- Asbestos and Lead Abatement Plans and Monitoring

| **CERTIFIED PROFESSIONAL GEOLOGIST**   | **Duties/Responsibilities:** Responsible for final review/approval of designs, reports, plans, and specifications. Responsible for preparing reports, plans and specifications for complex projects, including Site Characterization, Corrective Action Plans (CAP) modeling, and remediation budgets. Has experience in technical and managerial roles and substantial expertise in remediation of complex sites. Familiar with field concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May supervise or direct the work of lower-level professional staff. A wide degree of creativity is expected. Typically reports to Principal or Program Manager.  
  - Oversees large and complex projects  
  - Prepares SCR and CAPs Final review of technical reports and CAPs  
  - Develops project budgets  
  - Performs equipment specification review, selection, and design  
  - Performs hydrogeologic and contaminate modeling  
  - Conducts data review and analysis |
|                                        | **Experience Requirements:** Minimum of eight (8) years of related experience of which five (5) must be supervisory or management experience. **Education Requirements:** BA/BS degree in engineering, geology, or other related science from an accredited college or university. **Additional:** Professional registration, Certification or Master’s degree preferred. |
| **PROJECT MANAGER I** | **Duties/Responsibilities**: Responsible for managing remediation projects and controlling project budgets. Serves as on-site technical expert. Analyzes and interprets data, supervises field tests, and may prepare limited or certain technical sections of reports. Supervises the work of lower level professional and technical staff. Field hours are normally limited to periodic site visits. Responsible for organizing activities for the development, implementation, and maintenance of projects. Reports to Program Manager or Senior Professional.  
• Project management  
• Report Preparation - Limited or certain technical sections  
• Project budget oversight  
• Data review and analysis  
• Field work planning  
• Work plan preparation  
• On-site direction, coordination, and management  
• Coordinate with agency, client, and subcontractors  
• Periodic site inspection  
• Acquire site access | **Experience Requirements**: Minimum of (4) years of related experience of which two (2) must be in project management duties. Must have health and safety training.  
**Education Requirements**: BA/BS degree in engineering, geology, or other related science from an accredited college or university. As an alternative, two (2) years of experience working in assigned technical discipline may be substituted for one (1) year of education (i.e., eight (8) years’ experience is equivalent to a bachelor’s degree). |
| **GEOLOGIST/ENVIRONMENTAL SCIENTIST II** | **Duties/Responsibilities**: Works under appropriate supervision when performing all but routine field tasks related to the project. Performs monitoring well installation and sampling. Writes field notes, aids in geological mapping, and basic geological analysis. Assists with reports preparation only under supervision/review. Performs limited data review and analysis. May supervise lower-level technical personnel. Substantial number of hours are typically for field work. Reports to Project Manager.  
• Field work preparation  
• Limited data review and analysis  
• Remediation system installation assistance | **Experience Requirements**: Four (4) years minimum experience.  
**Education Requirements**: BA/BS degree in engineering, geology, or other related science from an accredited college or university. |
| **GEOLOGIST/ENVIRONMENTAL SCIENTIST I** | **Duties/Responsibilities:** Works under appropriate supervision when performing all but routine field tasks related to the project. Performs monitoring well installation and sampling. Writes field notes, aids in geological mapping, and basic geological analysis. Assists with reports preparation only under supervision/ review. Performs limited data review and analysis. May supervise lower level technical personnel. Substantial number of hours are typically for field work. Reports to Project Manager.  
- Field work preparation  
- Limited data review and analysis  
- Remediation system installation assistance  |
| **Experience Requirements:** Entry level position, zero (0) years’ experience.  
**Education Requirements:** BA/BS degree in engineering, geology, or other related science from an accredited college or university. |
| **ENVIRONMENTAL TECHNICIAN I** | **Duties/Responsibilities:** Performs routine tasks such as soil and ground water monitoring, well bailing, and supporting roles for Senior Technician. Hours are for fieldwork reports to Project Manager or Senior Technician.  
- Well development  
- Waste handling  
- Sampling and monitoring  
- Decontamination |
| **Experience Requirements:** Minimum of one (1) year of experience and completion of OSHA HAZWOPER training.  
**Education Requirements:** Trade School Degree in a relevant field from an accredited college or university. As an alternative, high school diploma with certification or license as a tradesman |
