Service Contract Act (SCA)

Service Contract Act (SCA) Matrix		
SCA Eligible Contract Labor Category	SCA Equivalent Code - Title	WD Number
Clerical	01312 - Secretary II	2005-2103
<p>The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.</p>		
<p>We understand that escalation for the SCA labor categories will be governed by only the escalation clause 552.216-70 in our contract.</p>		
<p>Prices for the SCA labor categories meet or exceed those in Wage Determination No.2005-2103, Revision 13, dated 06/19/2013.</p>		

BCS, Inc. Labor Categories

Principal Associate I - Provide management oversight of business operations and organizational teams, and/or provide senior level assistance with construction management and engineering-related problems and projects.

Knowledge/Skills Requirements - Experience - 18 years experience in the field of engineering, architecture or construction management. Bachelor's and Master's degrees in engineering or architecture field; professional engineering, architectural or relevant license. In lieu of license and/or degree, may have 25 years of experience.

Senior Project Manager - Directly manage complex and/or large construction projects, or manage a team of project managers. Responsibilities include coordinating among all team members and key stakeholders, preparing budget updates, performing design reviews, developing master project schedules, and leading progress and/or teaming meetings.

Knowledge/Skills Requirements - Experience - 15 years experience in the field of engineering, architecture or construction management. Bachelor's degree in an engineering, architecture or construction management field; professional license in area of expertise. In lieu of license and/or degree, may have 20 years of experience.

Project Manager - Directly manage mid-size and smaller construction projects. Responsibilities include coordinating among all team members and key stakeholders, preparing budget updates, performing design reviews, developing master project schedules, and leading progress and/or teaming meetings.

Knowledge/Skills Requirements - Experience - 10 years experience in the field of engineering, architecture or construction management. Bachelor's degree in an engineering, architecture or construction management field; professional license in area of expertise preferred but not required. In lieu of 10 years experience, may have five years of relevant experience with a professional license or certification.

Assistant Project Manager - Assist the Project Manager or Senior Project Manager to manage construction projects. Responsibilities include tracking budget and schedule status, developing reports as directed, leading job site tours and/or escorting contractors or clients as needed, and attending progress and/or teaming meetings.

Knowledge/Skills Requirements - Experience - 2 years experience in the field of engineering, architecture or construction management. Bachelor's degree in a technical field. In lieu of degree, may have five years of relevant experience.

Senior Scheduler - Prepare master project schedules for new construction and major renovations. May occasionally provide schedules for minor alterations. Schedules should be computerized and based on a scheduling software accepted by industry, such as Primavera, Timberline or Microsoft Project. Submissions will include the appropriate level of detail.

Knowledge/Skills Requirements - Experience - 15 years experience in the field of construction project scheduling, or in a field that requires scheduling on a regular basis. Bachelor's degree in an engineering, architecture or construction management field; professional license in area of expertise. In lieu of license, may have 20 years of experience.

Scheduler - Prepare master project schedules for new construction, major renovations and minor alterations. Schedules should be computerized and based on a scheduling software accepted by industry, such as Primavera, Timberline or Microsoft Project. Submissions will include the appropriate level of detail.

Knowledge/Skills Requirements - Experience - 10 years experience in the field of construction project scheduling, or in a field that requires scheduling on a regular basis. Bachelor's degree in an engineering, architecture or construction management field; professional license in area of expertise is preferred but not required. In lieu of degree, may have 15 years of experience.

Clerical - Provide administrative duties as assigned by and to assist the project staff. Typical duties may include preparing and monitoring the job site visitor log, and preparing computerized spreadsheets and Word files.

Knowledge/Skills Requirements - Experience - 2 years experience providing clerical or administrative services. High School diploma or GED required. No certification required. Must be knowledgeable of commonly used computer software programs such as Microsoft Excel and Microsoft Word.
