**Schedule Title: Environmental Services, FSC Group: 899**  
**Contract No. GS-10F-0290P**  
**Special Item Number: 899-1, 899-1RC (Recovery Item)**

**Bear West** has served Utah, Rocky Mountain, and national clients in planning, environmental impact, community involvement, and policy services since 1985. With legal, planning, and policy expertise and experience, Bear West successfully addresses complex, multi-jurisdictional matters, committing ourselves to finding solutions and achieving winning results for all participants.

Bear West consults in all aspects of National Environmental Policy Act (NEPA) projects, from small environmental assessments to large environmental impact statements. Attention to quality and defensibility of processes and documents characterizes Bear West work. Bear West works on large EISs that involve tens of thousands of comments and complex scientific analysis and jurisdictional settings, and small EAs that can be completed in a few months.

A distinguishing characteristic of Bear West's work is collaboratively involving the community from the beginning to the end of projects with the clear objective of listening to all concerns, addressing issues, finding common ground, and achieving winning results. Working with a client from the beginning of a planning process, Bear West can draw on a wide array of techniques from the experience of hundreds of processes and thousands of public meetings to create successful public involvement results. At times Bear West is included in projects solely to draw on its public involvement expertise and experience.

From its inception Bear West has been called upon to analyze policy issues, particularly in the fields of public lands, natural resources,

environmental, land-use, and water. With lawyers and planners who have served at all levels of government and the private sector, Bear West assists clients in understanding policy issues, options, and how to achieve change or seek resolution and consensus. Bear West has also used its extensive experience with government to assist clients in achieving their goals in legislative and executive actions. Efforts have included strategic planning, legislative drafting, educating decision makers, and advice.

### **Environmental Planning Services and Documentation Under SIN 899-1**

Providing superior services since 1985, Bear West has established itself as a top-tier choice for agencies and companies in need of environmental planning services and documentation. The specific services we offer under this SIN include:
