1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. Not Applicable

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

1. **Principal Architect:**
   Functional Duties: Responsible for establishing uniformly high production standards for all design and contract documents. Must be thoroughly familiar with entire architectural process and should possess managerial capability to lead and direct activities of all project-team personnel while monitoring technical production on all projects to insure adherence to quality standards at high productivity. Requires professional registration.
   Education Requirements: Bachelors
   Required Years of Experience: 15 years
   Certification: Registered/Licensed Architect

2. **Architect IV**
   Functional Duties: Prepare and negotiate agreements with clients. Prepare internal budgets for projects. Participate in design presentations. Meet project schedule milestones. Maintain client communication relating to project scope, scheduling, invoicing and to prepare contract changes and supplemental agreements. Provides third party technical expertise to resolve problems, disputes and scheduling of work and to prepare contract changes and supplemental reports and agreements. Has primary responsibility for the review of budgeting, scheduling, planning, design, specification, and working drawings. Reviews calculation, designs, specifications and documents of other architects and technicians for accuracy and completeness. Requires professional registration.
   Education Requirements: Bachelors
   Required Years of Experience: 7 years
   Certification: Registered/Licensed Architect
3. **Architect III**
   **Functional Duties:** Participate in design presentations. Meet project schedule milestones. Maintain client communication relating to project scope, scheduling, invoicing and to prepare contract changes and supplemental agreements. Provide technical expertise to resolve problems, disputes and scheduling of work and to prepare contract changes and supplemental reports and agreements. Has responsibility for the review of budgeting, scheduling, planning, design, specification, and working drawings. Reviews calculation, designs, specifications and documents of other architects and technicians for accuracy and completeness. Registration preferred, but breadth of individual experience may replace registration.
   **Education Requirements:** Bachelors
   **Required Years of Experience:** 7 years
   **Certification:** None

4. **Architect II**
   **Functional Duties:** Defines scope of project with responsibility for interpreting, organizing, budgeting, scheduling, planning, design, specification, and working drawings on a given project. Selects problems for investigation to develop new approaches and solutions to architectural problems in consultation with Architect III.
   **Education Requirements:** Bachelors
   **Required Years of Experience:** 5 years
   **Certification:** None

5. **Architect I**
   **Functional Duties:** Compiles data, performs design computations, makes quantity takeoffs and prepares estimates, prepares architectural plans and renderings (using AutoCAD/3-D), consults manufacturers, evaluates materials, writes architectural specifications, and inspects architectural drawings in conjunction with client needs and zoning and building codes. Works directly under the supervision of more professional architects.
   **Education Requirements:** Bachelors
   **Required Years of Experience:** 0 years
   **Certification:** None

6. **Principal Engineer**
   **Functional Duties:** Provides consulting services including supervision to assure that the technical, administrative, man-hour, and schedule targets of personnel are met within framework of established corporate or organizational policy and in accordance with applicable professional engineering standards, design-control procedures, and corporate or organizational procedures and guidelines. Requires professional licensure.
   **Education Requirements:** Bachelors
   **Required Years of Experience:** 15 years
   **Certification:** Registered/Licensed Engineer

7. **Engineer IV**
   **Functional Duties:** Responsible for overall profitability of all projects, the supervision and professional development of staff and timely execution of all engineering projects. Client management and quality assurance/quality control of project deliverables is a priority as well as insuring that all subcontractors comply with local, state and federal regulations. Applies advanced engineering concepts and techniques to problems including developing and evaluating plans and criteria for new projects, weighing alternatives and evaluating cost-effective solutions. In addition, this employee is responsible for the general oversight of other personnel on the design and drafting of preliminary engineering plans and insurance of timely execution of all projects. Requires professional licensure.
8. **Engineer III**
   
   **Functional Duties:** Responsible for profitability of assigned projects, and timely execution. Works with client management and ensures quality assurance/quality control of project deliverables is a priority as well as insuring that all subcontractors comply with local, state and federal regulations. Competency in conventional engineering work and has a broad knowledge of precedents while working under the supervision of a technical manager. Prepares engineering designs and drafting of preliminary plans. May prepare and/or review cost and man-hour estimates, specific job budgets and schedules. Normally requires registration, but breadth of individual experience may replace registration.

   **Education Requirements:** Bachelors  
   **Required Years of Experience:** 7 years  
   **Certification:** None

9. **Engineer II**
   
   **Functional Duties:** Responsible for the supervision and timely execution of assigned projects as well as overseeing and conducting preliminary design, reporting and/or field activities on engineering projects. Must manage a budget per project pricing schedule. Diversified knowledge of engineering principles and practices to broad variety of assignments and related fields. Makes decisions independently regarding engineering complexities and methods. Supervision and guidance relate largely to overall objectives, critical issues, new concepts, and policy matters. Consults with supervisor concerning unusual problems and developments.

   **Education Requirements:** Bachelors  
   **Required Years of Experience:** 5 years  
   **Certification:** None

10. **Engineer I**
    
    **Functional Duties:** Applies technical knowledge to the investigation of engineering problems and the coordination of project activities. Conducts design, reporting, and/or field activities and evaluates the results from quality control testing. Applies knowledge of engineering principles and practices under the periodic review of more experienced professionals as it relates to a broad variety of assignments and related fields. Consults with supervisor concerning unusual problems and developments.

    **Education Requirements:** Bachelors  
    **Required Years of Experience:** 0 years  
    **Certification:** None

11. **CADD Designer**
    
    **Functional Duties:** Develops, organizes and prepares a variety of highly complex layouts, drawings and designs from written or verbal specifications, or from rough or detailed sketches and/or drawings made by technical professionals converting paper documents into computerized files. Uses CAD to design, redesign, modify or edit existing designs. Performs mathematical calculations necessary to complete simple and more advances or complex design tasks. Checks final designs on screen to verify completeness, clarity and accuracy of drawing. Assists other technicians in troubleshooting various drawings and problems.

    **Education Requirements:** Associates degree  
    **Required Years of Experience:** 5 Years  
    **Certification:** None
12. **CADD Technician II**
   **Functional Duties:** Transforms initial rough product designs using computer aided design (CAD) into working documents. Reviews engineering drawing and designs to ensure adherence to established specifications and standards. Performs mathematical calculations necessary to complete simple design tasks. Has knowledge of commonly used concepts, practices, and procedures within a particular field.
   **Education Requirements:** Associates degree
   **Required Years of Experience:** 3 Years
   **Certification:** None

13. **CADD Technician I**
   **Functional Duties:** Works under immediate supervision in learning capacity. Makes minor mathematical calculations. Prepares initial layouts, drawings and designs from detailed sketches and/or drawings made by technicians, designers or technical professionals converting paper documents into computerized files. Typically has little experience, performs simple CAD deliverables and drafting services.
   **Education Requirements:** High School
   **Required Years of Experience:** 0 Years
   **Certification:** None

14. **Principal Geologist**
   **Functional Duties:** Responsible for technical expertise in geology and/or hydrogeology with a focus on hazardous waste site, remediation and site closure; remedial investigations and feasibility studies; hydrogeologic investigations including groundwater investigations, contaminant assessment, aquifer characterization and contaminant migration analysis; soil and groundwater remediation; and Phase I/Phase II assessments. Overall profitability of projects, staffing to meet profitability goals, the supervision and professional development of staff and timely execution of all projects. Client management and quality assurance/quality control of project deliverables is a priority as well as insuring that all subcontractors comply with local, state and federal regulations. In addition, is responsible for the general oversight and insurance of timely execution of all projects.
   **Education Requirements:** Bachelors
   **Required Years of Experience:** 15 years
   **Certification:** Registered/Licensed Geologist

15. **Geologist IV**
   **Functional Duties:** Technical expertise in geology and/or hydrogeology with a focus on hazardous waste site, remediation and site closure, remedial investigations and feasibility studies, hydrogeologic investigations including groundwater investigations, contaminant assessment, aquifer characterization and contaminant migration analysis, soil and groundwater remediation, and Phase I/Phase II assessments. Requires professional registration.
   **Education Requirements:** Bachelors
   **Required Years of Experience:** 7 years
   **Certification:** Registered/Licensed Geologist

16. **Geologist III**
   **Functional Duties:** Has full responsibility and authority to execute a project with a focus on hazardous waste site, remediation and site closure; remedial investigations and feasibility studies; hydrogeologic investigations including groundwater investigations, contaminant assessment, aquifer characterization and contaminant migration analysis; soil and groundwater remediation; and Phase I/II assessments, both within the firm and in its relationship with the client. In addition to completing project tasks, this individual typically participates in marketing the project, setting fees, and negotiating contracts (including additional services) Making commitments for the firm with its clients, and being responsible for contracting and
billing matters. Normally requires registration, but breadth of individual experience may replace registration.

**Education Requirements:** Bachelors  
**Required Years of Experience:** 7 years  
**Certification:** None

17. **Geologist II**  
**Functional Duties:** Responsible for managing and completing projects with a focus on hazardous waste site, remediation and site closure; remedial investigations and feasibility studies; hydrogeologic investigations including groundwater investigations, contaminant assessment, aquifer characterization and contaminant migration analysis; soil and groundwater remediation; and Phase I/II assessments in the firm. This position differs from the senior geologist position largely due to less responsibility for marketing and contract negotiations. Typically, this individual does not participate very much in marketing a project, establishing fees, or making significant commitments to the client.

**Education Requirements:** Bachelors  
**Required Years of Experience:** 5 years  
**Certification:** None

18. **Geologist I**  
**Functional Duties:** Responsible for conducting field sampling, per regulatory agency regulations; report preparation for submittal to client and/or regulatory agency; Phase I/II ESA field work; soil/groundwater testing. Will complete projects as assigned with direct oversight by supervisor and may perform other duties as assigned. Conducts a variety of standardized tests by preparing test specimens, setting up and operating standard test equipment, and recording test data.

**Education Requirements:** Bachelors  
**Required Years of Experience:** 0 years  
**Certification:** None

19. **Principal Certified Industrial Hygienist**  
**Functional Duties:** Responsible for Technical expertise in Industrial Hygiene related technical deliverables; technical work scopes. Provides technical assistance on industrial hygiene practices, procedures and issues to other staff. Performs on-site complex, technical industrial hygiene surveys and sampling. Develops, implements, and maintains comprehensive health and safety plans for project-specific needs. Overall profitability of projects, staffing to meet profitability goals, the supervision and professional development of staff and timely execution of all projects. Client management and quality assurance/quality control of project deliverables is a priority as well as ensuring that all subcontractors comply with local, state and federal regulations. In addition, is responsible for the general oversight and insurance of timely execution of all projects.

**Education Requirements:** Bachelors  
**Required Years of Experience:** 15 years  
**Certification:** Certified Industrial Hygienist
20. **Industrial Hygienist IV**  
**Functional Duties:** Reviews Industrial Hygiene related technical deliverables; technical work scopes. Provides technical assistance on industrial hygiene practices, procedures and issues to other staff. Performs on-site complex, technical industrial hygiene surveys and sampling. Develops, implements and maintains comprehensive Health and Safety Plans for project-specific needs. Requires professional registration.  
**Education Requirements:** Bachelors  
**Required Years of Experience:** 7 years  
**Certification:** Certified Industrial Hygienist

21. **Industrial Hygienist III**  
**Functional Duties:** Has full responsibility and authority to execute a project, both within the firm and in its relationship with the client. In addition to completing project tasks, this individual typically participates in marketing the project, setting fees, and negotiating contracts (including additional services) Making commitments for the firm with its clients, and being responsible for contracting and billing matters.  
**Education Requirements:** Bachelors  
**Required Years of Experience:** 7 years  
**Certification:** None

22. **Industrial Hygienist II**  
**Functional Duties:** Responsible for managing and completing projects with a focus on industrial hygiene services. Performs on-site industrial hygiene sampling, surveys, and assessment, in addition to assembling project deliverables, which include recommendations.  
**Education Requirements:** Bachelors  
**Required Years of Experience:** 5 years  
**Certification:** None

23. **Industrial Hygienist I**  
**Functional Duties:** Responsible for conducting field sampling. Will complete projects as assigned with direct oversight by supervisor and may perform other duties as assigned. Conducts a variety of standardized tests by preparing test specimens, setting up and operating standard test equipment, and recording test data.  
**Education Requirements:** Associates degree  
**Required Years of Experience:** 0 years  
**Certification:** None

24. **Administrative IV**  
**Functional Duties:** Primary responsibility is to coordinates administrative aspects of office and to ensure that the office is working efficiently. Will supervise or direct the work activities of the clerical, secretarial, and other related administrative-support positions. Position normally reports to an executive in the company.  
**Education Requirements:** High School  
**Required Years of Experience:** 7 years  
**Certification:** None
25. **Administrative III**  
**Functional Duties:** Responsible for providing administrative support to all levels of the organization by performing such duties as client contact, preparing correspondence, reports, proposals, organizing meetings, making travel arrangements, and providing marketing support.  
**Education Requirements:** High School  
**Required Years of Experience:** 7 years  
**Certification:** None

26. **Administrative II**  
**Functional Duties:** Responsible for providing administrative support to all levels of the organization by performing such duties as client contact, preparing correspondence, reports, proposals, organizing meetings, making travel arrangements, and providing marketing support.  
**Education Requirements:** High School  
**Required Years of Experience:** 5 years  
**Certification:** None

27. **Administrative I**  
**Functional Duties:** Responsible for providing administrative support to all levels of the organization by performing duties such as client contact, preparing correspondence, reports, proposals, organizing meetings, making travel arrangements, answering multi-line phone and providing marketing support. Will complete assignments as assigned with direct oversight by supervisor and may perform other duties as assigned.  
**Education Requirements:** High School  
**Required Years of Experience:** 0 years  
**Certification:** None

2. Maximum order: $1,000,000
3. Minimum order: $100
4. Geographic coverage (delivery area). Domestic
5. Point(s) of production (city, county, and State or foreign country). Tampa, Hillsborough County, FL
6. Discount from list prices or statement of net price. Government Net Prices (discounts already deducted.)

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
