

SETTING THE STANDARD FOR SERVICE IS THE FOUNDATION OF OUR BUSINESS

Founded in 1988, Engineering Consulting Services, Ltd. (ECS) has grown to be among the top engineering firms in the United States as ranked in *Engineering News-Record (ENR)* with a staff of over 900 employees. We are committed to providing quality service and maintaining positive relationships with our clients.

At ECS, we understand the need to manage your environmental risk, in a cost effective way that will meet or exceed regulatory requirements. ECS utilizes sound environmental techniques to create innovative solutions and cost savings options for even the most challenging environmental conditions.

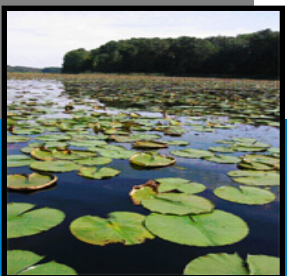

The U.S. General Services Administration (GSA) contracts provide convenient access for all United States government agencies to the variety of environmental services ECS offers. The GSA Advantage™ website (www.GSAAdvantage.gov) provides access to online ordering, terms and conditions and current pricing information. A sample of services we can provide are described below.

ENVIRONMENTAL CAPABILITIES

- Phase I Environmental Site Assessments
- Phase II Environmental Site Assessments
- Brownfield permitting and development
- Cultural resource and archeological studies
 - Wetlands delineation and permitting
- Asbestos and lead-based paint management studies
 - Indoor air quality assessments
 - Regulatory compliance and permitting
 - Solid waste planning and design
- UST compliance inspection and management
 - Building condition assessments

Setting the Standard for Service

Services and Fee Schedule

Environmental Due Diligence Services

- Phase I Environmental Site Assessments (Phase I ESAs)
- Wetland and Stream Determination and Delineation
- Phase II Environmental Site Assessments (Phase II ESAs)
- Underground Storage Tank (UST) Assessments and Closures
- Endangered Species Assessments
- Historical and Cultural Surveys / Assessments
- Radon Sampling
- Asbestos Surveys and Abatement Design
- Lead Based Paint Surveys and Abatement Design
- Microbial and Indoor Air Quality Assessments
- Vapor Intrusion Assessments

WETLANDS - ECS coordinates with our clients and the local and federal regulatory agencies to perform wetland delineations, mitigation and permitting. ECS wetland scientists can efficiently guide our clients through the permitting process in the most cost effective manner.

ASBESTOS/LEAD - ECS provides asbestos and lead-based paint management services associated with property transactions, renovation, and demolition projects. If asbestos containing materials or lead-based paint are identified, ECS works with our clients to evaluate innovative alternatives and cost-saving options for the project.

INDOOR AIR QUALITY - ECS provides indoor air quality testing and evaluation to include mold or fungal assessments as a part of property transactions, renovation and demolition activities. ECS can also provide the Indoor Air Quality testing in accordance with the standards set by the United States Green Building Council in order to obtain LEED credits.
