Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation, SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™, and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a value determination. CIBER has established the following subcontracting goals with respect to subcontracting activity in support of this FSS Schedule Contract:

Category	Goal % of Total Subcontracting Dollars
Small Business (All Types)	39%
Small Disadvantaged	6%
Woman-owned	5%
HUBZone	3%
Service-disabled veteran owned	3%
Veteran-owned	2%

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

Contractors are required to accept the government purchase card for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Government purchase cards will be necessary to perform the requisite IT Services.
