Metlakatla Indian Community	US General Services Administration
Microsystems Integration	US Marine Corps
NV Energy	US Navy
National Training Center	Utah Department of Environmental Quality
Nevada Geothermal Specialists	Utah Department of Transportation
NOAA	Veterans Administration
Pacific Gas and Electric	Wohnrade Civil Engineers, Inc.

Client Testimonials & Past Performance

Client satisfaction is our top priority. The following are representative samples of recent commendations.

“Both John and David (EMPSi) are highly responsive to clients. They are excellent at identifying client’s key issues and developing effective, efficient solutions. And they are, perhaps most importantly, excellent communicators, which benefits projects in countless ways from ensuring the client is aware of progress and issues, to ensuring the project stays on schedule and on budget. I respect and appreciate the work they have done for the Coast Guard and highly recommend them.”

Dean Amundson, US Coast Guard

“Have delivered by far the best environmental impact documents of any consultant this office has had over the years. They understand our goals and focus on meeting the ultimate objective, avoiding getting bogged down in endless details or tangents. They have proven very flexible, able to adapt to ever-changing project conditions and schedules that are a part of any real project. They have always been responsive, supportive, constructive, and honest. I would not hesitate to work with them again.”

John H. Kennedy, U.S. Navy, Naval Facilities Engineering Command

“I have worked with David Batts on several projects (EA and EIS level) over the past eight years and have had some of my overall career successes with those projects. David and company have always been available, professional, timely, and willing to help find cost-saving ways of doing business.”

Terry Knutson, US Bureau of Land Management

“I have had a working relationship for over 3 years and have been very pleased with the reports received.”

Marsha Carra, US Bureau of Reclamation

“Thanks for all of the hard work, sharp thinking and great writing from all of you.”

– Wyndy Rausenberger

US Bureau of Land Management, Washington, DC Office

“One of the greatest assets associated with the long-term working relationship with David and Angie is that I can always count on an accurate account of what is actually happening on the project. Their input is always valued and I received nothing but true professionalism.... they work very well with my customers. I can always count on them to do the right thing to help keep my customers focused and moving forward.”

– Donald Foote, US Bureau of Land Management

Contracting Officer

National Business Center

Client Testimonials & Past Performance

“I have thought a lot about our journey together over the past 18 months as we round the turn into the final lap with the finish line in sight. As veterans of many projects, I know that everyone has gone into ‘Kick’ mode and transitioned into a sprint to the finish. All too often, however, we forget that in order to be positioned to make the final sprint, you all had to perform, persevere, excel, endure and overcome unforeseen challenges. We will cross the finish line together. What an amazing team. I am honored to be running with you. Thank you.”

– Jack Peterson, US Bureau of Land Management, Project Manager

“EMPSi’s performance on the joint Kremmling / Glenwood Springs Field Office RMP revision thus far has been superb.”

**– Brain Hopkins, COR,
US Bureau of Land Management**

“EMPSi is very easy to work with and is very accommodating to the needs of the BLM.”

**– Joe Stout, COR,
US Bureau of Land Management**

“..... The work I've seen from you and your group has been exceptional. ”

**– Mel Meier,
NEPA Coordinator
US Bureau of Land Management Nevada State Office**

“I was in a meeting today with RADM Breckenridge and she was effusive about the responsiveness and quality of support provided for this NEPA effort. Kudos to your staff for their contributions.”

**– Pat Ryan
