Click on the FSS Schedules button at <http://www.gsa.gov/schedules-ordering>

# **GENERAL SERVICES ADMINISTRATION**

## Federal Acquisition Service Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order is available through GSA Advantage!<sup>TM</sup>, a menu-driven database system. The INTERNET address for GSA Advantage!<sup>TM</sup> is: <http://www.GSAAdvantage.gov>.

## **CUSTOMER INFORMATION**

1. Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers: 871-1, 871-1RC, 871-2, 871-2RC, 871-3, 871-3RC, 871-4, 871-4RC, 871-5, 871-5RC, 871-6, 871-6RC.
  - a. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.
  - b. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not applicable" for this item.
2. Maximum Order: **\$1,000,000.00**
3. Minimum Order: **\$100.00**
4. Geographic Coverage (delivery Area): **Domestic only**

5. Point(s) of production (city, county, and state or foreign country): **Same as company address**
6. Discount from list prices or statement of net price: Government net prices (discounts already deducted). **See Price List.**
7. Quantity discounts: **0.5% on task orders exceeding \$1,000,000.00**
8. Prompt payment terms: **1% 15 days; Net 30 days**
9. Notification that Government purchase cards are accepted up to the micro-purchase threshold: Yes
  - a. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: will accept over \$3,000.00
10. Foreign items (list items by country of origin): None
11. Time of Delivery (Contractor insert number of days): Specified on the Task Order
  - a. Expedited Delivery. The Contractor will insert the sentence "Items available for expedited delivery are noted in this price list." under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery: Contact Contractor
  - b. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: Contact Contractor
  - c. Urgent Requirements. The Contractor will note in its price list the "Urgent Requirements" clause of its contract and advise agencies that they can also contact the Contractor's representative to effect a faster delivery: Contact Contractor
12. F.O.B Points(s): Destination
13. Ordering Address(es): Same as Contractor
  - a. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's), and a sample BPA can be found at the *GSNFS* Schedule homepage ([fss.gsa.gov/schedules](http://fss.gsa.gov/schedules)).
14. Payment address(es): Same as company address
15. Warranty provision: Contractor's standard commercial warranty.

16. Export Packing Charges (if applicable): **N / A**
17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): **Contact Contractor**
18. Terms and conditions of rental, maintenance, and repair (if applicable): **N / A**
19. Terms and conditions of installation (if applicable): **N / A**
20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): **N / A**
  - a. Terms and conditions for any other services (if applicable): **N / A**
21. List of service and distribution points (if applicable): **N / A**
22. List of participating dealers (if applicable): **N / A**
23. Preventive maintenance (if applicable): **N / A**
24. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants: **N / A**
  - a. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: [www.Section508.gov](http://www.Section508.gov).
25. Data Universal Numbering System (DUNS) number: **78-1989751**
26. Notification regarding registration in Central Contractor Registration (CCR) database: **Registered.**
27. Service Contract Act (SCA) statement per PS0028 SF30 Continuation Document:

"The Service Contract Act (SCA) is applicable to this contract and as it applies to the entire 00CORP Professional Services Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29CFR 5413.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and/or when the Contractor adds SCA labor categories / employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and applicable wage determination (WD) number. Failure to do so may result in cancellation of the contract."

Labor Category	Minimum Degree	Minimum Yrs Exp	Education Field	Substitution Degree + Yrs	Functional Description
Program Manager	BS	10	CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS + 7	Shall be capable of the following: Performing planning and scheduling, progress reporting cost control, organization and manpower planning, developing work breakdown structures, performing risk analysis, quality assurance & control. Keeps customer informed on ongoing technical /administrative concerns, possesses excellent communications skills. The Program Manger is responsible for multiple projects or has responsibility for a very large/complex project.
Technical Project Manager	BS	10	CS, IS, Eng, Bus, or other related Sci or Tech discipline	.	The Technical Project Manager provides normal project management functions including technical leadership, quality assurance, and decision-oriented recommendations. Keeps customer informed on ongoing technical /administrative concerns, possesses excellent communications skills
Project Manager II	BA/BS	5	CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS+3	Shall be capable of the following: Performing planning and scheduling, progress reporting cost control, organization and manpower planning, developing work breakdown structures, performing risk analysis, quality assurance & control. Keeps customer informed on ongoing technical /administrative concerns, possessing excellent communications skills. The Project Manger is responsible for one project.
Subject Matter Expert	BS	15	CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS +10 PhD + 7	Must be recognized leader in his or her field. Responsibilities include design, review, implementation and analysis of discrete elements of a program. Provides leadership, historical perspective, and guidance to policy development, authors final reports, makes presentations to high level managers/stakeholders, and contributes expertise to other program elements as required.
Senior Subject Matter Expert III	BS/BA	12	Can range from expertise in scientific or engineering field to explosive detection equipment installation designing.	MS + 10	Must be recognized leader in his or her field. Responsibilities include design, review, implementation and analysis of discrete elements of a program. Provides leadership, historical perspective, and guidance to policy development, authors final reports, makes presentations to high level managers/stakeholders, and contributes expertise to other program elements as required
Senior. Subject Matter Expert V	BS	20	CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS + 17 PhD + 14	Must be recognized leader in his or her field. Responsibilities include design, review, implementation and analysis of discrete elements of a program. Provides leadership, historical perspective, and guidance to policy development, authors final reports, makes presentations to high level managers/stakeholders, and contributes expertise to other program elements as required
Intermediate I Scientist/Engineer/Systems Analyst	BS	3	CS, IS, Eng, or other related Sci or Tech discipline	MS + 1	Module design, requirements analysis, cost performance trade-off analysis, feasibility analysis, compliance support, technology conceptual designs and special studies and analysis, prototype development, first article testing, simulation and modeling, quality assurance, training.
Intermediate II Scientist/Engineer/Systems Analyst	BS	5	CS, IS, Eng, or other related Sci or Tech discipline	MS +3	Systems design, requirements analysis, cost performance trade-off analysis, feasibility analysis, compliance support, technology conceptual designs and special studies and analysis, prototype development, first article testing, simulation and modeling, quality assurance, training.
Scientist	BS	5	CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS +2	Provides technical expertise in the relevant scientific field in support of program operations or system development. Applies scientific expertise in defining and resolving system issues, performance analysis, and developing plans and requirements in the subject matter area of complex systems. Coordinates and manages the preparation of analyses, evaluations and recommendations for proper implementation.

**Global Systems Technologies Inc**

An Associate degree in an appropriate discipline plus 4 years experience shall equal a Bachelors degree.

**Key:**

**GST Labor Categories**

Sr. Scientist	BS	10	CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS+10	Performs the functions of a technical expert in the relevant scientific field in support of major programs or system development. Applies scientific expertise in defining and resolving system issues, performance analysis and developing plans and requirements in the subject matter area of complex systems. Coordinates and manages the preparation of analysis, evaluations and recommendations for proper implementation of programs and systems
Sr. Specialist	HS	20	CS, IS, Eng, Bus, or other related Sci or Tech discipline	BS+5	Functions as technical expert in the relevant scientific field in support of major programs or system development. Applies scientific expertise in defining and resolving system issues, performance analysis and developing plans and requirements in the subject matter area of complex systems. Coordinates and manages the preparation of analyses, evaluations, and recommendations for implementation.
Senior I Scientist/Engineer/Systems Analyst	BS	8	CS, IS, Eng, or other related Sci or Tech discipline	MS + 5	Systems engineering test and development, performs tasks that include, but not limited to, requirements analysis, cost/cost performance trade-off analysis, feasibility analysis, regulatory compliance support, technology conceptual designs, and special studies and analyses, prototype development, first article testing, simulation and modeling, quality assurance, training.
Senior Cert Scientist/Engineer/Systems Analyst	BS	10	CS, IS, Eng, or other related Sci or Tech discipline	MS + 7	Systems engineering test and development, performs tasks that include, but not limited to, requirements analysis, cost/cost performance trade-off analysis, feasibility analysis, regulatory compliance support, technology conceptual designs, and special studies and analyses, prototype development, first article testing, simulation and modeling, quality assurance, training.
Engineer	BS	4	CS, IS, Eng, Bus, or other related Sci or Tech discipline	AS+7 MS + 2	Tasks include, but not limited to: module design, requirements analysis, cost performance trade-off analysis, feasibility analysis, compliance support, technology conceptual designs and special studies and analysis, prototype development, first article testing, simulation and modeling, quality assurance, training.
Human Factors Engineer	BS	5	CS, IS, Eng, Psych, or other related Sci or Tech discipline	MS +2	Reviews/designs man/machine interactions. Performs typical associated task that include, but not are limited to, interface design, usability & requirements analyses, cost/cost performance trade-off analysis, feasibility analysis, regulatory compliance support, technology conceptual designs, and special studies and analyses, prototype development, human subject experimentation, simulation and modeling, quality assurance, training.
Engineer, Senior	BS	8	CS, IS, Eng, Bus, or other related Sci or Tech discipline	PhD + 0 MS +7	Supervise systems engineering test and development, technical efforts and performs typical associated task that include, but not limited to, requirements analysis, cost/cost performance trade-off analysis, feasibility analysis, regulatory compliance support, technology conceptual designs, and special studies and analyses, prototype development, first article testing, simulation and modeling, quality assurance, training.
Intermediate I Computer Scientist/Systems Analyst	BS/BA	3	CS, IS, Math, Eng, or other related Sci or Tech discipline	MS +1	Computer engineering and computer systems analysis , computer science and software engineering. A computer scientist working in Engineering Systems (ES) domains primarily focus on physical multiple sensor and communications systems, real time and safety, while the software engineer would focus on database related workflow of the design.
Intermediate II Computer Scientist/Systems Analyst	BS/BA	5	CS, IS, Math, Eng, or other related Sci or Tech discipline	MS + 2 PhD +0	Computer engineering and computer systems analysis , computer science and software engineering. A computer scientist working in Engineering Systems (ES) domains primarily focus on physical multiple sensor and communications systems, real time and safety, while the software engineer would focus on database related workflow of the design.
Senior Cert Computer Scientist/Systems Analyst	BS/BA	10	CS, IS, Math, Eng, or other related Sci or Tech discipline	MS + 7 PhD + 5	Provides leadership in specified discipline within computer engineering and computer systems analysis , computer science and software engineering. Typically the real time, safety critical, safety & security orientation of the Engineering Systems domain vs. The administrative systems domain. These domains are related and do overlap.
Intermediate I IT Analyst	BS/BA	3	CS, IS, Math, Eng, or other related Sci or Tech discipline	MS +1	These Analysts provide engineering support services in facilities operations and support; storage systems analysis, design testing, and administration; server system data collection, design/test and administration; database analysis, design/test, administration; website analysis, design/test, and administration; web application analysis, design/test and administration; LAN analysis, design/test and administration; user support planning, operations and administration; and related IT systems functions.

Intermediate II IT Analyst	BS/BA	5	CS, IS, Math, Eng, or other related Sci or Tech discipline	MS + 2 PhD +0	These Analysts provide engineering support services in facilities operations and support; storage systems analysis, design testing, and administration; server system data collection, design/test and administration; database analysis, design/test, administration; website analysis, design/test, and administration; web application analysis, design/test and administration; LAN analysis, design/test and administration; user support planning, operations and administration; and related IT systems functions.
Senior Certified IT Analyst	BS/BA	10	CS, IS, Math, Eng, or other related Sci or Tech discipline	MS + 7 PhD + 5	Technical Certification in specialized area. Provides leadership and assures compliance with best practices in ; storage systems, test, and administration; server system analysis, /test and administration; database analysis, design/test, administration; website analysis, design/test, and administration; web application analysis, design/test and administration; LAN analysis, design/test and administration; user support planning and operations.
Int I Technical Writer	BS/BA	3	Lib Arts, CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS +1	Creates documents and presentations by reading and analyzing highly technical materials. This may be specifications, drawings, user manuals, presentations, reports, or training documents.
Technical Writer/Editor	BS/BA	5	Lib Arts, CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS +3 PhD +0	Develops and writes technical proposal and documentation which effectively support business operations. Plan and design, writes edits, proof-reads, and produces a variety of technical publications and documents to ensure all final reports are clear, concise and accurate.
Int I Acquisition/ Procurement/Contract/Analyst	BS/BA	3	Lib Arts, CS, IS, Eng, Bus, or other related Sci or Tech discipline	MA + 1	Initiates, analyzes, and processes contractual actions and procurements with emphasis on system engineering life cycle support. Decomposes engineering requirements into design artifacts.
Int II Acquisition/ Procurement/Contract/Analyst	BS/BA	5	Lib Arts, CS, IS, Eng, Bus, or other related Sci or Tech discipline	MA +3	Initiates, analyzes, and processes contractual actions and procurements with emphasis on system engineering life cycle support. Decomposes engineering requirements into design artifacts.
Senior Acquisition/ Procurement/Contract/Analyst	BS/BA	8	Lib Arts, CS, IS, Eng, Bus, or other related Sci or Tech discipline	MA + 5	Initiates/edits, evaluates and processes acquisition documents for high value contractual actions and procurements. Collaborates with requestors/designers to ensure accuracy of requirements.
Senior II Acquisition/Procurement/Contract/Analyst	BS/BA	15	Lib Arts, CS, IS, Eng, Bus, or other related Sci or Tech discipline	MA + 12 PhD + 10	Manages/advises in the implementation and management of major acquisitions and high value contractual actions. Collaborates with requestors/designers to plan acquisition strategy and ensure accuracy of requirements.
Int II Business/ Financial/Management/Analyst	BS/BA	5	Lib Arts, CS, IS, Eng, Bus, or other related Sci or Tech discipline	MA +3	Management analyst provides business management functions such as engineering project estimates and budgeting. Oversight and monitoring of engineering progress/status.
Int II Trainer/Training Material Specialist	BS/BA	5	Lib Arts, CS, IS, Eng, Bus, or other related Sci or Tech discipline	MS +3	These are specialists in creating and delivering training documentation and/or specialist in education, in teaching, and in creating structured lesson plans and formal training programs. These are not the technical experts who generate the more technical portion of the documents
Laboratory Technician	AA	1	Chem CS, IS, Eng, or other related Sci or Tech discipline	BA + 0	Provides technical assistance in engineering and scientific research, development, testing, and related activities. Performs under close supervision go from detailed procedures. May construct simple equipment or parts and service equipment/instruments. Conducts standardized tests, prepares test specimens, sets up test equipment, and records test data.
Engineering Technician	AA	8	CS, IS, Eng, Bus, or other related Sci or Tech discipline	BA + 2	Provides technical assistance in engineering and scientific research, development, testing, and related activities. Maintains, repairs, inspects, troubleshoots, or programs systems, equipment or components.
