Overview

Signature Science, LLC's General Services Administration Environmental Services Federal Supply Schedule (GSA Schedule 899) offers our clients a streamlined, simple contracting vehicle for procuring services offered on Contract No. GS-10F-0484P. GSA, established by the 1949 Federal Property and Administrative Services Act, provides federal agencies with the work environment, products, technology, and other services needed to meet their goals.

GSA Schedule 899 makes it easy for our federal customers to acquire technical advisory services. Under contract to GSA, Signature Science provides these services on a delivery-order basis at pre-negotiated prices. We can perform environmental consulting services that assist government agencies in meeting their environmental and technical needs, including expert advice and assistance through studies, analyses, and documentation of results. We have experience in the private and Government sectors, as well as expertise in working on activities where security clearances are required.

Special Item Numbers Awarded on Contract No. GS-10F-0484P

SIN 899-1: Environmental Consulting Services

Signature Science provides experience in a variety of environmental consulting areas, including but not limited to:

- Reviewing requirements and identifying program "gaps" or "holes"
- Performing site surveys
- Developing sampling plans and Quality Assurance Project Plans
- Collecting, documenting, and shipping samples
- Documenting on-site activities
- Performing sample analysis
- Reviewing and interpreting data
- Preparing reports
- Risk Analysis
- Project Management
- Homeland Security
- Permitting Services

We provide assistance in the area of regulatory analyses and in the preparation, review, and presentation of materials for public meetings and hearings. Our capabilities include expertise in domestic and federal regulations. In addition, Signature Science provides broad-based QA oversight and quality management programs. We are skilled in statistical data analysis and interpretation, experimental design, documentation review (e.g., SOPs, QAPPs), laboratory

audits/assessments, performance evaluation and round-robin study designs, and report preparation. We will provide extensive experience in support of environmental needs.

Additionally, Signature Science provides a variety of environmental compliance services to both commercial and government clients. We offer a comprehensive selection of services to address environmental regulations and policies directed toward control and prevention of air, water, and land pollution at federal facilities. Our philosophy is to focus on the client's facility as a whole and develop management and compliance plans to meet all applicable environmental regulations and to establish appropriate surveys and audit procedures to assess compliance to those regulations. When possible, operational approaches and/or process modifications are designed for pollution prevention.

About Signature Science

The core scientific staff of Signature Science, LLC began working together in 1991 as the Special Environmental Services Unit of Radian International. Signature Science was formed in March 2001 as a subsidiary of the Southwest Research Institute. Since then, this group of scientists and engineers have, along with new additions to the company, established themselves as nationally recognized experts in technical areas directly related to antiterrorism, homeland security, and CBRNE counterproliferation.
