Company Overview:

Facility Engineering Associates (FEA) specializes in solving problems with existing facilities. We are dedicated to providing outstanding service and value to our clients. FEA's engineers and facility management consultants are tuned to the driving forces and specific needs of federal, state, and municipal facility managers. Whether your needs are related to Federal Real Property Management, energy audits or executive orders, our experience can help you implement best practices.

We offer diagnostic engineering services in building and property condition assessment, facility management, repair and restoration, building instrumentation and monitoring, and environmental consulting. FEA provides consulting engineering services to a variety of property and facility managers in government agencies and departments to help to maintain facility assets.

MOBIS Contract GS-10F-0514N

Service Contract Act: The Service Contract Act (SCA) is applicable to this contract as it applies to the entire 874: MOBIS Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and / or when the Contractor adds SCA labor categories / employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
