The Mihalik Group Overview

The Mihalik Group, LLC (TMG), a health care consulting company and small business concern is a nationally recognized and respected consulting firm that offers an array of accreditation related professional and technical services. TMG has extensive experience and skill with government medical facilities, dating to our founding in 1994. We work exclusively in the health care industry. Our clients are both private sector and public sector (including federal and state government) health care and related organizations such as hospitals, ambulatory care facilities, long term care facilities, behavioral health organizations, health care networks, managed care organizations, managed behavioral health care organizations.

Over its history, the company has built a devoted customer base. We work exclusively in the health care industry and today have more than 100 current clients. Our company's philosophy has remained unchanged for more than 23 years since its establishment by Dr. Mihalik: offer the client the best possible service, quality and value. TMG provides custom solutions for health care improvement to clients in all settings throughout the health care continuum and aims to consistently exceed customer expectations.

TMG designs consulting services, products and programs based on the company's experience, health care changes, and most importantly on each organization's needs. TMG's consulting services also include education on The Joint Commission and NCQA standards and surveys, mock surveys, survey preparation, utilization management, quality management and improvement, and educational services.

SIN #874-1 Integrated Consulting Services include:

Joint Commission Standards and Surveys Consulting

TMG's Joint Commission consultants have the expertise, training and latest information about Continuous Survey Readiness, Readiness Assessment, Priority Focus Process, Medication Management, Patient Safety Goals, Tracer Methodology, Sentinel Events Environment of Care, Life Safety and Root Cause Analysis. The group of Joint Commission consultants includes:

- Recent TJC surveyors,
- Former members of the TJC's central office,
- Individuals with practical experience in a variety of health care settings.
- Former military personnel.
- Health Care personnel with experience and knowledge of DoD and Department of Veterans Affairs' culture and network organizational structure.

TMG's Joint Commission consultants can assist with all of your TJC survey preparation needs from the Periodic Performance Review through a Readiness Assessment (aka mock surveys), and can support your organization's efforts to continually maintain compliance with Joint Commission standards via the Continuous Survey Readiness Program.

The Mihalik Group has assisted numerous federal and state health care organizations with TJC survey preparation and education, including. One client organization, recognized for the excellence of its quality improvement program, was featured in a book published by the Joint Commission.

NCQA Standards and Surveys Consulting

TMG's consulting team has intimate knowledge of the NCQA standards in addition to hands-on operational and extensive consulting experience in both regional and national managed care and managed behavioral healthcare organizations. TMG's Readiness Assessment is a collaborative, educational, and consultative approach to prepare an organization for an NCQA survey. It is interactive, provides extensive education for key staff, assesses each standard and results in a detailed report that can become the basis for an organization-wide action plan.

The Mihalik Group has assisted numerous organizations with NCQA survey preparation and education. TMG has a proven track record of successful survey outcomes. Surveyors often complement TMG's clients about their survey preparation, especially the clarity of their written materials when prepared according to TMG's unique style.

Utilization Management Consulting

Utilization management consulting is provided by TMG's team of health care consultants who have extensive experience and training in all aspects of utilization management. TMG understands the difficulties confronted by direct care practitioners and treatment facilities trying to ensure that their patients receive safe and appropriate care while utilizing resources wisely. The Mihalik Group can assist health care organizations with utilization management through a variety of customized consulting activities, including:

- Analyzing historical and current use of services at each level of care.
- Detecting patterns of use by practitioner, diagnosis, DRG or RUG, including cost analysis.
- Comparing an organization's utilization patterns to normative data.
- Structuring and implementing utilization management programs and committees.
- Identifying sources of administrative, medical necessity, emergency room and pharmaceutical denials and developing plans to reduce avoidable sources of denied claims.
- Designing and implementing a Denials Management Program including an effective appeals process.
- Developing policies and procedures to meet accreditation standards.
- Developing templates for denials and appeals letters.

Quality Improvement Consulting

The Mihalik Group's (TMG) team of quality improvement consultants is familiar with the challenges organizations face in designing, implementing, monitoring and evaluating the effectiveness of a quality management and improvement program. The Mihalik Group's quality improvement expertise is available through a full spectrum of arrangements tailored to each organization's unique needs and aimed at assisting the organization with designing, enhancing or managing their quality improvement program including:

- Full management of the organization's quality improvement program.
- QI program design, implementation and evaluation of effectiveness.
- Assistance with development of committee structure and functions.
- Review of the adequacy of committee agendas and minutes.
- Management of committee meetings and writing of minutes.

- Development of indicators, measures and quality improvement activities.
- Presentation of quality improvement activities, including narratives and graphs.
- Statistical analysis.
- Assistance with development of practices that support continuity and coordination within and between general medical care and behavioral health care.
- Evaluation of organizational standards for availability of providers and accessibility of services and related measurement processes.
- Education and training on the principles, tools and techniques of quality improvement.
- Review of communication practices with stakeholders.

Educational Services

For more than 20 years, TMG's speakers have helped health care organizations stay current with the latest changes and to develop new skills. The Mihalik Group's speakers are health care professionals who are hands-on experts on topics such as: TJC, NCQA, URAC standards and surveys, processes, tools and techniques of quality improvement and implementing best practices and clinical practice guidelines. TMG can design a customized educational program to meet your needs.

The Mihalik Group has superior resources to help organizations select the right speaker and the most appropriate content. Every event is different. TMG listens and asks questions to understand the goals and objectives so the right solutions are provided to address each organization's unique needs.
