1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

**JOB DESCRIPTIONS:**

**TETRAHEDRON LABOR CATEGORY DESCRIPTIONS:**

**Principal Environmental Engineer**  
Education: M.S. in environmental, civil or chemical engineering or degree in other field with relevant experience.  
Years Experience: 12 years +  
Description: Candidates for the position must have demonstrated supervisory experience in environmental remediation studies and engineering analyses, preparation of remedial design documents, knowledge and experience with current and innovative remedial technologies and construction/installation/operation of remedial systems. The candidate must also demonstrate significant experience with both the administrative and technical requirements of MD, PA, and NJ environmental regulations and a strong ability to develop innovative technical approaches to soil and groundwater remediation to address a wide range of contaminants (petroleum products, metals, chlorinated solvents, etc.), including remedial alternatives such as in-situ and ex-situ treatment, Natural Remediation of organics and metals in groundwater, and establishment of engineering and institutional controls.

**Principal Chem. Engineer**  
Education: MS in Chemical Engineering or Chemistry or degree in other field with relevant experience.  
Years Experience: 12 years +  
Description: Supervisory experience in process design, mass-balance, chemical and biological treatment, treatability/pilot studies, presentations, and Research and Development.

**Sr. Project Manager**  
Education: MS in Environmental Science or Chemical or Civil Engineering  
Years Experience: 12 years +  
Description: Designs, plans, and coordinates technical projects. Provides technical support to and may lead and manage a group of software/systems developers/engineers/analysts toward project goals and completion. Responsibilities may include: managing project plans and timelines, writing specifications, creating documentation and evaluating project results. Responsible for the engineering staff and programs at a facility. Manages people, research programs, and daily operations of the engineering functions. Technical managers may oversee the R&D program and work with plant managers to plan and implement the funding programs and expansion necessary to develop a new product.

**Sr. Engineer**  
Education: MS in Environmental/Civil/Chemical Engineering or degree in other field with relevant experience.  
Years Experience: 8+ years  
Description: Experience in remedial investigations, feasibility study, remedial design, and environmental regulations.
Jr. Engineer
Education: BS in Environmental/Civil/Chemical Engineering or degree in other field with relevant experience.
Years Experience: 2+ years
Description: Experience in environmental investigations, sampling of soil/water/wastewater, remedial design.

Chem. Engineer
Education: BS in Chemical Engineering or degree in other field with relevant experience.
Years Experience: 5+ years
Description: Experience in process design, remedial investigations, treatability studies, pilot studies, and remedial design.

Geotech. Engineer
Education: BS in environmental, civil or geotechnical engineering or degree in other field with relevant experience.
Years Experience: 5+ years
Description: Technical support for risk assessments, site investigation and ground water modeling including work plans and reports. Position requires interaction with State agencies on permit applications, work plans and reports.

Env. Engineer
Education: B.S in environmental, civil or chemical engineering.
Years Experience: 3 plus years in environmental consulting
Description: Candidates for the position must have demonstrated experience in environmental remediation studies and engineering analyses, preparation of remedial design documents, knowledge and experience with current and innovative remedial technologies and construction/installation/operation of remedial systems.

Cost Accountant
Education: B.S. in Accounting or equivalent. Prefer Certified Management Accountant (CMA) designation or CPA
Years Experience: 5+ years of cost accounting experience, preferably in an electronics manufacturing environment. Strong analytical skills. Strong computer skills covering Excel, Access, Word,. Strong interpersonal skills required.
Description: Maintain accounting system. Transfer inventory transactions into general ledger. Assist in analysis of variances. Participate in month-end closing. Prepare month-end schedules, management reports, account reconciliation, and assist with analyzing departmental expenses. Perform monthly account reconciliation of Inventory, Inventory Reserves, and Warranty/Repair activity. Participate in quarterly review of the various reserve balances to assess risk exposure and appropriate valuation to GAAP of the reserves.

Geohydrologist
Education: BS in Civil or Geotechnical Engineering or degree in other field with relevant experience.
Years Experience: 5+ years
Description: Technical support for risk assessments, site investigation and ground water modeling including work plans and reports. Position requires interaction with State agencies on permit applications, work plans and reports.

Sr. Scientist
Education: MS in Science
Years Experience: 8+ years
Description: Conduct toxicological evaluations, risk assessments, Research and Development, statistical analysis, and remedial investigations. Position requires interaction with State regulatory agencies on permit applications, work plans and reports.

Sr. Hydrologist
Education: Masters degree in Geology with Engineering Geology emphasis or degree in other field with relevant experience.
Years Experience: 8+ years experience Professional registrations (RG / CEG )
Description: Manage and/or perform all phases of major development / construction projects. Supervise the work of staff geologists and technicians prepare geologic/geotechnical reports and review reports prepared by staff geologist and engineers. Prepare and review logs of borings and trenches, supervise field exploration programs, background reviews, ingrating & geological mapping. Train subordinate staff in basic geologic procedures and techniques, prepare and present proposals, scopes of work and budgets for new projects develop. Maintain an active client base.

Sr. Geochemist
Education: BS in Geochemistry or degree in other field with relevant experience
Years Experience: 8+ years
Description: Conduct interpretation of geologic formations, develop prediction models for groundwater flow and interaction with the geology, point source and non-point source stormwater permitting.

Sr. Chemist
Education: BS in Chemistry or degree in other field with relevant experience
Years Experience: 8+ years
Description: Develop data quality objectives, conduct data validations, interact with analytical labs and interpret laboratory results.

Jr. Chemist
Education: BS in chemistry or degree in other field with relevant experience
Years Experience: 3+ years
Description: Develop data quality objectives, conduct data validation, conduct field sampling of environmental media.

Biologist
Education: BS or BA in Aquatic Ecology or related field or degree in other field with relevant experience.
Years Experience: 4 + years
Description: Position supports obtaining licenses/permits required, performance of field studies, data analysis, and preparation of technical reports. Position also includes planning and management of study.
efforts, preparation of biological input for license/permit applications, participation in developing/negotiating biological agreements with agencies, and selection/direction of environmental consultants.

Sr. Env. Scientist
Education: MS in Environmental Engineering or Science or Chemistry or in another field with relative experience.
Years Experience: 12+
Description: Must have expertise in a specific science, including biology, chemistry, physics, geography, biotechnology, toxicology or geology. Conduct research to identify and abate or eliminate sources of pollutants that affect people, wildlife, and their environments. Analyze and report measurements and observations of air, water, soil, and other sources to make recommendations on how best to clean and preserve the environment. Design and monitor waste disposal sites, preserve water supplies, and reclaim contaminated land and water to comply with Federal environmental regulations.

Computer Scientist
Education: BS in computer science or equivalent,
Years Experience: 5+ years work experience.
Description: Help design and implement critical server infrastructure to be used in a variety of server products. Work as part of the team that interacts with other engineering teams to discover and understand their requirements, develop and extend an architecture that supports those product requirements, and deliver implementations. Work within a community of talented developers and must be able to work well with your peers.

Admin. Assistant
Education: BS or BA
Years Experience: 5 years
Description: Duties include handling multiple phone lines, screening calls, scheduling meetings, preparing reports, typing correspondence, and interfacing with all levels of staff.

Secretary
Education: BS or BA
Years Experience: 3+ years
Description: Duties include handling multiple phone lines, screening calls, scheduling meetings, preparing reports, typing correspondence, and interfacing with all levels of staff.

Clerical
Education: BS or BA. Strong secretarial and computer skills as well as ability to communicate effectively a must. MS Office Skills, 55 wpm.
Years Experience: 3+ years
Description: Duties include customer service, data entry, filing, photo-copying, phone, etc.

2. Maximum order: $1,000,000

3. Minimum order: $100

4. Geographic coverage (delivery area). Worldwide
5. Point(s) of production (city, county, and State or foreign country). 1414 Key Highway, Suite B, Baltimore, MD 21230

6. Discount from list prices or statement of net price. Government Net Prices (discounts already deducted.)

7. Quantity discounts. None

8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. Net 30 days

9. Foreign items (list items by country of origin). Not Applicable

10a. Time of delivery. (Contractor insert number of days.) To Be Determined at the Task Order level

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. To Be Determined at the Task Order level

10c. Overnight and 2-day delivery. To Be Determined at the Task Order level

10d. Urgent Requirements. To Be Determined at the Task Order level

11. F.O.B. point(s). Destination

12a. Ordering address(es). 1414 Key Highway, Suite B, Baltimore, MD 21230

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es). 1414 Key Highway, Suite B, Baltimore, MD 21230

14. Warranty provision. Standard Commercial Warranty Terms & Conditions

15. Export packing charges, if applicable. Not Applicable

16. Terms and conditions of rental, maintenance, and repair (if applicable). Not Applicable

17. Terms and conditions of installation (if applicable). Not Applicable

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). Not Applicable

18b. Terms and conditions for any other services (if applicable). Not Applicable

19. List of service and distribution points (if applicable). Not Applicable

20. List of participating dealers (if applicable). Not Applicable
21. Preventive maintenance (if applicable). Not Applicable

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). Not Applicable

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/. Not Applicable

23. Data Universal Number System (DUNS) number. 808692891

24. Notification regarding registration in System for Award Management (SAM) database. Contractor registered and active in SAM

**Service Contract Labor Standards:** The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
