BUSINESS SIZE: Small Business

On-line access to contract ordering information, terms, and conditions, up-to-date pricing and the option to create an electronic delivery order are available through GSA Advantage™, a menu-driven database system. The internet address for GSA Advantage™ is: <http://www.gsaadvantage.gov>

WASTREN ADVANTAGE, INC. is a Small Business headquartered in Piketon, Ohio, with project offices throughout the United States. As a remediation services company specializing in the disciplined management of complex operations in high-hazard environments, WAI uses a project management approach to lower risk to our clients and perform work safely. We achieve our clients' objectives compliantly and cost effectively by integrating safety and quality management systems into all projects. Our clients include the U.S. Department of Energy, Department of Defense, Department of Agriculture, the Bureau of Reclamation, and numerous commercial entities.

Key Services

Dedicated to performing professional and quality services with core competencies in Waste Management, Environmental Remediation, Environmental Consulting, and Facility Support Services, WAI has managed contracts for several government agencies as well as private companies.

Facility Management and Operations

- Computing and Telecommunications
- Custodial Services
- Energy Management Services
- Environmental, Safety, and Health Program Integration
- Integrated Safety Management
- Housing Management
- Preventive and Corrective Maintenance
- Project and Program Management

- Property Management
- Roads and Grounds Maintenance
- Transportation
- Utilities and Infrastructure Support
- Work Control
- Hazard Categories 2 and 3 Nuclear Facilities Operations

Waste Management

- Management of Hazardous, Radioactive, Mixed, and Industrial Waste
- Waste Characterization, Containerization, Storage, Transportation, Treatment, and Disposal Services
- Waste Management Facility Operations
- Nuclear Materials Control & Accountability
- Waste Minimization and Pollution Prevention
- Regulatory Engineering
- Design Basis Threat Analysis
- Safeguards and Security Planning

Environmental Consulting

- Environmental Site Assessments
- Work Plans and Planning Documents
- Environmental Compliance
- Environmental Data Management
- Industrial Hygiene Support
- Analytical Data Evaluation/Validation
- Quality Assurance/Quality Control
- Waste Management Consulting
- Emergency Response
- Regulatory Negotiation

- Stormwater Management
- Compliance Audits
- Human Health and Ecological Risk Assessment
- Environmental Permitting and Licensing

Environmental Remediation

- Environmental Site Characterization
- Environmental Remediation and Construction
- Public Involvement
- Hazardous, Radioactive, and Mixed Waste Management
- Site Restoration Services
- Surface Impoundment Closures and Restoration
- Third-Party Confirmatory Environmental Media Sampling
- Remedial Systems Design and Operation
- Engineering Studies

CUSTOMER INFORMATION

1a. TABLE OF AWARDED SPECIAL ITEM NUMBERS (SIN's):

SPECIAL ITEM NUMBER (SIN)	DESCRIPTION
899-1; 899-1RC	Environmental Consulting Services
899-5; 899-5RC	Materials and Waste Recycling and Disposal Services
899-7; 899-7RC	Geographic Information Systems (GIS) Services
899-8; 899-8RC	Remediation and Reclamation Services

1b. IDENTIFICATION OF THE LOWEST UNIT PRICE FOR EACH AWARDED SIN: NA

1c. LABOR CATEGORY DESCRIPTIONS AND COURSE DESCRIPTIONS: See *Labor Category* table at end of documents.

2. MAXIMUM ORDER: \$1,000,000

3. MINIMUM ORDER: \$100

4. GEOGRAPHIC COVERAGE: FOB Destination, Domestic only delivery, with the exact time to be specified on individual Delivery/Task Orders.

5. POINTS OF PRODUCTION: N/A

6. PRICING SHOWN IS NET.

7. QUANTITY DISCOUNTS: None Offered

8. PROMPT PAYMENT DISCOUNT: None (NET 30 Days)

9a. NOTIFICATION THAT GOVERNMENT PURCHASE CARDS ARE ACCEPTED BELOW THE MICRO-PURCHASE THRESHOLD: Government credit cards are accepted for orders equal to or less than the micro-purchase threshold.

9b. NOTIFICATION THAT GOVERNMENT PURCHASE CARDS ARE ACCEPTED OR NOT ACCEPTED ABOVE THE MICRO-PURCHASE THRESHOLD: Government purchase cards are accepted for orders above the micro-purchase threshold.

10. FOREIGN ITEMS: None

11a. TIME OF DELIVERY: Specified on the Task Order

11b. EXPEDITED DELIVERY: Contact Contractor

11c. OVERNIGHT AND 2-DAY DELIVERY: Contact Contractor

11d. URGENT REQUIREMENTS: Contact Contractor

12. F.O.B. POINTS: Destination

13a. ORDERING ADDRESS:

Service Contract Act (SCA) Matrix

SCA ELIGLE CONTRACT LABOR CATEGORY	SCA EQUIVALENT CODE AND TITLE	WAGE DETERMINATION NUMBER
Senior Technician**	30090 – Environmental Technician	WD 2005-2521
Technician**	30090 – Environmental Technician	WD 2005-2521
Administrative Assistant/Clerical**	01020 – Administrative Assistant	WD 2005-2521

** The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the cited SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix and above. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

**WASTREN ADVANTAGE, INC.
LABOR CATEGORY REQUIREMENTS**

LABOR CATEGORY	MINIMUM EXPERIENCE/TRAINING	DUTIES/RESPONSIBILITIES	MINIMUM EDUCATION/CERTIFICATIONS
Program Manager/Director	Must have 10 years of project/contract management, 5 years of which must be management experience. Must be experienced in the practices of environmental program development, implementation, and administration. Must have experience with the organization and operation of federal environmental projects.	Serves as program administrator for assigned environmental and related programs; plans, coordinates, organizes, implements, administers, and monitors assigned programs, projects, and initiatives in accordance with federal, state, and local laws. Organizes and implements schedules and methods for providing assigned program services and activities; identifies resource needs; reviews needs with appropriate management staff; allocates resources accordingly.	A Bachelor's degree plus 10 years relevant project experience or an Associate degree and 23 years relevant project experience.
Senior Project Manager	Must have 10 years of experience in environmental compliance or construction, 5 years of which must include project lead experience. Must be experienced in the practices of environmental program development, implementation, and administration. Must have knowledge of current environmental laws, regulations, principles, and practices.	Assists the Project Manager/Director by managing budget and schedule of deliverables for the project. Responsible for knowledge of applicable federal, state, and local laws and regulations. Manages all project personnel and maintains direct communication with the client. Coordinates and schedules personnel and resources, oversees compliance issues, provides background research, and contributes to writing reports.	A Bachelor's degree plus 10 years relevant project experience or an Associate degree and 18 years relevant project experience.
Project Manager	Must have 5 years of experience in environmental compliance, 2 years of which must include project lead experience. Must have knowledge of the principles and practices of environmental program development, implementation, and administration. Must have knowledge of current environmental laws, regulations, principles, and practices.	Assists the Senior Project Manager on the task level, implementing the research design and managing tasks budgets. Reports task progress to the Senior Project Manager. Responsible for the recording of compliance documentation, daily management of the task budget, and keeping the task on schedule. Oversees personnel and resources on the task level.	A Bachelor's degree plus 5 years relevant project experience or an Associate degree with 15 years relevant project experience.

WASTREN ADVANTAGE, INC. LABOR CATEGORY REQUIREMENTS

LABOR CATEGORY	MINIMUM EXPERIENCE/TRAINING	DUTIES/RESPONSIBILITIES	MINIMUM EDUCATION/ CERTIFICATIONS
Senior Engineer/Scientist	Must have 6 or more years of experience in engineering or a science. Must have experience in the application of science and engineering principles to develop systems that protect human health and welfare and minimize the adverse effects of human activities on the environment. Must demonstrate understanding and application of safety and regulatory standards, as pertaining to environmental and safety related fields.	Senior level engineer/scientist who acts as resource and specialist in the application of advanced theories, concepts, and principles for an assigned area of responsibility. Capable of analyzing all technical aspects of the subject area, defining the scope and selecting problems for investigation, developing novel concepts and approaches, and recommending major design changes. Provides guidance to senior level management staff on the most unique and complex problems and client investigations.	A Bachelor's degree in an Engineering related field.
Staff Engineer/Scientist	Must have 3 or more years of experience in engineering or a science. Must have experience in the application of science and engineering principles to develop systems that protect human health and welfare and minimize the adverse effects of human activities on the environment. Must demonstrate understanding and application of safety and regulatory standards, as pertaining to environmental and safety related fields.	Plans, schedules, conducts, and/or coordinates detailed phases of assigned project work. Works closely with senior-level Project. Makes design recommendations, adaptations, and modifications. Performs calculations using engineering formulas and skills. Completes own design work using computer-aided techniques. Prepares reports and correspondence concerning the direction of assigned projects. Serves as a technical advisor to junior-level project team members. May devise new approaches to problems encountered. Participates in marketing, sales, and business development efforts.	A Bachelor's degree in an Engineering related field.
Engineer/Scientist	This position requires 0 years of experience. Must have knowledge in the application of science and engineering principles to develop systems that protect human health and welfare and minimize the adverse effects of human activities on the environment. Must demonstrate understanding and application of safety and regulatory standards, as pertaining to environmental and safety related fields.	Performs engineering/scientific calculations and developmental assignments involving the application of standard techniques, procedures and criteria in routine to moderately complex tasks. Consults with other technical people and supervisor on less complex projects. Complex projects usually deferred to more senior professional level.	A Bachelor's degree in an Engineering related field.

WASTREN ADVANTAGE, INC. LABOR CATEGORY REQUIREMENTS

LABOR CATEGORY	MINIMUM EXPERIENCE/TRAINING	DUTIES/RESPONSIBILITIES	MINIMUM EDUCATION/CERTIFICATIONS
Senior Technician	Must have 5 or more years of experience in project field work. Must have experience in applying environmental engineering principles in support of the operation, maintenance of environmental projects. Must have experience in environmental sampling techniques and laboratory equipment. Must have experience in maintaining environmental records.	Performs routine environmental and industrial sampling and analysis under the supervision of project professionals. Transports equipment, specimens or documents to field personnel, laboratory, clients or other offices, and provides physical assistance in equipment set-up. Completes chain of custody forms and prepare samples for shipment • Assists in tabulation of data and preliminary preparation of data for reports.	A High school diploma or GED, training in hazardous waste operations and sampling techniques
Technician	This position requires 0 years of experience. Must have knowledge of environmental engineering principles in support of the operation, maintenance of environmental projects. Must have knowledge of environmental sampling techniques and laboratory equipment.	May work under the supervision of a project professional or Senior Technician. Operates basic field equipment such as PID, pH meters, water level indicators, etc. Mobilizes equipment and supplies for field projects. Transports equipment, supplies and documents to project sites, clients or other offices. Prepares chain of custody documents. Assists in basic survey/measurement data. Cleans and maintains field monitoring equipment. Tabulates data and prepares reports.	A High school diploma or GED, training in hazardous waste operations and sampling techniques
Waste Handling/Disposal/Transportation Specialist	Must have 3 or more years of experience in the handling, disposal, and transportation of hazardous waste. Must have experience in preparing shipments and documents in compliance with DOT, NRC, and EPA regulatory requirements. Must have experience in providing planning and project management support.	Coordinates, prioritizes and schedules activities related to the collection, processing, storage, transportation and disposal of hazardous waste. Generates and maintains appropriate documentation and recordkeeping to meet environmental regulations. Advises management on proper waste management techniques and provides recommendations for appropriate action upon request. Interacts with hazardous waste disposal vendors to facilitate efficient, cost effective and timely off-site transportation and disposal of hazardous wastes.	A Bachelor's degree

WASTREN ADVANTAGE, INC.
