Why Choose SSI?
STS Systems Integration, LLC (SSI) is a dynamic 8(a) Alaska Native Corporation (ANC), recognized for its excellence in Technical Services, Information Technology and Engineering Services. SSI has the specialized experience needed to handle the management and technical support challenges of any size program. Our professional staff - a blend of business professionals, engineers, and scientists - apply innovation and vision to satisfy the needs of our government and industry partners.

Cornerstones of Success
SSI’s success and growth are founded on these cornerstone principles:
- Integrity
- Commitment to satisfying Customer Needs
- Technical Expertise
- Professionalism
- Complying with Contract Requirements
- Being flexible to customer driven change

Management Structure
- Flat organizational structure by design for swift and accurate customer response
- 24/7 Telephone availability at all levels of management
- Lead has day to day operations control over team for resource allocation and task prioritization
- Cost, Schedule and Performance reporting accomplished monthly and as needed at other intervals
- Reports status to General Manager via monthly reviews
- Reports status to Customer at desired intervals in preferred format

Past Clients
- Department Of The Air Force
- Food And Drug Administration
- Department Of The Navy
- Department Of The Army

1. Administrative Support I

*Functional Responsibility:* In direct support of professional positions, conducts a variety of clerical and administrative activities. Maintains office files, provides word processing, spread sheets and graphics as desired; other duties as assigned.

*Minimum Education:* High School

*Minimum Years’ Experience:* 2 Years of related experience

*This position is in support of Professional Engineering Services under 871 and shall not be the primary purpose of the work ordered, but be an integral part of the total solution offered. Ancillary services will only be ordered in conjunction with or in support of services purchased under SIN 871-1,2,3,4,5,6 in this Schedule.*

2. Administrative Support II

*Functional Responsibility:* Requires the full knowledge of, and ability to interpret, established procedures. In direct support of professional positions, conducts a variety of clerical and administrative activities. Maintains office files, provides word processing, spread sheets and graphics as desired; other duties as assigned. Exercises independent judgment to assure that anticipated problems are resolved.

*Minimum Education:* High School

*Minimum Years’ Experience:* 5 Years of related experience

*This position is in support of Professional Engineering Services under 871 and shall not be the primary purpose of the work ordered, but be an integral part of the total solution offered. Ancillary services will only be ordered in conjunction with or in support of services purchased under SIN 871-1,2,3,4,5,6 in this Schedule.*

3. Technical Support I

*Functional Responsibility:* Performs processes for systems analysis and operations research. Will support research, investigations and data processing operations and activities. Project reporting and briefing preparation duties primarily involve compilation, consolidation, and review. Serves as technical/research assistant on appropriate tasks.

*Minimum Education:* Associates Degree

*Minimum Years’ Experience:* 1 Year of related experience

4. Technical Support II

*Functional Responsibility:* Supports moderate technical efforts. Must have knowledge of scientific/research processes and reasoning and evaluation techniques needed to solve complex problems. Participates in the preparation of project reports and briefings. Independently works on assigned research projects, and serves as task leader/key analyst on principle tasks.

*Minimum Education:* Associates Degree

*Minimum Years’ Experience:* 5 Years of related experience

5. Technical Support III

*Functional Responsibility:* Supports complex technical efforts. Must have knowledge of scientific/research processes and reasoning and evaluation techniques needed to solve complex problems. Participates in the preparation of project reports and briefings. Independently works on assigned research projects, and serves as task leader/key analyst on very difficult and demanding tasks.
Minimum Education: Associates Degree
Minimum Years’ Experience: 10 Years of related experience

6. Engineer, Chief

Functional Responsibility: Oversees the work of staff level professionals and provides highly technical delivery order expertise and technical guidance in solving complex design problems and provides technical leadership of all phases in design analysis, development, integration, and implementation. Plans, schedules, conducts, and coordinates detailed phases of engineering work.
Minimum Education: Bachelors Degree
Minimum Years’ Experience: 10 Years of related experience

7. Engineer

Functional Responsibility: Provides highly technical delivery order expertise and technical guidance in solving complex design problems and provides technical leadership of all phases in design analysis, development, integration, and implementation. Plans, schedules, conducts, and coordinates detailed phases of engineering work.
Minimum Education: Bachelors Degree
Minimum Years’ Experience: 5 Years of related experience

8. Program Manager, Sr.

Functional Responsibility: Responsible for the planning, direction, and performance of programs including management of cost, schedule, and personnel. Responsible for program quality control, configuration management, and ensuring that deliverables meet the customer’s requirements and are produced on schedule and within cost. Working knowledge of engineering processes and procedures. Supervises the analysis of customer requirements; the development of engineering designs to meet customer needs; the implementation of engineering designs; the integration and testing of engineering designs; and the development and execution of life cycle support concepts. Serves as the corporate liaison to the customer.
Minimum Education: Bachelors Degree
Minimum Years’ Experience: 10 Years of related experience

9. Assistant Program Manager

Functional Responsibility: Acts as an Assistant to the Program Manager. The assistant may:
1. Conduct weekly meetings with staff and attends meetings as required.
2. Monitors and controls budget expenditures for personnel, overtime, and materials and equipment.
3. Administers and reviews annual contracts and billing invoices for outside contractual services.
4. Performs other duties as required to ensure efficient operation.
Minimum Education: Bachelors Degree
Minimum Years’ Experience: 2 Years of related experience
10. Project Manager
*Functional Responsibility:* The Project Manager leads and directs multiple engineering projects. Provides technical and administrative oversight of project management and is a facilitator and coordinator on larger productions where the coordination of multiple agencies or stakeholders is involved. This role includes the set up and facilitation of virtual or face-to-face conferences, coordination and tracking of subject matter expert and agency deliverables and implementation concerns as well as tracking documentation and accounting for schedule and deliverables. The Project Manager also facilitates contractual interactions and the acceptance of deliverables.
*Minimum Education:* Bachelors Degree
*Minimum Years’ Experience:* 10 Years of related experience

11. Project Manager, Jr.
*Functional Responsibility:* The Jr. Project Manager provides technical and administrative project management and is a facilitator and coordinator on larger productions where the coordination of multiple agencies or stakeholders is involved. This role includes the set up and facilitation of virtual or face-to-face conferences, coordination and tracking of subject matter expert and agency deliverables and implementation concerns as well as tracking documentation and accounting for schedule and deliverables. The Jr. Project Manager also facilitates contractual interactions and the acceptance of deliverables.
*Minimum Education:* Bachelors Degree
*Minimum Years’ Experience:* 5 Years of related experience

12. Assistant Project Manager
*Functional Responsibility:* The Assistant Project Manager participates in technical and administrative project management and Acts as an Assistant to the Project manager. The assistant may act as facilitator and coordinator on larger productions where the coordination of multiple agencies or stakeholders is involved. This role includes the set up and facilitation of virtual or face-to-face conferences, coordination and tracking of subject matter expert and agency deliverables and implementation concerns as well as tracking documentation and accounting for schedule and deliverables. The Assistant Project Manager may also facilitate contractual interactions and the acceptance of deliverables.
*Minimum Education:* Bachelors Degree
*Minimum Years’ Experience:* 2 Years of related experience

13. Designer/Developer
*Functional Responsibility:* Under general supervision, may plan, expand, and execute projects in teams or on their own. Must operate at a high standard and produce a quality product which may include coding, testing, or implementation using design software
*Minimum Education:* Bachelors Degree
*Minimum Years’ Experience:* 2 Years of related experience
14. Senior Designer/Developer

Functional Responsibility: Will plan, expand, and execute projects in teams or on their own. Will supervise a team of designers and must operate at a high standard and produce a quality product which may include coding, testing, or implementation using design software.

Minimum Education: Bachelors Degree
Minimum Years’ Experience: 10 Years of related experience

15. Acquisition Specialist

Functional Responsibility: Is in charge of management, planning, procurement, integration and fielding of systems and associated support elements and processes during the acquisition process.

Minimum Education: Bachelors Degree
Minimum Years’ Experience: 2 Years of related experience

16. Technician

Functional Responsibility: Applies advanced technical knowledge and experience to investigate, analyze, plan, design and provide technical oversight for systems.

Minimum Education: Associates Degree
Minimum Years’ Experience: 2 Years of related experience

17. Data Manager

Functional Responsibility: Determines data needed to be collected and the appropriate data resources for specific data projects. Formulates, implements, and enforces proper data collection policies and procedures. Ensures quality data collection techniques are established for reporting agencies.

Minimum Education: Bachelors Degree
Minimum Years’ Experience: 2 Years of related experience

18. Analyst

Functional Responsibility: Provide analytical and technical solutions for complex matters and work to assess problems and develop and select alternative solutions. Analyze program activities, such as acquisition or program planning, financial management, cost analysis, and other tasks. Develop, gather, and organize program-related information. Make assessments of program risk, including technical, schedule and cost aspects.

Minimum Education: Bachelors Degree
Minimum Years’ Experience: 5 Years of related experience

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated (**) SCA labor categories comply with the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.
