About the Company:

U.S. Foam & Etch is a small business located in Goldsboro, North Carolina. Our company provides custom toolbox foaming and specialty tool marking. We use the highest quality equipment, which gives us the ability to design and cut intricate layouts for exact toolbox lining needs. We can cut foam up to 60 inches in length, by 48 inches in width, and up to 2 inches thick. We also offer foam products by the sheet, roll, or cut to specific sizes for those who want to design their own layouts.

U.S. Foam & Etch uses two methods of etching to permanently mark a variety of tools including hand tools, power tools, basic tools, tool parts, placards, pens and cases, nameplates, and many wood products. Markable materials include metals (chrome and steel), aluminum, wood, glass, plastics, ceramics, pewter, and many types of stone.
