Information for Ordering Activities:

1a. Table of Award Special Item Numbers (SIN's):

Special Item Number (SIN)	Service Description
812-001	Dry Docking Services - Services include, but are not limited to, the lifting of vessels out of the water for inspection and maintenance, the repair of hull surfaces, and undocking after completion of work. Services also include providing all provisioning, labor, and materials for dry-docking operations for a variety of classes of marine vessels. Services can include: Floating dry docks; Graving dry docks; Marine railways; Vertical lifts; and Travel lifts and cranes to remove marine vessels from the water for inspection, testing, maintenance, and repair services.
812-002	Dockside Maintenance and Repair Services - Services include, but are not limited to, the performance of full inspection, testing, repair, and maintenance services for federal marine vessels. These maintenance and repair services could include, one or more of the following: preservation of ship structures, deck covering systems, welding processes, temporary hull access, electrical and HVAC systems, auxiliary machinery systems, shipboard ventilation systems, electrical rotating machines, generators and motors, propulsion systems, and tank and void inspection, testing, repair and maintenance.
801-001	Surface Preparation – Services related to the preparation for application of chemical compounds to Federal vehicles, machinery and other equipment and Support Training/Consultation Services as they pertain to preparation for and application of chemical compounds to Federal vehicles, machinery and other equipment. THIS SIN DOES NOT COVER PASSENGER CARS, TRUCKS OR BUSES. These services include surface preparation for painting and sealant application on ships, aircraft, vehicles and other equipment or machinery surface that requires application of chemical compound, such as paint, sealant, coatings, or adhesives. These services could include, but are not limited to: abrasive air blasting, wheel blasting, vibratory and mass finishing, shot peening, wet blasting, micro-blasting, lapping and grinding, high energy disco finishing, high energy barrel finishing, drag finishing, mechanical scarification, acid etching or ultrasonic.
