## Cutting Torch Systems

*First in Safety  
& Power*

***The Petrogen Oxy-Gasoline Cutting System replaces acetylene for all steel-cutting applications. It uses regular liquid gasoline as the fuel and provides greater safety, portability, economy and superior performance.***

***Now our systems can cut steel using JP-8, diesel and other liquid fuels with our new **multi-fuel adaptor** (part 8000) providing the same outstanding performance.***

***Petrogen is built to last for decades. Petrogen, Inc. has produced high-quality torch systems in the U.S.A. since 1973.***
