- If you are purchasing built-in appliances, or plan on using your appliance in a built-in setting, please make sure to check the cutout dimensions of the units you are ordering to ensure that they will fit into the space. Don't forget to account for airflow, door swings and openings!
- If your item arrives with minor or cosmetic damages due to shipping, don't worry. We can attempt to replace the damaged parts or door damage on the product.
- If ordering furniture or other large products, please make sure to measure the area that they will be placed, taking into account space for walking room or drawers/doors open.
- Please make sure that the item that you are ordering will fit through the doorway to your residence. Additional fees may apply if the door must be removed. If you order In-Home Delivery, but the item does not fit, the shipping company will leave the product right outside or on a porch or garage.

You will be charged for the difference between the item returned and the new item, and if the item is less expensive, we will provide a credit back to your account once the item has been received at our warehouse in good condition.
- If you require technical support, manufacturer warranty information, product manuals or repair locations, please contact the manufacturer of your product(s) directly, or log into your account and submit a question via our web ticket system.
