Business Size: Small Business

Up-To-Date in SAM

Micro-Marker™

Paragon Laser Systems utilizes state-of-the-art fiber laser technology to bring excellent laser beam quality ($M^2 < 1.6$), fiber optics, and dependable, modular, serviceable laser sources to the manufacturing industry.

- Tabletop Model For Manual Production
- Sliding Door
- Fully Self-Contained
- Motorized Table
- Variable Marking Field Sizes Available
- Maintenance Free Operation
- Low Voltage 110/115 VAC 15 amp
- Maximum Allowable Part Size*
11" W x 16" D x 7 3/4" H
- System Dimensions*
28" W x 16" D x 23 1/2" H

*based on 4" mark field

MM Options:

- Rotary Indexer
- 8" Extended Back For Larger Parts
- Fume Extraction

Laser frequency can be varied to obtain the desired mark.

ParaMark™

A range of system configurations provide tailored solutions from fully-enclosed Class I systems through open-chassis Class IV systems which can be integrated into the end-user's existing laser-safe room or enclosure.

- Free Standing Floor Model
For Volume Production
- Pneumatic Door
- Fully Self-Contained
- Programmable Z Axis
- Maintenance Free Operation
- Low Voltage 110/115 VAC 15 amp
- Variable Marking Field Sizes Available
- Allowable Part Size is Flexible
- System Floor Space – 39" W x 30" D
- 100% Air Cooled, No Need For Chillers

PM Options:

- Rotary Indexer
- Automatic Opening Door
- Fume Extraction
- Automated Axis (x,y,θ)

Rotary Indexer

Custom & Automated

Paragon Laser Systems understands that frequently industrial marking applications require a unique system design.

Paragon Laser Systems draws upon a high level of automation talent, machine design and software integration expertise to provide solution-based services that are required in the industry today.

Class IV Laser

PARAGON LASER SYSTEMS OVERVIEW AND BACKGROUND

About Paragon Laser Systems

Paragon Laser Systems designs and builds laser marking systems. The company is centrally located at one location in Emporia, Kansas.

Paragon Laser Systems was formed in 1999 to manufacture state-of-the-art laser marking systems to be used primarily by the metalworking industry.

Paragon products are securely designed, require minimal end user training and limited IT department resource use.

The need for service contracts has been eliminated with Paragon's clear and concise system design, onsite training and simple-to-understand user manual.

The company's standard product offering includes the ParaMark, the Micro-Marker and the Class IV System.

The ParaMark and the Micro-Marker are very popular among commercial industrial companies because of their portability and ease of use.

To date, the Class IV System, also portable and easy to use has been sold exclusively to the Government.

Paragon Laser Systems discriminators:

- 1) All standard Paragon Laser Systems use fiber laser technology, with 10, 20 and 50 Watt power
- 2) Low complexity implementation with onsite installation and training included
- 3) Service requires only simple computer knowledge
- 4) Virtually maintenance-free operation.
- 5) Designed using modular components that can be easily removed should repair or replacement be necessary
- 6) Mark field sizes offered across the product line are 2.36" sq., 4.33" sq., 7.08" sq. (larger fields available)
- 7) Network capable
- 8) Easy to learn but full featured Windows compatible laser marking software provided with each system.
- 9) Based on telecommunications lasers with life expectancy approaching 100,000 laser hours
- 10) All inclusive laser, PC, software, enclosure, peripherals; nothing extra required

Paragon's History

Paragon Holdings LC was formed in March 1999 specializing in custom machine design and build. After extensive market research, Paragon saw the laser marking industry as an opportunity. With many hours in research, design and testing Paragon located the best in laser technology and created a product primarily designed for ease of use and maintenance, but also, long life and stability.

Paragon employees offer a wide range of talents including but not limited to automation, machine design, control design and fitting, part fixturing, computer graphics, and laser marking software expertise.

In January 2008 Paragon joined with Kansa Technology, LLC. Kansa brings 32 years of experience in automation, machine design and build. This merge has given Paragon a leg-up in meeting the challenges its customers face in their specific production environments. Paragon Laser Systems and Kansa Technology, LLC are both small businesses. From this standpoint, both are genuinely focused on excellence in product quality and customer support. Each and every customer receives unwavering attention, giving us a competitive edge. The companies occupy sixty-eight thousand square feet of manufacturing area, including offices for administration, engineering, a quality assurance area, and a laser demonstration laboratory.

Warranty & Service

The Seller warrants new equipment manufactured by Seller against defects in material or workmanship under normal intended use for a period of two years from and after the date of shipment by Seller. All equipment that is not new, is sold "As-Is/Where-Is", with no warranty unless specified otherwise.

This limited warranty does not cover ordinary wear and tear, abuse, misuse, improper installation, misapplication, unapproved alterations, use in a manner inconsistent with any instructions, or the diagnosis of problems or adjustments to the equipment. The use of replacement parts not approved by Seller, or any product modification performed without the express written consent of Seller voids this warranty. Whenever a question of warranty arises, the Purchaser must contact the Seller for resolution.

THIS LIMITED WARRANTY IS AND SHALL BE IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESSED, IMPLIED OR STATUTORY, WHETHER AS TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER MATTER OR WARRANTY OF ANY KIND, INCLUDING ALL OTHER OBLIGATIONS OR LIABILITIES OF SELLER. NO AGENT, EMPLOYEE OR REPRESENTATIVE OF SELLER HAS THE AUTHORITY TO BIND SELLER IN ANY AFFIRMATION, REPRESENTATION, OR WARRANTY CONCERNING THE EQUIPMENT OR PARTS EXCEPT AS STATED HEREIN.

Replacement part(s) and charges associated with their replacement will be charged to the Purchaser until defective part(s) are returned prepaid, to the plant of Seller in Emporia, Kansas. If any new equipment or part manufactured by Seller is found to be defective in material or workmanship as provided herein, in Seller's sole reasonable judgment, Seller will, at its option, either repair or replace such defective equipment or part and credit will be issued to the Purchaser for the replacement part(s) and related shipping charges.

THIS REMEDY SHALL BE THE EXCLUSIVE REMEDY AVAILABLE TO PURCHASER FOR ANY DEFECTS IN MATERIALS OR WORKMANSHIP, OR FOR ANY DAMAGES RESULTING FROM ANY OTHER CAUSE WHATSOEVER. PURCHASER FURTHER AGREES THAT SELLER SHALL HAVE NO LIABILITY FOR ANY INJURY, ANTICIPATED PROFITS, LOSS OF TIME OR PRODUCT, SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR LOSSES, OF ANY KIND, NATURE OR DESCRIPTION, WHETHER FOR DEFECTS IN MATERIALS OR WORKMANSHIP, IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR FOR ANY OTHER REASON.

The warranty is not effective in cases where Force Majeure is applicable.
