III. St. Michael's Category Descriptions

Each FABS labor category (in accordance with GSA definitions) is defined with regard to education, general experience, specialized experience requirements and duties. Training and certification requirements for a labor category have also been provided. The duties normally performed by a person assigned to a labor category position are defined.

St. Michael's recognizes that successful performance depends on having the right skills and experience. These skills and experience, in turn, are acquired through the proper mix of education and professional experience. We find skills needed to support financial management efforts, and to meet today's problems and tomorrow's challenges, are not always supported by a traditional education and work experience combination.

IV. Overview: St. Michael's Inc.

St. Michael's Inc. is a consulting firm whose mission is to assist and advise customers with improving business processes and realizing results. St. Michael's specializes in the areas of financial management and financial systems support. St. Michael's highly experienced professionals have helped Federal customers with Audit Sustainment, Financial Management and Accounting, Program Management, Acquisition, and Back Office Support.

St. Michael's Inc. has supported clients from the Department of Defense (DoD), Department of Homeland Security (DHS) and the Intelligence Community (IC) and we operate under the belief that an efficient partnering with you requires a strong Government/contractor relationship. This relationship provides essential Government oversight and contractor responsiveness, and is mainly based on superb and highly focused organizational and management expertise, mutual trust, and a continuous two-way dialogue. St. Michael's looks forward to providing expertise in support of your financial management and accounting efforts amidst complex organizational and operational changes in today's economic environment.

A. Best Practices Implemented

St. Michael's Inc. applies best practices that have been refined over years of successful project management, on efforts across multiple task orders and clients under a variety of contract vehicles. The key contract management focus areas we highlight are quality, cost, schedule, and risk management.

Quality Management

St. Michael's has a robust approach to address our responsibilities for overall responsiveness and work quality. This process involves objectively evaluating performed processes, work products, and services against applicable standards, processes, and procedures. We also identify and document noncompliance issues and provide feedback on the results of quality control activities to staff. We address compliance issues and verify that corrective action is effective, notifying the Government on any issues that affect mission support.

Cost Management

St. Michael's captures cost and reports data to the contracting officer representative (COR). These reports will include information about cost execution versus plan, cost-to-complete information (so that no shortfalls or overruns occur), and our estimate for cost execution versus schedule for the duration of a project.

Schedule Management

St. Michael's will develop work plans for each task and will revise the plans periodically which will allow our staff to work and report on current plans. These work plans will identify major milestones and other program events. Work plans document information on the scope, approach, risks, interdependencies, schedules, and deliverables for each task and are reviewed on a regular

basis by our Program Manager. This process, coordinated with the appropriate Government lead, means that our staff adjusts rapidly to new or changing mission requirements.

Risk Management

Managing risk is a key aspect of any project's success. Risk management includes four continuous steps: identification, analysis, mitigation, and monitoring. St. Michael's management will oversee all risk management activities and will be responsible for resolving risks. When a risk is identified it will be analyzed and the potential impacts will be assessed. Mitigation approaches and prioritization issues will be developed and provided to you, the Government client.

B. Benefits of Working with St. Michael's

St. Michael's is singularly focused on providing financial management and related services to the Military, IC, and Other Defense Agencies.

St. Michael's is owned by its employees. We have an Employee Stock Ownership Plan (ESOP) which provides employees an ownership interest in the company after 1-yr of employment. Our clients benefit from motivated individuals who have a stake in the outcomes. The better the work product we produce, the more positive our performance assessments become. As a result, we send highly motivated employee-owners to our client sites every day. Our employee-owners have a vested interest in meeting and exceeding client expectations; they understand the critical linkage between superlative client delivery, corporate success, and ESOP valuation. Employee-ownership promotes retention, motivation, and commitment to client success.

We prioritize the integrity of our Core Values over the bottom line. Our clients count on us to say what we mean and mean what we say. We choose the 'hard right' over the 'easy wrong.'

St. Michael's is ready to begin as soon as an agreement is reached. St. Michael's recruiting, training and retention policies, give us the ability to provide qualified staff members that are ready to begin working on projects without staffing ramp-up issues that other companies may face.

St. Michael's understands the Government client. St. Michael's staff is comprised of a number of former Government employees. Our workforce ranges in experience from having worked for the U.S. Army, the Environmental Protection Agency, the Defense Intelligence Agency, and the Defense Contract Audit Agency. This experience provides us with an understanding of several Government agencies' operating environment and culture.

St. Michael's has Government experience. We are ready to assist you and your agency in overcoming financial management issues and improving processes. We will provide a team with the specific experience that is being sought. Our experience includes Enterprise Resource Planning (ERP) implementation, financial systems integration, functional accounting, internal controls, process improvement, program management, human capital development, financial management support, financial policy support, performance measurement, and metrics analysis.

St. Michael's ability to avoid time-consuming levels of hierarchy. St. Michael's Inc. is able to avoid time-consuming, costly levels of hierarchy within the organization due to our size. Company President, Mr. Todd Brymer (PMP, CMA, CFM) brings recognized leadership in industry and military service for the US Government. He is readily available to present project-orientated, on-site solutions should the need arise. This direct contact from St. Michael's upper management presents you with a "full resource" solution to your consulting needs, while avoiding the levels of hierarchy that other companies may not be able to circumvent.

When all of these benefits are considered, St. Michael's provides a clear choice: St. Michael's is a low-risk option that presents a high probability of success for your agency's efforts. St. Michael's provides responsive management with experience in your business and cleared professionals at honest rates. Our team is ready to assist your agency and looks forward to working with you.

C. Our Accomplishments

Enhancing Systems Controls: St. Michael's developed automated system reconciliation tools as a key control to reconcile data between several integrated financial systems. These tools supported the development of systems controls and entity level controls over feeder systems that produced a material input to agency level financial statements.

Integrating Business Systems: St. Michael's integrated the Defense Travel System with agency accounting systems in support of a DoD client which automated the travel process.

Performing Reconciliation of Contracts: St. Michael's supported the Government's largest contract payment operation by reconciling out-of-balance conditions between payment and accounting systems and which identified improper payments.

Measuring Performance: St. Michael's created metrics for measuring the effectiveness of the integration of systems. We determined which key performance indicators to track, researched appropriate benchmarks, designed reports and graphs, and compiled and analyzed the data.

Improving Processes: St. Michael's implemented a new, digitized signature as a means for a Defense Agency to sign Un-Liquidated Obligation letters. We saved the Agency tens of thousands of dollars in time and materials per year by digitizing the signing process.

Functional Training: St. Michael's developed and delivered functional training to support the rollout of a Financial ERP and custom software applications. We delivered training to numerous civilian, military, and contractor users.

Testing Systems: St. Michael's tested integration software that interfaced legacy system financial data into PeopleSoft financials. Key tasks included developing testing scenarios, writing test scripts, creating test files to create the test conditions, running the actual tests, and recording and evaluating the outcomes.

Writing and Publishing Procedures: St. Michael's supported the publication of a Resource Manager's g guide for a PeopleSoft implementation and financial policy for a military Department.

Creating Standard Operating Procedures: St. Michael's Inc. created standard operating procedures (SOPs) and flowcharts for a Defense Agency, which allowed them to identify and correct weaknesses in current procedures. Other consulting firms working for the Agency adopted the SOP formatting created by St. Michael's to use as their own.

St. Michael's Inc. is an employee owned company that developed CrossPoint® to provide our practitioners and clients consistent, reliable methodologies for effective solutions relating to program/project management, audit readiness and financial management for our federal government clients.

St. Michael's developed CrossPoint® to help our project leaders and customers achieve a comprehensive environment that complies with legislative, regulatory and policy guidance and professional standards while providing our execution teams with a toolkit specifically tailored to achieve delivery of consistently superior audit readiness, program management and financial management services.

CrossPoint® consolidates St. Michael's collective experience into an easy to use reference sources that allows consistent and superior assistance to our federal government clients through a unified and comprehensive resource. CrossPoint® is applicable to technically challenging requirements and provides a pathway through complex business environment to improve levels of financial and program management success. CrossPoint® enhances our ability to assist clients in the following areas:

- Manage and improve multiple, highly complex processes simultaneously
- Respond to standard and unanticipated requirements
- Achieve and maintain compliance with legislation, regulations, policy guidance, and standards
- Achieve synergies, cost-savings, and economies of scale
- Plan for and adapt to evolving financial and business systems and processes
- Migrate successful solutions from one office or directorate to others with similar, but distinct needs in a timely, cohesive manner

Ask St. Michael's how we can use CrossPoint® to assist you to place your organizations "Success On Target™"
