28. CACI-NSR Corporate Background

CACI-NSR conducts objective research and analysis on issues related to national security policy. CACI-NSR provides advanced research, policy analysis, strategic assessment and planning, and tailored technical support for senior-level policymakers in government and industry. CACI-NSR specializes in assisting government and corporate clients in meeting the challenges presented by the intersection of challenging policy and technical issues across a wide range of national security disciplines including:

- Critical infrastructure protection
- Strategic command, control and communications (C³)
- Information operations
- Continuity of operations
- Continuity of government
- Space policy and planning
- Technology policy and acquisition planning
- Intelligence operations and policy
- Counter proliferation
- Special operations
- Security policy and procedures
- Arms control
- National and theater missile defense.

The firm's most valuable assets are its people and its reputation for high-quality products, the breadth of senior-level experience, and its ability to respond quickly to clients needs.

The senior professional staff has an average of over 25 years experience in a wide variety of national security policy, operations, and technology fields. This range of expertise includes significant service as senior Presidential staff in the Office of Science and Technology Policy, Office of the Vice President and White House Military Office; over 10 years experience on Congressional professional staffs; and, executive level experience in the Department of Defense, the National Aeronautics and Space Administration and other Federal departments and agencies. A versatile and innovative staff of analysts and researchers along with a seasoned cadre of expert consultants support the senior staff.

CACI-NSR applies its staff's experience, expertise and energy to government and industry clients' activities across the broad range of national security matters through:

- Conducting policy, programmatic and technical analyses;
- Developing and sponsoring policy games, conferences, seminars and table top exercises for clients at operational and national levels;
- Providing threat, risk and vulnerability assessments;
- Canvassing and tracking advances in technology and technological trends;
- Devising strategic planning and performance measures and methods and implementing such steps to improve client procedures, organization and performance;
- Coordinating and advising on policy initiatives with clients in the Department of Defense as well as other Federal departments and agencies;
- Monitoring international weapons proliferation developments in countries of concern and trends in trade and U.S. export controls; and,
- Engineering single system or system of systems technological solutions responsive to client requirements and in accordance with prevailing Department of Defense, Service and Joint technology objectives, requirements and architectures.

CACI-NSR has provided policy analysis and strategic and technology assessment support to the Office of the Secretary of Defense, the White House Military Office, the Organization of the Joint Chiefs of Staff, the Departments of the Army, Navy, and Air Force, the Defense Threat Reduction Agency (DTRA), the Arms Control and Disarmament Agency, the Department of Energy (DOE), the Joint Program Office for Special Technology Countermeasures (JPO-STC), the Community Management Staff, the Office of Special Technology, and DOE National Laboratories. NSR has also provided analytical support within its areas of expertise to defense sector firms, including Lockheed Martin, Boeing, Raytheon, Northrop Grumman, General Dynamics and RAND Corporation. These studies have assessed the emerging threat environment, national security strategy, and defense policies that affect force structure and weapons procurement decisions.

SCA MATRIX

SCA Eligible Contract Labor Category	SCA Equivalent Code - Title	WD Number
No SCA categories on this contract		

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated (***) SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.
