WHO IS ROBBINS-GIOIA?

Robbins-Gioia, LLC, is dedicated to delivering management consulting solutions to government agencies. For more than 25 years, we have helped organizations optimize their business processes, accelerate change, and establish time, cost, and quality improvements. A few of the agencies who have benefited from Robbins-Gioia's expertise are the Department of Justice, Department of Commerce, Department of the Treasury, Department of Veterans Affairs, Department of Defense and the Department of Homeland Security.

From strategy formulation through execution, our experts create value for customers. Robbins-Gioia:

- People are management consulting experts with industry experience and a wide range of skill sets, which include project management, strategic planning, performance measurement, and risk assessment. The staff has earned its reputation for providing quality, value-added services that assure that customers will meet deadlines, budgets, and program requirements.
- Processes are gleaned from government and industry and represent the best, most defined, and highly repeatable processes available. Documented methodologies leverage existing customer environments to provide you with visibility over multiple projects.
- Tools combine the best commercial off-the-shelf tools with your existing systems to meet the demand for timely, accurate, and consistent management information. Our toolset includes web-based executive information systems to provide the visibility necessary in large, enterprise-wide programs or multiple projects.

Our proven capabilities encompass more than 40 disciplines, including:

- Project Management
- Life Cycle Management
- Change Management
- Cost Estimating and Reporting
- Process Improvement
- Organizational Alignment
- Business Modeling
- Earned Value Management
- Configuration Management
- Resource Management
- Risk Assessment
- Cost/Benefit Analysis
- Activity-Based Costing
- Earned Value Management
- Quality Management
- Performance Measurement
- Portfolio Management
- Microsoft Project 2002 Integration

HOW CAN ROBBINS-GIOIA HELP?

Robbins-Gioia's proven solutions drive results by focusing on performance management that measures and documents the outcomes of an organization's initiatives. The methodologies are based on disciplined program/project management disciplines. We have worked with clients on complex, time-sensitive efforts and helped them to:

- Develop a disciplined and documented approach to managing large, complex programs.
- Establish enterprise oversight
- Implement standardized program management across an organization
- Gain the ability to plan, implement, control, and assess programs as envisioned by the Government Performance and Results Act (GPRA), the Clinger-Cohen Act, and other federal budgetary and regulatory guidelines
- Assess the impact of change as part of an overarching change management process
- Deliver products and services that meet customer needs
- Implement a means of measuring progress toward achieving strategic goals and objectives
- Increase program Visibility through effective contractor performance monitoring
- Manage risk using structured risk management processes

Whether the issue involves continuous process improvement, performance-based management, or implementing capital investment processes, Robbins-Gioia helps its customers every step of the way, from concept to completion.

HOW TO USE MOBIS IN YOUR ORGANIZATION – THE SIMPLIFIED PROCESS

Step 1. Robbins-Gioia meets with you to review and finalize your requirements.

Step 2. You review the project definition and modify it as needed.

Step 3. Robbins-Gioia presents information about the resources required to meet your needs and provides a cost estimate.

Step 4. You provide project definition and funding documents to your internal contract office.

Step 5. Your contracting officer executes the order and issues it directly to Robbins-Gioia.

Step 6. Robbins-Gioia begins addressing your business needs.

Robbins-Gioia pays GSA an Industrial Funding Fee of .75%

MISSION ORIENTED BUSINESS INTEGRATED SERVICES (MOBIS)

The MOBIS program offers a full range of management and consulting services that can improve a federal agency's performance and their endeavor in meeting mission goals.

MOBIS contractors possess the necessary expertise to facilitate how the federal government responds to a continuous stream of new mandates and evolutionary influences including the President's Management Agenda; Government Performance and Results Act; Federal Acquisition Streamlining Act; OMB Circular A-76; Federal Activities Inventory Reform Act; government reinvention initiatives such as benchmarking and streamlining; strategic sourcing; downsizing; and privatization. In addition, MOBIS contractors can provide the government with the requisite expertise to enable federal agencies to meet mission requirements requiring integrated business solutions. MOBIS contractors provide services and support products to support agencies in accomplishing mission oriented business efforts. These effort may include, but are not limited to, quality management; business process reengineering; strategic and business planning; knowledge management consulting; benchmarking; strategic sourcing; ISO 9000; activity-based costing; financial management analysis related to an improvement effort, statistical process control; construction and implementation of surveys; and organizational assessments and evaluations; process improvements; process modeling and simulation; performance measurement; organizational design, change management; development of leadership/management skills; and training in improving customer service and satisfaction, assistance in the performance of privatization studies, training in support of related business functions, program integration, project management and alternative dispute resolution support.

SIN 874-1 – Consulting Services may include providing expert advice, assistance, guidance or counseling in support of agencies' mission oriented business functions. This may include studies, analyses and reports documenting any proposed developmental, consultative or implementation efforts. Examples of consultation include but are not limited to: Strategic, business and action planning and execution, Performance-based budgeting, Systems alignment, Cycle time, Organizational assessments, High Performance measures and indicators, National security strategy and policy development, Emergency management and preparedness, War gaming, Medical and healthcare consulting, Budget, manpower and acquisition planning and strategy, Business modeling and simulation, Program audits and evaluations, Process and productivity analysis and improvement, Quality assurance and technical support, Organizational space management, Weapons systems program planning, Workforce and succession planning, Customized training.

SIN 874-7 - Program and Project Management Services may include assisting agencies in planning, initiating, managing, executing, and closing out mission-oriented business programs and projects. This may include: Project leadership and communications with stakeholders; project planning and scheduling; earned value management support; project management, including performance monitoring and measurement; reporting and documentation associated with project/program objectives; stakeholder briefings, participation in required meetings, and related project support services; program integration services; and project close-out services. All services are provided and performed under the supervision/management of the contractor's Project Manager or Program Manager.

Maximum Order Limitation (MOL)

The maximum total dollar value of any order placed under this contract will be \$1,000,000.00; however, in the event an order exceeds the maximum order, the contractor and the buying agency should act in accordance with clause I-FSS-125 (August 1995). I-FSS-125 (August 1995) states:

- a. In accordance with FAR 8.404 there may be circumstances where an ordering activity finds it advantageous to request a price reduction, such as where a quantity of an individual order clearly indicates the potential for obtaining a reduced price. To assist the customer agencies to determine when they should seek a price decrease, a level called a maximum order has been identified under the contract. When an ordering activity's order exceeds this amount, it is recommended that the ordering activity contact the vendor for a reduced price.
- b. Vendors may: (1) offer a new lower price for this requirement (the Price Reduction clause is not applicable to orders placed over the Maximum Order in FAR 52.216.19); (2) offer the lowest price available under the contract; or (3) decline the order (orders must be returned in accordance with FAR 52.216-19).
- c. A delivery order that exceeds the maximum order may be placed with the Contractor selected in accordance with FAR with the Contractor selected in accordance with FAR 8.404. The order will be placed under the contract.
- d. Sales for orders that exceed the Maximum Order shall be reported in accordance with GSAR 552.238-72.
