## CUSTOMER INFORMATION

1. **Awarded SIN#:** SIN 566-1 **Laboratory Products and Accessories**  
 SIN 566-5 **Workstation Design/Installation Services**  
 SIN 66-147 **Fume Hoods**
- Rates for Services:** SIN 566-5 **Workstation Design/Installation Services**  
 Workstation Design/Layout Installation Option includes the design/redesign of furniture installations to accommodate the implementation of agency programs. Professional designers develop furniture and equipment layouts, which meet the government's functional and special requirements. Services include the inspection of proposed laboratory spaces, observation and interview of personnel, development of a wire and utility management plan (a set of drawings which identify all wiring and utility services associated with the laboratory furniture, equipment, fitting and fixtures); development, coordination and delivery of acceptable layouts, including floor plans and elevations based on the laboratory site conditions and the requirements of the using agency; development of parts/inventory lists specified by manufacturers name and part number. Workstation furniture and equipment installation includes delivery coordination of furniture and related equipment, unpacking, inspection, inventory and assembly of furniture components into workstation configurations, which meet agency requirements for form and function. Installation is in accordance with final design drawing and specifications. (See block 20a for separate design installation rates and services)
