15. Warranty provision: AEL guarantees that its testing services are performed by utilizing certifiable methodologies recognized by industry. AEL does not warrant its test results will be “the desired” result by the customer. Rather, the tests are “as is.” AEL makes no expressed or implied warranties for the results unless there is an instrument malfunction, a technician error, or some fault directly attributable to AEL. AEL stands behind its testing services as being accurate and complete.
16. Export packing charges: It would be extremely rare, however, should schedule customer require consultant to ship over seas, then the cost for that shipping would be charged as a direct pass-through to the customer with the shipping invoice used as validation of contractor’s costs. Read clause 52 247-38 FOB Inland Carrier, Point Of Exportation (Apr 1984)

18. Terms and conditions of rental, maintenance, and repair (if applicable): **N/A**
19. Terms and conditions of installation (if applicable): **N/A**
20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): **N/A**
21. List of service and distribution points (if applicable): **N/A**
22. List of participating dealers (if applicable): **N/A**
23. Preventive maintenance (if applicable): **N/A**
24.
 - a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). **N/A**
 - b. If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following: www.Section508.gov/.
25. Data Universal Number System (DUNS) number: **03-935-6584**

26. Central Contractor Registration (CCR) registration: Contractor is registered with the CCR. Registration is valid through 06/26/2009. The CAGE Code number is **ITGE1**.

27. SECURITY REQUIREMENTS:

In the event security requirements are necessary, the ordering activities may incorporate, in their delivery orders, a security clause in accordance with current laws, regulations, and individual agency policy; however, the burden of administering the security requirements shall be with the ordering agency. If any costs are incurred as a result of the inclusion of security requirements, such costs will not exceed ten percent (10%) or \$100,000, of the total dollar value of the order, whichever is less.

28. CONTRACT ADMINISTRATION FOR ORDERING OFFICES:

Any ordering office, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4 [Contract Terms and Conditions- Commercial Items (Feb 2002)], paras (l) Termination for the Government's Convenience, and (m) Termination for Cause.

29. CONTRACTOR TEAM ARRANGEMENTS:

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74 Contractor's Reports of Sales and 552.238-76 Industrial Funding Fee. That is, each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract or task work order.

30. BLANKET PURCHASE AGREEMENTS (BPA)

Federal Acquisition Regulation (FAR) 13.303-1(a) defines Blanket Purchase Agreements (BPAs) as "...a simplified method of filling anticipated repetitive

needs for supplies or services by establishing 'charge accounts' with qualified sources of supply." The use of Blanket Purchase Agreements under the Federal Supply Schedule Program is authorized in accordance with FAR 13.303-2(c)(3), which reads, in part, as follows:

"BPAs may be established with Federal Supply Schedule Contractors, if not inconsistent with the terms of the applicable schedule contract."

Federal Supply Schedule contracts contain BPA provisions to enable schedule users to maximize their administrative and purchasing savings. This feature permits schedule users to set up "accounts" with Schedule Contractors to fill recurring requirements. These accounts establish a period of the BPA and generally address issues such as the frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times. Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under a BPA. Finally, Contractors may be open to a progressive type of discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be particularly useful when vying for specific dollar level(s) under the Maximum Order feature.

SERVICE INFORMATION

LABOR AND EQUIPMENT

Advanced Environmental Laboratories offers sampling services in conjunction with all analytical requests. Our sampling technicians are fully trained and OSHA certified for hazardous waste sites. Specialties include groundwater-monitoring, soil coring to depths of 6 feet and automated effluent sampling. Sample pick-up is also available on a prearranged basis all throughout the State of Florida. Hourly rates for field technicians include standard pumps, field meters, and gauges required to perform project, but do not include consumables such as bailers, tubing, and non-reusable field test kits.

> **Labor** = \$59.44 per hour (minimum one hour; travel shall be in accordance with JTR and negotiated on a job specific basis with the ordering office.

TURNAROUND TIMES / RUSH FEES

All pricing is based standard 7-10 working day turnaround. All RUSH projects must be scheduled with the lab in advance. The following is an outline for expedited fees:

1 day = 100% 2 day = 75% 3 day = 50% 4 day = 33% 5-7 day = 25%

Reports and Deliverables

AEL deliverables format may include the following:

- 1) Sample results
- 2) Laboratory method blank results
- 3) Surrogate recoveries
