LABOR CATEGORY JOB DESCRIPTIONS

DEFINITIONS:

Educational/Experience Equivalency Policies:

- When specific education levels are required, one year of additional experience may be substituted for each year of required education. For example: a High School diploma or GED plus 2 years additional experience is equivalent to an Associate Degree. A High School diploma or GED plus 4 years additional experience is equivalent to a Bachelor's Degree.
- Each year of education or training beyond High School may be substituted for one year of experience. Each year of relevant education or training may be substituted for a year of relevant experience.

LABOR CATEGORIES:

Senior Program Manager (SIN 51-409, 51-501, 51-600)

Minimum Work Experience: Ten (10) years of experience planning and managing commercial or Government programs and projects.

Functional Responsibility: Senior Program Manager maintains close consultation with the customer and senior management; ensures the success of the goals and objectives of the program; plans and directs technological improvements and project management implementation; manages a diverse group of functional activities and subordinate groups of technical and administrative personnel; and organizes and controls the overall activities of the contract. Senior Program Manager is responsible for overall program management, technical oversight, quality control, contract administration and costs. Senior Program Manager combines solid grounding in accepted program management methodology with experience in both private and Government programs. Senior Program Manager consults with the customer to ensure conformity to contractual obligations and establishes and maintains technical and financial reports to show progress of projects to management and customers.

Minimum Education: Bachelor's degree or equivalent professional experience and/or training.

Program Manager (SIN 51-409, 51-501, 51-600)

Minimum Work Experience: Two (2) years of experience planning and managing commercial or Government programs and projects.

Functional Responsibility: Program Manager works independently or under the direction of the Senior Program Manager. Program Manager maintains close consultation with the customer and senior management; ensures the success of the goals and objectives of the program; plans and directs technological improvements and project management implementation; manages a diverse group of functional activities and subordinate groups of technical and administrative personnel; and organizes and controls the overall activities of the contract. Program Manager is responsible for overall program management, technical oversight, quality control, contract administration and costs. Program Manager combines solid grounding in accepted program management methodology with experience in both private and Government programs. Program Manager consults with the customer to ensure conformity to contractual obligations and establishes and maintains technical and financial reports to show progress of projects to management and customers.

Minimum Education: Bachelor's degree or equivalent professional experience and/or training.

Senior Business Analyst (SIN 51-409, 51-501, 51-600)

Minimum Work Experience: Five (5) years of experience in business and/or system analysis.

Functional Responsibility: Senior Business Analyst analyzes and develops business components, structures, practices and policies from a total business perspective. Senior Business Analyst develops, implements strategic plans, policies and procedures; collects, compiles, and assembles data for financial and analytical documents and reports; may provide project management and/or oversight; establishes appropriate business evaluation criteria and models to insure quality and efficiency. While conducting needs analysis for customers, Senior Business Analyst determines the image formats, storage types, user interface, user access, document and Electronic Records life-cycle and response times. Senior Business Analyst can also develop job specification that identifies images, electronic records, indexes, scanning instructions, scanning resolutions, procedure for indexing, records retention, etc.

Minimum Education: Bachelor's degree or equivalent professional experience and/or training.

Business Analyst (SIN 51-409, 51-501, 51-600)

Minimum Work Experience: Three (3) years of experience in business and/or system analysis.

Functional Responsibility: Business Analyst works independently or under the direction of the Senior Business Analyst. Business Analyst analyzes and develops business components, structure, practices and policies from a total business perspective. Business Analyst develops, implements strategic plans, policies and procedures; collects, compiles, and assembles data for financial and analytical documents and reports; may provide project management and/or oversight; establishes appropriate business evaluation criteria and models to insure quality and efficiency. While conducting needs analysis for customers, Business Analyst determines the image formats, storage types, user interface, user access, document and Electronic Records life-cycle and response times. Business Analyst can also develop job specification that identifies images, electronic records, indexes, scanning instructions, scanning resolutions, procedure for indexing, records retention, etc.

Minimum Education: Bachelor's degree or equivalent professional experience and/or training.

Senior Data/Document/Electronic Records Management Consultant (SIN 51-409, 51-501, 51-600)

Minimum Work Experience: Seven (7) years of experience in at least two of the following disciplines: system analysis, system programming, application programming, database management, document management, electronic records management, system configuration, and network management.

Functional Responsibility: Senior Data/Document/Electronic Records Management Consultant is in close consultation with the customer, suggests overall goals and strategies for the organization. Senior Data/Document/Electronic Records Management Consultant is an expert in the document and electronic records management strategies, information technology, and data management. Senior Data/Document/Electronic Records Management Consultant can provide the customer with options for improving the business process of the organization, given the constraints of budget and schedule. Senior Data/Document/Electronic Records Management Consultant provides technical expertise for project setup and test process to ensure that all assumptions in the job specification are accurate and final product meets all requirements, on-site system setup for configuring, delivering, installing and testing Neubus document and electronic records management on-site server, consulting and programming services for additional customer requirements, and system support services.

Minimum Education: Bachelor's degree or equivalent professional experience and/or training.

Data/Document/Electronic Records Management Consultant (SIN 51-409, 51-501, 51-600)

Minimum Work Experience: Three (3) years of experience in at least two of the following disciplines: system analysis, system programming, application programming, database management, document management, electronic records management, system configuration, and network management.

Functional Responsibility: Data/Document/Electronic Records Management Consultant works independently or under the direction of the Senior Data/Document/Electronic Records Management Consultant. Data/Document/Electronic Records Management Consultant provides oversight and guidance for the development and implementation of enterprise-wide document and electronic records management policies and procedures. Data/Document/Electronic Records Management Consultant may specialize in administration, management, communications, Information Technology, document conversion, records management, accounting requirements of the organization and more. Data/Document/Electronic Records Management Consultant provides technical expertise for project setup and test process to ensure that all assumptions in the job specification are accurate and final product meets all requirements, on-site system setup for configuring, delivering, installing and testing Neubus document and electronic records management on-site server, consulting and programming services for additional customer requirements, and system support services.

Minimum Education: Bachelor's degree or equivalent professional experience and/or training.

Data/Document/Electronic Records Management Support Specialist (SIN 51-409, 51-501, 51-600)

Minimum Work Experience: One (1) years of experience in at least one of the following disciplines: system analysis, system programming, application programming, database management, document management, electronic records management, system configuration, and network management.

Functional Responsibility: Data/Document/Electronic Records Management Support Specialist works independently or under the direction of the Senior Data/Document/Electronic Records Management Consultant or Data/Document/Electronic Records Management Consultant. Data/Document/Electronic Records Management Support Specialist may specialize in administration, management, communications, Information Technology, document conversion, records management, accounting requirements of the organization and more. Data/Document/Electronic Records Management Support Specialist provides technical expertise for project set up and test process to ensure that all assumptions in the job specification are accurate and final product meets all requirements, on-site system setup for configuring, delivering, installing and testing Neubus document and electronic records management on-site server, consulting and programming services for additional customer requirements, and system support services.

Minimum Education: Bachelor's degree or equivalent professional experience and/or training.

Vendor Certification for SIN 51 600 --- Electronic Records Management Solutions

For the purposes of the Schedule 36 Solicitation (3FNJ-C1-000001-B), eleven (11) specific elements of Electronic Records Management (ERM) Services have been identified. These 11 elements are fully defined and the corresponding requirements are identified in the Universal Electronic Records Management Requirements attachment to the solicitation. These requirements have been established and are administered by the National Archives & Records Administration (NARA).

Vendors may provide any combination of the 11 elements of ERM Services; however, vendors must certify that they are capable of meeting all standards associated with the elements they propose by completing this certification. Vendors should include a completed copy of this certification in their published GSA catalog to illustrate their ERM capabilities.

Neubus, Inc.
11700 Stonehollow Drive, STE 100, Austin, TX 78758

Proposed Elements of Electronic Records Management Services:

[Select all that apply]

- Element 1 - Desktop Applications
- Element 2 - Electronic Messages
- Element 3 - Social Media
- Element 4 - Cloud Services
- Element 5 - Websites
- Element 6 - Digital Media (Photo)
- Element 7 - Digital Media (Audio)
- Element 8 - Digital Media (Video)
- Element 9 - Databases
- Element 10 - Shared Drives
- Element 11 - Engineering Drawings

Neubus, Inc. hereby certifies that we are capable of meeting all standards described in Solicitation -3FNJ-C1-000001-B and the Universal Electronic Records Management Requirements attachment for each of the sections of ERM Services we have proposed, as indicated above.
