J
TERMINATION CEILING SCHEDULE

IMPORTANT NOTE: The contracting officer <u>MUST Complete this form</u> by filling in: (1) Purchase Order #; (2) Contracting Officer Name; (3) Contracting Officer Signature; (4) Date Completed; (5) Term of Lease (ie. 36, 48, 60 months); (6) Principal $ Amount; (7) Monthly Payment

This form is to be used in accordance to Section 27, Section B, Item #4 and #5 of the KYOCERA Document Solutions America, Inc. GSA Contract. A copy of this form should accompany the Purchase Order.

EARLY TERMINATION CALCULATION **J**

In the event the Government desires to terminate the Delivery Order for convenience, the Government may do so by giving written notice to the Contractor thirty (30) days prior to the effective date of such termination. The Government shall pay to the Contractor the Termination Amount identified in the Termination Ceiling Schedule. If a termination occurs for the convenience of the Government, the amount payable pursuant to this paragraph shall be deemed as an allowable cost under F.A.R. (See Part 17 and Part 52, Subpart 52.249.-2.) As indicated on the GSA Schedule 36, SIN's: 532420LTOP – Lease-to-Ownership Plan (LTOP) and 532420LC – Operating Lease Plan the following schedule will be referenced within the Purchase Order.

Delivery

Deliveries will be made, at the delivery destination, within thirty (30) days of receipt of a written order at the "Ordering Address" as noted above. All equipment and supplies are shipped F.O.B. destination.

Federal I.D. No.   DUNS#   Business Size

TIN: 95-2819506   06-446-5503   Large

Limited Warranty

Kyocera (Contractor) guarantees its equipment for a period of ninety (90) days from date of delivery. During the guarantee period, all broken or defective parts (except consumable parts), not caused by accident or misuse, shall be replaced at the Contractor's expense, including labor, parts and transportation cost. Considered consumable parts are masters, heater rollers, toner, developer, paper, etc. The Contractor at his expense shall make necessary adjustments of equipment, not occasioned by accident or misuse, during that ninety (90) day period.

Accessories

Accessories may not be purchased separately on Kyocera's GSA contract. Kyocera sells accessories only in conjunction with the base units in a bundled configuration. If a federal customer needs to order Kyocera accessories only, a separate open market purchase order must be issued. Any orders for accessories only referencing the GSA contract will be returned.

Maintenance

Staples and paper are not included in Maintenance. For Maintenance beyond a 50-mile radius, please contact your Kyocera National Account Manager. Maintenance without supplies, as well as other maintenance plans, are available on an open market basis.

Minimum Order Limit

The minimum acceptable order for shipment to one location is $100.00.

Geographic Coverage (Delivery Area)

The contract delivery area is defined as the forty-eight (48) contiguous states, District of Columbia, Alaska, and Hawaii.

Government Commercial Credit Card

Accepted.

Authorized Dealers

Prime Contractors

When an entity wishes to purchase goods or services from the federal government under a subcontractor's GSA contract or another agency's BPA, then the prime contractor must issue, and the subcontractor must acknowledge compliance with the prime contract utilizing OMB No. 9000-0014 Form 1413. This is a requirement of the FAR under Subpart 53 (53.222.e).

Form SF1413 is available on the web at **http://www.gsa.gov <http://www.gsa.gov/>**, then select Forms and All Current Forms.

"This contractor and subcontractor shall abide by the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status or disability."

2. MAXIMUM ORDER

The Contractor is not obligated to honor any order for a combination of items in excess of:

SIN	MAXIMUM ORDER
SIN 333316C	$350,000
SIN 339940	$350,000
SIN 532420C	$350,000
SIN 811212SA	$350,000
SIN 532420LTOP	$350,000
SIN 532420LC	$350,000
SIN 333316CPC	$350,000
SIN 333316F	$350,000
SIN 541611MPS	$350,000
SIN 541611O	$350,000

The Contractor shall honor any order exceeding the maximum orders, unless that order (or orders) is returned to the ordering office within 5 workdays after receipt, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

The Contractor shall honor any purchase card orders exceeding the maximum orders unless that order (or orders) is returned to the ordering office within 24 hours after receipt, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

3. MINIMUM ORDER – The minimum acceptable order for shipment to one location is $100.00.

When the Government requires supplies or services covered by this contract in an amount less than $100.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish those supplies or services under the contract.

4. GEOGRAPHIC COVERAGE - The area of delivery in the price list is limited to the 48 contiguous states, District of Columbia, Hawaii, and Alaska.

KYOCERA Document Solutions America, Inc. reserves the right to reject orders requiring delivery, installation, or service in an area beyond a 50-mile radius of Kyocera sales and service location by giving the ordering office notice of such rejection within 7 working days after receipt of the order. Customer will be responsible for the expenses necessitated for special rigging. Kyocera will bill the customer on an open market basis for special rigging.

5. POINTS OF PRODUCTION - Pursuant, and in accordance with FAR 6.302-1 and FAR 25.401, Kyocera meets the necessary requirements of all policies and procedures of TAA. Kyocera's main units, options and accessories are ONLY manufactured by, and available through, KYOCERA Document Solutions America, Inc.

6. DISCOUNTS - All prices shown herein are net (discount deducted) from the Commercial list price; along with GSA's Industrial Funding Fee (IFF).

7. QUANTITY DISCOUNTS – All quantity discounts are stated in this price list..

8. PROMPT PAYMENT DISCOUNT - None. Payment Terms - Net 30 days.

9a. PURCHASE CARD TRANSACTIONS - Kyocera will accept Government purchase card transactions at or below the micro-purchase threshold within the authorized territories.

All credit card orders must include the following information:

- Credit card number
- Expiration date
- Type of Card (Visa, MasterCard, etc.)
- Name, address and telephone number of cardholder

Please call 973- 808- 8444. Ask for National Account Customer Service.

Discount for payment by commercial credit card: NONE.

9b. Kyocera will accept Government purchase card transactions above the micro-purchase threshold within the authorized territories.

10. FOREIGN ITEMS - All foreign items manufactured in Japan

11a. TIME OF DELIVERY – Deliveries will be made, FOB the delivery destination, within thirty (30) days of receipt of a written confirming order at the "Ordering Address" as noted below.

11b. EXPEDITED DELIVERY – Available on an Open Market Basis.

11c. OVERNIGHT OR SECOND DAY DELIVERY – Available on an Open Market Basis.

11d. URGENT REQUIREMENTS – When the Federal Supply Schedule contract delivery period does not meet bona fide urgent delivery requirements of an ordering agency, agencies are encouraged, if time permits, to contract the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 7 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing). If the Contractor offers an accelerated delivery time acceptable to the ordering agency. Any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

12. F.O.B. DESTINATION - All prices shown in the Price List are based on F.O.B. destination to the 48 contiguous states and the District of Columbia.

Prices are F.O.B. destination to the port of embarkation within the 48 contiguous states and Washington DC when the ultimate destination is within Zone 2 (Alaska and Hawaii). For Shipment to Alaska and/or Hawaii, the Government can select one (1) of the two (2) following options, which must be clearly indicated on the purchase order:

a) The item will be shipped to the port of embarkation within the 48 contiguous states and Washington, DC as indicated on the purchase order. The Government will then be responsible for shipping the product from the designated port of embarkation to the using agency.

b) The item will be shipped to the using agency directly by Kyocera. Kyocera will prepay the freight and bill the using agency the exact shipping cost. The Government purchase order will indicate that freight is to be prepaid by Kyocera and billed to the Government.

13. ORDERING ADDRESS

* ALL PURCHASE ORDERS MUST REFERENCE CONTRACT NO. GS-25F-0062M*

All orders placed under the contract must be issued to Kyocera as follows:

KYOCERA Document Solutions America, Inc.

Attn: National Account Department

C/o Local Authorized Dealer (insert name)

225 Sand Road, PO Box 40008

Fairfield, NJ 07004-0008

For Information, or if you have a question regarding Order Status please call 1-800- 453- 6482 or 973- 808- 8444. Ask for National Account Customer Service.
Fax: (973) 882 - 4411

Electronic Mailbox System - KYOCERA Document Solutions America, Inc. has implemented an Electronic Mailbox System, which enhances Kyocera's ability to effectively communicate to our dealers and customers.
FOR PURCHASE ORDERS: **natorders@da.kyocera.com**

To place an order through one of the Kyocera Authorized Dealers, the order must be forwarded directly to Kyocera at the address listed above, but issued to Kyocera c/o Authorized Dealer's name so that Kyocera can properly utilize the desired Dealer for installation or provision of services.

No deviation from the terms and/or warranty specified in this schedule is authorized.

14. PAYMENT ADDRESS - KYOCERA Document Solutions America, Inc will submit invoices directly to all ordering agencies. Each invoice is payable Net 30 days from the date the invoice is received by the office specified in the order:

Kyocera is registered in the **System for Award Management (SAM)** database.

15. EQUIPMENT LIMITED WARRANTY - KYOCERA Document Solutions America, Inc. (Contractor) guarantees its equipment for a period of ninety- (90) days from date of delivery. During the guarantee period, all broken or defective parts (except consumable parts), not caused by accident or misuse, shall be replaced at the Contractor's expense, including labor, parts and transportation cost. Considered consumable parts are masters, heater rollers, toner, developer, paper, etc. The Contractor at his expense shall make necessary adjustments of equipment, not occasioned by accident or misuse, during that ninety- (90) day period.

These warranties would be void if the equipment is not operated properly or misused. Drum unit warranties are limited to electrical functioning of the drum unit and are void if misused or physically damaged by the operator.

16. EXPORT PACKAGING CHARGES - Commercial and Military packaging on all models at standard commercial rates on an Open Market basis.

17. TERMS AND CONDITIONS OF GOVERNMENT CREDIT CARD ACCEPTANCE- See Item #9

18. TERMS AND CONDITIONS OF RENTALS

The customer agrees to rent from Kyocera copiers and accessories according to the terms of this price schedule.

The customer agrees to use reasonable care in the use and handling of the copier and agrees to use only consumable supplies in the copier that do not damage it. All maintenance and service work which the copier requires because of customer's failure to use reasonable care in its handling or operation or caused by customer's use of non-Kyocera brand consumable supplies will be provided by Kyocera or an authorized Kyocera Servicing Dealer and paid for by the customer on an OPEN MARKET BASIS.

A. GENERAL - Kyocera rental prices include the copier, paper cassette(s), drum unit, heater rollers, delivery, instruction, and all necessary parts, supplies and labor for maintenance, but excludes staples. Maintenance is provided during normal business hours, 8:30 A.M. - 5:00 P.M., Monday through Friday, except holidays. Rental prices do not include the cost of parts and labor necessitated by accident, misuse, or negligence by the customer.

B. LIABILITY - While rental equipment is in the possession of the Government, the contractor shall assume all responsibility for loss or damage to the equipment, except for loss or damage caused by the negligence or willful act of the Government.

Kyocera copiers furnished for rental will be in good working order and either new or reconditioned at the option of Kyocera. The Kyocera copiers placed on rental with the customer remains the property of Kyocera and the customer agrees not to make any alteration of the copier and not to move or remove the copier from the original installation address without prior written approval.

C. PRICES - Customer agrees to pay to Kyocera the Minimum Monthly Rental Charge(s) and Excess Meter Charge(s) set forth herein. Rental charges shall be computed on the basis of thirty- (30) days a month. Charges for fractional parts of a calendar month are to be computed at the rate of 1/30th of the monthly charge for each day the equipment is installed ready for use. (The Agency purchase order must clearly indicate rental term)

D. INSTALLATION CHARGE - There are no installation or removal charges to the government for the equipment (copiers and accessories) listed herein.

E. SERVICE AREA - Rental pricing is based upon installation within fifty- (50) miles from the servicing dealer location. The install charge for installations over fifty- (50) miles will be on an "Open Market" basis. Service and repair of Kyocera equipment will be performed by Kyocera authorized dealers and branch offices as listed in this Price List.

F. RESPONSE TO SERVICE CALLS - During normal working hours (as specified by the using activity), Monday through Friday (excluding holidays observed by the Government), the contractor shall respond to verbal or written requests for service calls. The contractor shall repair the rental equipment within, either nine (9) working hours or sixteen (16) working hours (as specified by the using activity), after the verbal or written request for the service call. The contractor's response time on a service call starts, when authorized personnel of an ordering activity places a verbal request to the contractor for a service call; or a written request is received by the contractor requesting a service call, whichever is earlier.

G. BACKUP AND REPLACEMENT EQUIPMENT - The contractor shall have backup and replacement rental equipment available. When rental equipment cannot be repaired within sixteen (16) working hours, the ordering activity may require the contractor to provide backup rental equipment. The contractor shall deliver backup rental equipment within nine (9) working hours of the ordering activity's notifying the contractor that backup rental equipment is required. Backup rental equipment must equal or exceed the performance capabilities of the equipment being replaced. The contractor's charges for use of the backup rental equipment shall be identical to the charges for use of the original equipment being replaced. If the original equipment is not satisfactory repaired and returned to the ordering activity. If agreed to by the ordering activity, the backup rental equipment may be used as the replacement equipment. The contractor shall provide the ordering activity with the serial number, location, and model number of the replacement rental equipment.

Kyocera will supply back-up rental equipment for critical equipment. The Government must specify at the time of acquisition the units identified as critical rental equipment. Identified critical rental equipment units may not be more than 5% of the total of rental equipment the Government user acquires under this Contract. Such critical equipment must be installed within 50 miles of the Kyocera authorized service location.

H. CREDIT (REPAIR AND MAINTENANCE RESPONSE) - If repair service is not accomplished, or within the specified time, the Government shall be entitled to credit against the monthly billing for that particular equipment. Credit will be unilaterally taken on the basis of 1/30th of the monthly rental rate for each day or portion of a day the equipment is not repaired or replaced.

I. MAINTENANCE RESPONSIBILITY - All rental equipment shall be serviced and maintained by the contractor in a fully operational condition without expense to the Government. The Government shall be responsible for risk of loss or damage to the rental Equipment except for (i) normal wear and tear, and (ii) loss or damage caused by the negligence of the Contractor, its agents, subcontractors or employees that would be repaired or replaced at the Contractor's expense. The contractor must be able to replace any rental equipment in use with backup and replacement rental equipment that has identical or additional performance capabilities. Replacement rental equipment is equipment installed in place of malfunctioning rental equipment and is intended to remain in place for the remainder of the contract period.

J. MONTHLY EFFECTIVENESS LEVEL (MEL) - Each rental equipment furnished under the resulting contract shall perform at a 95% or higher Monthly Effectiveness Level. The Monthly Effectiveness Level percentage shall be calculated as follows: Monthly Effectiveness Level percent = (total monthly production period in hours) minus (total number of rental equipment downtime hours over the monthly production period) divided by (total monthly production period in hours) times 100. The total monthly production period in hours shall be calculated by multiplying 8 hours per day times the number of working days in the month (weekend and Federal holidays excluded). The total number of equipment downtime hours over the monthly production period shall be calculated as the number of minutes the rental equipment was down (unable to perform one or more of its specified functions) during the monthly production period, divided by 60.

K. CREDIT (MEL) - Failure of any rental equipment to achieve a Monthly Effectiveness Level of 95% or higher shall entitle the Government to unilaterally take credit against the monthly billing for that particular equipment. The credit shall be calculated as the difference between 100 percent and the achieved MEL percent times the monthly rental charge. In any month in which the Monthly Effectiveness Level is less than 95%, the Government will not be responsible for paying any charge for lack of monthly volume. If the MEL is 95% or higher, no credit will be taken by the Government.

(For example): If rental equipment was down for 1200 minutes in a month which had a total monthly production of 21 days and the monthly rental charge was $300, the Government's unilateral credit against the monthly billing would be calculated as follows:

- Total monthly productions hours: 21 days times 8 hours = 168 total monthly production hours.
- Total number of rental equipment downtime hours over the monthly production period: 1200 minutes divided by 60 = 20 hours.
- MEL percent: (168 minus 20, divided by 168) times 100 = 88.095 percent
- Credit percent taken: 100 percent minus 88.095 percent = 11.005 percent
- Government credit: 11.005 percent of $300 = $33.02
- Credit (Extensive Downtime)

If the Monthly Effectiveness Level is less than 90 percent for the three consecutive months, the Government reserves that right to require the contractor to replace the equipment or – terminate the order with no termination or removal charges being assessed to the Government.

L. ORDERS - A written order shall be the only basis for rental in accordance with these terms and conditions.

M. PERIOD - Orders for rental shall cover only the period of use of the equipment within the contract period. Rental charges shall commence on the next working day following that on which the equipment is installed ready to operate.

Equipment rental for less than three (3) months will be installed only if Kyocera receives written confirmation that it is the expressed intent of the Government agency to issue a renewal purchase order for the following fiscal period.

N. NOTIFICATION OF INTENT TO CANCEL AND TERMINATION - Customer agrees to provide in writing to Kyocera, no less than thirty- (30) days prior to the proposed removal date, and written notification of intent to terminate the rental of Kyocera equipment.

If an agency fulfills the requirement of a rental agreement then no termination charges will be applied. No termination charges will apply if an annual (1-year) plan is terminated at any time during the year, upon thirty- (30) days written notice to Kyocera.

Pricing for each rental period has been developed and established based on the completion of the rental term. Should a rental be canceled by an agency prior to the end of the selected term, termination penalties will be imposed as follows:

a. Lack of Fiscal Funds: No penalty
b. Activity Closure due to Congressional Mandate: No penalty
c. Formal Reorganization Duly Authorized by the Head of the Agency: No penalty
d. Any Other Discontinuance: The difference between the monthly rental rate for the selected rental order term and the published standard monthly rental rate which would have been paid for the term of the actual rental period, to the closest full annual rental period, multiplied by the number of months of actual rental. An exception to this is for the one year plan which will have a penalty of three (3) months rental rate for early termination, not to exceed a total of twelve (12) payments for the actual rental months combined with the penalty.

The following are examples of the termination charges based on the rental term:

1 Yr. Rental:

Example 1

Rental canceled in month 3 Government owes three times the 1 yr. monthly rental rate.

Example 2

Rental canceled in month 10 Government owes two times the 1 yr. monthly rental rate.

2 Yr. Rental:

Example 1

Rental canceled in month 6 Government owes the difference between 1 yr. plan and 2 yr. plan for 6 months.

Example 2

Rental canceled in month 18 Government owes the difference between 1 yr. plan and 2 yr. plan for 18 months.

3 Yr. Rental:

Example 1

Rental canceled in month 6 Government owes the difference between 1 yr. plan and 3 yr. plan for 6 months.

Example 2

Rental canceled in month 18 Government owes the difference between 1 yr. plan and 3 yr. plan for 18 months.

Example 3

Rental canceled in month 30 Government owes the difference between 2 yr. plan and 3 yr. plan for 30 months.

O. PURCHASE OPTION CONVERSION - Rental charges which have been paid, or rental charges accrued and due to be paid, may be applied as credit towards the purchase price of currently installed rental equipment rented under SIN 53240C. The purchase price shall be the Federal Supply Schedule price prevailing at either time of the initial rental or purchase option conversion, whichever price is lower. The percentage of rental accruals to be applied towards the purchase price shall be that in effect at the time of the initial rental or purchase option conversion, whichever is higher.

The amount of rental payments to be applied by Kyocera towards the Rental Option to Purchase Base Price as a credit, and how the option may be exercised is as follows:

At the end of:	Rental Equity
1 – 4 Months	100% of monthly base rental
5 – 8 Months	75% of monthly base rental
9 – 12 Months	65% of monthly base rental
13+ Months	50% of monthly base rental

A maximum conversion credit will be 75% of the purchase price of the same machine, which has been on continuous and uninterrupted rental and exclusive of maintenance. All equipment purchased under rental purchase option conversion must have been new and unused, or remanufactured when initially installed. Any equipment in rental status which was not new and unused, or remanufactured at the beginning thereof, shall be replaced with new and unused, or re-manufactured equipment of equal or greater caliber, less all applicable rental accrual credits. When equipment in rental status to be purchased was new and unused, or re-manufactured at the beginning thereof, and its rental has been by the purchaser, no equipment replacement is necessary. At the time of purchase, the Kyocera Equipment Purchase 90 Day Limited Warranty will cover the copier. Rental/Purchase conversion credits are applicable only to machines currently rented under G.S.A. contracts and are not transferable from one machine to another.

P. RENTAL RENEWALS - Rental Renewal Purchase Orders should be issued promptly within sixty- (60) days after award of new contract. Should the Government fail to send notice of renewal and the rental machine remains in the possession of the Government, the Government will be invoiced, noting the previous purchase order, and in accordance with the current GSA contract pricing, terms and conditions.

Currently installed rentals will remain at the same pricing, for renewal, as invoiced under the prior contract. This will be applicable even when the same models are available under the new contract at higher pricing. Those agencies that are required to issue a new purchase order should do so at the beginning of the new fiscal period or soon thereafter. All rental renewals should be clearly marked as a renewal with appropriate serial # indicated.

Q. MOVEMENT OF EQUIPMENT

1. If the equipment is moved to geographical area not serviced by this contract, the equipment plan will be subject to cancellation and termination charges as described in "Section M" above.
2. The Government shall give at least thirty- (30) days written notice of the movement of equipment, unless such move is required because of an emergency.
3. Shipment to the new installation site shall be at Government expense by padded van or airfreight. The Government may ship the equipment by Government transportation or by commercial carrier.
4. When the shipment is under the control of the contractor and damage is incurred which results in costs for either labor or parts to restore the equipment to good operating condition at the new site, such costs shall be borne by the contractor.
5. When the shipment is under the control of the Government and damage is incurred which results in costs for either labor or parts to restore the equipment to good operating condition at the new site, such costs shall be borne by the Government.

19. TERMS AND CONDITIONS OF INSTALLATIONS (IF APPLICABLE) - Installation of equipment for purchase and lease is included at no additional charge to the Government. For rentals, an installation charge will be incurred. Such charges are the offeror's commercial practice and are negotiated and accepted by the Government. No removal charges will be accepted.

Kyocera Document Solutions America, Inc. reserves the right to reject orders requiring delivery, installation or service in an area beyond a 50-mile radius of Kyocera sales and service locations by giving the ordering office notice of such rejection within 7 working days after receipt of order. Customer will be responsible for the expenses necessitated for special rigging. Kyocera will bill the customer on an open market basis for special rigging.

20a. TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICE (IF APPLICABLE) - Not applicable.

20b. TERMS AND CONDITIONS FOR ANY OTHER SERVICES (IF APPLICABLE) - Not applicable

21. LIST OF SERVICE AND DISTRIBUTION POINTS (IF APPLICABLE) - For the most up to date listing of the servicing organization for your location visit the Kyocera web site at **https://usa.kyoceradocumentsolutions.com/** then select "Where to Buy"

22. LIST OF PARTICIPATING DEALERS (IF APPLICABLE) - Not applicable.

23. SPECIAL PROVISIONS APPLICABLE TO REPAIR AND MAINTENANCE (SIN 811212SA) - NON MANDATORY:

Full Service Maintenance provided under this agreement shall include and be limited to replacement parts, drum unit, labor and maintenance required to keep the copier in good operating condition. ***Staples and paper are not included***.

Replacement of the drum unit shall be limited to normal wear based upon normal operation of the copier and will not be replaced when abuse, neglect, vandalism, or unauthorized repair(s) are the cause for replacement.

A. SERVICE AREAS: Kyocera's authorized service representatives will provide Service. **For the most up to date listing of the servicing organization for your location visit the Kyocera web site at https://usa.kyoceradocumentsolutions.com/, then select "Where to Buy"**.

B. ALL ORDERS FOR MAINTENANCE CONTRACTS SHOULD BE ISSUED:

(a) directly to your local Kyocera servicing dealer, or

(b) to Kyocera in care of your local Kyocera Servicing dealer.

If using option (a) the purchase order must be sent directly to the local servicing dealer on an open market basis, and the contract number cannot be referenced on the purchase order (see sample purchase order).

C. RESPONSIBILITIES OF THE CONTRACTOR:

1. The contractor shall always be responsive to the Government's repair service needs. The contractor shall perform all repair services, which are ordered by the Government during the contract term.
2. The contractor's repair service personnel shall complete repairs as soon as possible after notification by the Government that service is required. Within the service areas, this normally should be done within nine (9) hours after notification.
3. Only new or re-manufactured standard parts shall be used in effecting repairs.
4. Repair service shall include the furnishing of such items of equipment as may be necessary to repair the equipment being serviced.
5. Guarantee. All repair work will be unconditionally guaranteed for a period of ninety- (90) days.

D. MAINTENANCE PROVISIONS - Maintenance service agreement consists of preventative and repair (remedial) services. Preventative consists of those scheduled service calls necessary to maintain the equipment in first-class operating condition (e.g., cleaning, lubricating, adjusting, and replacing parts when needed). Repair (remedial) services consist of those unscheduled service calls necessary for repairs not caused by fire, water, accident, and fluctuations in electrical power or customer abuse. The Maintenance Service Agreement and Repair Service include the cost of labor, transportation, replacement/spare parts, (excluding consumable operating supplies). The greater the distance from the maintenance facility to the user's facility the higher the monthly fees. In the event the Government's equipment requires initial repair or overhaul prior to acceptance by the contractor for coverage under a maintenance service agreement, the charges for such repairs, including replacement parts and labor, and for a complete rebuilding or overhauling of Government's equipment are usually not included in the preventative service agreement.

Prior to acceptance of any equipment for maintenance, an inspection visit will be performed at no additional charge to the Government. The government will make arrangements for the contractor to perform a pre-inspection visit in order to ascertain if obvious abuse or damage exists. All equipment and maintenance inspection visits will be required through the end of the agreement. Failure to perform inspection service as stipulated in the contract (unless unlimited repairs calls are allowed) will result in a deduction of 1/12 of the yearly rate for each month of such delay. Further failure to tender emergency service within nine (9) working hours (maximum) after written or oral notification, unless otherwise stated, will be subject to a deduction of 1/30 of the monthly rate for each day the equipment is inoperative. The performance period shall begin within one week of the installation date (unless, delayed in accordance with provision entitled a delay of start of performance period and shall end when the equipment has met the standards of performance for period of thirty (30) consecutive days by operating in conformance with the contractors technical specifications and functional descriptions at an effectiveness level of 90% to 95% or more. The contractor shall grant a credit to the government for any machine that fails to perform at an effective level of 90% during any month. Any non-conformance must be corrected within 30 days of notification by the agency.

If the performance is not corrected within 60 days of written notice, the Government may terminate the agreement and request immediate removal of the equipment. The offer or shall grant a credit to the agency for any machine, which fails to perform at an effectiveness level of 90% during any month. The effectiveness level for a machine is computed by dividing the total productive time, by the sum of that time, plus machine failure downtime. The credit shall be a percentage amount of the fixed monthly maintenance charge, which is determined by subtracting the actual percentage of effectiveness level attained during the month from 90%. Example: if the effectiveness level for a machine if 87% for the month, the credit would be 3% of the fixed monthly maintenance charge; if the effectiveness level is 90% or higher, there is no credit due under this provision. It is the responsibility of the Government to prove default.

E. EQUIPMENT INSPECTION - Equipment being place under this Agreement shall be in good operating condition and shall be subject to inspection by Kyocera. Equipment that requires an overhaul or repair will have the same completed on an Open Market Basis, prior to the initiation of this Agreement. There will be no charge for the inspection, provided the equipment remains with the service area of the Authorized Kyocera Servicing Dealer that originally installed the equipment.

Relocated equipment, which is placed outside of the original Authorized Kyocera Servicing Dealer's jurisdiction, will be subject to an inspection charge on an Open Market Basis.

F. MOVEMENT OF EQUIPMENT - In the event that equipment being maintained under the terms and conditions of this contract is moved to another location, the contractor shall continue to maintain the equipment at the new location unless such equipment is moved to geographical area not covered by this contract.

1. If the equipment is moved to geographical area not serviced by this contract, the maintenance order shall be terminated without further obligations being incurred by either the contractor or the Government.
2. The Government shall give at least thirty- (30) days written notice of the movement of equipment, unless such move is required because of an emergency.
3. Shipment to the new installation site shall be at Government expense by padded van or airfreight. The Government may ship the equipment by Government transportation or by commercial carrier.
4. When the shipment is under the control of the contractor and damage is incurred which results in costs for either labor or parts to restore the equipment to good operating condition at the new site, such costs shall be borne by the contractor.
5. When the shipment is under the control of the Government and damage is incurred which results in costs for either labor or parts to restore the equipment to good operating condition at the new site, such costs shall be borne by the Government.

6. Should the equipment be moved to a distant location or beyond fifty (50) miles from the original installation address, there will be an increase in the Maintenance Charge under this Agreement.

7. Copiers located more than fifty (50) miles from a Kyocera service point (dealer) is subject to cancellation, or will be negotiated on an Open Market Basis

G. EXCLUSIONS - This Agreement does not include repairs made necessary by accident, abuse, misuse, neglect, theft, riot, vandalism, electrical power failure, fire, water, nuclear accident, or other casualty, or to repairs made necessary by service personnel other than Authorized Kyocera Service.

H. TERMINATION - No termination charges will apply to maintenance agreements terminated at any time, upon thirty- (30) days written notice to the contractor.

24a. SPECIAL ATTRIBUTES SUCH AS ENVIRONMENTAL ATTRIBUTES (e.g., recycled content, energy efficiency, and/or reduced pollutants). - Kyocera recognizes the burden that business activities can place on the environment. We strive to maintain a clear vision in pursuing a harmonious balance between economic development and environmental preservation. Kyocera operates under the following strict, group-wide environmental preservation measures; 1-Ozone layer protection; 2-Waste reduction; and 3-Energy and resource conservation. Kyocera's Environmental Charter, established in 1991, is a commitment to environmental preservation activities on a daily basis, while Kyocera Group's Green Committee, established in 2004, overseas the management of reducing the environmental impact across a product's lifecycle. Kyocera has achieved ISO 14001:2004 certification. Visit our website at **https://usa.kyoceradocumentsolutions.com/** for complete details regarding Ecosys Technology and TCO Tracker.

24b. IF APPLICABLE, INDICATE THAT SECTION 508 COMPLIANCE INFORMATION IS AVAILABLE ON ELECTRONIC AND INFORMATION TECHNOLOGY (EIT) SUPPLIES AND SERVICE AND SHOW WHERE FULL DETAILS CAN BE FOUND - Kyocera is currently addressing Section 508 compliance by providing Voluntary Product Accessibility Templates (VPAT's) for all existing products, as well as developing and deploying new products that comply with Section 508 provisions. Each of our products have been put through a rigorous assessment process, applying the final rule amending the Federal Acquisition Regulations (FAR) Section 508 of the Rehabilitation Act of 1973. Visit our website at **https://usa.kyoceradocumentsolutions.com/**

25. DUNS #06-446-5503

26. NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE. - Kyocera is registered in SAM.

27. SPECIAL PROVISION APPLICABLE TO LEASE TO OWNERSHIP PLANS (LTOP) (SIN 532420LTOP)

A. STATEMENT OF GOVERNMENT INTENT - For the purpose of this solicitation, Lease Term is defined as the duration of the lease in months (not to exceed 60 months) as shown on the Ordering Agency's initial delivery order. It is understood by all parties to this contract that this is a leasing arrangement. In that regard, the Government anticipates fulfilling the leasing agreement subject to the availability of appropriated funds and the continued needs of the Ordering Agency. The Ordering Agency, upon issuance of any delivery order pursuant to Special Item Numbers (SIN's) 532420LTOP, 532420LC or OLM, intends to use the equipment for the lease term specified in the initial delivery order so long as the needs of the Ordering Agency for the equipment or functionally similar equipment continues to exist and adequate funds are appropriated. Each lease hereunder shall be initiated by a delivery order which shall, either through a statement of work or other attachment specify the equipment being leased, and the terms of the transaction as required in other sections of SIN's 532420LTOP, 532420LC. The lease commencement is the date of acceptance as defined by FAR Subpart 12.4

The first period or initial term of the leasing agreement will be through September 30th of the fiscal year in which the order is placed, or as extended by act of Congress, unless the ordering office has multi-year funding.

Ordering Agencies are advised to follow the guidance provided in Federal Acquisition Regulation (FAR) Subpart 7.4 Equipment Lease or Purchase, and to review the lease terms and conditions prior to ordering and obligating funding for a lease. Ordering Agencies are responsible for the obligation of the funding consistent with fiscal law when entering into any lease arrangement.

B. ORDERING PROCEDURES

(1) Ordering Agencies are strongly encouraged to conduct a needs assessment prior to the procurement of copiers.

(2) When the Ordering Agency expresses an interest in leasing a product(s), the Ordering Agency will provide the following information to the prospective vendors:

    (i) Which product(s) is (are) required.

    (ii) The required delivery date.

    (iii) The proposed term of the lease.

    (iv) Where the equipment will be located.

    (v) Description of the intended use of the equipment.

(3) The contractor will respond with:

    (i) Whether the contractor can provide the required equipment.

    (ii) The monthly payment based on the rate and the initial and residual values of the equipment.

    (iii) The estimated cost, if any, of applicable State or local taxes.

    (iv) A confirmation of the availability of the equipment on the required delivery date.

    (v) Extent of warranty coverage, if any, of the leased products.

    (vi) Cite the cost of any mandatory maintenance as applicable.

    (vii) The Termination Ceiling Charges, as applicable. (See Section 13, Early Termination Charges).

(4) The ordering agency and contractor shall agree upon a termination ceiling charge which is established in accordance with the appropriate formula in Section 13. Early Termination Charges (See FAR Subpart 17.1)

(5) The Contracting Officer shall insert the agreed upon termination ceiling charge for the first year in the order and modify it for successive years upon availability of funds.

C. ORDERS AND PERIOD OF LEASING ARRANGEMENTS

a. Lease Options: At a minimum, Ordering Agencies placing orders for equipment under a leasing arrangement must specify on the delivery order the applicable leasing SIN under which the equipment is being leased.
    532420LTOP   Lease to Ownership Plan (LTOP) (Lease/Purchase)(Copier)
    532420LC   Lease with Option to Own (Operating Lease) (Copier)

b. Annual Year Funding. When using annually appropriated funds when placing an order for leasing, the following applies:

(1) Any lease executed by the Ordering Agency shall be on the basis that the known requirements exceed the remainder of the fiscal year. Due to funding constraints, however, the Ordering Agency cannot normally commit to a term longer than one fiscal year at the commencement of the lease. To facilitate the exercise of renewal options for future fiscal years, the lease term will be specified in the delivery order. All orders for leasing shall remain in effect through the Government fiscal year (or as extended by Act of Congress), or the planned expiration date of the lease, whichever is earlier, unless the Ordering Agency exercises its rights hereunder to acquire title to the equipment prior to the planned expiration date. Despite the fact that the delivery order will specify the total lease term, orders under the lease shall not be deemed to obligate succeeding fiscal year's funds or to otherwise commit the Ordering Agency to a renewal.

(2) All orders for leasing automatically terminate at the end of the Government fiscal year (or as extended by Act of Congress) or the contract term, whichever is earlier. However, Ordering Agencies should notify the contractor in writing thirty (30) calendar days prior to the expiration of such orders as to the Government's intent to renew. Ordering Agencies are instructed to follow the guidelines set forth in Paragraph 14 of this section with regard to termination of lease terms for non-appropriation or agency decisions not to renew. Should Ordering Agencies decide to terminate the lease prior to the expiration of the lease term under any other condition other than those set forth in Paragraph N, early termination charges shall apply, (See Section M, Early Termination).

c. Multi-Year Funding Within contract Period: Where an Ordering Agency's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the Ordering Agency may place a schedule contract order for leasing for a period up to the expiration of its period of appropriation availability, or the expiration of the contract period whichever comes first, notwithstanding the intervening fiscal years.

d. In recognition of the types of products on this Schedule and the potential adverse impact to the Government's mission, the Government's quiet and peaceful possession and unrestricted use of the equipment shall not be disturbed in the event the equipment is sold by the Contractor, or in the event of bankruptcy of the contractor, corporate dissolution of the Contractor, or other event, so long as the Government is not in default. The equipment shall remain in the possession of the Government until the expiration of the lease. Any assignment, sale, bankruptcy, or other transfer of the leased equipment by the contractor will not relieve the Contractor of its obligations to the Government, and will not change the Government's duties or increase the burdens or risks imposed on the Government.

e. Assignment of Claims: In accordance with GSAR 552.232-23 Assignment of Claims under this contract, the Ordering Agency Contracting Officer may approve the assignment of claim for an order under these leasing Special Item Numbers (SINs) in accordance with FAR 32.803. Contractors cannot prohibit or otherwise limit the Government's ability to setoff lease payments under any lease or assignment of a lease.

f. Government Rights under Lease: The Government does NOT waive any performance requirements, warranty rights nor other contract or statutory rights, such as the right to set off payments against other Government debt, as a part of the lease. The Government's acceptance of an assignment of a lease, does not waive any of the Government contract provisions.

D. MAINTENANCE AND INSTALLATION

a. Maintenance and installation, when applicable, are not included in the lease payments. The Ordering Agency will obtain installation and/or maintenance from the contractor or a designated authorized service provider.

b. When installation and/or maintenance are to be performed by the Contractor, the payments, terms and conditions will be as stated in this contract. Maintenance payments and terms and conditions during subsequent renewal periods of this lease will be those of the prevailing GSA Schedule contract in effect.

E. MONTHLY PAYMENTS

a. Prior to the placement of an order under this SIN, the Ordering Agency and the contractor must agree on a "base value" for the products to be leased. The base value will be the contract purchase price (less any discounts). For operating leases the residual value is independent of the purchase option price. The residual value will be used in the calculation of the original lease payment.

b. To determine the initial lease term payment, the contractor agrees to apply the negotiated lease factor to the agreed upon base value:
Examples: Lease factor one (1) percent over the rate for the three year (or other term) Treasury Bill (T-bill) at the most current U. S. Treasury auction.

<div align="center">or</div>

The Contractor's most favored finance rate factor as agreed to during contract negotiations.

The lease payment may be calculated by using a programmed business calculator or by using "rate" functions provided in commercial computer spreadsheets (e.g., Lotus 1-2-3, Excel).

c. The purchase option price will be based upon the unamortized principle of the product. The payment will be based upon the unamortized principle, as shown on the payment schedule as of the last payment prior to date of transfer of ownership. In the event the Government desires, at any time, to acquire title to equipment leased hereunder, the Government may make a one-time lump sum payment.

F. EXPIRATION OF LEASE TERM:

a. Upon the expiration of the Lease Term, the Ordering Agency will:

    (i) Upon 30 day written notice, return the Equipment to the Contractor or -

    (ii) Purchase the equipment at the fair market value of the equipment or;

(iii) Obtain requirements in accordance with FAR 8.4 (Ordering Procedures) by issuing a new request for quote.

Note: Customers are advised to see paragraph 15-18 for additional lease expiration provisions.

G. ADDITIONS

For the purpose of this solicitation the definition of an addition is defined as follows:

Additions: The addition of accessories features or other enhancements available for lease under this contract to an existing model (base unit) already installed. Additions shall not change the functionality of the installed equipment.

a. The ordering agency may require the contractor to modify existing leased equipment through order modifications, provided the modifications are customarily offered by the contractor for the equipment leased. The price of the modification will be mutually agreed upon by the ordering agency and the contractor. The ordering agency may pay for the modification at full price upon acceptance, or the modification price may be leased coterminous with the initial lease term. The contract lease interest rate in effect at the time of order of the modification will be used to calculate the monthly payment applicable to the modification. For Operating leases a residual value should be negotiated for the modification.

For example:

Lease to ownership

Price of the modification - $1,000

Months remaining on the equipment lease - 19

Current contract lease factor at the time of the modification - 045 for 24 month lease, the term closest to remainder of lease.

Interest equivalent (i) for lease factor is 0.625% per month [rate(N,-pmt,Price)/rate(24,-0.045,1)]

Modification Payment $55.98   [PMT(i,N,P)/PMT(.625%,19,1000)]

b. The Ordering Agency may affix or install any accessory, addition, equipment or device on the equipment ("additions") provided that such additions:

(1) can be removed without causing material damage to the equipment;

(2) do not reduce the value of the equipment; and

(3) are obtained from or approved by the contractor, and are not subject to the interest of any third party other than the contractor.

c. Any other additions may not be installed without the contractor's prior written consent. At the end of the lease term, the Government shall remove any additions which:

(1) were not leased from the contractor, and

(2) are readily removable without causing material damage or impairment of the intended function, use, or value of the equipment, and restore the equipment to its original configuration.

d. Any additions, which are not removable, will become the contractor's property (lien free).

e. Payment may be modified based on the schedule price adjusted to reflect the actual period until the end of the lease term.

f. Should the Ordering Agency elect to replace equipment under the lease, a new FAR 8.4 competition is required. This does not preclude substitution for failure to perform. Ordering Agencies are advised that when making the decision to conduct a new competition, consideration must be given to the early termination of existing equipment and/or the financial considerations involved with the rollover of existing equipment should the current contractor prevail. Ordering Agencies are strongly advised to perform a cost benefit analysis in accordance with their agency procedures and policies with regard to rollovers.

H. RISK OF LOSS OR DAMAGE

The Government is relieved from all risk of loss or damage to the equipment during periods of transportation, installation, and during the entire time the equipment is in possession of the Government, except when loss or damage is due to the fault or negligence of the Government. The Government shall assume risk of loss or damage to the equipment during relocation unless the Contractor shall undertake such relocation.

I. WARRANTY

In accordance with Clause 552.246-73 under this contract, the contractor's warranty, as stated in the contractor's GSA Authorized Price List, is applicable to the lease.

J. EQUIPMENT PERFORMANCE

a. The equipment supplied must be in operational or repairable condition throughout the term of the lease.

(1) Operational condition means the equipment is producing clear and clean copies, all mechanical accessories are operating as intended and in all respects the equipment is performing up to the standards in the manufacturer's specifications.

(2) Repairable condition means that the equipment can be repaired by a qualified technician within the terms of the maintenance agreement. Additionally, all required replacement parts are available and the equipment down time does not exceed that specified in the maintenance agreement.

b. After a thirty (30) day notice and cure period, if the equipment continues to fail to be operational or repairable as defined above, the Ordering Agency may take those remedies available to it under either the contractor warranty provisions or default clause set forth in FAR 52.212-4(m). Such recourse will not be the basis for increasing the monthly payment or extending the term of the lease.

c. Maintenance and Support:

Preventive Maintenance: The contractor shall provide preventive maintenance at least equal to the commercial practice. Intervals between scheduled maintenance services shall be no greater than those provided to commercial customers for the same model of copier.

Response to Service Calls: At minimum, during normal working hours (as specified by the using activity), Monday through Friday (excluding holidays observed by the Government), the contractor shall respond to verbal or written requests for service calls. The contractor shall repair the copier within either nine (9) working hours or sixteen (16) working hours (as specified by the User Activity) after the verbal or written request for the service call. However, for copiers identified as critical, the contractor shall respond to verbal requests for service calls and shall repair the copier within four (4) working hours. Copiers designated critical will be identified by the ordering activity in the order and shall not exceed 5% of the total number of copiers on the order.   The contractor's response time on a service call starts, when authorized personnel of an ordering activity place a verbal request to the contractor for a service call or a written request is received by the contractor requesting a service call, whichever is earlier.

Contractors are required to submit a contingency plan to maintain full and proper operation of copiers and to avoid extended delays for repair or replacement of copiers.

Repair and Maintenance Service: Offerors shall submit and include in their pricelist's, a list of Names, addresses, and phone number(s) of authorized representatives, responsible to the contractor, who may be contacted by ordering activities for repair and maintenance of equipment. Only those authorized representatives listed may render maintenance service, unless the list is subsequently modified by mutual agreement between the contractor and the Contracting Officer, to add or terminate authorized representatives.

K. TITLE

During the Lease Term, the equipment shall always remain the property of the contractor. The Government shall have no right or interest in the equipment except as provided in this leasing agreement and shall hold the equipment subject and subordinate to the rights of the contractor.

L. State and Local Taxes (52-229-1):

Notwithstanding the terms of the Federal, State, and Local Taxes Clause, the contract price excludes all State and Local taxes levied on or measured by the contract or sales price of the services or completed supplies furnished under this contract. The contractor shall state separately on its invoices taxes excluded from the contract price, and the Government agrees either to pay the amount of the taxes (based on the current value of the equipment) to the contractor or provide evidence necessary to sustain an exemption.

See FAR clauses 52.229-1 State and Local Taxes; 52.229-3 Federal, State, and Local Taxes, which are incorporated by, reference.

M. EARLY TERMINATION CHARGES

Equipment leased under this agreement may be terminated at any time during a Government fiscal year by the Ordering Agency's Contracting Office responsible for the delivery order in accordance with FAR 52.212-4, paragraph (l) Termination for the Government's Convenience.

The Termination Ceiling Charge is a limit on the amount that a contractor may claim from the Ordering Agency on the termination for convenience of a lease or failure to renew a lease prior to the end of the lease term for reasons other than those set forth in section 14, Termination for Non-Appropriation. Termination ceiling charges will apply for each year of the lease term (See FAR 17.1). The Ordering Agency and contractor shall establish a Termination Ceiling amount. The Contracting Officer shall insert the Termination Ceiling Charge for amount of the first year in the order and modify it for successive years upon availability of funds.

No claim will be accepted for future costs: supplies, maintenance, usage charges or interest expense beyond the date of cancellation. In accordance with the bona fide needs rule, all termination charges must reasonably represent the value the Ordering Agency received for the work performed at cancellation based upon the shorter lease term. No termination cost will be associated with the expiration of the lease term.

Formula 1: FOR Lease To Own (LTOP) SIN 532420LTOP

Termination Fee = pmt(i,n,P) *n - sum of PMT - FMV

"P" = Schedule Price of equipment at time of order, inclusive of Ordering Agency negotiated price reductions should be considered.

"PMT" = Actual Monthly Payment paid on order to termination

"i" = Monthly Interest Rate applicable to the order

"n" = number of months from order to termination

"pmt" = Monthly payment corrected to actual lease term"

"FMV" = Fair Market Value of equipment if returned at termination. Unit price adjustments, residual or FMV values used to calculate operating leases, should not be considered

Formula 2: For Operating leases SIN 532420LC and OLM

Termination Fee = PV (i, n,-PMT)

"PV"= Present Value

"i" = Interest rate per month, equal to the interest rate applicable to the calculation of the payment on the delivery order

"n"= Number of months remaining from termination date to the end of the lease term

"PMT" = Current monthly payment amount of the original payments through end of the lease

N. TERMINATION FOR NON-APPROPRIATION

The Ordering Agency reasonably believes that the bona fide need will exist for the entire lease term and corresponding funds in an amount sufficient to make all payment for the lease term will be available to the Ordering Agency.   Therefore, it is unlikely that leases entered into under the SINs 532420LTOP/Lease to Own (Copiers), 532420LC/Operating Lease (Copier), and OLM/all other equipment will be terminated prior to the full lease term. Nevertheless, the Ordering Agency's Contracting Officer may terminate or not renew leases at the end of any initial base period or renewal period under this paragraph if (a) it no longer has a bona fide need the equipment or functionally similar equipment; or (b) there is a continuing need, but adequate funds have not been appropriated to the ordering agency in an amount sufficient to continue to make the lease payments. If this occurs, the Ordering Agency will promptly notify the contractor and the equipment lease will be cancelled at the end of the last fiscal year for which funds were appropriated. The determination of the availability of funds is made solely by the Government.

O. LEASE EXTENSIONS

Extension of the present lease term is not permitted. Future copier requirements shall be procured in accordance with FAR 8.4, FSS Ordering Procedures.

P. LEASE EXPIRATIONS – SIN 532420LTOP/LEASE TO OWN

Title to equipment installed under SIN 532420LTOP automatically transfers to the Government upon conclusion of the Lease Term Agreement.

Q. LEASE EXPIRATIONS – SIN 532420LC/OPERATING LEASE AND OLM/ALL OTHER EQUIPMENT

Extension of the present lease term is not permitted. Future copier requirements shall be procured in accordance with FAR 8.4 covering Ordering Procedures.

Unless notified by the Ordering Agency that the Government intends to exercise its option to purchase the equipment, the equipment, upon the expiration of the lease term, will be removed by the contractor at the earliest practicable time. The Ordering Agency is responsible for removal charges. Unless specified under the schedule contract, removal charges will be administered outside the scope of the contract.

The equipment shall be in the same condition as when delivered, with the exception of ordinary wear and tear. The contractor shall conduct a timely inspection of the returned products and within thirty (30) days of the return, assert a claim if the condition of the equipment exceeds normal wear and tear.

In the event the Ordering Agency desires, at any time, to acquire title to equipment leased hereunder, the price will be mutually agreed upon by the parties.

R. RETURN OF EQUIPMENT

The Government will provide written instructions for the removal of the equipment. The Ordering Agency is required to provide serial numbers and exact location of equipment for pick up.

Upon receipt of this notice the contractor shall remove the equipment within thirty (30) days or a mutually agreed date and time. The Ordering Agency is responsible for removal charges. Unless specified under the schedule contract, removal charges will be administered outside the scope of the contract.

The equipment shall be in the same condition as when delivered, with the exception of ordinary wear and tear. The contractor shall conduct a timely inspection of the returned products and within thirty (30) days of the return, assert a claim if the condition of the equipment exceeds normal wear and tear.

Equipment not removed by the contractor within thirty (30) days of the date of notification by the Order Agency shall be considered as abandoned and subject to such disposal as the Government may deem appropriate.

28. SPECIAL REQUIREMENTS

GUARANTEED MINIMUM MONTHLY VOLUMES FOR CPC, FLAT RATE, RENTALS BY VOLUME BAND

(a) SIN 333316CPC – For Cost-Per-Copy, the Guaranteed Monthly Minimum Volume (i.e., guaranteed number of copies per month) for each copying machine volume band are as follows:

VOLUME BAND GUARANTEED MONTHLY MINIMUM VOLUME

Volume Band 1	750 copies per month
Volume Band 2	5,001 copies per month
Volume Band 3	15,001 copies per month
Volume Band 4	30,001 copies per month
Volume Band 5	50,001 copies per month
Volume Band 6	80,001 copies per month
Volume Band 7	100,001 copies per month

(b) SIN 333316CPC – Excluding the copying machines described in (c) and (d) below, if the actual monthly volume (i.e., actual total number of copies) is less than the "Guaranteed Monthly Minimum Volume" the Government agrees for the number of copies identified under the "Guaranteed Monthly Minimum Volume" at the order cost-per-copy price.

(c) SIN 333316CPC – The "Guaranteed Monthly Minimum Volume" is not applicable to copier machines installed less than the total billing month. The actual copies from these machines will be paid at the order cost-per-copy price.
SIN 333316CPC – In any month in which the Monthly Effectiveness Level (MEL) is less than 95 percent, the Government will not be responsible for paying any charge for lack of monthly volume.

(d) SIN 333316F – Neither guaranteed or copy charges are applicable.

A. OFFEROR'S PRICING-COST-PER-COPY (CPC) (SIN 333316CPC) & FLAT-RATE MONTHLY-FEE (FRMF) (SIN 333316F)

Pricing for each volume band and tier for copiers will include:

- Consumables (except paper and transparencies);
- Full maintenance and repair services (including both preventive and emergency repairs during normal working hours); and
- Training for key operators, at the time of machine installation, as well as later as required by an ordering activity to maintain availability of trained key operators.

Offer pricing should be based on order quantities from 1 to 500 copiers located in a single urban area. For pricing purposes, the number of copiers shall be grouped into the following tiers:

Tier 1:   1 - 500 copiers

If this additional copier quantity increases the aggregate number of ordered copiers such that the quantity falls into a higher tier, the lower prices available in the higher tier will apply to the aggregate (total) number of ordered copiers. The lower prices for the aggregate number of copiers will commence upon Government acceptance of that copier which causes the aggregate number of ordered copiers to fall into a higher tier. The term of placement for the additional copiers will have the same agreement end date as that of the initial copiers.

NOTE TO OFFERORS: Your attention is called to the fact that the requirements for each volume band of copier includes both a requirement for a minimum number of copies per minute and a requirement for a monthly volume production capability. There is no direct relationship, either stated or implied, between these two requirements. The fact that any copier model meets the copies-per-minute requirement for a particular VB does not, in any way, imply that it automatically qualifies to meet the monthly

volume requirement. **The offeror's certification relative to monthly volume capability is to be based solely upon the offeror's engineering knowledge and in-service experience with the copier model being offered for a particular VB**. Offerors are cautioned that compliance with the words "Capable of producing" in the monthly volume requirement for each VB defines a machine that will regularly produce, as a minimum, the upper limit of the stated number of copies per month without excessive malfunctions, breakdowns, or service calls. A high incidence of such problems with any copier model supplied may indicate probable noncompliance with the monthly volume requirement and may result in (1) requests for replacement of all units of this model with other models that can produce the required volumes of copies in a more reliable manner, (2) a decision not to renew the contract, or (3) termination for default proceedings.

B. CONSUMABLE SUPPLIES (CPC & FRMF)

All consumable supplies (with the exception of paper and transparencies) required for copier operations shall be included in the resulting price. This includes consumables (e.g., staples needed to operate stapling devices) whether optional or standard with the copiers covered under the contract. The Government will not be responsible for providing any consumable supplies (with the exception of paper and transparencies) and for moving, storing, inventorying, or issuing the contractor's consumable supplies. Paper and transparencies for use in the copiers will be purchased by the Government and made available at the using activity's location(s). On or about the same day of each month, the contractor shall ensure that each copier is furnished with sufficient consumable supplies (excluding paper and transparencies) to produce a volume of copies equal to that stated as the lower limit of the Volume Band for that particular copier. In addition, the contractor shall respond to verbal orders for additional consumable supplies under the following conditions: Orders for additional consumable supplies shall be accepted only from persons identified on the user activity's list of personnel authorized to order supplies. Orders will state the quantity and type of consumable supplies required and the location and serial number of the copier for which the additional consumable supplies are being ordered. The contractor shall deliver additional consumable supplies within a period of twenty-four hours after receipt of a verbal order. Consumable supplies from the contractor shall be delivered during normal business hours, Monday through Friday (excluding holidays observed by the Government), as specified by the using activity. The contractor shall identify a point of contact for consumable supplies (e.g., for order, receipt, coordination, delivery, and maintenance of supplies).

C. PARTS AND SUPPLIES AVAILABILITY (CPC & FRMF): The contractor shall have parts and supplies in quantities sufficient to service the resulting contract. The contractor shall have a delivery system capable of delivery even under extreme emergency conditions.

D. MAINTENANCE AND SUPPORT (CPC & FRMF)

Preventive Maintenance: The contractor shall provide, at a minimum, one yearly service call as a preventive maintenance service to ensure that each copier furnished under the resulting contract is maintained in fully operational condition. However, intervals between scheduled maintenance services shall be no greater than those provided to commercial customers for the same model of copier.

Response to Service Calls: During normal working hours (as specified by the using activity), Monday through Friday (excluding holidays observed by the Government), the contractor shall respond to verbal or written requests for service calls. The contractor shall repair the copier within either nine (9) working hours or sixteen (16) working hours (as specified by the using activity) after the verbal or written request for the service call. However, for copiers identified as critical, the contractor shall respond to verbal requests for service calls and shall repair the copier within four (4) working hours. Copiers designated critical will be identified by the ordering activity in the order and shall not exceed 5% of the total number of copiers on the order. The contractor's response time on a service call starts, when authorized personnel of an ordering activity place a verbal request to the contractor for a service call or a written request is received by the contractor requesting a service call, whichever is earlier.

Backup and Replacement Copiers: The contractor shall have backup and replacement copiers available to support each Volume Band. Backup copiers are those copiers that are temporarily installed. Replacement copiers are those copiers that are installed in place of a malfunctioning copier and that are intended to remain in place for the remainder of the contract period. When a copier cannot be repaired within sixteen (16) working hours, the ordering activity may require the contractor to provide a backup copier. The contractor shall deliver backup copiers within eight (8) working hours of the ordering activity's notifying the contractor that a backup copier is required. Backup copiers must equal or exceed the capabilities of the copier being replaced. The contractor's charges for use of the backup copier shall be identical to the charges for use of the original copier being replaced. If the original copier is not satisfactory repaired and returned to the ordering activity within a total of forty (40) working hours from the time of request for a service call, the contractor shall provide a replacement copier of the same make and model as the original copier or a replacement copier satisfactory to the ordering activity. If agreed to by the ordering activity, the backup copier may be used as the replacement copier. The contractor shall provide the ordering activity with the serial number, location, and model number of the replacement copier.

Qualification of Personnel (CPC & FRMF): The contractor shall have qualified management, service technicians and delivery personnel in sufficient numbers to service and support the requirements under contract within the specified response times. Failure to maintain sufficient qualified personnel to meet the required response times may result in termination for default. The offeror shall designate and identify a program/project manager who is authorized to make decisions to ensure that the contract implementation and day-to-day operation is efficient and effective. At the time of submission of the offer, the offeror shall submit descriptions of the pertinent experience of those employees that will have principal responsibility for the Cost-per-Copy and Flat rate Monthly Fee Programs (e.g., program/project manager; key customer service representatives, dispatchers, service technicians).

Repair and Maintenance Service: Offerors shall submit and include in their pricelist's, a list of Names, addresses, and phone number(s) of authorized representatives, responsible to the contractor, who may be contacted by ordering activities for repair and maintenance of equipment. Only those authorized representatives listed may render maintenance service, unless the list is subsequently modified by mutual agreement between the contractor and the Contracting Officer, to add or terminate authorized representatives.

For the most up to date listing of the servicing organization for your location visit the Kyocera web site at **https://usa.kyoceradocumentsolutions.com/**, then select "Where to Buy".

E. COPIER OPERATIONAL EFFECTIVENESS (CPC & FRMF)

Initial Installation: If a copier is not fully operational at the time of installation, the Government may, at its option, require the contractor to provide an immediate replacement copier.   A fully operational copier can satisfactorily perform all the performance functions applicable to the copier.

Replacement Copier: Replacement copiers are those copiers that are installed in place of a malfunctioning copier and that are intended to remain in place for the remainder of the contract period.

Monthly Effectiveness Level: Each copier furnished under the resulting contract shall perform at a 95 percent or higher Monthly Effectiveness Level (MEL). The Monthly Effectiveness Level percentage shall be calculated as follows: Monthly Effectiveness Level percent = ((total monthly production period in hours) minus (total number of copier downtime hours over the monthly production period) divided by (total monthly production period in hours)) times 100. The total monthly production period in hours shall be calculated by multiplying 8 hours per day times the number of working days in the month (weekend and Federal holidays excluded). The total number of copier downtime hours over the monthly production period shall be calculated as the number of minutes the copier was down (unable to perform one or more of its specified functions) during the monthly production period, divided by 60.

Credit (MEL): Failure of any copier to achieve a Monthly Effectiveness Level of 95 percent or higher shall entitle the Government to unilaterally take credit against the monthly billing for that particular copier. The credit shall be calculated as the difference between 100 percent and the achieved MEL percent times the maximum monthly charge. For copiers under a cost-per-copy plan, the maximum monthly charge will be calculated based on the lower number of copies specified under the Volume Band applicable to the copier. For copiers under a flat-rate monthly-fee plan, the maximum monthly charge will be the flat-rate monthly charge. In any month in which the Monthly Effectiveness Level is less than 95 percent, the Government will not be responsible for paying any charge for lack of monthly volume. If the MEL is 95 percent or higher, the Government will take no credit. e.g., Credit calculation: If the copier was down for 1200 minutes in a month which had a total monthly production period of 21 days and the monthly cost-per-copy charge was .005 cents per copy for a Volume Band III (30,000 copies per month) copier, the Government's unilateral credit against the monthly billing would be calculated as follows:

Total monthly productions hours: 21 days times 8 hours = 168 total monthly production hours

Total number of copier downtime hours over the monthly production period:

1200 minutes divided by 60 = 20 hours

MEL percent: (168 minus 20, divided by 168) times 100 = 88.095 percent

Credit percentage taken: 100 percent minus 88.095 percent = 11.005 percent Monthly maximum-cost-per-copy charge:

($ .015 per copy) times (30,000 copies) = $450

Government credit: 11.005 percent of $450 = $ 49.52

If a copier operates at less than a 90 percent Monthly Effectiveness Level for any month, the ordering activity shall have the option to require the contractor to replace the copier with a new replacement copier and the Government's right to unilaterally take credit against the monthly billing.

In lieu of requiring a replacement of the copier, the ordering activity (e.g., Program Manager) may require the contractor's authorized representative to certify (e.g., on the repair record) that sufficient maintenance has been performed to ensure a 95 percent or higher Monthly Effectiveness Level. If the ordering activity exercises this option, the Government shall still retain the right to unilaterally take credit against the monthly billing. If after certification, the copier operates at less than 95 percent Monthly Effectiveness Level for the following month, the contractor shall replace the copier with a brand new copier or the Government may opt to terminate the contract for default.

REMANUFACTURED EQUIPMENT: Remanufactured equipment is defined as equipment which has been remanufactured/rebuilt to new machine specifications, and which has not been used at any time prior to delivery after the remanufacturing/rebuilding process. Remanufacturing/rebuilding as defined herein shall include, but not limited to: cleaning, refinishing, inspection, and testing components. Remanufactured/rebuilt components will be utilized as replacements only in applications that do not affect machine performance. Warranty, maintenance, and service terms for remanufacture/rebuilt machines shall be identical to those provided for are machines.

F. Terms and Conditions for MANAGED PRINT SERVICES (SIN 541611MPS)

KYOCERA Document Solutions America, Inc. offers the industry's most comprehensive Managed Document Services (MDS) for Government Agencies. We accomplish this industry leadership position through the use of our Solutions Consultants who analyze the entire enterprise to provide our customers a full Document Strategy across all areas of process workflows that connect the devices and employees.

The Kyocera Difference

This includes not only capturing the **Static Data** on print volumes, but also capturing the **transactional print volume** that identifies who's printing, when they print, the business reason and the effects to your enterprise. These areas of analysis are then combined with our Professional Services analysis of your workflow processes as we seek additional areas of employee productivity enhancements.

Once completed, your final report will serve as a 3 – 5 year Document Strategy that will lower your costs, while increasing overall productivity and performance of your employees and the printed document fleet.

MDS Services Provided

KYOCERA MDS optimizes your entire document environment in five flexible, carefully designed phases that targets your primary objectives to reduce costs, decrease your environmental impact and increase security, all while ensuring increased employee productivity and satisfaction.

Assess Phase:

Starting with the Assess Phase and throughout our engagement in the continuous Optimize Phase Kyocera will reduce your total cost of ownership: across several areas

- Increasing productivity through optimized workflows
- Reuse of existing owned assets
- Reduction of consumables such as paper and toner
- Reduction of energy costs
- Reduction of service and support costs
- Recommendations on Departmental print policies that enforce proper utilization of your assets

We achieve these results through our proven methodologies in monitoring User, Device and Usage data across all areas of your environment, as we also test for current green and security aspects.

The Assess Phase provides two options

Option #1: Kyocera provided Solution:

Kyocera will perform a physical, financial and print assessment with an optional ergonomics study of the customer's printed document fleet. The resulting report will provide a comprehensive study of the customer's current state, future state, and carbon footprint. This document is designed to act as the customer's printed document strategy for moving forward over the next 3 – 5 years (SIN 541611O for more detail)

Options #2: Customer provided Solution:

If the customer has completed an assessment with another vendor, or has an exact understanding of all devices and print volumes, Kyocera can use this information to create your solution in the Design Stage. The following information is the minimum requirement under the Customer provided Solution.

- Monthly Page Counts (Print/Copy/Fax) – 1 month info required
- Device Manufacturer
- Device Model Name

Note: Before any existing assets can be added to Kyocera's protection, they will need to be inspected by one of Kyocera's consultants.

Design Phase:

Based upon the results achieved in the Assess Phase Kyocera will design a custom 3 – 5 year Document Management strategy that sets the initial benchmark, and details your long-term future strategy.

At a minimum your final report will contain the following sections:

- Current Scenario of device deployment
- Current Costs of Printing, Asset Ownership, Utilization, and Support Services
- Measurement against Industry Best Practices
- Measurement against similar Companies (Within Industry Segment)
- Areas for Printing Asset Cost & Utilization Improvement
- Recommended Solutions & Benefits
- Pricing for Recommended Solutions
- Implementation Schedule for Recommended Solutions

Implement Phase:

Our Implement strategy is designed to ensure the success of the project and includes the following two options:

Option #1: Kyocera Implemented Solution:

Under this option Kyocera will handle all areas of the implementation:

- Full Time Project Management by certified professionals
- Full Employee Communications
- Full Employee Change Management
- Global and National Installation services
- Three phases of Device & Workflow Training

> **Phase 1:** Basic Device Usage and Features (Day of Installation)
> **Phase 2:** Hand-On Training for designated power users (Day of Installation)
> **Phase 3:** Follow-up training on special needs and applications (Within the first five business days)

Note: All training is conducted within the first 5 days of device placement. Any training required after that period can be handled by the designated power users, or through Kyocera provided reference materials.

- Required Systems Integration

Option #2: Customer Implemented Solution:

Under this option the Customer may handle some areas of the implementation:

- Installation of Printer (A4) related products
- Employee Training on Hardware and Solutions
  Under this option Kyocera will work directly with the customer to ensure that you have the tools and templates to be successful, and that we have the necessary device information (Model, Serial Number and Location) to manage the solution.

Note: The larger Kyocera A3 copier based products must be installed by factory trained technicians due to the size and special configuration requirements. Terms & Conditions for the installation of these products is under SIN 333316C, 532420LTOP, or 532420LC.

Manage Phase:

Throughout the Manage Phase we ensure your optimum performance and up-time through the following services:

- Full support for all major brands to ensure continue use of existing assets
- Just-in-Time (JIT) consumables delivery directly to the device
- Proactive Monitoring to capture and investigate problems before they happen
- Break-Fix services that are available per SIN 811212SA
- Helpdesk services that are available per SIN 541611MPS
- Three-Tier escalation process to ensure SLA achievement
- Full monthly reporting across all Management areas

The proactive management of your printed document fleet is accomplished through the Kyocera provided PrintFleet software, which requires an installation of a Data Collection Agent (DCA), which communicate the device information to our secure web portal.

Option #2: Kyocera can also work with the customer on ensuring all device monitoring stays behind your firewall if necessary, by using VPN access and/or relying on e-mail alerts from the Remote Monitoring software, Kyocera can still provide a full Managed Services operation in even the most secure environments.

Optimize Phase:

Throughout the engagement Kyocera continues to seek additional areas of optimization across the

devices, users or utilization. Any area that is identified as not fitting your Document Strategy or that is impeding your future goals will be brought to your attention.

- Device, User and usage information is gathered daily
- Areas outside the norm are reported monthly
- Recommended changes are communicated as necessary
- Quarterly reporting summarizes performance vs. goal
- Annual reassessment provides strategy update timetable

Option #2: If the customer has selected that they wish to manage their own printed document fleet and no print history of usage information is available, a Kyocera Consultant would need to come on-site to gather the information necessary and to produce the optimization reports listed above.

Support of Hybrid Fleets:

Kyocera supports all major printer brands of customer owned assets, and can provide lifecycle asset management, service, parts and consumables to ensure that the agency's currently owned assets are properly maintained in the most cost efficient manner.

For a full list of supported A4 Devices please see pages 72-73..

Device Lifecycle Criteria:

The Kyocera device lifecycle asset management system supports the management of all devices within the printed document fleet, and are always measured and reported against the following criteria.

1. Cost Effectiveness within Environment (may require move/change)
2. Current Value of asset vs. repair cost (based upon customer defined threshold)
3. Engine age vs. Physical Age

Kyocera reports on each area during our quarterly analysis and provides special details during the on-going repair for devices that may not be fit for service in their environment.

MDS Professional Services Labor Categories

The following section outlines the standard list pricing for the potential resources that would be involved in creating your Managed Document Strategy. In all cases Kyocera engagements start with a no-cost interview process that helps us generate a full statement of work that would detail your exact pricing. * See attached GSA Price List.

For Kyocera Implemented Solutions, Option 1:

MDS Stage	Resources Required	Comments
• Assess:	Project Manager MDS Consultant(s) the printed document fleet	The number of required MDS consultants is based upon the size of
• Design:	Project Manager MDS Consultant	
• Implement:	Project Manager MDS Consultant	
• Manage:	None: Included in final costs	
• Optimize:	None: Included in final costs	

For Customers implementing their own Solution, Option 2:

MDS Stage	Resources Required	Comments
• Assess:	No Kyocera Resources or Costs are required for this solution	Customer will need to provide all device data. Existing devices will need to be inspected by MDS consultant before adding to agreement
• Implement:	No Kyocera Resources or Costs are required for this solution	Customer will need to provide all device information
• Manage:	No Kyocera Resources or Costs are required for this solution	Customer will need to pass Service and Consumables request by E-Mail or VPN access.
• Optimize:	MDS Consultant will need to come on-site to collect and review data for reporting	Customer will need to allow the Kyocera Consultant to come on-site to review monitoring data, and to formulate reports.

Other services and roles:

Resource	When Used
• Software Engineer:	During the Design and Implementation phases for any approved custom software changes.
• Solutions Architect	During the Design phase for approved development of the specification and statement of work for custom solutions or integration
• Senior MDS Consultant	During the Design or Implementation phase for approved installation and training on custom solutions or integration

MDS Job Descriptions and Costs

MDS Project Manager: $100.76 hr.

Responsibilities:

The Project Manager (PM) is accountable and responsible for managing all aspects of a large, complex IT project or multiple, medium-scale IT projects to achieve project goals and objectives. This involves looking outside of project boundaries for integration and interdependencies to achieve project goals. It also involves conveying to the project team the important relationship of the project to the bigger picture, including the larger program and organizational performance objectives.

Qualifications:

- Bachelor's Degree in Computer Science, Information Systems, Business Administration, or other related field
- Typically has substantial IT work experience, including proven experience in managing projects in multiple management technologies and functions
- Broadly skilled in information and communications technology
- Has a comprehensive knowledge of relevant development life-cycles Has strong interpersonal skills
- At least 10 years experience in leading IT Projects and Cross-Functional Teams

MDS Senior Consultant $100.76 hr.

Responsibilities:

This Senior Consultant role is the leader of the team who develops and delivers detailed IT solutions through consulting project activities. Engagements include working closely with team members across multiple offices and setting project/task expectations with both internal and client stakeholders. In this role, but you must be willing and able to wear multiple hats including Project Management, Financial, Sales and Solution Architect.

Qualifications:

- Demonstrated ability to effectively plan and track medium sized projects using generally accepted project management techniques.
- Demonstrates solid experience in understanding multiple phases of the project lifecycle as well as of application development, infrastructure and database management, and understands the inter-relationship of tasks associated with each.
- Understands the work breakdown concept and applies it to current projects.
- Ability to use professional concepts in accordance with company objectives to solve complex problems in creative and effective ways. Deliver assignments without considerable direction.
- Ability to develop resolutions to complex problems where analyses of situations or data require an in-depth evaluation of various factors and the frequent use of creativity.
- Ability to exercise judgment within broadly defined practices and policies in selecting methods, techniques and evaluation criteria for obtaining results.
- 12+ years of print consulting experience
- 7 + years of professional related experience
- Bachelor's degree in relevant field.
- Has achieved multiple certifications in one or more technologies

MDS Consultant $75.57 hr.

Responsibilities:

This Consultant role is supporting the Sr. Consultant in the development of IT solutions through consulting project activities. In this role your will assist in working closely with team members across multiple offices and setting project/task expectations with both internal and client stakeholders.

Qualifications:

- Demonstrates solid experience in understanding multiple phases of the project lifecycle as well as of application development, infrastructure and database management, and understands the inter-relationship of tasks associated with each.
- Understands the work breakdown concept and applies it to current projects.
- Ability to help develop resolutions to complex problems where analyses of situations or data require an in-depth evaluation of various factors and the frequent use of creativity.
- 3+ years of print consulting experience
- 2 + years of professional related experience
- Bachelor's degree in relevant field.
- Has achieved multiple certifications in one or more technologies

MDS Solutions Architect $100.76 hr.

Responsibilities:

The MDS Solutions Architect assists during the assess and design stage of our Managed Document Services engagements. During this phase the MDS Solutions Architect will be the focal point that takes the current state assessment developed by an Consultant and generates a future state proposal for the customer including an optimized output environment, estimated savings and the TCO (total cost of ownership) analysis.

Qualifications:

- Bachelor Degree (Business, Finance, IT)
- 2 to 4 years (MDS, Assessment, Consulting or related field)
- Detail-oriented, self-starter with outstanding follow-through skills
- Proficient with Microsoft Office Suite (Powerpoint, Excel, Word, etc.) and strong technical and financial aptitude
- Excellent time management skills; Customer facing and strong communication/interpersonal skills
- Business case development skills necessary and sales skills a plus
- Attention to detail as well as analytical skills is paramount.

MDS Software Engineer $100.76 hr.

Responsibilities:

The Software Engineer develops custom and complex solutions for the overall application architecture of the proposed core business applications including analysis, design, development, modifications, implementation and support.

Qualifications:

- Minimum of five years of experience in the defined technical areas of Print and Java development (Kyocera HyPAS experience a benefit).
- Strong ERP, Unix systems used within customer environments
- Experience in defining roles, permissions and security.
- Experience with Web services, XML.
- Can demonstrate past project experience and contributions.
- Strong written and verbal communication skills.
- Strong organizational and multi-tasking skills.
- Ability to work independently and as a contributing team member.
- Bachelor's degree in a related area and at least seven years of experience with applications development in a print related environment required.

The KDA GSA MDS offer is made recognizing that KDA will actually use many other GSA SINs to provide GSA MDS customers with equipment and services. For example GSA SIN 333316C Equipment Sales will be used for GSA customers looking to own their equipment, while SIN 532420LTOP will be used for Lease to Ownership requirements. It is anticipated that most GSA customers will be looking for operational leases without any implied ownership, and SIN 532420LC Operating Lease will be used for these lease

requirements. For on-site equipment maintenance SIN 811212SA Maintenance with or without supplies will be used for maintenance services under MDS. If maintenance without supplies, SIN 339940 will be used for supply purchases.

Each GSA customer ordering Managed Document Services from KDA may be required to use Kyocera MDS Professional Labor as outlined earlier in this document. The MDS Project Manager will be the primary contact to assist GSA customers with implementing change management within their environment, and will continuously monitor the GSA customer fleet and make recommendations for optimization of printing, faxing, and scanning resources. Typically the MDS Project Manager will coordinate with the GSA customer activity and make recommendations to obtain the appropriate technology solutions based on the level of MDS services desired, and the complexity of the customer environment. In the event that customary commercial technology solutions may not be deployed within GSA customer environments due to network security concerns, the MDS Project Manager may propose alternative or limited technology solutions consistent with customer objectives and security requirements.

Further, the MDS Project Manager may develop and deploy customizable solutions for GSA customer MDS requirements leveraging MDS Project manager and MDS Consultant personnel resources to the maximum extent practicable consistent with GSA customer goals, objectives, and network security requirements.

Terms and Conditions for NEEDS ASSESSMENT & ANALYSIS SERVICES (SIN 541611O)
Kyocera utilizes the same Labor Categories and pricing as SIN 541611MPS, which also requires the upfront no-cost interview process that will help us generate a full Statement of Work that would detail your exact pricing.

MDS Professional Services for Assessments

MDS Stage	Resources Required	Comments
• Assess:		
• Kyocera	Project Manager MDS Consultant(s)	The number of required consultants is based upon the size of the printed document fleet

MDS Project Manager: $100.76 hr.
Responsibilities:
The Project Manager (PM) is accountable and responsible for managing all aspects of a large, complex IT project or multiple, medium-scale IT projects to achieve project goals and objectives. This involves looking outside of project boundaries for integration and interdependencies to achieve project goals. It also involves conveying to the project team the important relationship of the project to the bigger picture, including the larger program and organizational performance objectives.

Qualifications:
- Bachelor's Degree in Computer Science, Information Systems, Business Administration, or other related field
- Typically has substantial IT work experience, including proven experience in managing projects in multiple management technologies and functions
- Broadly skilled in information and communications technology
- Has a comprehensive knowledge of relevant development life-cycles Has strong interpersonal skills
- At least 10 years experience in leading IT Projects and Cross-Functional Teams

Assessment Consulting Services
The Assess phase can normally be performed over a forty-five (45) day engagement period and will include both on-site and off-site activities by the Managed Document Services team in order to perform the following tasks:

Assessment Tasks:
- Physical Assessment
- Print Data Capture
- Financial Audit Analysis
- Document Lifecycle Analysis
- Business Process Analysis
- Green Standards Analysis
- Executive Report & Best Practices

Physical Assessment:
During the physical assessment the following information is required to load the information into the Kyocera Lifecycle Asset Management System.
- Customer / Address
- Location (Cube, Copy Room etc)
- Key Contact (if any)
- Contract Title
- Department
- Internal/External Accessories
- Page Counts (Print/Copy/Fax)
- Asset Tag Number
- Any observed problems with the device (broken parts etc)
- Device Manufacturer
- Device Model Name
- Device Technology (Laser, Inkjet etc.)
- Serial Number
- Connection (Network, USB etc.)
- Network IP Address
- Date of Manufacturer
- Current Operational State

Additional information later pulled from the Competitive System includes:
- Print Speed
- Consumables Street Costs
- Date Discontinued
- Time to 1st Page
- Monthly Duty Cycle
- Date of Announcement

Print Data Capture
One of the most critical areas of information gathering during the identification phase is capturing how much the customer is currently printing, which printers are being utilized and what their current costs are. To perform this task, the Managed Document Services team uses PrintFleet to capture the standard Print Data from both Network and Local devices. During this phase we'll work directly with the customer's IT department to review, accept and install the software on the network.
This initial print utilization study lasts about 30 days. It can be enterprise-wide or limited to areas the customer feels best represent the scope of the company. When the print utilization study is combined with the results of the physical audit, a total picture of your output operation is ready to be evaluated.

Financial Audit Analysis
Based on the information provided by the Customer regarding device purchase dates, purchase costs, standard depreciation schedules, extended warranty agreements, and consumables costs, the Managed Document Services team can determine the overall printed document costs as well as annual printed document fleet costs.
If this information is not easily available from financial systems, it can be estimated using standard street pricing supplied by and independent 3rd party and other standard industry factors that allow a close estimation to the actual costs.

Document Lifecycle Analysis
The lifecycle of the documents that area created, stored, distributed and eventually retired are an important part of the Customer's business intelligence and may also contribute to the soft-costs of employee productivity. During this section of the assessment the Managed Document Services team will perform the following discovery analysis with the IT department.
- **Document Creation Standards:**
  Understanding of employee standard document creation standards of local vs. shared documents, and the methodologies on how files are stored to ensure overall lifecycle maintenance.
- **Document Storage Standards:**
  Understanding of employee document storage options, how they are used and overall percentage of document retrieval usage.
- **Document Retrieval Capabilities:**
  Understandings of the tools and capabilities for authoring and other entitled employees have in the searching and retrieval of documents needed for business reference.
- **Document Distribution Standards:**
  This section tests the duplicate distribution of documents across the enterprise, by measuring the duplicate storage, printing and movement of the same document.
- **Document Disposal and Archiving Standards:**
  The final test ensures that you meet your industry standards in document and e-mail retention, and ensures maximum corporate protection.

Business Process Analysis
During the business process analysis the Managed Document Services team will review and blueprint the driving factors that cause the movement of documents within your organization, and how these processes and keep the documents electronic longer, and reduce the human intervention and time to process.

This Blueprinting Process Identifies:
- External Partners and Key Drivers
- Top Business Process & Workflow
- External Recipients and Expectations
- Lines of Business Requirements and Current Utilization

Resulting in:
- Highly Tailored Solution
- Ability to Scale to Future Needs
- Optimization from a Cost and Employee Productivity Standpoint

Green Standards
Is your living up to the green standards requirements that are part of your industry segment? This portion of the assessment will measure your current green footprint in the following areas:
- Recycling of hardware, consumables and paper products
- Current Carbon Footprint

Recommendations will be included in your final report and will include how you measure within your current industry segment, and how you measure against any current objectives.

Executive Report - Scope
Upon completion of the above tasks, the Managed Document Services team will prepare, present, and provide the customer with a documented report of our findings and recommendations that will cover the following as related to the tasks associated with the selected Consulting Service Option:
- Current Scenario of Device Deployment
- Current Costs of Printing, Asset Ownership, Utilization, and Support Services
- Measurement against Industry Best Practices
- Measurement against Similar Companies (Within Industry Segment)
- Areas for Printing Asset Cost & Utilization Improvement
- Areas for Workflow & Process Improvement
- Recommended Solutions & Benefits
- Pricing for Recommended Solutions
- Implementation Schedule for Recommended Solutions

The TASKalfa 7052ci is a versatile Color MFP that combines intuitive walk-up copy, scan and optional fax functions with **flexible desktop and mobile printing tools**. The high speed, single-pass scanner quickly routes documents to virtually any destination–email, network folder, USB drive, etc. Equally impressive engine speeds deliver output at up to 65 pages per minute in color and 70 pages per minute in black-and-white. Customize the TASKalfa 7052ci with optional paper drawers, **advanced finishing**, popular EFI® Fiery Controller and Kyocera's **plug-and-play** business applications. Fully scalable and ultra-reliable, the TASKalfa 7052ci turns cumbersome processes into seamless efficiency.

*Accessories cannot be purchased sepa-rately on Schedule. Accessories are avail-able only on an open market basis. If a customer needs to order accessories only, a separate open market purchase order must be issued.

MODEL	DESCRIPTION	GSA PRICE
AcuSender Fax	AccuSender Fax is a business application that enables users to send scanned documents as faxes directly from your Kyocera MFP. Through integration with most popular fax servers on the market, users simply scan a hardcopy document or select one from stored archives, configure it as an attachment to an e-mail message, and use the recipient's fax number as the e-mail address. The fax server translates the attachment, which is then processed as an incoming fax by the recipient's fax machine.	190.48
Docuware Connector	The Docuware Connector application allows users to leverage the power of Docuware conveniently through the panel of the MFP.	1,622.42
Exchange Connector	KYOCERA's Exchange Connector enables the user to securely send e-mails using their Microsoft® Exchange account directly at the Kyocera MFP. It simplifies scanning and sending electronic documents to the recipient, while leveraging audit trail features of Microsoft Exchange for security and compliance purposes.	248.87
Google Connector	KYOCERA's Google Connector is a business application that enables end users to access their Gmail and Google Calendars. Users have the ability to view and print their e-mails as well as print and send attachments. Kyocera's Google Connector also enables a user to print out monthly calendars including events.	95.72
HomePOINT Advanced	KYOCERA HomePOINT Advanced at the MFP, allows you to scan and send documents to your network home folder or sub-folder within it. In addition, KYOCERA HomePOINT Advanced allows you to browse through sub-folders within your network home folder, create new sub-folders and even access and print PDF documents that are already in your home folder – eliminating the need use your PC or workstation to complete the task. For a more streamlined experience, KYOCERA HomePOINT Advanced enables you to use your HID card to login to the application.	231.64
Kyocera Microsoft Connector	KYOCERA Microsoft connector solution simplifies document scanning when using a Kyocera HyPAS enabled MFP that is networked to an existing installation of Microsoft SharePoint, Exchange Server or OneDrive for Business.	678.64
Kyocera Microsoft Connector w/ Omnipage	KYOCERA Microsoft connector solution simplifies document scanning when using a Kyocera HyPAS enabled MFP that is networked to an existing installation of Microsoft SharePoint, Exchange Server or OneDrive for Business Includes Nuance OmniPage OCR software.	1,103.63
Language Exchange	Language Exchange business application eliminates that barrier by allowing you to switch the KYOCERA MFP control panel language with one click. Users in multi-lingual environments can now operate an MFP's control panel in their native language. The application supports French Canadian, Spanish, and Portuguese.	76.57
OnBASE Connector	Scan, index and route documents into Hyland® Software's OnBase® application directly from a HyPAS- enabled Kyocera MFP Scan, index and route documents into Hyland® Software's OnBase® enterprise content management application directly from a HyPAS-enabled Kyocera MFP.	349.37
Open Text Alchemy Connector	With Kyocera's OpenText Alchemy Connector, users can easily convert paper documents to digital files, where they can be imported into Alchemy without any special middleware or server add-ons. This seamless, direct link facilitates the ability to perform activities across all aspects of a document's life-cycle: capture, store, share, revise, retain or dispose. The application leverages your existing Alchemy investment, while improving transparency and adherence to regulatory requirements.	349.37

MODEL	DESCRIPTION	GSA PRICE
PanelPlus	Easily customize the scanning features right on the control panel of your MFPs to maximize an organization's document imaging efficiency. PanelPlus can boost your workflow performance via task-focused, pre-programmed "one-touch" buttons for scan to e-mail, scan to SMB (PC) or scan to FTP destinations creating a more streamlined environment. You choose the settings you want to see on your control panel. It's your panel, your way.	42.12
PreservDOX	Schools. Hospitals. Law firms. Every organization has documents it can't afford to lose. That's why Kyocera created PreservDOX™. If events occur that force your network resources to go down, this powerful business application provides you with an additional layer of protection that goes beyond conventional backup routines. Critical documents can be saved to a designated synched folder at your PC, and automatically routed to you predefined Kyocera HyPAS®-enabled MFP for safe keeping and immediate access. To protect confidentiality of the routed files, PIN codes are assigned to each folder - eliminating unauthorized access to the data.	282.37
SharePoint Connector 4	HyPAS business application to connect supported MFPs to Microsoft SharePoint®	142.62
SharePoint Connector 4 powered by Omnipage OCR	HyPAS business application to connect supported MFPs to Microsoft SharePoint®, includes Nuance Omnipage OCR software.	420.20
Teaching Assistant	Teaching Assistant streamlines the task of printing, grading and analyzing multiple-choice test results using popular bubble sheet forms. With Teaching Assistant, the Kyocera HyPAS-enabled MFP does the work; educators can concentrate on the students themselves, and lesson plans, not on the time-consuming, error-prone process of manual test grading	860.50

About KYOCERA Document Solutions America, Inc.

Kyocera Document Solutions America, Inc. (https://usa.kyoceradocumentsolutions.com) is a group company of Kyocera Document Solutions Inc., a global leading provider of total document solutions based in Osaka, Japan. The company's portfolio includes reliable and eco-friendly MFPs and printers, as well as business applications and consultative services which enable customers to
optimize and manage their document workflow, reaching new heights of efficiency. With professional expertise and a customer first culture, the objective of the company is to help organizations put knowledge to work to drive change.

Kyocera Document Solutions Inc. is a core company of Kyocera Corporation, a leading supplier of semiconductor packages, industrial and automotive components, electronic devices, solar power generating systems and mobile phones. During the year ended March 31, 2019, Kyocera Corporation's consolidated sales revenue totaled $14.6 billion. Kyocera appears on the "Derwent Top 100 Global Innovators 2018-19" list by Clarivate Analytics and is ranked #655 on Forbes magazine's 2019 "Global 2000" list of the world's largest publicly traded companies.
