INFORMATION FOR ORDERING ACTIVITIES

1(a) Awarded Special Item Numbers

SIN 51-100	Purchase of Copiers and Accessories
SIN 51-100 C	Cost-Per-Copy Plans
SIN 51-100 F	Flat Rate Monthly Fee Copy Plans
SIN 51-57	Maintenance Service Plans

1(b) Lowest Priced Model Number

Model No. DP-8016P-PUG for \$1095.00

1(c) Contract Modifications

This Schedule Contract Price List includes all modifications through Modification Number PO-16 and is effective as of July 29, 2008.

2 Maximum Order

\$750,000 per order.

3 Minimum Order

\$50 per order.

4 Geographic Coverage

The 48 contiguous States and the District of Columbia.

5 Production Point

Japan.

6 Discounts from List Price

All prices listed in the Schedule Pricelist are net and include negotiated discounts.

7 Quantity Discounts

None

8 Prompt Payment Terms

None. Terms are 0%, Net 30 Days.

9 Government Credit Card

The Government purchase card is accepted for all transactions under this contract including those below the micropurchase threshold of \$2,500.

10 Foreign Items

All products are manufactured in Japan.

11(a) Delivery Time

Panasonic shall deliver to destination within 30 days after receipt of order to the 48 contiguous states and the District of Columbia.

11(b) Expedited Delivery

Shorter delivery times than the time set forth in paragraph 11(a) above may be available from Panasonic. The ordering activity should contact Panasonic to ascertain whether a delivery time agreeable to both parties is available.

11(c) Overnight and 2-Day Delivery

When schedule customers require overnight or 2-day delivery, agencies are encouraged to contact Panasonic for the purpose of obtaining accelerated delivery. Panasonic may provide overnight and 2-day delivery times subject to the availability of product inventory. Panasonic shall pay for shipment, with freight prepaid and invoiced to the ordering activity. Authorization for overnight or 2-day delivery must be included on the Government order for products.

11(d) Urgent Requirements

When the Delivery Time set forth in paragraph 11(a) above does not meet the bona fide urgent delivery requirements of an ordering activity, agencies are encouraged, if time permits, to contact Panasonic for the purpose of obtaining accelerated delivery. Panasonic shall reply to the inquiry within 3 workdays after receipt and Panasonic shall confirm telephonic replies in writing. If Panasonic offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

12 F.O.B. Point

Destination.

13 Ordering Address

All orders must be made out to and sent to:

Panasonic Communications Company of North America
NAP Operations (7F-3)
Two Panasonic Way
Secaucus, NJ 07094

Payment address for CPC Under SIN 51-100 C and Flat Rate Under SIN 51-100 F

As stated on invoice.

- 15 Export Packing Charges

Not available within the scope of this contract.

16 Terms and Conditions of Government Purchase Card Acceptance (any thresholds above the micropurchase level)

No special concessions are granted for the use of the Government Credit Card.

17 Terms and Conditions of Repair Parts and Other Services

Repair parts and repair service is not part of this Contract. Please see page 16 for Terms and Conditions applicable to Maintenance Service Plans.

Trade-in of Government-owned equipment is not part of this Contract. This Contract does not specify trade-in terms and conditions. Consult your local Authorized Panasonic Representative for current trade-in allowances as an open market item.

18 List of Service and Distribution Points

See list of Authorized Government Servicing Dealers following Schedule Pricelist.

19 List of Participating Dealers

See list of Authorized Government Servicing Dealers following Schedule Pricelist.

20 Environmental attributes

Panasonic's products are all Energy Star Compliant.

21 Data Universal Number System (DUNS) Number

00-891-9813.

22 Notification Regarding Registration in Central Contractor Registration (CCR) Database

Contractor has registered with the Central Contractor Registration Database.

GENERAL TERMS AND CONDITIONS APPLICABLE TO
ALL SPECIAL ITEM NUMBERS

1 Maintenance Coverage

Panasonic shall not sell, rent, or lease any equipment to any activity for which Panasonic cannot provide maintenance services.

2 Security

Security requirements will be handled at the task order level.

3 Equipment Location

To facilitate prompt servicing of equipment, ordering activities must specify the type of equipment and whether equipment is for purchase, lease or maintenance service, and the location of the equipment. Ordering activities will also advise Panasonic of any subsequent change of equipment location.

4 Installation

Copiers and accessories are shipped by common carrier to the installing dealer who shall assemble, test and install the components. The government designated "key operator" shall be given instruction on the proper use and care of the equipment.

5 Warranty

All products ordered under SIN 51-100, Purchase of Copiers and Accessories, are warranted against defects for 90 days after installation. Panasonic shall without charge to the ordering activity promptly provide both the parts and labor necessary to correct any defects reported within the warranty period.

6 Purchase Order/Billing

Panasonic shall bill the ordering activity as agreed upon.

7 Termination

The termination of a purchase order for convenience shall be governed by FAR 52.249-2, Termination for Convenience of the Government (Fixed Price) (MAY 2004).

8 Safety Precautions

Panasonic shall identify to the ordering activity in writing (e.g., via instruction sheet, operators manual, maintenance manual) those safety precautions and hazardous materials as it relates to the purchase product made against this contract.

9 Operator's Training

Unless waived in the purchase order, Panasonic shall provide operator training and operator manual for key operators as identified by the Government's authorized representative at the time of or prior to installation of the initial equipment or at the time of or prior to installation of equipment ordered subsequent to the initial population. On an "as needed" basis within 3-5 working days of such request by the Government, additional training may be required to maintain qualified key operators when personnel are relocated or retire etc. It is estimated that one key operator per equipment per year will require training (e.g., for equipment that is in place for 4 years, it is estimated that 4 key operators will require training for that equipment).

10 Equipment Demonstration

Unless waived in the purchase order, Panasonic shall demonstrate that the equipment is properly functioning at the time of installation. This demonstration shall be accomplished pursuant to the operating instructions furnished with the equipment and in the presence of the Government's authorized representative.

11 Equipment Acceptance

Upon determination that the equipment is acceptable, the Government's authorized representative, having responsibility for accepting the equipment under the purchase order, will sign the equipment acceptance document.

12 Copier Paper

Copier equipment shall be fully capable of operating satisfactorily and producing acceptable copies

13 Remanufactured Equipment

Remanufactured equipment is equipment which has been subjected to certain processes including, but not limited to, the following: disassembly, cleaning, refinishing to the appearance of new equipment, replacement of all worn or defective components, and inspected and tested to new machine standards. No components other than those newly manufactured will be used as replacements, except in applications that does not affect machine performance.

TERMS AND CONDITIONS APPLICABLE TO SIN 51-100 C,
COST PER COPY PLANS, AND SIN 51-100 F,
FLAT RATE MONTHLY FEE COPY PLANS

1 Application

- (a) The following terms and conditions apply to both the Cost Per Copy ("CPC") and Flat Rate Monthly Fee ("FRMF") programs except as noted below. In addition, all terms and conditions set forth in the Information for Ordering Activities and the General Terms and Conditions Applicable to All SINs also apply unless otherwise noted.
- (b) Panasonic leases CPC and FRMF copier units and accessories under 1, 2, 3, 4, and 5 year terms at the prices and qualities set forth in the Schedule Pricelist under the following lease terms and conditions. These lease terms and conditions afford GSA Schedule customers better discounts based on the activity's stated intent to fulfill the term of a specific lease and address charges associated with the early termination of that lease.

2 Definitions

(a) CPC

In a CPC lease, the ordering activity is billed a fixed, per page fee per month for each page copied per the model configuration chosen. This monthly fixed, per page fee covers the usage of the equipment, maintenance, repair parts and all consumable supplies, except paper. A Guaranteed Month Minimum Volume charge may also apply.

(b) FRMF

In an FRMF lease, the ordering activity is billed a fixed flat fee per month per the model configuration chosen up to a maximum number of pages per month. Over the maximum number of pages, a per page fee is charged for each excess page. This monthly fixed flat fee, and the excess page charge if applicable, covers the usage of the equipment, maintenance, repair parts and all consumable supplies, except paper.

3 Schedule Price List Notice

The ordering activity is responsible for the obligation of funds consistent with applicable law. Agencies are advised to review the lease terms and conditions prior to ordering and obligating funding for a lease.

4 Statement Of Government Intent

- (a) The Government and Panasonic understand that a delivery order issued pursuant to SIN 51-100 C or SIN 51-100 F is a lease arrangement. In that regard, the Government, as lessee, intends to fulfill that agreement and is not entering into such agreement for the purpose of acquiring the use of the

equipment for a period of time shorter than the term of the lease. The Government upon issuance of any delivery order pursuant to SIN 51-100 C or SIN 51-100 F contemplates the use of the equipment for the term of the lease specified in such delivery order (the "Lease Term"). Each lease hereunder shall be initiated by a delivery order which shall, either through a statement of work or other attachment, specify the equipment being leased, and the terms of the transaction.

- (b) Each Government ordering office placing a delivery order under the terms of SIN 51-100 C or SIN 51-100 F intends to exercise each renewal option and to extend the lease until completion of the Lease Term so long as the needs of the Government for the equipment or functionally similar equipment continues to exist and funds are appropriated. Failure to exercise each renewal option shall subject the Government ordering office to an early cancellation fee as set forth below.

5 Lease Term

- (a) Any lease is executed by the Government on the basis that the known requirement for such equipment exceeds the initial based period of the delivery order which is typically 12 months or for the remainder of the fiscal year. Pursuant to FAR 32.703-3(b), delivery orders with options to renew that are funded by annual (fiscal year) appropriations may provide for initial base periods and option periods that cross fiscal years as long as the initial base period or each option period does not exceed a 12 month period. Defense agencies must also consider DOD FAR supplement (DFAR) 2323.703-3(b) in determining whether to use cross fiscal year funding. This cross fiscal year authority does not apply to multi-year leases.
- (b) Where an ordering activity's specific appropriation authority provides for funds in excess of a fiscal year period, the ordering office may place a delivery order for a period up to the expiration of the Lease Term to the expiration of the period of availability of the multiple-year appropriation, or the expiration of the schedule contract whichever is earlier, notwithstanding any intervening fiscal years. The total Lease Term will be specified in each delivery order, including any relevant renewal options of the Government. All delivery orders, whether for the initial base period or renewal period, shall remain in effect through September 30 of the fiscal year (unless extended by statute), through any earlier expiration date specified in the delivery order. Renewal delivery orders shall not be issued for less than all of the equipment and/or software set forth in the original delivery order. Delivery orders under SIN 51-100 C or SIN 51-100 F shall not be deemed to obligate succeeding fiscal year funds.
- (c) Unless notified in writing within thirty (30) business days prior to the end of the original twelve (12) month lease term or applicable twelve (12) month option period, each remaining option to extend the term of the lease through the lease term will be automatically extended subject only to availability of fiscal year

appropriations. Any extension will be for all, but not less than all, of the equipment, at lease charges set forth in the initial delivery order.

6 Guaranteed Minimum Monthly Volumes for Each Volume Band for CPC and FRMF Plans

- (a) The Guaranteed Monthly Minimum Volume (i.e., guaranteed number of copies per month) for each copying machine volume band are as follows:

<u>Volume Band</u>	<u>Guaranteed Monthly Minimum Volume</u>
Volume Band 1	750 copies per month
Volume Band 2	5,001 copies per month
Volume Band 3	15,001 copies per month
Volume Band 4	30,001 copies per month
Volume Band 5	50,001 copies per month
Volume Band 6	80,001 copies per month
Volume Band 7	100,001 copies per month

- (b) For CPC Plans, if not covered by an exclusion under (c) below, when the actual monthly volume (i.e., actual total number of copies) is less than the Guaranteed Monthly Minimum Volume, the Government agrees to pay for the number of copies identified under the Guaranteed Monthly Minimum Volume at the order cost-per-copy price.

- (c) Exclusions

The Guaranteed Monthly Minimum Volume is not applicable to copier machines installed less than the total billing month. The actual copies from these machines will be paid at the order cost-per-copy price.

Also, in any month in which the Monthly Effectiveness Level (MEL) is less than 90%, the Government will not be responsible for paying any charge for lack of monthly volume.

- (d) The guaranteed minimum copy charge does not apply to the FRMF Plan.

7 Consumables, Maintenance and Training for CPC and FRMF Plans

- (a) Pricing for each volume band and tier for copiers will include:

Consumables (except paper and transparencies);

Full maintenance and repair services (including both preventive and emergency repairs during normal working hours); and

Training for key operators, at the time of machine installation, as well as later as required by an ordering activity to maintain availability of trained key operators.

8 Lease Termination

(a) In General

The Government acknowledges and agrees that it has specifically elected the Lease Term of the relevant delivery order. Panasonic (and assignee, if any) relied on the Government's representation of its intent to fulfill the full Lease Term to determine the monthly lease payments calculated herein.

(b) Termination for Convenience of the Government

Leases entered into under this schedule may not be terminated except by the ordering activity's contracting office responsible for the delivery order in accordance with clause 52.249-2, Termination for Convenience of the Government (Fixed-Price)(MAY 2004). The costs charged to the Government as the result of any Termination for Convenience of the Government must be reasonable and may not exceed the amount specified as available for contract performance, plus the cancellation charges set forth below.

(c) Termination for Non-Appropriation

The ordering activity reasonable believes that a bona fide need will exist for the entire Lease Term and corresponding funds in an amount sufficient to make all payment for the lease Term will be available to the ordering activity. Therefore, it is unlikely that leases entered into under SIN 51-100 C or SIN 51-100 F will terminate prior to the full Lease Term. Nevertheless, the ordering activity's contracting officer may cancel or not renew leases at the end of any initial base period or option period under this paragraph if (a) it no longer has a bona fide need for the equipment or functionally similar equipment and thus will not purchase replacement equipment from another vendor; or (b) there is a continuing need, but adequate funds have not been made available to the ordering activity in an amount sufficient to continue to make the lease payments. If this occurs, the Government will promptly notify Panasonic, and the equipment lease will be cancelled at the end of the last fiscal year for which funds were appropriated. Substantiation to support a cancellation for non-appropriation shall be provided to Panasonic upon request.

(d) Early Termination/Cancellation Charges for CPC and FRMF Plans

Pricing for each lease period has been developed and established based on the completion of the lease term. Should a lease be canceled by an ordering activity prior to the end of the selected term, termination penalties will be imposed as follows:

- i) Lack of Fiscal Funds: No penalty
- ii) Activity Closure due to Congressional Mandate: No penalty
- iii) Formal Reorganization Duly Authorized by the Head of the Agency: No penalty
- iv) Any Other Discontinuance: The difference between the monthly base (minimum) payment for the selected plan term and the monthly base (minimum) payment which would have been paid for the term of the actual rental plan, to the closest full annual plan period, multiplied by the

number of months of actual leasing. An exception to this is for the one year plan which will have a penalty of three (3) months minimum rental for early termination, not to exceed a total of twelve (12) payments for the actual lease months combined with the penalty. The following is an example of a 5 year plan canceled after 32 months:

Factors:

1. Monthly Minimum Fee for 2 year CPC Plan: \$250.00
2. Monthly Minimum Fee for 5 year CPC Plan: \$175.00
3. Government Purchase Order Rental term: 5 year plan
4. Actual number of months completed at time of termination: 32 months
5. Nearest complete CPC term (for 32 months): 2 year plan

Example Method of Calculation:

1. \$250.00 multiplied by 32 months (amount which would have been billed for this term): \$8,000.00
2. \$175.00 multiplied by 32 months (amount billed): \$5,600.00
3. \$8,000.00 due less \$5,600.00 paid equals the termination penalty of: \$2,400.00

(e) Limitations

The ordering activity must provide 60 days advance written notice of all discontinuances. No cancellation charges shall apply if the ordering activity is formally dissolved or abolished and provides Panasonic with 60 days advance written notice of the discontinuance and documentation supporting such dissolution or abolishment.

9 Assignment of Lease

- (a) The ordering activity contracting officer may approve the assignment of claim for a lease in accordance with FAR Subpart 32.8.
- (b) Panasonic will be responsible for fulfilling the applicable warranty.
- (c) Panasonic shall be responsible for the risk of loss or damage to the equipment, unless such loss or damage was due to the fault or negligence of the Government. At Panasonic's option, Panasonic shall repair or replace the equipment.
- (d) The Government does not waive any performance requirements, warranty rights nor other contract or statutory rights. The Government's acceptance of an assignment of a lease does not waive any of the Government's rights under contract.

10 Minimum Order

Panasonic reserves the right to require a minimum order of 10 units or systems (including accessories) at any one location on any one purchase order.

11 Geographic Scope of Lease Orders

It is contemplated that each order for installation of equipment will be within one specific urban area. Panasonic reserves the right to reject orders for installation involving multiple urban areas. All pricing is based upon installation of equipment within fifty (50) miles of the closest authorized dealer. Panasonic reserves the right to reject any order for equipment installation outside of this 50-mile radius. Installation locations which are greater than fifty (50) miles from an authorized dealer will be negotiated on an open market basis.

12 Consumable Supplies

- (a) All consumable supplies, including staples for use in devices offered to meet automatic stapling requirements (with the exception of paper and transparencies) required for copying operations, shall be included in all CPC and FRMF orders.
- (b) In order to insure the ready availability of consumable supplies, Panasonic will be required to establish and maintain a full stock of all such supplies as described for the various locations covered by the resulting order. Government space for this stock or office use will not be provided unless available.
- (c) The Government shall not be responsible for either the inventorying or issuance of Panasonic-furnished supplies. The Government will endeavor to assist Panasonic in the moving of bulk quantities of consumables from truck(s) to Government storage facilities.
- (d) A stock of paper for use in the copiers will be purchased by the Government and stored at the ordering activity location.
- (e) On or about the same day of each month, Panasonic will insure that each copier is furnished with sufficient consumable supplies (excluding paper and transparencies) to produce a volume of copies equal to that stated as the upper limit of the volume band for that particular copier. In addition, Panasonic

shall respond to verbal requests for additional consumable supplies under the following conditions:

- (i) Orders for additional consumable supplies will be made and accepted only from personnel included on the list of authorized personnel.
- (ii) Orders shall state the location and serial number of the machines for which the additional supplies are being ordered.
- (iii) Panasonic shall deliver additional consumable supplies within a period of forty-eight hours after receipt of a verbal order.

(f) Supplies from Panasonic shall be delivered during normal business hours, Monday through Friday (excluding Federal holidays) as specified by the ordering activity.

(g) Panasonic will furnish one designated point of contact for coordination of supplies, delivery, and/or maintenance.

13 Maintenance

(a) Preventive Maintenance

Panasonic shall provide, at a minimum, one yearly service call as a preventive maintenance service to ensure that each furnished copier is maintained in fully operational condition.

(b) Response to Service Calls

During normal working hours (as specified by the ordering activity) Monday through Friday, excluding holidays observed by the Federal Government, Panasonic shall respond to verbal or written service calls within either nine (9) working hours or sixteen (16) working hours (as specified by the ordering activity) after notification of malfunction for equipment. However, for copiers identified as critical, Panasonic shall respond to verbal requests for service calls and shall repair the copier within four (4) working hours. Copiers designated critical will be identified by the ordering activity in the order and shall not exceed 5% of the total number of copiers on the order. The response time on a service call starts when the authorized personnel of an ordering activity places a service call to Panasonic or a written request is received by Panasonic, whichever is earlier.

14 Copier Operational Effectiveness

Each copier furnished under the resulting contract shall perform at a monthly effectiveness level of 90%. The effectiveness level for the machine is computed by: one (1) minus the total number of hours downtime, divided by the total

production time in the month. Total productive time shall be computed by multiplying eight (8) hours per day by the number of working days in the month (weekend and Federal holidays excluded). If the monthly effectiveness level is 90% or higher, there is no credit due under this provision. Failure of any particular copier to achieve a monthly effectiveness of 90% shall entitle the Government to unilaterally take credit against the monthly billing for each day the equipment is inoperative. The credit shall be a percentage amount of the cost-per-copy monthly charge per machine, which shall be determined by subtracting the actual percentage of effectiveness level attained during the month from 100%. If a machine operates at less than 90% effectiveness level for two consecutive months, Panasonic shall replace the machine.

(Example of the effectiveness level formula): If a machine was down for 20 hours in a month which had 168 hours of total productive time, the percentage downtime would be 11.9% (20 hrs/168 hrs), the effectiveness level would be 88.1% (100% - 11.9%). In this instance, the credit due the Government would

be 11.9%; however, if the effectiveness level was 90% or higher, no credit is due to the Government.

15 Replacement Copiers

If a copier fails to operate at the time of installation, the Government may, at its option, request an immediate replacement. During the contract period, should the repair record of any copier reflect a downtime of 10% or more of the normal working days in one 30 day period a determination will be made by the Program Manager (or his/her authorized representative) to replace the initial copier with a new copier, or to have Panasonic's management representative certify on the repair record that sufficient repairs have been made to preclude additional abnormal breakdowns. In those cases where a repaired copier, having been certified as above, continues to suffer an abnormal rate of breakdowns, Panasonic's authorized management personnel shall grant credit or reimbursements. This shall be calculated at the rate of 1/22 of the anticipated monthly cost-per-copy charge (evaluated at the average monthly volume of that machine) times the total number of days (or a portion thereof) certified as downtime after Panasonic certification occurred.

16 Relocation of Copiers

- (a) The ordering activity reserves the right to relocate copiers furnished under the resultant order, under the following conditions:
 - (i) The program manager, (or his/her authorized representative), will make every effort to insure that Panasonic is provided with an accurate list of copier installations. However, during the course of the order, copier relocation may be necessary. Panasonic's personnel will perform the relocation at Panasonic's current commercial published rate at the time of the move. Only Panasonic will relocate copiers, except in cases where Panasonic determines prior to the move that the relocation does not require trained moving technical personnel. This move will be limited to the geographic location within a 50 mile radius.
 - (ii) Panasonic will be notified by the program manager (or his/her authorized representative) of intended equipment moves, which shall take place within 48 hours of the notification. Panasonic will be provided with the new location at this time.
 - (iii) One volume band of copier replaced by another volume band of copier as a result of a review for over-usage or under-usage shall be considered as an initial installation, and shall not be construed as the one allowable move previously detailed.

17 Return of Equipment

Within thirty (30) days after the date of expiration or termination of leasing agreement, the Government shall, at its own risk and expense, have the equipment packed for shipment in accordance with Panasonic's specifications and shall return the equipment to Panasonic at Panasonic's facility nearest to the Government location, in the same condition as when delivered, ordinary wear and tear excepted.

Upon request by the Government and at the Government's expense, Panasonic shall assist in the reinstallation and packing of equipment so terminated or discontinued. Such services, if required, are outside the scope of the contract.

Terms and Conditions Applicable to
Maintenance Service Plans Under SIN 51-57

This section applies to orders placed under SIN 51-57, Maintenance. For maintenance provisions applicable to Cost Per Copy and Flat Rate Monthly Fee Plans, see page 13.

1 Service

Service shall be performed by authorized Panasonic representatives during normal business hours within 9 working hours after receipt of order. Normal hours are 9 A.M. to 5 P.M. Monday through Friday, excluding holidays. Service includes Preventive Maintenance determined by specific needs of individual machines and includes lubrication and necessary adjustments. Service on an on-call basis includes replacement of unserviceable parts. Replaced parts become the property of Panasonic.

2 Geographic Scope

Panasonic reserves the right to reject maintenance orders for remote areas more than 50 miles from the nearest authorized dealer. For maintenance orders placed after the expiration of the warranty period, Panasonic reserves the right first to inspect and repair the equipment, if necessary, before accepting a maintenance order.

3 Duration

Maintenance will commence on a mutually agreed upon date which will be set forth in the order, with machine type, model and serial number noted. Discontinuance shall be subject to thirty (30) days written notice prior to the end of the fiscal year.

4 Exclusions

- (1) Replacement of copier parts not furnished by Panasonic;
- (2) Electrical work external to the copier (i.e., maintenance work on copier accessories, attachments or other devices not furnished by Panasonic);
- (3) Repair of damage resulting from accident, transportation, neglect, misuse, failure of electrical power, failure of A/C, failure of humidity control, or any other cause-other than ordinary use;
- (4) Service on machines located in an unsafe or hazardous (as determined by Panasonic) environment;
- (5) Furnishing of supplies or accessories, painting or refinishing of a copier, or furnishing of material which would result in specification changes;
- (6) Performance of service connected with copier relocation or addition or removal of accessories, attachments or other devices; and

(7) Maintenance of shipboard equipment unless equipment is located within the geographic scope of this contract.

5 Access to Equipment

Panasonic shall have full access to the copier being serviced

6 Additional Terms

- (1) Maintenance costs for copiers on a 16-hour shift is double the published rate.
- (2) Preventive maintenance is performed quarterly and may be included in a regular service call.
- (3) Where tax is imposed on service and maintenance contracts, the proportional breakdown of the service charge is: 75% labor and 25% parts.

7 Hourly Service Charge

The following maintenance terms and conditions may also apply:

- (1) Charge for service rendered on Saturday is 1 and 1/2 times the listed rate.
- (2) Service not performed within normal business hours, i.e., between 9 A.M. and 5 P.M. Monday to Friday, is subject to the Saturday rate.
- (3) Charge for service rendered beyond eight (8) hours on Saturday, Sunday, or holiday is double the listed rate.
- (4) Service charge shall be for actual time.
- (5) Where tax is imposed on service and maintenance contracts, the proportional breakdown of the service charge is: 75% labor and 25% parts.
- (6) There will be a one (1) hour minimum charge on the first copier serviced. If a second copier needs servicing and is at the same location, the minimum charge for service on it will be for thirty (30) minutes.

8 Preventive Maintenance

Service shall be performed by authorized Panasonic representatives during normal business hours within 9 working hours after receipt of order. Normal hours are 9 A.M. to 5 P.M. Monday through Friday, excluding holidays. Service provides Preventive Maintenance determined by specific needs of individual machines and includes lubrication and necessary adjustments. Service on an on-call basis includes replacement of unserviceable parts. Replace parts become the property of Panasonic.

9 Copier Operational Effectiveness

Each copier furnished under the resulting contract shall perform at a monthly effectiveness level of 90%. The effectiveness level for the machine is computed by: one

(1) minus the total number of hours downtime, divided by the total production time in the month. Total productive time shall be computed by multiplying 8 hours per day by the number of working days in the month (weekend and Federal holidays excluded). If the monthly effectiveness level is 90% or higher, there is no credit due under this provision. Failure of any particular copier to achieve a monthly effectiveness of 90% shall entitle the Government to unilaterally take credit against the monthly billing for each day the equipment is inoperative. The credit shall be a percentage amount of the cost-per-copy monthly charge per machine, which shall be determined by subtracting the actual percentage of effectiveness level attained during the month from 100. If a machine operates at less than 90% effectiveness level for two consecutive months, Panasonic shall replace the machine.

(Example of the effectiveness level formula): If a machine was down for 20 hours in a month which had 168 hours of total productive time, the percentage downtime would be 11.9% (20 hrs/168 hrs), the effectiveness level would be 88.1% (100% -11.9%). In this instance, the credit due the Government would be 11.9%; however, if the effectiveness level was 90% or higher, no credit is due to the Government.
