**23. Preventative Maintenance:** Not applicable

**24. Environmental Issues:** Mannington's Commercial Tile and Resilient Sheet flooring plants in Salem, NJ and Madison, GA as well as our carpet mill in Calhoun, GA are all registered to ISO 14001. This means that we meet the rigorous standards established by the International Organization of Standardization (ISO) for environmental management systems. These guidelines, which are recognized around the world, give us objective criteria for organizing and structuring our efforts for maintaining the most environmentally sensitive processes possible.

At Mannington, we are also committed to becoming a "net user of waste." This means we not only make productive use of waste from our own operations, but also take in waste from the outside community to use as recycled content. This plays a part in helping to reduce the stream of materials that would be destined for landfills. We have already become a net user of waste at our carpet manufacturing facility in Calhoun, GA.

Mannington is also an industry leader in incorporating recycled content into our resilient flooring products. Mannington's Relay RE product uses post-consumer recycled content from reclaimed carpet and also pre-consumer recycled content from our carpet operation. Mannington's Premium Visual Tiles (ColorPoint, SolidPoint and Brushwork) include post-consumer recycled content derived from drywall scrap and also from reclaimed VCT.

Finally, Mannington is pleased to offer our customers a range of products that have been certified by third party organizations for their environmental attributes. For example:

Environmentally Preferable Product Certification

To achieve ratings to these consensus based standards, products are judged on a wide variety of environmental impacts and improvements in their life-cycle. Listed below are Mannington's carpet products that have been recognized for meeting these standards:

- Mannington Infinity Modular - NSF / ANSI-140 Gold
- Mannington Infinity RE Modular Carpet Tile - NSF / ANSI-140 Platinum
- Mannington rEvolve Modular Carpet Tile - NSF / ANSI-140 Platinum
- Mannington UltraBac RE Broadloom Carpet - NSF / ANSI-140 Platinum
- Mannington Integra HP RE Broadloom Carpet – NSF / ANSI-140 Platinum
- Mannington Integra HP Broadloom Carpet- NSF/ ANSI- 140 Gold

Mannington's resilient products have also achieved NSF/ANSI- 332, Sustainability Assessment for Resilient Floor Covering, similar to NSF/ANSI-140, but for resilient flooring. This standard covers Product Design, Manufacturing, Performance, Durability, and Progressive Corporate Governance. We are proud that the following Mannington products have been recognized for meeting NSF/ANSI-332 Gold:

- Most of Mannington's Inlaid Sheet Flooring product line, including: Lifelines II, Biospec MD, Assurance II, Fine Fields, Magna, and Relay RE
- Mannington's Premium Tile product line: ColorPoint, SolidPoint and Brushwork

#### Indoor Air Quality Certifications

In addition, Mannington is proud to achieve the rigorous requirements of the Green Label Plus (CRI GL+) program and FloorScore. GL+ is a certification program that measures the low Volatile Organic Compound (VOC) emissions of carpet products and their adhesives. All Mannington's running line carpet products and carpet adhesives are CRI Green Label Plus certified. FloorScore is an independent certification for hard-surface flooring products that comply with the VOC emissions criteria of the state of California Section 01350 program. On the resilient side, more than 30 different Mannington products have received FloorScore certification for Indoor Air Quality in the composite tile, resilient sheet, PVT, rubber and laminate categories.

#### Loop Carpet Tile Reclamation Program

Mannington's LOOP program allows you to recycle your old carpet tiles with just one phone call. Through LOOP, Mannington is diverting this waste stream by utilizing recycled carpet tile material for our Infinity RE Backing System & for Relay RE. Infinity RE backed carpet tile contains a minimum of 10% post-consumer recycled content by total product weight. To recycle your carpet tile or to inquire about other products in our LOOP program, just call 800-241-2262, ext. 6211 for more information. All recycled carpet tile projects over 2,500 square yards will be reclaimed and recycled at **no charge** by Mannington Mills. For any projects falling under this minimum size, please contact our toll free number for an estimate or further details on the program.
