Tandus Centiva is proud of our entire product portfolio, the most robust, fit-for-purpose, and environmentally responsible in the industry. Tandus Centiva has been closed loop recycling vinyl-backed carpet responsibly for 21 years into our ER3® backing system, keeping over 284,000,000 pounds of carpet out of landfills. Based on our long-standing commitment to environmental stewardship and recent changes to Prop 65 in the State of California, we are choosing to position ethos® backing as the modular carpet construction of choice and will be replacing all ER3® product specifications and sales with ethos® or other Tandus Centiva modular tile products. Given that we recycle for the entire floorcovering industry and accept materials from outside sources, we cannot be certain that materials listed on Prop 65 will not be present in our ER3® backing. Accordingly, after December 20, 2014 our products with ER3® backing will no longer be available to GSA customers in the State of California. Should you have any questions regarding Prop 65, please don't hesitate to contact Erin Istanbuluoglu (Director of Environmental Stewardship) at Email: eistanbulluoglu@centiva.com or Phone: 256.702.1832.

Tandus Centiva Floore® Program

TANDUS CENTIVA US LLC

RECYCLING PROGRAM FOR FLOORING

Tandus Centiva is pleased to provide GSA and its eligible customers with a recycling program for floorcoverings. Tandus Centiva will provide the following:

- **Recycling of PVC backed carpet products -Call for quote.**
- **Recycling of all other carpeting -Call for quote.**
- **Take up, packing and shipment to Dalton, Georgia to be negotiated based upon a scope of work review with the customer.**

Recycling Program Description

PVC backed carpet is the only type of carpet that is currently being fully recycled back into carpet on a commercial scale. Tandus has an extensive, fully operational program to recycle old PVC backed carpet back into new carpet, and to take back any other type of carpet for appropriate recycling.

Although there are other carpet types with prototype technologies being developed, which have theoretical capability of being recycled back into carpet, based for example on a future hoped for stream of material being returned, at this time PVC backed carpet is the only type of carpet for which a current, active, large scale program exists to recycle 100% of the recovered carpet back into new carpet.

We recycle our own products as well as competitors PVC backed products. We offer a written guarantee that all PVC backed carpet returned to us will be fully recycled, and that none of it will be land filled or incinerated, including so called "waste-to-energy" incineration of otherwise improperly disposed of.

Although no current capability exists to recycle any other carpet type fully back into itself, through relationships with other partners we can accept any carpet type and have it recycled in the most economical and environmentally advantageous manner available. Because different carpet types have differing opportunities, we will determine the best process on a case-by-case basis. We will provide our customers with a written description of what will be done with the non-PVC carpet we take back for recycling.

NOTES:

1. Payment Terms Net 30 Days
2. Listed rates are applicable to all areas within the 48 contiguous states, with the exception of the known high cost areas noted.
3. Prices are based on a carpet installation in an open, empty office/dormitory/quarters space on a "clean floor". A clean floor is one whose condition is appropriate to accept carpet with no additional preparation other than possibly sweeping.
4. Subfloor preparation (take-up and disposal of existing floorcovering, flashpatching for uneven floor, extensive floor cleaning, cost of temporary warehousing, etc.) is not covered by this price list and may be negotiated with the customer facility on an project to project basis.
5. Payment for flooring product purchased shall be made by the customer facility prior to installation. When installation is required in conjunction with flooring product under contract, the contractor may invoice separately for the flooring product.
6. Compliance with all local laws, regulations and ordinances is the responsibility of the contractor.
7. Installation is priced for work during normal daytime hours, Monday through Friday, Holidays and nights excluded. Jobs conducted after normal working hours or on weekends and holidays could incur additional cost.
8. Jobs in other areas where Union Labor or Prevailing wages are required could require additional cost, or high cost area pricing.
