# TERMS AND CONDITIONS

## Eligibility

Surface Technologies, Inc. products are sold in the United States, Canada and Mexico through authorized furniture dealers. Possession of this price list does not in itself constitute authorization to sell and/or purchase products listed herein.

## New Accounts

All orders are subject to Surface Technologies, Inc.'s credit department. First time orders under \$10,000 net must be paid in advance. Orders over \$10,000 net require a 50% deposit. New account orders in Missouri and Florida must be accompanied by a State Resale/Exemption Certificate or sales tax will be charged. Surface Technologies, Inc. is not responsible for collecting sales tax in any other state. If you are not tax exempt, sales tax must be self-assessed. The credit approval process takes five business days. Orders will not begin production until credit approval is complete unless prepaid. Surface Technologies, Inc. may review, change or cancel credit terms and/or request advance payment at any time.

## Terms

Standard terms with open accounts are net 15 from the date of invoice unless otherwise arranged price to order. All past due accounts will accrue a 1.5% per month service charge. Surface Technologies, Inc. reserves the right to withhold production or shipment or completed products due to any past due invoices or failure to satisfy credit requirements.

## Prices

All prices listed herein are effective on the date printed on the cover and supersede all previous contract price lists and/or brochures. Prices do not include storage, installation or freight. See freight policy for details. Products specifications and pricing can change at any time without prior notice. Minimum invoice amount is \$200 net.

## Custom Products

Surface Technologies, Inc. has made every effort to offer a broad range of standard products. We welcome the opportunity to provide a custom quote based on your input. Please contact factory for details. Surface Technologies, Inc. cannot be responsible for space layout/design of products. We will provide recommendations based on your input. Custom products cannot be cancelled or returned. Custom products may require a deposit before production.

## Storage

Items held at Surface Technologies, Inc. more than 30 days after scheduled ship date are invoiced and storage charges will begin accruing at that time. Storage fees are 20% based on the net total and are charged as follows: 20% per month.

## Purchase Orders

Orders may be placed by:

Fax: (816) 231-1185

Email: [order@surfacetech.com](mailto:order@surfacetech.com)

All orders must be confirmed in writing with a signature of authorized buyer before beginning production.

Minimum order charge of \$50 net for orders totaling under \$200 net.

# TERMS AND CONDITIONS

## **Order Acknowledgement**

All orders are acknowledged upon entering as Surface Technologies, Inc. interprets them. All acknowledgements are sent via fax, attention the contact name on the purchase order received. It is the customer's responsibility to note any discrepancies on the acknowledgement and notify Surface Technologies, Inc. within 48 hours. If Surface Technologies, Inc. does not receive a signed approval sheet or notification of any changes within 48 hours, we will assume that the order is correct and are not responsible for changes or errors. Surface Technologies, Inc. lists an estimated ship date on every acknowledgement. Any order that is time sensitive or requires any special instructions, please note instructions and/or requirements on purchase order and we will make every attempt to accommodate your request. Surface Technologies, Inc. is not responsible for any labor charges or installation fees if the shipping date does not meet your requirements.

## **Order Changes**

All requests to make changes to an existing order must be submitted in writing. We will make every attempt to accommodate your requested changes. Any change to an order may be subjected to a revised scheduled ship date and/or additional charges for materials and labor.

## **Cancellations/Returns**

All requests for cancellations or returns must be submitted in writing for approval by Surface Technologies, Inc. Please include the following information with your request: Copy of your original sales order and reason for requested cancellation or return.

## **Orders Approved for Cancellation**

Surface Technologies, Inc. will fax an acknowledgement stating that the order has been cancelled. All Cancelled orders and/or returns are subject to a 50% restocking fee.

## **Orders Approved for Return**

An RMA (Return Materials Authorization) will be sent via fax with details for return. All products must be packed as they were originally received and returned freight prepaid to our factory unless otherwise noted on RMA. Customer is responsible for any additional damages in transit due to improper packaging. No collect shipments will be accepted for any reason. Please clearly mark all packages with RMA# to expedite RMA process.

## **Freight**

All products are shipped in compliance with the National Motor Freight Classification Code. All products ship unassembled unless otherwise specified by Surface Technologies, Inc. Freight is prepaid on a dock to dock basis for all orders exceeding \$1,500 net when shipped within the 48 hour domestic states excluding Alaska and Hawaii or export. All orders under \$1,500 net are a flat shipping fee of \$100 net and will be added to the invoice. Surface Technologies, Inc. shall not be held liable for delays caused by strikes, catastrophes, wars, riots, or an other cause beyond our control.

## **Additional Freight Charges**

All products are shipped FOB our factory based on a dock delivery only. Additional expenses will be debited from customer account and billed on a separate invoice as "shipping/handling." Examples of additional expenses are: inside delivery, residential delivery and lift gate requirements all have variable charges.

## TERMS AND CONDITIONS

Failure to inspect product at time of receipt, not damages on delivery receipt and/or notify Surface Technologies, Inc. of damages within 10 days of the original date of receipt constitutes acceptance of products and a waiver of all claims. Neither Surface Technology, Inc. nor the carrier will be responsible for concealed damage claims if shipments are left unopened. Concealed damage must be reported within 10 days from delivery to be valid. Any concealed damage reported after 10 days will not be accepted by Surface Technologies, Inc. and is the responsibility of the customer.

### **Damaged Freight**

All products are loaded on carrier trucks free from defects and/or damage. Responsibility of safe delivery and transport is assumed by the carrier upon loading. It is the customer's responsibility that all cartons, crates, and packages be opened and inspected at time of delivery for damages or shortages regardless of condition. Any damages found during inspection must be clearly noted on the delivery receipt. The carriers should be notified and all packages left in original condition as received for inspection from carrier. Surface Technologies, Inc. factory should be notified immediately. All freight claims are to be processed with the carrier, not Surface Technologies, Inc.

### **Warranty**

The following Surface Technologies, Inc. warranty applies to products manufactured after June 1, 2006.

This warranty is given to the initial purchaser and is valid for as long as the product is owned by the initial purchaser. The warranty, which runs from the date of manufacture, covers defects in materials and craftsmanship found during normal usage of the product during the warranty period. If a product is defective, and if written notice of the defect is given to Surface Technology, Inc. within the Applicable Warranty Period, Surface Technologies, Inc. at its option will either repair or replace the defective product with a comparable component or product. Defective product shall be returned at the discretion of Surface Technologies, Inc., and all returns must be authorized in writing in advance including a Return Materials Authorization Number. Surface Technologies, Inc. assumes no responsibility for labor charges. Freight charges for defective products and parts will be covered by Surface Technologies, Inc. within the 48 continental United States with the method of shipping at Surface Technologies, Inc.'s discretion. The limited Lifetime Warranty applies to all products except as listed below:

- Electrical Products: five years
- High wear parts such as wood veneers, glides, casters, springs and adjustable work surface mechanisms, folding mechanisms, flip top mechanisms: one year
- Non-standard products: one year
- Third party supplied products: supplier's warranty

All items should be inspected at two month intervals for missing glides, loose screws, broken or cracked welds, loose or unseated columns, etc. All specifications are subject to change without notice.

This warranty does not apply to damage caused by a carrier's alterations to the product expressly authorized by Surface Technologies, Inc. It also does not apply to "Customer's Own Material" (i.e. material supplied by the customer that is not a standard Surface Technologies, Inc. product offering) used in the manufacture of Surface Technologies, Inc. products. Surface Technologies, Inc. does not warranty the matching of color, grain or texture except to within commercially acceptable standards. A product will not be considered defective and Surface Technologies, Inc. will not be obligated to replace it, if the product is not installed or used as recommended by the Surface Technologies, Inc.

# Athens Collection

## top

Tops are 1.25" nominal thickness constructed from 1.125" thick 45 pound high-density particle board that is finished with decorative laminate or veneer. A balanced backer comes on the underside of all tops to prevent warping. Water soluble glue or contact cement adheres the veneer and backer to the particle board. Veneer tops can be cross grain based on size and finished to customer's specifications.

## base

With top attached to bases, overall table height is 30.25" tall. Each leg is a 2.75"x2.75" square at the top with two sides tapered. The two straight edges face the exterior of the table edges. The two tapered sides of the legs face the underside of the table top. Table apron is angled and fit flush to the 16-gauge metal angle brackets with wood screws will connect the legs to the table top for extra stability.

**Call for availability of study carrels, end panels and computer stations.**

## top

Tops are 1.25" nominal thickness constructed from 1.125" thick 45 pound high-density particle board that is finished with decorative laminate or veneer. A balanced backer comes on the underside of all tops to prevent warping. Water soluble glue or contact cement adheres the laminate, veneer and backer to the particle board. Veneer tops can be cross grain based on size and finished to customer's specifications. 72" length tops come standard with an anti-sag bar.

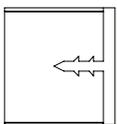

## base

With top attached to bases, overall table height is 29" tall. Base consists of an aluminum extruded leg with .175" thick slot decorative insert. These panels. These inserts can be any laminate, veneer, powder coated steel or screen printed aluminum. The foot is cold rolled steel that raises the foot 3.77" from the floor for easy cleaning. Each foot has two .63" diameter round steel pegs that accept adjustable height glides. The aluminum leg provides two cord management channels with metal septum to meet category five and six requirements.

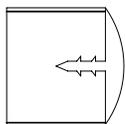

## important ordering instructions for the Billboard collection

### description:

The Docking Station is an exclusive option for the Billboard collection that offers power, data, and built-in laptop storage for each user.

### capacity:

It provides four power and four RJ45 data connections to each table and supports fiber optics. A custom data plate is available upon request.

### dimensions:

It is 14.75" tall by 5.43" deep with a minimum of eight mounting holes to attach to the underside of the table top.

### cover:

Each Docking Station has a .19" thick aluminum extruded cover that incorporates a handle, cam locks and magnet closures. The 36" docking station comes with one door. The 60" and 72" docking stations come with two doors and separate keys or they may be specified as keyed alike.

### interface:

A .25" thick plexi-glass interface separates the power and data cables from the laptop storage area. This plexi-glass panel has four cord management holes to route standard plugs through to the powered outlets. It also contains velcro straps to secure the laptop to the plexiglass. A cord management bin is attached to contain the wires and the mouse in an orderly fashion. Security screws are required to secure the panel to the steel case to prevent theft.

### interior:

The interior is constructed of 16-gauge powder coated steel. A septum separates the power and data wires to prevent interference and meet category six requirements. The upper compartment of the docking station houses the power and measures 7.41" high by 1.34" deep to store all required power components for this specification. The lower portion houses the data and it measures 7.41" high by 1.34" deep to contain all of the necessary data bundles required for this specification.

### end caps:

The end caps are constructed of 16-gauge powder coated steel with an eight inch oblong hole for power and data cords to pass from table to table. The end caps maintain separation between the power and data cords to meet category six requirements. Optional end caps are available without oblong holes at the end of each row of tables.

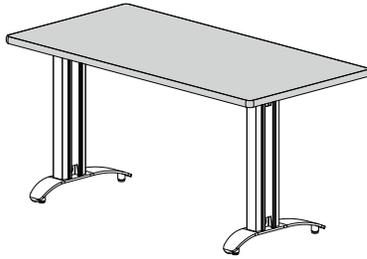

### laptop security cables:

Optional security cables that tether the laptop computers to the steel raceway are available. Special holes must be provided in the raceway for attaching these security cables.

# Case Goods Collection

## credenza

Credenzas are constructed from .75" thick 45 pound high-density particle board. The exterior is finished on all sides with laminate or veneer. The interior has an easy to clean, moisture resistant black melamine coating and two adjustable shelves. The credenza doors feature stainless steel contemporary hand pulls. The credenza base has an inset kickplate for easy vacuuming and durability. The kickplate is 3" high and constructed of .75" thick particle board black HPL.

## lectern

The lectern is constructed from .75" thick 45 pound high-density particle board. The interior of a laminate lectern is black melamine while the interior of a veneer lectern is the same color veneer as the exterior. The interior has one adjustable shelf on a 32 mm pin system.

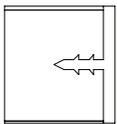

## visual display cabinet

The cabinet is mounted to the wall with two doors that open to a dry erase board. The inside of each door has a tack board. Both the interior and the exterior is finished on all sides with laminate or veneer.

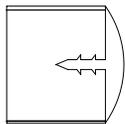

## desk

The desk is constructed from .75" thick 45 pound high-density particle board. The exterior is finished on all sides with laminate or veneer.

# Geometry Collection

## top

Tops are 1.25" nominal thickness constructed from 1.125" thick 45 pound high density particle board that is finished with decorative laminate or veneer. A balanced backer comes on the underside of all tops to prevent warping. Water soluble glue or contact cement adheres the laminate, veneer and backer to the particle board. Veneer tops can be cross grain based on size and finished to customer's specifications.

## base

With top attached to bases, overall table height is 29" tall. Bases are constructed from 1.125" thick 45 pound high density particle board and use the same laminate or veneer as the top.

cube, cylinder or half cylinder bases:

- 36", 42" and 48" width tops have 18" base spread
- 60" width tops have 24" base spread

end panel bases:

- 36" width tops have single stretcher between 24" wide bases
- 42", 48" width tops have double stretcher between 24" wide bases
- 60" width tops have double stretcher between 30" wide bases

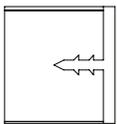

rectangle bases:

- 36", 42" and 48" width tops have 8x24 base spread
- 60" width tops have 8x30 base spread

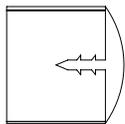

## important ordering instructions for the Geometry Collection

- On half cylinder base tables that use more than two bases, please specify whether you want cylinder or cube bases between the two half cylinder bases.
- If you would like the top and base to have different colors, please note that in your order.

## top

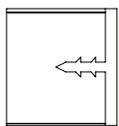

Tops are 1.25" nominal thickness constructed from 1.125" thick 45 pound high-density particle board that is finished with decorative laminate or veneer. A balanced backer comes on the underside of all tops to prevent warping. Water soluble glue or contact cement adheres the laminate, veneer and backer to the particle board. Veneer tops can be cross grain based on size and finished to customer's specifications. 54" tops and over come standard with an anti-sag bar.

## base

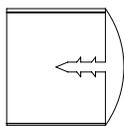

With top attached to bases, overall table height is 29" tall. Base consists of a 2" diameter 14-gauge column with a boomerang mounting plate.

Call for pricing and availability of folding legs.

# Palermo Collection

## top

Tops are 1.25" nominal thickness constructed from 1.125" thick 45 pound high-density particle board that is finished with veneer. A balanced backer comes on the underside of all tops to prevent warping. Water soluble glue or contact cement adheres the veneer and backer to the particle board. Veneer tops can be cross grain based on size and finished to customer's specifications.

## base

With top attached to bases, overall table height is 29" tall. Bases are constructed from .75" thick 45 pound high-density particle board with the exterior finished in veneer and the interior in black melamine. Base comes standard with an access door and is vented to allow for computer tower. Decorative inserts recess into the base. These inserts can be any laminate, veneer, powder coated steel, screen printed aluminum or glass.

- 36", 42" and 48" width tops have 8x24 base spread
- 60" width tops have 8x30 base spread

## credenza

Credenzas are constructed from .75" thick 45 pound high-density particle board. The exterior is finished on all sides with veneer. The interior has an easy to clean, moisture resistant black melamine coating and two adjustable shelves. The credenza doors feature stainless steel contemporary hand pulls and a decorative insert with your choice of material that is routed into the wood and trimmed on the door interior. The credenza base has an inset kickplate for easy vacuuming and durability. The kickplate is 3" high and constructed of .75" thick particle board finished with a brushed aluminum laminate.

## lectern

The lectern is constructed from .75" thick 45 pound high-density particle board. Both the interior and the exterior is finished on all sides with veneer. The interior has one adjustable shelf on a 32 mm pin system. The front panel is finished with a decorative insert in your choice of material.

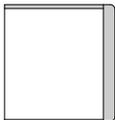

## visual display cabinet

The cabinet is mounted to the wall with two doors that open to a dry erase board. The inside of each door has a tack board. Both the interior and the exterior is finished on all sides with veneer. A decorative insert is on each door with your choice of material.

## important ordering instructions for the Palermo collection

- Specify what type of insert you would like for your Palermo table, credenza, lectern or visual display cabinet when ordering.
- If you would like the top and base to have different colors, please note that in your order.

## edge styles

# Triumph Collection

## top

Tops are 1.25" nominal thickness constructed from 1.125" thick 45 pound high-density particle board that are finished with decorative laminate or veneer. A balanced backer comes on the underside of all tops to prevent warping. Water soluble glue or contact cement adheres the laminate, veneer and backer to the particle board. Veneer tops can be cross grain based on size and finished to customer's specifications. 72" length tops and over standard with an anti-sag bar.

## base

With top attached to bases, overall table height is 29" tall. The T-base is constructed of a 2" diameter 14-gauge column and a 2" 14-gauge foot. The X-base is constructed of a 2" diameter 14 gauge wall for 24"-30" round and square tops and 36" round tops; 3" diameter 16 gauge wall for 36" square tops and 42" round and square tops. Hidden casters are available for the Triumph collection, pg. 92, which are placed on only one base to allow the user to move the table in a wheel barrow fashion. Call for availability and pricing of folding or nesting hidden casters.

- 18" width tops use 18" single T-base spread
- 24" and 30" width tops use 22" single T-base spread
- 30" and 36" width tops use 26" single T-base spread
- 42", 48" and 60" width tops use 36" double T-base spread
- 24" round and 24" square tops use 22" single X-base spread
- 30" round, 30" square and 36" round tops use 26" single X-base spread
- 36" square, 42" round and 42" square tops use 32" single X-base spread
- 48", 54" and 60" round tops use 38" four X-base spread
- 72" round tops use 48" four X-base spread

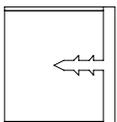

## folding and nesting mechanisms

Injection molded, aluminum and steel

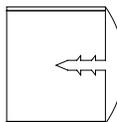

## important ordering instructions for the Triumph collection

# Zip Collection

## top

Tops are 1.25" nominal thickness constructed from 1.125" thick 45 pound high-density particle board that is finished with decorative laminate or veneer. A balanced backer comes on the underside of all tops to prevent warping. Water soluble glue or contact cement adheres the laminate, veneer and backer to the particle board. Veneer tops can be cross grain based on size and finished to customer's specifications. 72" length tops come standard with an anti-sag bar.

## base

With top attached to bases, overall table height is 29" tall. Leg upright is a 2.5" diameter tube constructed of 14-gauge steel. Two adjoining welded T-supports are swedged and taper from a 2" diameter down to a 1" diameter to achieve a dynamic aesthetic profile. An aluminum foot insert finishes the bottom of the tube and accepts a locking caster or a height adjustable glide.

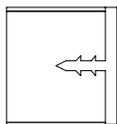

## nesting mechanism

Table top flips and locks into an upright position with a single handle pull. When flipping the table top, it pivots from the center of the table to prevent the user from repetitively bending over. The top locks into place when it is repositioned and ready for use. The table nests within other tables for easy storage.

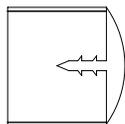

## important ordering instructions for the Zip collection

Specify what base placement you would like, pg. 95.

## BASE PLACEMENT

For Billboard, Cambridge, Onyx, Triumph and Zip collection tables, please specify the base placement you would like.

### TRAINING

A training base placement sets the bases as far apart as possible while maintaining structural integrity. This placement is meant for people sitting on one side of the table.

### MEETING

A meeting base placement sets the bases closer together to allow for people to sit around all sides of the table.

# QUICK SHIP

We offer the following tables in quick ship:

## CAMBRIDGE COLLECTION

**fixed single T-base with rectangle top, pg. 14**

24x60  
24x72  
30x60  
30x72  
36x72

**fixed double T-base with rectangle top, pg. 14  
with boat, racetrack or tele-wedge top, pg. 16**

36x96  
48x96  
48x120  
48x144  
48x168  
48x192

**fixed single X-base with square top, pg. 20**

30"  
36"  
42"

**fixed single X-base with round top, pg. 20**

30"  
36"  
42"

## GEOMETRY COLLECTION

**fixed cylinder base with rectangle top, pg 32  
with boat, racetrack or tele-wedge top, pg. 34**

36x72  
36x96  
48x96  
48x120  
48x144  
48x168  
48x192

## TRIUMPH COLLECTION

**fixed single T-base with rectangle top, pg. 72**

24x60  
24x72  
30x60  
30x72  
36x72  
36x96

**fixed double T-base with rectangle top, pg. 72  
with boat, racetrack or tele-wedge top, pg. 74**

48x96  
48x120  
48x144  
48x168  
48x192

**fixed single X-base with square top, pg. 80**

30"  
36"  
42"

**fixed single X-base with round top, pg. 80**
