**Features & Benefits**

- **Dymetrol Seat Suspension** - Unique seat suspension keeps body weight spread over the chair surface allowing people of all shapes and sizes to sit comfortably for extended periods.

- **Armrests** that adjust up, down, in and out. Optional armrest can also swing out of the way.

- **Lumbar Support** is infinitely adjustable.

- **Seat Depth and Back Height** adjustments on 3150 models.

- **Replacement Covers** - Our frames are nearly indestructible. Make your chair new again by replacing the cover.

- **Safety Casters** - Smooth dual wheel casters won’t freely roll unless someone is sitting in the chair. This virtually eliminates the chance the chair will roll away as the person starts to sit.

- **Seven Leg Base** allows for more stability and ease of movement over chairs with 5 legs.

- **Heavy Duty Frame** - Eleven gauge frame for strength and durability.

- **Pneumatic Cylinders** - Specially manufactured for Concept Seating for durability in 24/7 environment.

- **Warranty** - Six year warranty includes coverage of normal wear and tear. Covers occupants up to 550 lbs.
  (The 550 lb. weight capacity is byproduct of the strength and durability of the chair, not because it is solely intended as a bariatric chair.)
