INFORMATION FOR ORDERING ACTIVITIES APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: SMALL BUSINESS PARTICIPATION

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro-purchase threshold, FAR 8.404 requires agencies to consider the catalogs/price lists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage! on-line shopping service (https://www.gsaadvantage.gov). The catalogs/price lists, GSA Advantage! and the Federal Supply Service Home Page (https://www.gsaadvantage.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged and women-owned small businesses among those considered when selecting price lists for a best value determination.

For orders exceeding the micro-purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1a. Special Item Numbers (SIN)
   › 541614CF Project Management, Assets Management, and Furniture Design/Layout
   › 541514OR Office Relocation and Reconfiguration
   › OLM (Order-Level Materials) Supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA

1b. Lowest Priced Model and Lowest Unit Prices
   › Prices shown in price list are net

1c. Labor Category Descriptions
   › Described below

2. Maximum Order
   › 541614CF - $250,000
   › 541514OR - $500,000
   › Orders exceeding the maximum order threshold may be placed in accordance with clause I-FSS-125, “Requirements Exceeding the Maximum Order (SEP 1999)”

3. Minimum Order
   › $100

4. Geographic Coverage
   › Domestic – 48 contiguous states plus Washington DC

5. Points of Production
   › 1215 E. Fort Avenue, Suite 100, Baltimore, MD 21230
6. **Statement on Net Price**
   › Prices shown in price list are net for a five (5) year period
   › All rates are inclusive of the Industrial Funding Fee (IFF) charge of .75%

   Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services  
   Gilbane is not Section 508 compliant at this time  
   The EIT standards can be found at: www.Section508.gov

25. Data Universal Number (DUNS)  
   09-628-7347

   Taxpayer Identification Number (TIN)  
   05-0495530

26. Notification Regarding Registration in CCR Database  
   Gilbane Building Company is registered in the Central Contractor Registration (CCR) database

27. Contractor Tasks / Special Requirements (C-FSS-370) (NOV 2003)  
   (a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.  
   (b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub.L. 99-234 and FAR 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. The Industrial Funding Fee does NOT apply to travel and per diem charges.  
   (c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/Service Code classifications offered. All costs associated with obtaining/possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule Program.  
   (d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/Service Code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule Program.  
   (e) Personnel: The Contractor may be required to provide key personnel, resumes, or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.  
   (f) Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor’s participation in such order may be restricted in accordance with FAR Part 9.5.  
   (g) Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency’s order.
(h) **Data/Deliverable Requirements:** Any required data/deliverables at the ordering level will be as specified or negotiated in the agency’s order.

(i) **Government-Furnished Property:** As specified by the agency’s order, the Government may provide property, equipment, materials or resources as necessary.

(j) **Availability of Funds:** Many Government agencies’ operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government’s obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering activity’s Contracting Officer.

**28. Contract Administration for Ordering Activities**

Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4 [Contract Terms and Conditions- Commercial Items, paras (l) Termination for the Ordering Activity’s Convenience, and (m) Termination for Cause].

**29. Contractor Team Arrangements**

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74 Industrial Funding Fee and Sales Reporting. That is, each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract or task work order.

**30. Blanket Purchase Agreements (BPAs)**

Federal Acquisition Regulation (FAR) 13.303-1(a) defines Blanket Purchase Agreements (BPAs) as “…a simplified method of filling anticipated repetitive needs for supplies or services by establishing ‘charge accounts’ with qualified sources of supply.” The use of Blanket Purchase Agreements under the Federal Supply Schedule Program is authorized in accordance with FAR 13.303-2(c) (3), which reads, in part, as follows:

“BPAs may be established with Federal Supply Schedule Contractors, if not inconsistent with the terms of the applicable schedule contract.”

Federal Supply Schedule contracts contain BPA provisions to enable schedule users to maximize their administrative and purchasing savings. This feature permits schedule users to set up “accounts with Schedule Contractors to fill recurring requirements. These accounts establish a period of the BPA and generally address issues such as the frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times. Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under a BPA. Finally, Contractors may be open to a progressive type of discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be particularly useful when vying for specific dollar level(s) under the Maximum Order feature.

**31. Purchase of Open Market Items**

NOTE: Open Market Items are also known as incidental items, noncontract items, non-schedule items and items not on a Federal Supply Schedule contract

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) – referred to as open market items – to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, only if:

- **All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));**

- **The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;**

- **The items are clearly labeled on the order as items not on the Federal Supply Schedule (or OPEN MARKET ITEMS); and**

- **All clauses applicable to items not on the Federal Supply Schedule are included in the order.**
32. **Installation, Deinstallation, Reinstallation**
   - The Davis-Bacon Act (40 U.S.C. 276a - 276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act applies.
   - The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act.
   - The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 712-3.

33. **Prime Contractor Ordering from Federal Supply Schedules**
   - Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order:
     - A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
     - The following statement: This order is placed under written authorization from __________ dated __________. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

34. **Insurance - Work on a Government Installation (Jan 1997) (FAR 52.228-5)**
   - (a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.
   - (b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government’s interest shall not be effective for such period as the laws of the State in which this contract is to be performed prescribe; or until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.
   - (c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors’ proofs of required insurance, and shall make copies available to the Contracting Officer upon request.
GILBANE GSA LABOR CATEGORY DESCRIPTIONS

PRINCIPAL
Responsibilities
Senior level position with the responsibility of ensuring the firm’s ability to deliver high quality services in a timely, efficient and profitable manner. Authority to enter into contracts for the provision of professional services. Final responsibility for project completion in accordance with contractual agreements. Serves as a senior, in-house technical expert.

Education/Training Requirements
Bachelor’s Degree

Experience
15 years’ experience including senior management responsibilities

PROJECT EXECUTIVE I
Responsibilities
Possess business unit management responsibilities and provides managerial and technical leadership to direct and support a broad range of activities. Actively participates in business development and is responsible for the timely and accurate completion of projects.

Education/Training Requirements
Bachelor’s Degree

Experience
10 years’ experience total including 3 years’ experience as senior project or team leader or similar role

SENIOR PROJECT MANAGER / SENIOR TRANSITION MANAGER
Responsibilities
Provides effective leadership and management to projects, ensuring quality performance by the project team and by the company as a whole. Expert knowledge of the planning, budgeting and design process, including all phases from strategic operational/logistical planning/budgeting, procurement strategy and implementation, end user, project team and public communications, and close out. Responsible and accountable for all facets of project performance, including technical/professional, financial and client satisfaction. Key representative of the company to clients and the public. Provides training and technical direction of junior personnel.

Education/Training Requirements
Bachelor’s Degree

Experience
10 years’ experience
PROJECT MANAGER I / TRANSITION MANAGER

Responsibilities
Provides effective leadership and management to projects, ensuring quality performance by the project team and by the company as a whole. Responsible and accountable for all facets of project performance, including technical/professional, financial and client satisfaction. Key representative of the company to clients and the public. Provides training and technical direction of junior personnel.

Education/Training Requirements
Bachelor's Degree

Experience
7 years' experience

ASSISTANT PROJECT MANAGER / TRANSITION PLANNER

Responsibilities
Provides overall project task support to project manager. Duties include participation/documentation of interview process, procurement process management, vendor coordination, project records management and move/equipment furniture installation management.

Education/Training Requirements
Bachelor's Degree

Experience
3-4 years' experience

SENIOR PROJECT ENGINEER II

Responsibilities
Performs advanced engineering analysis and design. May supervise subordinate professionals and technical specialists within a project team. Typically works under a higher-level project leader to provide technical and administrative sub-leadership for assigned projects and client support.

Education/Training Requirements
Bachelor's Degree in Engineering

Experience
7 or more years' experience

SENIOR PROJECT ENGINEER I

Responsibilities
Performs advanced engineering analysis and design. May supervise subordinate professionals and technical specialists within a project team. Typically works under a higher-level project leader to provide technical and administrative sub-leadership for assigned projects and client support.

Education/Training Requirements
Bachelor's Degree in Engineering

Experience
5 or more years' experience
PROJECT ENGINEER I

Responsibilities
Performs tasks assigned by a project manager or supervisor. Plans, designs, reviews and coordinates complex engineering tasks in support of project accomplishment. Applies engineering skills and abilities to complete necessary calculations to determine feasibility of different design options. Analyzes reports, maps, drawings, test results and other topographic and geological documents to plan and/or design projects of portions of projects.

Education/Training Requirements
Bachelor's Degree in Engineering

Experience
4 or more years' experience

SENIOR ARCHITECT / DESIGNER II

Responsibilities
Provides leadership developing complex solutions for planning, architectural and interior designs. Plans, designs, reviews and coordinates complex engineering or design tasks in support of project accomplishment. Applies engineering skills and abilities to complete necessary calculations to determine feasibility of different design options. Provides space utilization planning, functional relationships and office layout.

Education/Training Requirements
Bachelor's Degree

Experience
6 Years' Experience

SENIOR ARCHITECT / DESIGNER I

Responsibilities
Provides leadership developing complex solutions for planning, architectural and interior designs. Plans, designs, reviews and coordinates complex engineering or design tasks in support of project accomplishment. Applies engineering skills and abilities to complete necessary calculations to determine feasibility of different design options. Provides space utilization planning, functional relationships and office layout.

Education/Training Requirements
Bachelor's Degree

Experience
4 Years' Experience

ARCHITECT / DESIGNER I

Responsibilities
Provides leadership developing complex solutions for planning, architectural and interior designs. Plans, designs, reviews and coordinates complex engineering or design tasks in support of project accomplishment. Applies engineering skills and abilities to complete necessary calculations to determine feasibility of different design options. Provides space utilization planning, functional relationships and office layout.

Education/Training Requirements
Bachelor's Degree
Experience
2-3 Years’ Experience

QUALITY CONTROL SPECIALIST I
Responsibilities
Works with project executive and project manager to review quality plans and project documentation to ensure adherence to corporate guidelines for quality in deliverables.

Education/Training Requirements
Bachelor’s Degree

Experience
5 Years’ Experience

PURCHASING SPECIALIST I
Responsibilities
Purchases assigned materials, supplies and services in support of the project, in a timely manner, at the lowest possible cost and provides advice and information on materials, supplies and services to all interested parties. Possesses knowledge of purchasing and procurement methods and procedures.

Education/Training Requirements
Bachelor’s Degree

Experience
2-3 Years’ Experience

SUBJECT MATTER EXPERT I
Functional Responsibility
 Provides expert consultative support to a functional or technical area of the project. Provides high-level technical or functional system development or analysis. Position incorporates the design, integration, documentation, implementation and analysis on complex problems requiring knowledge of the subject matter.

Minimum Education
Bachelor’s Degree or equivalent and specific skills and education that pertain to specialized requirements of the project.

RELOCATION COORDINATOR / MOVE MANAGER
Responsibilities
Relocation coordinator will provide services required for the reorganization and consolidation of existing facilities and/or opening new facilities. Services shall include maintaining project documentation, coordinating schedules and providing on-site supervision of move activity. Coordinates paperwork and subcontracts involved in relocation project.

Education/Training Requirements
Bachelor’s Degree

Experience
2-3 Years’ Experience
PLANNER / SCHEDULER / INVENTORY II

Responsibilities
Coordinates relocation plans and schedules with other crafts and trade persons. These services will be provided and completed with maximum cost efficiency and minimum business disruption. Provide temporary and long-term furnishings warehousing and ensures proper accountability of items in storage.

Education/Training Requirements
Bachelor's Degree

Experience
4 Years' Experience

PLANNER / SCHEDULER / INVENTORY I

Responsibilities
Coordinates relocation plans and schedules with other crafts and trade persons. These services will be provided and completed with maximum cost efficiency and minimum business disruption. Provide temporary and long-term furnishings warehousing and ensures proper accountability of items in storage.

Education/Training Requirements
Bachelor's Degree

Experience
2 Years' Experience

PROJECT ASSISTANT

Responsibilities
Provides administrative support to project managers. Facilitates meeting schedules and attendance. Oversees document management and provides consistent, quality support to projects and services groups.

Education/Training Requirements
Bachelor's Degree preferred

Experience
1-2 years' experience
