## "STANDARD COVERAGE" FOR NEW CONSTRUCTION, UTILITY, AND FORESTRY PRODUCTS

This Purchase Order applies to machines with:

- 6 Months STANDARD Warranty Full Machine Coverage (Products 100 HP and Above).
- 12 Months STANDARD Warranty Full Machine Coverage (Products Under 100 HP).
- 12 Months or 2,000 Hours (whichever occurs first) STANDARD Warranty Full Machine Coverage (Forwarders, DHSP Forestry Excavators, Harvesters, Log Loaders, Skidders, Tracked and Wheeled Feller Bunchers, first rented or sold on or after 15 September 2002).

The "Standard Coverage" is part of the Standard Warranty protection package available from John Deere Construction & Forestry Company ("John Deere") to purchasers of new John Deere products:

- **STANDARD Coverage** is John Deere's standard new equipment warranty, which provides the coverage described on this page at no additional charge to the purchaser.
- **EXTENDED Coverage** is a separate repair contract made available by John Deere for purchasers who wish to complement their Standard warranty coverage with additional, purchased coverage. Complete Extended Coverage details, including coverage options and limitations, are set forth in the Application for Extended Warranty Repair Coverage, which is available from authorized John Deere dealers.
- **STRUCTURAL ALL Warranty** coverage applies to certain structural components as listed below and as described on this page.

### A. STANDARD COVERAGE - GENERAL PROVISIONS

Under the below-described "Standard Coverage", John Deere will repair or replace, at its option, any parts (except those specified below) of a new John Deere product that, as delivered to the original retail purchaser, are defective in material or workmanship. Performance of this warranty will be free of charge for parts and labor, except as otherwise stated below.

Standard Coverage applies only to purchases from John Deere and authorized John Deere dealers and, except as otherwise provided in the next sentence, is extended only to the original retail purchaser of the product. Remaining Standard Coverage applicable to a used John Deere product is transferred to a subsequent purchaser of the product only if the subsequent purchaser requests warranty transfer from an authorized John Deere dealer before the product's Standard Coverage expires. For purposes of this warranty, a product that has been rented, used for demonstration purposes for 150 or more hours, or otherwise used prior to its original retail purchase has been "used" for the total duration of such use.

Warranty statements required by law covering engine emissions-related parts and components are found on a separate written warranty certificate provided to the customer at the time of purchase.

### B. WHAT IS COVERED BY STANDARD COVERAGE

**Standard Warranty Full Machine:** All parts of a new John Deere product (except those noted in Sections D and E below) are covered by Standard Warranty for the applicable Full machine coverage period set out above. Coverage begins on the date of delivery of the product to the original retail purchaser.

### C. EXCLUSIVE REMEDY

The repair or replacement of covered parts that are defective, as provided in Section A above, shall be the purchaser's exclusive remedy for any defect in the product. However, if after repeated attempts such repair or replacement fails to correct the performance problem caused by the defect, the purchaser's sole remedy shall be a refund of the amount paid for the product (in exchange for a return of the product), excluding any transportation charges, license fees, taxes and insurance premiums, and less a reasonable allowance for use of the product prior to its return.

In no event will the dealer, John Deere or any company affiliated with John Deere be liable for any incidental or consequential damages, including but not limited to loss of profits, rental of substitute equipment or other commercial loss.

Correction of defects in the manner provided above shall constitute fulfillment of all liabilities of John Deere to the purchaser or any other person, whether based upon contract, tort, strict liability, or otherwise. This limitation does not apply to claims for personal injury.

### D. ITEMS COVERED SEPARATELY

1. Standard Coverage does not apply to batteries, radios, tires, or to Cummins Engines installed in John Deere products, which are covered by separate written warranties.

2. **Structural ALL Warranty** coverage for new John Deere Products (compact excavators & loaders and skid-steer loaders are not eligible for Structural ALL Warranty Coverage) begins at the end of the Equipment's "Standard Warranty" coverage and any applicable "Extended Repair Coverage" purchased for the Equipment and ends (unless terminated earlier under Section F, below) three (3) years, or 10,000 hours (whichever occurs first) after the Equipment's original retail purchase or first rental prior to the first retail purchase.

This warranty applies only to the following structural components listed below as installed on the equipment at the time of original manufacture. If a particular component is not listed below it is not covered by John Deere Structural ALL Warranty.

Arm, Articulation Joint (including pins and bushings), Bin Frame, Boom, C-Frame\*, X-Frame, Circle Frame, Draft Frame, Engine Frame, Equipment Frame, Grapple Arch, Grapple Boom, Loader Arm, Loader Frame, Mainframe, Moldboard Lift Arms, Turntable, Swing Frame, Z-bar, Specialty booms and arms marketed as "heavy-duty" by Deere.

This Structural ALL Warranty does not apply to equipment used primarily in extreme duty or severe duty applications such as: demolition, chemical plant, steel mill, and land fill applications, and other applications that are similarly destructive or involve similarly heavy duty except specialty booms and arms as stated in Section D.2. above.

\*Structural ALL warranty does not apply to C-Frames on H-Series & J-Series crawlers equipped with root rakes or used in forestry applications unless equipped with an "extreme duty" reinforcement package.

JD-S 17-03 Effective (01 Nov 2004) U.S.A. ONLY

### E. ITEMS NOT COVERED

John Deere is not responsible for the following:

1. Premiums charged for overtime labor requested by the purchaser.
2. Transporting the product to and from the place where service is performed, or service calls made by the repairing dealer (except as otherwise provided in Section H below).
3. Used products (except as otherwise provided in Section A above).
4. Depreciation or damage caused by normal wear, lack of reasonable and proper maintenance, failure to follow operating instructions, misuse, lack of proper protection during storage, vandalism, the elements, or collision or other accident.
5. Normal maintenance and replacement of maintenance and wear items, such as filters, oil, coolants and conditioners, blades and cutting edge parts, pins and bushings (except in articulation joints), belts, dry brakes and dry clutch linings, rubber tracks, skidder grapple shocks, and bulbs. Note: Reimbursement for refills of oils/coolants lost due to warrantable failure are covered when a system failure occurs outside the boundaries of a normal oil change (within 25% of specified change interval).
6. Any defect in a non-covered component, or damage to or failure of a covered component caused by a defect in a non-covered component.
7. For warranty repairs made in the field, any charges (such as dealer travel time, mileage or extra labor) that would not have been incurred had the product been repaired at the dealer's place of business.

### F. UNAPPROVED SERVICE OR MODIFICATION

John Deere is relieved of its obligations under Standard Coverage if:

1. Service (other than normal maintenance and replacement of service items) is performed by someone other than an authorized John Deere dealer; or
2. The product is modified or altered in ways not approved by John Deere.
3. Any unapproved or improperly sized attachment is installed on the product.

### G. PARTS REPLACED UNDER STANDARD COVERAGE

Only new or remanufactured parts or components, furnished or approved by John Deere, will be used if John Deere elects to repair the product. If any such part or component is defective in material or workmanship when installed in the product, John Deere will repair or replace, as it elects, such defective part or component, provided the defect is reported to an authorized John Deere dealer within 90 days (12 months or 1500 hours, whichever occurs first, for remanufactured components) after installation or before expiration of the applicable Standard coverage, whichever is later.

### H. OBTAINING STANDARD COVERAGE SERVICE

To obtain Standard Coverage service, the purchaser must request Standard Coverage service from a John Deere dealer authorized to sell the product to be serviced. When making such a request, the purchaser must present evidence of the product's delivery date, make the product available at the dealer's place of business, and inform the dealer in what way the purchaser believes the product to be defective.

Standard Coverage repairs can be made in the field if the purchaser and servicing dealer so desire. However, John Deere will not be responsible for any charges (such as dealer travel time, mileage or extra labor) that would not have been incurred had the product been repaired at the dealer's place of business.

### I. NO IMPLIED WARRANTY OR OTHER REPRESENTATION

Where permitted by law, neither John Deere nor any company affiliated with it makes any warranties, representations or promises, express or implied, as to the quality, performances, or freedom from defect of its products, other than those set forth on this page, and **NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS IS MADE.**

### J. NO DEALER WARRANTY

The selling dealer makes no warranty of his own on any item covered by this warranty, and makes no warranty on other items unless he delivers to the purchaser a separate written warranty certificate specifically warranting the item. The dealer has no authority to make any representation or promise on behalf of John Deere, or to modify the terms or limitations of this warranty in any way.

**\*Line items listed below are base machines only. Many options and attachments are on schedule, please contact contractor for options/attachments.**
